# **Methodology and Key Findings**

# 2016 Methodology

- Conducted a telephone survey (landlines and cell phones) between May 20-26, May 31-June 1, 2016
- Interviews with 2,125 Los Angeles County voters likely to vote in November 2016, including new registrants
- Survey was available in English and Spanish
  
- Margin of error for the full sample is  $\pm 2.5\%$  and half the sample is  $\pm 3.5\%$
- Margin of error for each Metro Polling Area is  $\pm 5.7\%$  and half for each Metro Polling Area is  $\pm 8.0\%$
- Some percentages may not sum to 100% due to rounding

# 2015 Methodology

- Some questions were tracked from the 2015 Metro Long Range Transportation Random Digit Dial Telephone Survey conducted between March 17-29, 2015
- Results from the 2015 survey include only 863 respondents who self-reported they are registered to vote in LA County and were definitely going to vote in the November 2016 General Election
- Survey was available in English and Spanish
- Margin of error for the reported sample is  $\pm 3.4\%$  and half sample is  $\pm 4.8\%$

# METRO Polling Areas

Polling Area	Largest Cities/Unincorporated Areas included in Polling Areas	Actual Sample Size	Actual % of Likely November 2016 Voters
Central	City of Los Angeles, Unincorporated Areas	306	8%
North County	Santa Clarita, Lancaster, Palmdale, Unincorporated Areas	300	8%
San Fernando Valley	City of Los Angeles, Glendale, Burbank, Calabasas, La Cañada Flintridge, Agoura Hills, San Fernando, Westlake Village, Unincorporated Areas	302	19%
San Gabriel Valley	Pasadena, Pomona, West Covina, Alhambra, Glendora, Diamond Bar, El Monte, Arcadia, Montebello, Monterey Park, Claremont, La Verne, Baldwin Park, Monrovia, Unincorporated Areas	304	18%
Southbay	City of Los Angeles, Torrance, Inglewood, Redondo Beach, Carson, Hawthorne, Rancho Palos Verdes, Manhattan Beach, Gardena, Unincorporated Areas	303	16%
Southeast	Long Beach, Lakewood, Downey, Norwalk, Whittier, Compton, Cerritos, Bellflower, South Gate, La Mirada, Huntington Park, Pico Rivera, Unincorporated Area	302	16%
Westside	City of Los Angeles, Santa Monica, Culver City, West Hollywood, Beverly Hills, Malibu, Unincorporated Areas	308	15%

# Key Findings

- There are no statistically meaningful differences between a 50-year sunset measure and a no-sunset measure.
- Initial support, after hearing just the ballot title and summary, is within the margin of error for passage.
- After educational outreach messages, support increases above the two-thirds threshold.
- Two-thirds of voters are more likely to vote for the measure if its title is “Los Angeles County Traffic Improvement Plan”.

# Key Findings Continued

- Keeping senior, disabled and student fares affordable; creating jobs; repairing potholes; earthquake retrofitting bridges and improving freeway traffic flow are among the measure's most important features.
- Sub-regional benefits and the need to provide transportation options for an aging County population are among the top reasons to be more inclined to vote yes on the measure.

# Key Findings Continued

- Support for Metro's Ballot Measure does not appear to be adversely affected by its placement among other LA County measures on the ballot, whether asked about first or third. However, since the initial level of support for the measure was within the margin of error for passage, it would be advisable to have the measure as high as possible on the ballot.
- Support for the Homeless Measure does not appear to be significantly hindered by the order in which it appears on the ballot.
- The Parks Measure is clearly more vulnerable as its placement moves farther down the ballot.

**Metro**

# **The Mood of Voters 2007 to 2016**

# In 2016, a plurality perceives Los Angeles County to be headed in the right direction; voters are more optimistic than they were prior to Measure R (2008) and Measure J (2012).

*(Los Angeles County)*

Q2. Thinking about Los Angeles County in general, would you say things are going in the right direction or would you say they are off on the wrong track?

**Metro**

# **The Transportation Sales Tax Measures**

# Ballot Title and Summary for 50-Year Sunset Sales Tax Measure and No Sunset Sales Tax Measure

## Improve Transportation. Relieve Traffic

### 50-Year Sunset Sales Tax

To improve freeway traffic flow and safety; repave streets; synchronize signals; earthquake retrofit bridges; expand rail and bus systems; improve job, school and airport connections; reduce polluted road runoff; keep senior, disabled and student fares affordable; create jobs; shall voters authorize a one-half cent sales tax and extend the current traffic relief tax for a 50-year Los Angeles County Traffic Improvement Plan, and continue a portion to keep the system in good working condition, with independent audits and oversight?

### No Sunset Sales Tax

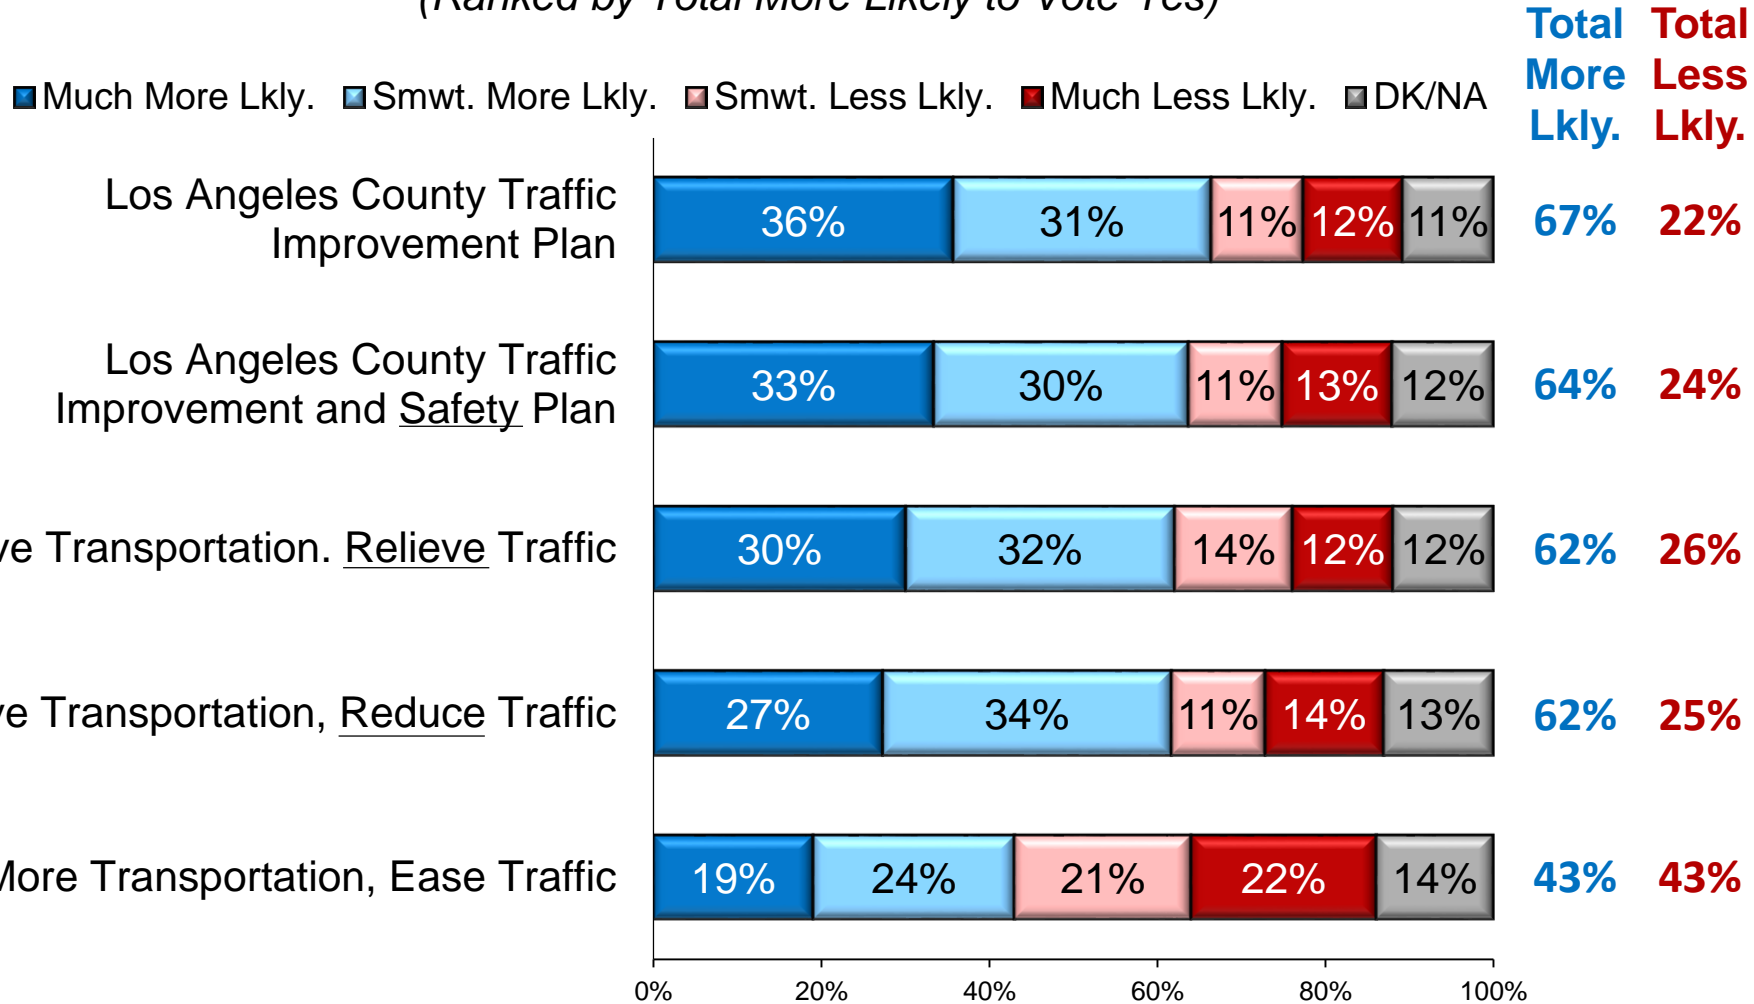

To improve freeway traffic flow and safety; repair potholes; repave local streets; synchronize signals; earthquake retrofit bridges and overpasses; expand rail, subway and bus systems; improve job, school and connections; reduce polluted road runoff flowing into waterways and onto beaches; keep senior, disabled and student fares affordable; and create jobs, shall voters authorize a Los Angeles County Traffic Improvement Plan through a one-half cent sales tax and continue the existing one-half cent traffic relief tax with independent audits and oversight?

# There is no statistically significant difference between a 50-year sunset and no sunset — both scenarios receive 64% overall support on the initial vote.

# Similar to focus group findings, the title “Los Angeles County Traffic Improvement Plan” causes the highest percentage of voters to indicate a greater likelihood to support the measure.

(Ranked by Total More Likely to Vote Yes)

Q7. I'm going to mention a list of possible titles for the measure I just asked you about. Please tell me whether the title would make you more or less likely to vote for it. ^Not Part of Split Sample

# Keeping senior, disabled, and student fares affordable; creating jobs, repairing potholes, and earthquake-retrofitting bridges are among the most important features of the Measure.

(Ranked by Very Important "6" and "7")

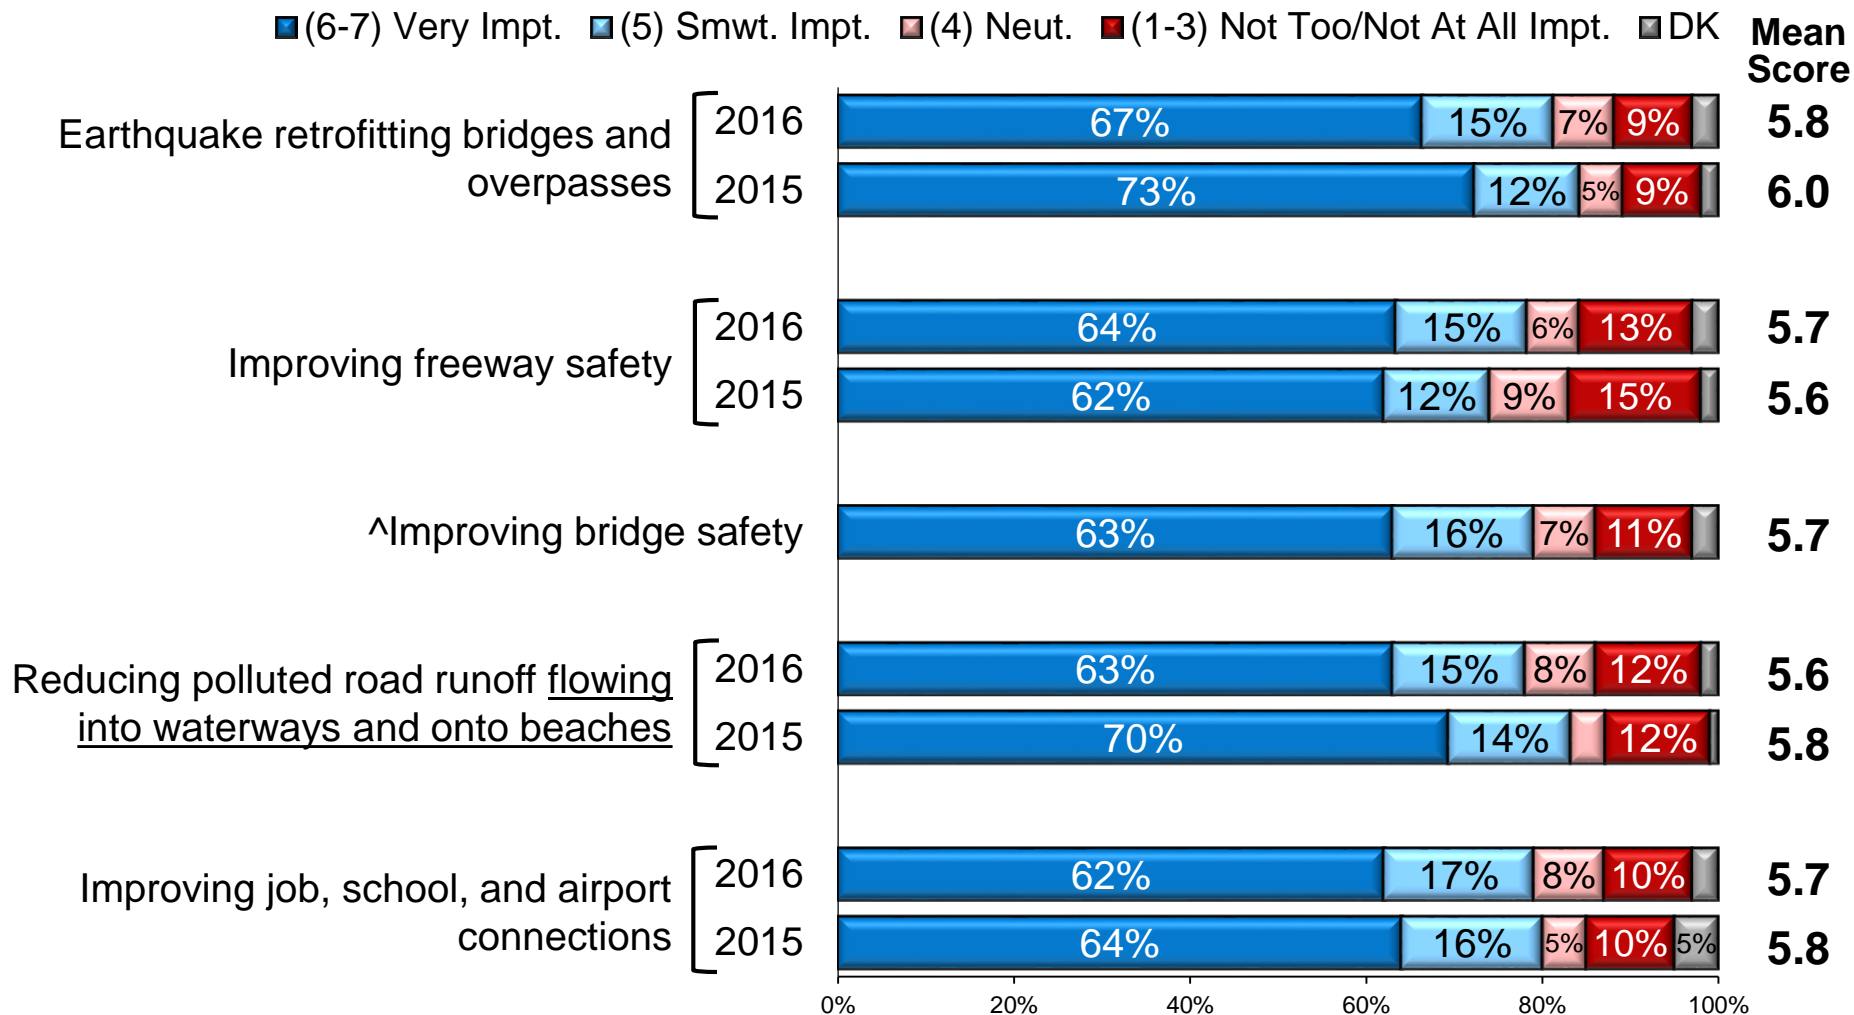

Q8. I am now going to mention some features and provisions of the proposed measure entitled Improve Transportation. Relieve Traffic that I asked you about earlier. Regardless of your opinion of the measure, please tell me how important it is to you that the feature or provision be included as part of the measure. We will use a scale of one to seven, where one means NOT AT ALL IMPORTANT to you that the feature or provision is included in the measure and seven means it would be VERY IMPORTANT. ^Not Part of Split Sample; Note in 2015 "Keeping senior, disabled, student fares affordable" was shown as "Keeping seniors, disabled and student fares low."

# Specific, sub-regional benefits in various Polling Areas and adequately addressing an aging population's transportation needs are the most important reasons to support the measure.

*(Ranked by Total More Inclined to Vote Yes)*

■ Much More Incl. ■ Smwt. More Incl.

Asked Only Voters In Polling Area – Central Los Angeles County (n=306) **(CENTRAL)** This measure provides traffic relief for all areas of the County. In central Los Angeles specifically, it helps improve traffic flow and safety by repairing potholes, upgrading crosswalks and sidewalks. It also funds projects that improve connections to jobs, schools and LAX by linking the Metro Crenshaw Light Rail Line west to LAX, and extending the Crenshaw project north to the Metro Purple Line on Wilshire and through West Hollywood to the Metro Red Line in Hollywood. In addition, it provides an approximately 12 mile transit connection on Vermont Avenue from 120th Street, just south of the Metro Green Line, to Hollywood Boulevard.

**(SENIOR LIMITATIONS)** In the next 15 years, the number of people 65 and over in Los Angeles County is expected to increase by 70% to over 2 million seniors. We need to invest in van services and public transit that seniors, including veterans and people with disabilities, can take to help them maintain their independence and reduce the burden on their caregivers.

Asked Only Voters In Polling Area – San Fernando Valley (n=302) **(SAN FERNANDO VALLEY)** This measure provides traffic relief for all areas of the County. In the San Fernando Valley specifically, it helps improve traffic flow and safety by repaving streets, repairing potholes, synchronizing signals and earthquake retrofitting bridges. It also funds transit projects that connect the San Fernando Valley to LAX under the Sepulveda Pass, as well as convert the Metro Orange Line Busway to a light rail line connecting Woodland Hills, North Hollywood, the Burbank Airport, Pasadena and the Greater San Gabriel Valley.

0% 20% 40% 60% 80%

(Ranked by Total More Inclined to Vote Yes)

■ Much More Incl. ■ Smwt. More Incl.

Asked Only Voters In Polling Area – The South Bay (n=303)

**(SOUTH BAY)** This measure provides traffic relief for all areas of the County. In the South Bay specifically, it helps improve traffic flow and safety by repairing potholes, removing key bottlenecks on Pacific Coast Highway, Hawthorne and Crenshaw Boulevards and Western Avenue, and earthquake retrofitting bridges. It also funds improvements to the 405 freeways between Florence Ave and the 110 freeways and extends the Metro Green Light Rail Line south towards San Pedro from Redondo Beach and to the Torrance Transit Center. Finally, it prevents polluted roadway runoff from entering storm drains and flowing out into Los Angeles County waterways and beaches.

Asked Only Voters In Polling Area - West Los Angeles County (n=308)

**(WESTSIDE)** This measure provides traffic relief for all areas of the County. On the Westside of Los Angeles specifically, it helps improve traffic flow and safety on local streets by repairing potholes, synchronizing signals and earthquake safety upgrades to bridges and roads. It also funds such transit projects that connect LAX to the San Fernando Valley under the Sepulveda Pass, and extends the Metro Crenshaw LAX Light Rail Line, which is currently under construction, to the Metro Purple Line on Wilshire and through West Hollywood to the Metro Red Line in Hollywood.

**(EXTEND TRANSIT)** This measure will extend more light-rail to 20 rail lines, over 70 stations and cover 200 miles, as well as add more bus routes to build out the County transportation system so residents can go more conveniently and more affordably to more places.

0% 20% 40% 60% 80%

Q9. I am going to mention to you some statements made by supporters of the **Improve Transportation. Relieve Traffic** measure. Please tell me if it makes you more inclined to vote for this ballot measure. Split Sample

# Continued

(Ranked by Total More Inclined to Vote Yes)

■ Much More Incl. ■ Smwt. More Incl.

**(JOBS/HELP BUSINESSES)** Local economists estimate that the freeway, local street and public transit projects alone will create tens of thousands of well-paying jobs throughout the County. Those workers will then spend money locally, which will generate hundreds of millions of dollars in revenues for Los Angeles County's small, medium and large businesses and an additional need for workers.

**(REBUILDING OUR FREEWAY SYSTEM)** Most of Los Angeles County's highway and road system is over 60 years old and the number of cars today far exceeds what the system was built to handle. This measure will help upgrade and modernize our aging freeways, highways, tunnels, overpasses and bridges to match a 21st Century economy and prepare for the hundreds of thousands of additional cars expected on our roads over the next several decades.

**(BUILDING 21st CENTURY SYSTEM)** Los Angeles County's transportation system is over 60 years old and does not address the needs of its residents. This measure will finally bring our transportation system into the 21st Century by building a modern transportation network which expands light rail, Rapid Bus, Metrolink, freeways and highways to every corner of the County.

0% 20% 40% 60% 80%

Q9. I am going to mention to you some statements made by supporters of the **Improve Transportation. Relieve Traffic** measure. Please tell me if it makes you more inclined to vote for this ballot measure. Split Sample

# Continued

(Ranked by Total More Inclined to Vote Yes)

■ Much More Incl. ■ Smwt. More Incl.

Asked Only Voters In Polling Area – Southeast Los Angeles County (N=302) **(SOUTHEAST)** This measure provides traffic relief for all areas of the County. In the southeast part of the county specifically, it helps improve traffic flow and safety by repairing potholes, earthquake retrofitting bridges, improving safety at rail crossings, as well as adding crosswalks and sidewalks. It also improves connections to jobs, schools and local airports by funding projects to reduce, widen and upgrade the I5 freeway between the 605 and the 710 bottlenecks, as well as along the 710 freeway between downtown LA and the Ports of Los Angeles and Long Beach and a new light rail connection from the City of Artesia and Union Station in Downtown Los Angeles.

**(LEVERAGE/ACCELERATE)** Passing this transportation sales tax measure ensures that Los Angeles County has a guaranteed source of funding to be eligible for hundreds of millions of dollars in existing state and federal transportation matching funds, which would otherwise go to other counties. This additional funding will speed up the completion of light rail, subway, Metrolink, freeway, highway and local street improvements across the County.

**^(FREE UP TIME)** The Los Angeles area has the worst traffic in the Country. A typical motorist in Los Angeles County experienced 81 hours of delay on area freeways in 2015, which is more than about two weeks of work. We need to continue to invest in our freeways, local roads and public transportation to help ease traffic and allow us to claim back some hours of our life.

**(COST \$24/YEAR)** Local economists say this measure will only cost the average Los Angeles County resident about \$24 a year. That's about two dollars a month, which is a small price to pay to ease traffic and help relieve a completely overwhelmed transportation system.

0% 20% 40% 60% 80%

Q9. I am going to mention to you some statements made by supporters of the **Improve Transportation. Relieve Traffic** measure. Please tell me if it makes you more inclined to vote for this ballot measure. ^Not Part of Split Sample

# Continued

(Ranked by Total More Inclined to Vote Yes)

■ Much More Incl. ■ Smwt. More Incl.

^(**ACCOUNTABILITY**) This measure includes strict accountability requirements including an Oversight Committee and independent annual financial and performance audits, which will be available online and at public libraries, and all money will stay local and cannot be taken by Sacramento.

Asked Only Voters In Polling Area – San Gabriel Valley (n=304) (**SAN GABRIEL VALLEY**) This measure provides traffic relief for all areas of the County. In the San Gabriel Valley specifically, it helps improve traffic flow and safety by repairing potholes, synchronizing signals, reducing bottlenecks, constructing earthquake safety improvements on bridges and roads, and upgrading the 71 freeway between the 10 and the 60 freeways. It also funds transit projects that extend the Metro Gold Light Rail Line further east from East L.A. along the 60 freeway toward South El Monte, as well as extend the Metro Gold Light Rail Line from the Azusa station further east through Glendora and San Dimas toward Claremont.

(**MORE PEOPLE/CARS**) By the year 2030, about one million additional people will live in Los Angeles County. This population increase coupled with all the new drivers who will have come of age, will add tens of thousands of new cars to our roads each day. We need this reliable source of funding to upgrade our aging freeway and road network and build out our County's public transportation network, including light rail, to meet our County's needs.

Asked Only Voters In Polling Area – North County (n=300) (**NORTH COUNTY**) This measure provides traffic relief for all areas of the County. In the Santa Clarita and Antelope Valleys specifically, it helps improve traffic flow and safety by repaving streets, repairing potholes, upgrading Metrolink service and safety, as well as crosswalks and sidewalks. It will also fund projects that reduce bottlenecks, widen and upgrade the 15 freeway in Santa Clarita, Newhall and Castaic, as well as along the 14 freeway in Palmdale and Lancaster. It will also fund the building of a new toll highway, known as the High Desert Corridor, between the 14 freeway in Palmdale and 15 freeway in Victorville.
