FOOTHILL EXTENSION PROJECT DESCRIPTION

The Authority's mandate is to plan, design and construct a 37-mile light rail link between Downtown Los Angeles and Claremont. In addition, the San Bernardino Associated Governments (SANBAG) has requested that planning be extended one mile inside San Bernardino County to the City of Montclair and then to Ontario Airport.

The Metro Gold Line Phase II (Foothill Extension) corridor includes the cities of Pasadena, Arcadia, Monrovia, Duarte, Irwindale, Azusa, Glendora, San Dimas, La Verne, Pomona, Claremont, and Montclair; and the counties of Los Angeles and San Bernardino (Figure 1). The Foothill Extension is estimated to cost approximately \$1.7 billion.

The Foothill Extension will be built in two segments to align effectively with projected cash flows and financial capacity constraints. The first segment is defined from the Sierra Madre Villa Station in Pasadena to the city of Azusa. Revenue service along this segment is planned for the year 2015. The second segment would include an extension from Azusa to the City of Montclair with revenue service projected for the year 2017 and the third segment will be comprised of an extension from Montclair to the Ontario Airport.

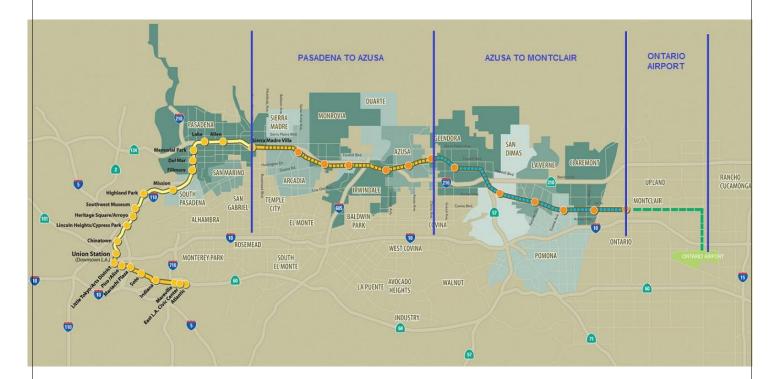

Figure 1: Metro Gold Line Foothill Extension Alignment

Pasadena to Azusa Segment

MANAGEMENT ISSUES

Metro Betterments

During the design process Metro staff have identified betterments that Metro staff would like to add to the project. Metro has provided a final disposition on all but a few items. Authority staff continues to work with Metro staff to resolve the remaining items.

TPSS Delivery Dates

The traction power substations (TPSS) provide equipment to transform utility power to power required for Light Rail Vehicle (LRV) propulsion, and then distribute that power to the LRVs via the overhead wires. Metro is responsible for purchasing the traction power substations. Currently, Metro's schedule indicates that the traction power substation delivery schedule is late. This is a major concern for the Authority as it has potential to impact the project schedule; however, staff is coordinating with Metro and FTC to ensure minimal impact to the project.

KEY ACTIVITIES COMPLETED THIS PERIOD

Staff continued to attend coordination meetings with cities along the alignment

Authority staff continues to meet with Metro staff to review and discuss the status of the Pasadena to Azusa segment

Held regular meetings with the C1135 (DB2) contractor, Foothill Transit Constructors (FTC) and participated in construction site visits and audits

FTC reports the following SBE statistics for the month of October:

- o Current SBE commitment: \$ 59,500,000
- SBE percent committed versus value of Project: 13.99%
- Overall Authority Project SBE goal: 16%

FTC reports the following approximate safety statistics to date:

- o 543,000 total work hours performed by FTC, Mass Electric, and Subcontractors
- o 4 recordable injuries reported
- o 0 lost time injuries reported

Continued to review revised AFC drawings for C1135 project

Continued installation of underdrain and sub-ballast throughout the project

Continued trackwork at the Gold Line Operations Campus (Campus)

Continued bridge work at Rosemead, Michillinda, Baldwin, Huntington, Kincaid, and Foothill

Completed Santa Anita Avenue bridge

Continued work at Azusa-Downtown, Azusa-Citrus, Duarte, Monrovia and Arcadia stations

Began construction of Myrtle grade crossing

Continued construction of San Gabriel and 1st & Santa Clara crossings

Completed California grade crossing

Continued installation of freight track between San Gabriel River Bridge and MillerCoors

Continued construction of light rail mainline track

Continued to hold design and coordination meetings with DB3 contractor, Webcor Builders, for the Intermodal Parking Facilities and Enhancements Contract 1150

Completed reviews of 100% design submittals for Arcadia, Monrovia, and Azusa-Citrus facilities

Completed eight AFC drawing packages for C1150 project to date

Continued construction of Arcadia and Monrovia Parking Structure footings and prepared for concrete pour

C1150 design-build contractor continued work at Irwindale intersection, and Michillinda and Soldano TPSS sites

KEY FUTURE ACTIVITIES

Continue discussions with corridor cities regarding the project

Continue management of the Alignment contract, which will include oversight of construction activities and preparation for start-up activities

Continue to meet with Intermodal Parking Facilities and Enhancements Project contractor, Webcor Builders regarding design of the Project

Continue to attend to any issues that may come up by the cities or other stakeholders along the alignment

Complete trackwork at the Campus

Complete construction of the bridges at Foothill, Kincaid, Huntington, Rosemead, Michillinda, and Baldwin

Complete construction of the Azusa-Downtown, Azusa-Citrus, Duarte, Monrovia, and Arcadia stations

Finish work at San Gabriel, Myrtle, and 1st and Santa Clara grade crossings

Begin work at Virginia, Magnolia, and Mountain grade crossings

Finalize design for first three Parking Facilities

Finalize the following property acquisitions:

- <u>Arcadia:</u>
 - 1. Parcel 1301a Motion for Possession filed with the court
 - 2. Parcel 1301b Negotiating
 - 3. Parcel 1308 (223 N. First Ave) Motion for Possession filed with the court
 - 4. Parcel 6039 (325 N. Santa Anita Ave) PSA out for signature
- Monrovia:
 - 1. Parcel 1802/6035/6030 (1522 S. Mayflower Ave) Waiting for Purchase Agreement to be signed
 - 2. Parcel 1805/6035/6030 (1602 S. Mayflower Ave) PSA signed. Ready for escrow
- Duarte:
 - 1. Parcel 6041/6042 (1500 Duarte Rd) Accepted. Purchase and sale agreement being reviewed by counsel
- Irwindale:
 - 1. Parcel 6028 (16009 Avenida Padilla) Motion for Possession filed with the court
- <u>Azusa</u>:
 - 1. Parcel 6032 (819 W. 6th St) In escrow
 - 2. Parcel 6033 (809 E. Santa Fe) Negotiating with property owner

METRO GOLD LINE FOOTHILL EXTENSION CONSTRUCTION AUTHORITY Monthly Project Status Report Period Ending: January 31, 2014

Revenue Operations Date Critical Path - (182 Calendar Days)

The Metro Light Rail Vehicle Fabrication remains on the critical path this period. This period, Metro has stated the 15th vehicle will be delivered by November 2015, which is nine months earlier than the previous projection. Upon completion of the delivery, Pre-Revenue Operations will begin and it is anticipated that it will be completed by January 2016.

Since the project has surpassed the 50% mark, Metro has reduced the 10 month schedule contingency to 5 months. As a result, the Metro Revenue Operations Date is June 2016, which is 6 months ahead of the target date per the Funding Agreement date of November 2016. However, Metro is forecasting a March 2016 Revenue Operations Date.

Alignment Delivery Date Critical Path - (32Calendar Days)

This period, the Foothill Freight Bridge fabrication and installation remains on the critical path. The steel girder fabrication was completed later than previously projected and as a result the bridge completion is anticipated to be completed by May 2014. The impact will delay the completion of the freight track realignment. However, the C1135 Design/Build Contractor will mitigate the Foothill freight bridge delays by mobilizing an additional resources to start the Segment 4 light rail tracks at the available areas and complete the remaining freight track concurrent with the light rail tracks. In addition, the track installation will be accelerated to allow earlier access for the OCS installation and testing. Upon the completion of Systems Integration testing, the C1135 Contractor will achieve Substantial Completion and turn-over to Metro for Pre-Revenue Testing.

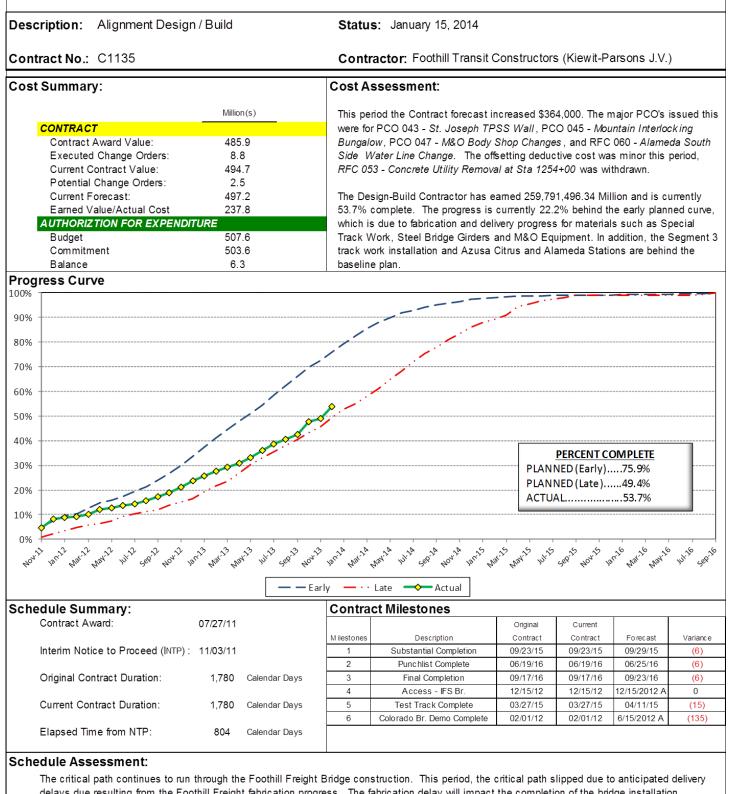

Other elements of construction work, which are in progress and near critical are Rosemead Bridge Rehabilitation, Myrtle Grade Crossing, Segment 4 Retaining Walls, Segment 4 Grading & Drainage, and Huntington Bridge.

Project Float

The project float for the Revenue Operations Date has increased to 182 days. The critical activities on this path are on schedule to meet the Target Revenue Operations Date of November 2016. The Alignment Delivery Date float value improved 41 days this period. The Alignment Delivery Date is currently 32 days ahead the October 31, 2015 deadline.

Period Ending: January 31, 2014

delays due resulting from the Foothill Freight fabrication progress. The fabrication delay will impact the completion of the bridge installation and the final completion of the freight track re-alignment. As a result, the late completion of this work will impact the start of Segment 4 track installation and the remainder of the critical path, which continues through the OCS installation and testing, followed by systems integration testing.

The schedule contains minimal float between all Segments and will require concurrent installation of track work in Segments 1, 3 and 4.

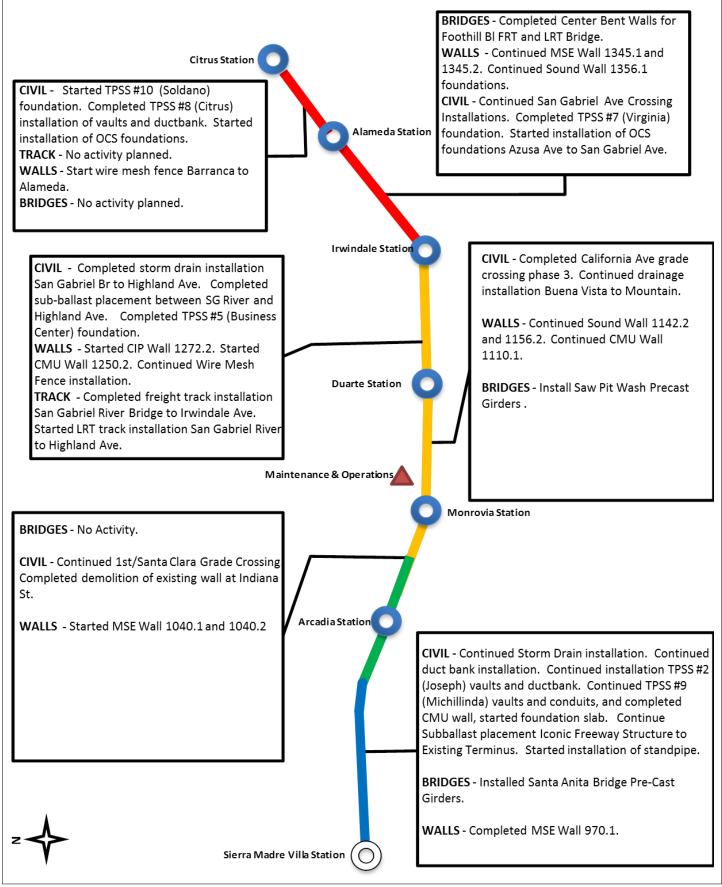

The Test Track Completion is forecast to be available on April 11, 2015, which is 35 days behind the target date.

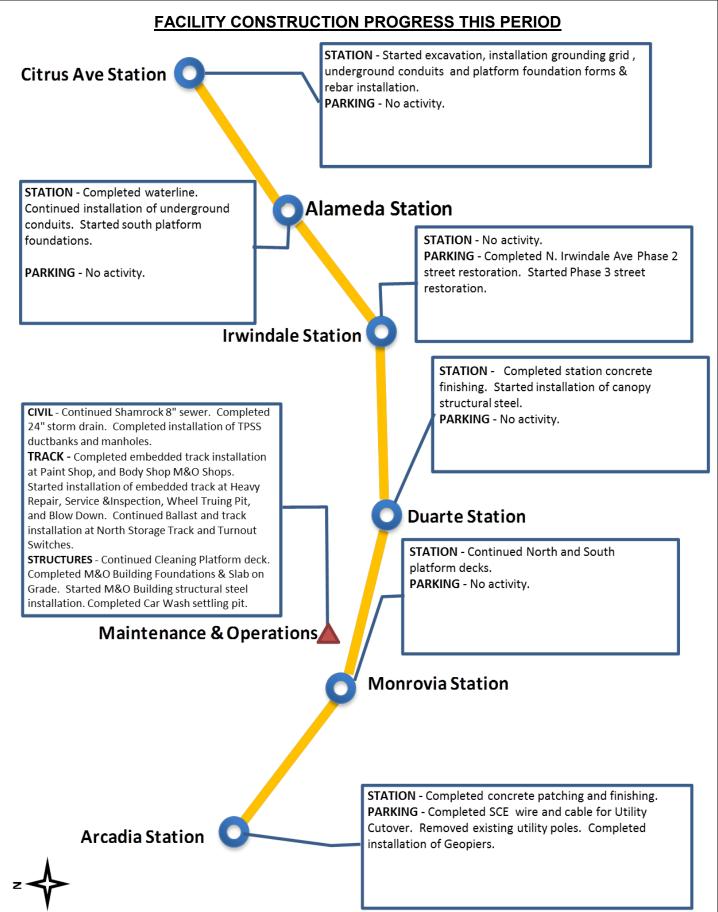

Description: Alignment Design / Build	Status: January 15, 2014

Construction • See "Construction Progress This Period"	Construction • See "Construction Progress Next Period"
Areas of Concern	Areas of Concern (Continued)
• Grade Crossing Schedule. The Grade crossing durations and schedules are slipping due to productivity. The Authority is working with the Design-Build Contractor to plan grade crossing activities and complete the work within the constraints established by Cities. The Design-Build Contractor has implemented the revised grade crossing sequence and has mitigated potential CPM schedule delays. However, the Design-Build Contractor has indicated in the revised schedule, that the re-sequence was due to additional schedule requirements by the Cities and may require additional costs.	• Segment 3 Grade Crossing Property Acquisitions. The Design-Build Contractor has been late delivering parcel legal descriptions in a timely manner. There is a potential schedule impact to the Segment 3 grade crossing construction and schedule if the parcel legal descriptions are not approved. The Authority will attempt to mitigate potential delays by obtaining Right-of-Entry from property owners prior completing negotiations.

 IRWINDALE PARKING STRUCTURE DESIGN - The Authority will issue the Design-Build Contractor a Potential Change Order to revise the location of the Irwindale Parking Structure from the current location identified in the 85% design submittal. The revised design will require the parking structure to be moved in order to avoid a utility conflict with the existing SCE distribution line. The redesign effort will impact the completion of the AFC design and potentially impact the Substantial Completion milestone.

AZUSA TO MONTCLAIR SEGMENT

ACTIVITIES COMPLETED THIS PERIOD

Authority Board certified the EIR for the Azusa to Montclair segment on March 6, 2013. Following certification, staff filed the Notice of Determination (NOD) with both counties (Los Angeles and San Bernardino). This filing started a 30-day statute of limitations to court challenges to the approval of the project.

The City of Pomona filed a challenge to the EIR, subsequent to which the Authority and the City of Pomona resolved the environmental challenge and executed a settlement agreement. Authority staff issued the Request for Proposals (RFP) for the advanced conceptual engineering support and NEPA consultant.

KEY FUTURE ACTIVITIES

The Authority will receive proposals from consultants in response to the RFP for the advanced engineering support and NEPA consultation in early March, and will initiate the review and selection process for award in April 2014.

Federal Transit Administration (FTA)

The Metro Board of Directors excluded the Gold Line from seeking federal New Starts funding. The Authority will work together with Metro along with the Congressional delegation to seek funding to construct the extension following completion of the environmental review.

ONTARIO AIRPORT SEGMENT

ACTIVITIES COMPLETED THIS PERIOD

Staff continued to pursue the needed funding to conduct the Alternatives Analysis for the Ontario Airport Segment. The Authority is in discussions with the San Bernardino Associated Governments (SANBAG) and other agencies to develop a funding agreement for a portion of the initial Alternatives Analysis study. The Authority has decided to fund the Alternatives Analysis in the meantime, and plans on releasing the Request for Proposals for this segment in March 2014.

KEY FUTURE ACTIVITIES

Authority staff will continue to work with SANBAG and Cities to obtain funding for this Segment. Authority staff continues to finalize the Scope of Work for the Alternative Analysis Study RFP to issue in March 2014.
