A FACTS CONSOLIDATED STUDY

I. INTRODUCTION

In order to determine the awareness and attitudes of RTD bus riders as they pertain to the problems of graffiti and vandalism, FACTS CONSOLIDATED was commissioned by the SOUTHERN CALIFORNIA RAPID TRANSIT DISTRICT to conduct a survey among bus riders. In the course of conducting this project, A total of 3,624 interviews were conducted at specific bus stops within each of RTD's nine sectors throughout Los Angeles County. At least 400 interviews were conducted within each sector.

The survey questionnaire was pre-tested in the field, under actual field conditions, for workability by five senior interviewers. Over 100 test interviews were made. Structural changes suggested by the pretest were approved by RTD, and incorporated into the survey instrument.

Two briefings for interviewers were held at the Los Angeles office of FACTS CONSOLIDATED. These briefings were attended by RTD personnel, and FACTS CONSOLIDATED staff, as well as all interviewers who were to participate in the field portion of the project. Twenty-two interviewers, trained to the specifics of the questionnaire, took part in this project. Interviewing was conducted over a three week period, from June 8 - 30, 1989.

Using RTD transit maps, which divide the county into nine sectors, bus stops were selected by RTD personnel within each sector. A "team", consisting of 2 to 4 interviewers, was sent to each bus stop location, and each interviewer randomly selected respondents to participate in the survey, among those boarding or disembarking buses at that location.

25292349
b7c

The interview could be completed within an 8 to 10 minute time frame; however, in at least 1/3 of the interviews, this was too long a time to allow for completion of the interview before the respondent had to board the bus. In these cases, the interviewer arranged to complete the interview by telephone later that day or the next, or boarded the bus with the respondent in order to complete the interview. If the interview was completed on board the bus, the interviewer would disembark at the next stop, and board a bus returning to the original sample point. In this case, the interviewer would sometimes begin another interview on board. Nearly 99% (98.7%) of the interviews were begun at a bus stop. Only 1.3% were initiated on board.

A Spanish language version of the survey document was made, and at least one bilingual interviewer was present within each of the nine sectors during the course of the interviewing.

In the course of conducting the interviews, it was learned that approximately ten percent among potential respondents could not be interviewed, because they spoke only a language other than English or Spanish. These languages included Armenian, Czechoslovakian, Russian and various Asian languages.

Respondents are asked what they consider to be the advantages and disadvantages of riding RTD buses. They are read a series of statements about RTD and riding the buses, and are asked to tell the extent to which they agree or disagree with each statement. Riders are then asked to tell their level of agreement with statements pertaining specifically to vandalism and graffiti on RTD buses. Respondents are asked about their awareness regarding funds spent by RTD on clean-up and prevention of vandalism and graffiti. Riders are then asked about their feelings regarding things that the RTD is doing now, or could be doing, in order to deal with the problems caused by vandalism and graffiti on the buses. Lastly, riders are asked for their own suggestions on how to deal with these problems.

A sample size of 3,624 has a margin for statistical error of plus or minus 1.7% at the .95 confidence level. What this means is that the chances are 95 out of 100 that the results obtained from this survey would not differ more than 1.7% in either direction from results that would have been obtained had all bus riders present, at the designated stops during the three weeks, been interviewed.

Following this summary are the 46 statistical tables which analyze the findings of the questionnaire. In addition to the total, the findings are analyzed by the following:

II. PRINCIPAL FINDINGS AND CONCLUSIONS

1. RIDERS ARE NOT AS SATISFIED WITH RTD SERVICE AS THEY SHOULD BE.

On a 10 point rating scale, overall satisfaction with RTD receives a score of 6.44. Any score below 5.00 would be in an area that is not only negative, but that can also be considered to indicate that the perceived level of service is unacceptable. As it is, 6.44, while certainly in the positive ranks, is dangerously close to 5.00, and can therefore be interpreted as an indication that service is not perceived to be as good as it should be.

2. PERCEPTIONS OF SERVICE RELATED ENTITIES ARE NOT STRONGLY VISIBLE WHEN RIDERS ARE ASKED WHAT THEY LIKE ABOUT RTD.

When riders are asked to tell us what they like about RTD; what they consider to be advantages of riding the buses, nearly half (47.3%) make specific references to the fact that riding the buses is an acceptable or necessary alternative to driving and 26% indicate that the buses go everywhere one would need or want to go. Only 6% make a direct reference to service, while 9% mention service related attributes. When the fact that 38% make negative references to service is also considered, then this further supports the assertion that perceptions of good service are not a strong area for RTD.

3. IN ADDITION TO PERCEPTIONS OF SERVICE DEFICIENCIES, ATTITUDES, BEHAVIOR AND DRIVING SKILLS OF BUS DRIVERS ARE SOURCES OF DISSATISFACTION.

When riders are asked if there is anything about RTD, the buses, drivers or service that ever cause them to ride less often, use other transit services, or to feel uncomfortable riding the buses, 30% say they have no dislikes, but at least one in four mention driver related negatives, and 38% mention things related to perceptions of service deficiencies.

References are made to such things as "rude drivers", "reckless driving behaviors", "drivers lack of concern for passengers", and "unresponsiveness of drivers to needs of passengers".

In the area of service related dissatisfactions, riders mention schedule deficiencies, service reductions, late arrivals, equipment malfunctions and breakdowns, and nonspecific service complaints.

When riders are asked whether they agree or disagree with various statements regarding RTD, there are further indications that some areas of service are sources of dissatisfaction. These include promptness, ease of reaching RTD by telephone, and the receptiveness of RTD to complaints.

4. THE LEVEL OF AGREEMENT/DISAGREEMENT WITH SPECIFIC STATEMENTS GIVES IMPORTANT CLUES REGARDING ATTITUDES.

Riders generally feel safe riding the buses, and feel that RTD drivers are well-groomed, neat and clean.

They feel strongly that RTD buses go everywhere, and that scheduling information can be found easily in timetables.

To a lesser degree, riders feel that RTD buses run often enough to suit one's needs, and that RTD does a good job of keeping the public informed of schedule changes.

RTD is thought to be hard to reach by telephone, and not as responsive to questions and complaints as riders would like for them to be.

Perceptions are that drivers are not usually courteous and polite, and that the buses are not usually prompt and on time.

Neither the outside nor the inside condition and appearance of the buses is acceptable to riders.

5. CLEANING GRAFFITI AND REPAIRING VANDALISM ARE IMPORTANT PRIORITIES TO RIDERS.

Riders indicate that the clean-up of graffiti and repair of vandalism are important priorities. They do not like to ride buses that bear visible signs of graffiti or vandalism in and on them. In fact, it is probably safe to assume that at least some negative perceptions of RTD's service are influenced by graffiti in and on the buses.

Better than nine in ten (93.7%) feel that it is important that graffiti and vandalism in and on RTD buses be cleaned and repaired.

6. RTD IS NOT PERCEIVED TO BE DOING ALL IT CAN OR SHOULD ABOUT VANDALISM AND GRAFFITI.

When it comes to clean-up of graffiti, repair of vandalism and prevention of these acts, it is the perception of riders that RTD is not doing all it can do or should do. There are indications that riders perceive there is more lacking in the area of prevention than in the area of clean-up. Put another way, riders are more likely to feel that RTD is cleaning graffiti and repairing vandalism, than to feel that RTD has an adequate program of prevention. Forty-two percent feel that RTD does not do enough in the area of clean-up and repair, while 50% feel that prevention programs are inadequate.

7. THERE IS LITTLE AWARENESS OF SPECIFIC EFFORTS DIRECTED TOWARD CLEAN-UP AND PREVENTION OF GRAFFITI.

Over half have no awareness that RTD spends \$350,000 a year for transit police activities to prevent acts of vandalism and graffiti and to apprehend perpetrators, and 22% are under the impression that less is being spent. This means that 73% are unaware of what RTD is doing in the area of prevention.

Forty-four percent have no awareness that clean-up of graffiti and repair of vandalism involves expenditure of \$8.5 million a year, and 36.4% are under the impression that clean-up involves a lesser sum of money. This means that over 80% are unaware of what RTD is doing in the area of clean-up.

8. RIDERS APPROVE THE SPENDING OF FUNDS FOR CLEAN-UP AND PREVENTION.

Only 20% feel that less should be spent on clean-up and prevention of vandalism and graffiti. In all, 82% approve the expenditure of funds for clean-up and prevention activities. In fact, 40% feel that more should be spent, particularly in the area of prevention.

9. RIDERS STRONGLY SUPPORT RTD'S PRACTICE OF REVOKING STUDENT BUS PASSES OF JUVENILES CAUGHT VANDALIZING RTD BUSES.

Nearly 90% approve taking away student bus passes from juveniles caught vandalizing RTD buses, but a majority also feel that this practice in and of itself does not go far enough toward disciplining or punishing perpetrators of these acts.

10. REVOKING STUDENT ID'S OF REPEAT OFFENDERS ALSO RECEIVES STRONG SUPPORT FROM RIDERS.

A very significant majority of 87.5% also approve RTD's practice of revoking student ID's of repeat offenders. But here again, most view this as only a step in the right direction. If this is the only thing that happens to the perpetrator, it is simply not enough.

11. THERE WILL BE VERY LITTLE SUPPORT FOR ANY METHOD OF DEALING WITH THE PROBLEMS CAUSED BY VANDALISM AND GRAFFITI IF ONE OF THE RESULTS IS DISRUPTION, CURTAILMENT OR ELIMINATION OF SERVICES.

Riders will not support RTD's efforts to deal with vandalism and graffiti if as a result, service is disrupted, curtailed, eliminated or adversely affected in any way. Feelings appear to be very strong, with the incidence of those who disapprove actions of this type being at least three times greater than the incidence of those approving them.

12. INDICATIONS ARE THAT RIDERS WOULD LIKE TO SEE THE COUNTY AND INDIVIDUAL CITIES PARTICIPATE IN THE PROVISION OF ADDITIONAL POLICE PROTECTION OF TRANSIT SERVICES, BUT TEND TO GRANT ONLY MINIMAL SUPPORT TO REQUIRING LOCAL CITIES TO BEAR COSTS OF DAMAGES THAT OCCUR IN THAT CITY.

At least three out of every four riders (75.1%) approve the concept of having the county and local cities provide additional police protection of transit services.

Only half feel that local cities should be required to pay for the cost of repairing vandalism that occurs within that city.

Nearly 60% (57.4%) feel that there should be a tax on spray paint, with the money to be used for repair of vandalism.

13. NEARLY TWO OUT OF EVERY THREE RIDERS HAVE SUGGESTIONS REGARDING HOW TO DEAL WITH VANDALISM AND GRAFFITI.

Most of the suggestions have to do with punishing the vandal or requiring acts of retribution from the vandal (61.6%). Mentions include such things as requiring vandals to serve time in jail, to pay fines, to clean buses, to provide community service, and to be permanently banned from the buses.

Nearly 27% have suggestions that involve using/having more law enforcement personnel, more funding for law enforcement or more visible law enforcement on the buses.

14. SOME CONCLUDING OBSERVATIONS:

- It is clear that riders are concerned about graffiti and that they support clean-up activities.
- It is also clear that awareness is low regarding RTD's participation in programs of clean-up and prevention.
- When dealing with the problems of graffiti and vandalism, any actions on the part of RTD that could cause inconvenience to riders, will not be favorably received.
- There are indications to support contentions that riders would like to see visible efforts in the areas of prevention and apprehension.
- The presence of graffiti on and in the buses diminishes perceptions regarding good service, and heightens negative impressions about the drivers.

III. SUMMARY, HIGHLIGHTS AND DETAILED FINDINGS

When respondents are asked to rate their overall satisfaction with RTD services, the average rating on a 10 point scale is 6.44. Among those rating services higher than this are riders from sectors one (6.97), eight (6.83), Hispanics (6.88), those under 18 (6.69), students (6.60), disabled (6.72), and those with household incomes over \$50,000 (6.74).

Among those who give RTD services lower ratings are riders from sectors two (6.02), six (6.16), seven (6.15), Blacks (6.19), those who use other public transit (6.11), those who use private transit lines (6.00) and those who use private transit with public contracts (5.86). (Table 1)

The following tables will recap the response when riders are asked what they like about RTD, or what they consider to be advantages of riding the buses, and what they dislike, or consider to be disadvantages. (Tables 2 and 3)

Riders are read a series of statements about RTD and riding the buses, and they are asked to tell the extent to which they agree or disagree with each statement. The responses are assigned weights in the computer as follows:

AGREE STRONGLY .. = 4

AGREE SOMEWHAT .. = 3

DISAGREE SOMEWHAT = 2

DISAGREE STRONGLY = 1

This type of weighting provides a score that becomes a common denominator which can be used to evaluate and compare each statement. A score of 4.00 would mean that everyone strongly agrees with that statement. Any score below 3.00 would indicate at least some disagreement, and 1.00 would mean that everyone strongly disagrees with that statement. The following table will recap the response:

DATE _____

1. We're conducting a survey among bus riders. How would you rate your overall satisfaction with RTD service? Please use a 10 point scale with 10 being best.

5

2. What are the things you like best about RTD? What do you consider to be the advantages of your riding the buses?

6

7-

8-

9-

10-

11-

3. Is there anything about RTD, the buses, drivers or service that ever cause you to ride the buses less often, to use other transit services, or to feel uncomfortable riding the buses?

4. We need to know how you feel about some specific things when it comes to RTD. Here are some statements that others have made. For each, please tell me if you agree or disagree. (Is that STRONGLY or SOMEWHAT?)

A. I feel safe when I ride RTD buses.

Agree strongly..... 18 1
 Agree somewhat 2
 Disagree somewhat ... 3
 Disagree strongly ... 4

B. RTD buses are usually prompt and on time.

L. RTD is good about keeping me informed of schedule changes.

Agree strongly.....	29-1
Agree somewhat	-2
Disagree somewhat ...	-3
Disagree strongly ...	-4

5. We would now like to ask you some questions about vandalism and graffiti on the buses. Please tell me if you agree or disagree with these statements.
(Is that STRONGLY OR SOMEWHAT?)

A. It is important to me that graffiti and vandalism in and on RTD buses be cleaned and repaired.

Agree strongly.....	30-1
Agree somewhat	-2
Disagree somewhat ...	-3
Disagree strongly ...	-4

B. I feel that RTD is doing all that it can to clean and repair the graffiti and vandalism.

Agree strongly.....	31-1
Agree somewhat	-2
Disagree somewhat ...	-3
Disagree strongly ...	-4

C. I feel that RTD is doing all that it can to stop or prevent graffiti and vandalism.

Agree strongly.....	32-1
Agree somewhat	-2
Disagree somewhat ...	-3
Disagree strongly ...	-4

6. RTD spends 8.5 million dollars a year cleaning graffiti and repairing vandalism on the inside and outside of buses. Would you say that you knew they were doing this.....

and thought they were spending more ... 33-1

thought they were spending about that much -2

thought they were spending less -3

or that you didn't know they had this program -4

7. RTD also spends \$350,000 a year for transit police to provide undercover surveillance in order to prevent graffiti and vandalism and to arrest those whom they catch doing it. Would you say that you ...

thought they were doing this but thought they were spending more 34-1

thought they were spending about this much -2

thought they were spending less -3

or that you didn't know they had this program -4

8. How do you feel about this cost? First, do you approve or disapprove of funds being used to clean graffiti and repair vandalism and to prevent and punish such acts?

Approve strongly	35 1
Approve somewhat	-2
Disapprove somewhat...	-3
Disapprove strongly ..	-4

8a. Do you feel that

More should be spent ..	36-1
This is enough to spend	-2
Less should be spent ...	-3

9. I would like to ask you about some of the things that RTD is doing or may do in order to deal with the problems caused by vandalism and graffiti on the buses.

RTD is taking away student bus passes from a juvenile who is caught vandalizing RTD buses. This forces the juvenile or his family to purchase a new pass. Do you approve or disapprove of RTD doing this?

Approve strongly	37-1
Approve somewhat	-2
Disapprove somewhat...	-3
Disapprove strongly ..	-4

9a. Do you feel that this is suitable punishment? Yes 38-1
No, not strict enough -2
No, too strict 3
No, not suitable ... -4

10. RTD is taking away student ID for repeat offenders. Student ID allows the student to buy a monthly bus pass at a discounted rate. Taking away ID will cause the student to pay full fare when riding the bus. Do you approve or disapprove of RTD doing this?

Approve strongly	39-1
Approve somewhat	-2
Disapprove somewhat...	-3
Disapprove strongly ..	-4

10a. Do you feel that this is suitable punishment? Yes 40-1
No, not strict enough -2
No, too strict -3
Not suitable -4

11. RTD could reduce service to fund clean-up activities. This could result in fewer buses, running less often; but those buses that do run would have no graffiti or etched windows.

Do you

Approve strongly	41-1
Approve somewhat	-2
Disapprove somewhat...	-3
Disapprove strongly ..	-4

12. If a driver ran into acts of vandalism, all buses on that line would be instructed to bypass that stop. This could cause riders waiting at that stop to be passed by or prevent passengers from getting off the bus. But it could prevent buses being vandalized. Do you approve or disapprove of RTD doing this?

Approve strongly	42-1
Approve somewhat	-2
Disapprove somewhat...	-3
Disapprove strongly ..	-4

13. If a particular bus is vandalized, the bus driver could order all passengers to leave the bus and the driver would take the bus to the nearest division for clean up and repair. This would cause passengers to experience disrupted service while waiting for the next bus in order to continue their trip. Do you approve or disapprove of RTD doing this?

Approve strongly	43-1
Approve somewhat	-2
Disapprove somewhat...	-3
Disapprove strongly ..	-4

14. RTD could examine locations where a great deal of vandalism takes place and eliminate a bus stop at that location or eliminate several stops, discontinue service through the area or eliminate an entire bus line.

Do you approve or disapprove of RTD doing these things?

Approve strongly	44-1
Approve somewhat	-2
Disapprove somewhat...	-3
Disapprove strongly ..	-4

15. Some other things could be done to help with the problems that graffiti and vandalism cause. As I read each statement please tell me how you feel. (Would you say that is STRONGLY or SOMEWHAT?)

a. Local cities should be required to pay for the cost of repairing vandalism that occurs within that city. Approve strongly 45-1
Approve somewhat -2
Disapprove somewhat... -3
Disapprove strongly .. -4

- b. There should be a tax on spray paint with the money to be used for repair of vandalism.
- | | |
|---------------------------|------|
| Approve strongly | 46-1 |
| Approve somewhat | -2 |
| Disapprove somewhat | -3 |
| Disapprove strongly | -4 |

- c. Additional police protection of transit services should be provided by the county and local cities.

Approve strongly	47-1
Approve somewhat	-2
Disapprove somewhat	-3
Disapprove strongly	-4

17. Do you have any other suggestions or ideas about how to deal with vandalism and graffiti on the buses or about how vandals should be punished?
