

## Metrolink Enjoys a Dose of Red Hat Lady Glamour

To the list of charming things about Fullerton, one of our station cities, we must now add *home of the original Red Hat Ladies*.

Founder Sue Ellen Cooper started the fast-spreading club when she read a poem by Jenny Joseph

which states, "When I am an old woman I shall wear purple/ With a red hat which doesn't go, and doesn't suit me. / And I shall spend

my pension on brandy and summer gloves ..." Cooper promptly framed the poem and purchased a red hat

for her friend. From this modest beginning, the lively Red Hat Ladies were born.

**The Red Hat Society began as a result of a few women deciding to greet middle age with verve, humor and élan. We believe silliness is the comic relief of life, and since we are all in it together, we might as well join red-gloved hands and go for the gusto together. Underneath the frivolity, we share a bond of affection, forged by common life experiences and a genuine enthusiasm for wherever life takes us next."**

—Sue Ellen Cooper, Queen Mother of the Red Hat Ladies and Fullerton resident

When one hundred Red Hat Ladies showed up in Chatsworth to take the Metrolink train to Union Station, it was clear: Red hats suit them just fine. In fact, the Red Hat Ladies are absolutely fabulous, decked out in purple clothes, feathers flying and red hats proudly held high. Some—but not all—of the Red Hat Ladies qualified

for half-price senior fares. Everyone else enjoyed a 25 percent discount for riding the train during non-peak hours. *(Continued on page 2)*

### Inside

## Summary of Schedule Changes as of November 17

The Rail 2 Rail partnership between Amtrak and Metrolink continues to grow stronger with Amtrak agreeing to add new stops at Metrolink stations to better serve the growing demand for additional service.

Beginning Monday, November 15, Orange County Line passengers will be able to ride two Amtrak trains to Norwalk/Santa Fe Springs and Laguna Niguel/Mission Viejo Stations and another one to Orange. Amtrak trains normally do not serve those stations.

Ventura County Line passengers will also benefit beginning November 17 from expanded service. As part of the Rail 2 Rail service, Amtrak has added a new afternoon train departing Oxnard. In addition, Metrolink Ventura County Line trains 103 and 108 will be replaced by Amtrak trains. These Amtrak trains will make stops at all Metrolink stations from Oxnard to Los Angeles. This arrangement also benefits Metrolink passengers on other lines by making available the passenger cars used by trains 103 and 108 for use on overcrowded trains on other lines.

See below for a detailed summary of the upcoming schedule changes.

## ...Red Hat Lady Glamour (Continued from page 1)

The Red Hat Society is often referred to fondly as a “disorganization.” This is a group that likes to have a good time and that imposes few rules. However, Society custom requires that one be fifty or older to “earn” the right to don a red hat and purple attire. Younger women are free to join, but must wear pink hats and lavender clothes until the full glory of their red-hat years is upon them. The Red Hatters believe that aging should be embraced and anticipated with excitement.

Composed of women who have shouldered various responsibilities at home and in the community their whole lives, the Red Hat Society’s objective is to have fun. The Society is entirely dedicated to enjoyment.

On their trip to Union Station, the Red Hat Ladies cut quite a swath,

filling an entire train car. Upon arriving in downtown Los Angeles, some headed directly for Philippe’s for the famous French dip sandwiches and some were off to tour the Cathedral—but most of the contingent walked across the street to visit bustling Olvera Street, where they were an instant hit with the strolling mariachis.

## The Holiday Toy Express at a Station Near You

The Holiday Toy Express is a once-a-year dazzling display of lights and a terrific way for families in our Metrolink communities to enjoy the holiday season and make life a little brighter for children who might otherwise be left out of the holiday cheer.

This year, the Holiday Toy Express is making stops at 45 Metrolink stations in six counties on weekend evenings now through December 21.

The Holiday Toy Express includes a live, kid-friendly holiday musical show that features Santa trading puns with an oversized T-Rex, a reindeer, a snowman, and a couple of holiday elves. The show features a sing-a-long followed by a meet-and-greet with all the show's characters. But the real star of the evening is a 450-ton Metrolink train spiffed up with tens of thousands of twinkling lights, tinsel, and animated decorations.

Each year, the Spark of Love Toy Drive collects new, unwrapped toys and sporting equipment for less-fortunate children throughout Los Angeles, Riverside, San Bernardino, Ventura, and Orange Counties. Spark of Love is currently under the direction of an advisory council of Southern California Firefighters and staff from Disney-owned KABC-TV.

Please be aware that the Holiday Toy Express can't roll in the rain. If it looks like rain on the day the train is coming to your station city, please check our Web site at [www.metrolinktrains.com](http://www.metrolinktrains.com) or call (800) 371-LINK (5465) to see if your visit from the Holiday Toy Express has been rescheduled.

Don't miss out on this wonderful holiday tradition.

### SAFETY MATTERS

When you approach any crossing, always expect a train - on any track, at any time, from any direction.

When the lights and bells are activated at a crossing - stop and wait until the train passes. Upon exiting - do not cross in front of or behind the train. Wait at the pedestrian crossing until the train leaves the station and the lights and bells are no longer active.

Never cross if the crossing lights and bells are activated. Be aware that freight trains and maintenance vehicles can run on the same tracks with Metrolink trains and do not operate on a set schedule.

Always put your safety first. We do and you should, too.

## San Bernardino Half-Cent Tax on the Ballot

In 1989, voters in San Bernardino County approved a half-cent sales tax to help pay for road and transit projects and services throughout the county. Measure I has helped pay for more than 3,000 local street projects throughout the county, the new 210 freeway to Fontana (continuing work will bring it to San Bernardino by 2007), the new 71 freeway through Chino Valley, the widening and addition of carpool lanes on the 10 and 60 freeways, and the start of Metrolink commuter-rail service, as well as other projects. This tax will expire in 2010. Measure I, up for vote on the November 2 ballot, would extend the tax for 30 years and provide San Bernardino County with an estimated \$6 billion for additional transportation improvements.

Funds from Measure I would be spent as follows:

- ▶ Forty-eight percent would go to regional highways and local streets. Projects would include the building of new and upgraded highways, maintenance and repair of local roads, and construction of rail-street grade separations.
- ▶ Thirty-three percent would go toward freeway improvements. Projects would include adding new lanes to crowded freeways and building new and upgraded interchanges.
- ▶ Sixteen percent would help support public transit, including local and express buses, Metrolink commuter rail, and transit services for seniors and the disabled.
- ▶ Two percent would go toward projects to improve traffic flow, including the coordination of traffic signals and the expansion of freeway service patrols.
- ▶ One percent would go to the administration and oversight of Measure I, including the funding of an independent oversight committee to ensure funds are spent efficiently and in accordance with Measure I's provisions.

Measure I is supported by a broad bipartisan coalition in San Bernardino County, including the county board of supervisors; the San Bernardino Associated Governments; every city in the county; local business groups; and numerous labor, senior, transportation, and other organizations.
