Azusa to Montclair Segment	27
Financial Status	28

#### FOOTHILL EXTENSION PROJECT DESCRIPTION

The Authority's mandate is to plan, design and construct a 37-mile light rail link between Downtown Los Angeles and Claremont. In addition, the San Bernardino Associated Governments (SANBAG) has requested that planning be extended one mile inside San Bernardino County to the City of Montclair and then to Ontario Airport.

The Metro Gold Line Phase II (Foothill Extension) corridor includes the cities of Pasadena, Arcadia, Monrovia, Duarte, Irwindale, Azusa, Glendora, San Dimas, La Verne, Pomona, Claremont, and Montclair; and the counties of Los Angeles and San Bernardino (Figure 1). The Foothill Extension is estimated to cost approximately \$1.719 billion.

The Foothill Extension will be built in two segments to align effectively with projected cash flows and financial capacity constraints. The first segment is defined from the Sierra Madre Villa Station in Pasadena to the city of Azusa. Revenue service along this segment is planned for the year 2015. The second segment would include an extension from Azusa to the City of Montclair with revenue service projected for the year 2017 and the third segment will be comprised of an extension from Montclair to the Ontario Airport.

Figure 1: Metro Gold Line Foothill Extension Alignment

Period Ending: July 31, 2014

# Pasadena to Azusa Segment MANAGEMENT ISSUES

#### **Metro Betterments**

During the design process Metro staff have identified betterments that Metro staff would like to add to the project. Metro has provided a final disposition on all but a few items. Authority staff continues to work with Metro staff to resolve the remaining items.

#### **TPSS Delivery Dates**

The traction power substations (TPSS) provide equipment to transform utility power required for Light Rail Vehicle (LRV) propulsion, and then distribute that power to the LRVs via the overhead wires. Metro is responsible for purchasing the traction power substations. Currently, Metro's schedule indicates that the traction power substation delivery schedule is late. This is a major concern for the Authority as it has potential to impact the project schedule; however, staff is coordinating with Metro and FTC to ensure minimal impact to the project.

#### **KEY ACTIVITIES COMPLETED THIS PERIOD**

FTC reports the following SBE statistics for the month of May:

- Current SBE commitment: \$ 59,500,000
- SBE percent committed versus value of Project: 17.96%
- Overall Authority Project SBE goal: 16%

FTC reports the following approximate safety statistics to date:

- 852,047 total work hours performed by FTC, Mass Electric, and Subcontractors
- 12 recordable injuries reported
- 4 lost time injuries reported

Webcor reports the following DBE statistics for the month of June:

- o Current DBE commitment: \$781,099.00
- o DBE percent paid-to-date versus value of Project: 2.5%
- o Overall Authority Project DBE goal: 2.3%

Webcor reports the following approximate safety statistics to date:

- 70,830 total work hours performed by Webcor and Subcontractors
- 0 recordable injuries reported
- 0 lost time injuries reported

Continued bridge work at Huntington and Foothill

Continued work at all stations - 85% complete (structural elements)

Continued construction of Phase 2 Mountain grade crossing

Completed construction of Magnolia grade crossing

Continued construction of Virginia and Mountain grade crossings

Continued construction of light rail mainline track - 72% complete

Continued trackwork at the Gold Line Operations Campus (Campus) - 65% complete

Continued structural steel work at the Main Shop Building in the Campus

Continued OCS and Site Lighting Pole erection at the Campus and throughout the Alignment

Continued installation of train control cases/bungalows and associated equipment

Continued framing interior walls an electrical, mechanical, and plumbing work inside Campus buildings

Continued construction of Arcadia, Monrovia, Irwindale, and Azusa-Citrus Parking Structures

Authority continued reviewing design submittals for Azusa-Citrus and Irwindale structures

Continued to coordinate with contractor and City of Duarte to progress design of Duarte lot

#### **KEY FUTURE ACTIVITIES**

Continue discussions with corridor cities regarding the project

Continue management of the Alignment contract, which will include oversight of construction activities and preparation for start-up activities

Continue to meet with Intermodal Parking Facilities and Enhancements Project contractor, Webcor Builders regarding design of the Project

Continue installation of mainline OCS

Continue installation of train control cases/bungalows and associated equipment

Complete trackwork at the Campus

Complete construction of the Huntington and Foothill bridges

Complete construction of all stations

Finish work at Mountain and Virginia grade crossings

Finalize design for the following Parking Facilities: Azusa Citrus, Irwindale, and Duarte

Finalize the following property acquisitions:

#### Arcadia:

- 1. Parcel 13010/1311 (Indiana St.) Conveyance from City of Arcadia after construction.
- 2. Parcel 1401a (Huntington Dr. Aerial Easement ) Conveyance from City of Arcadia after construction.
- 3. Parcel 1401b (Huntington Dr. Bridge Abutments) Conveyance from City of Arcadia after construction.
- 4. Parcel 1403 (99 N. Second Av.) Preparing legal description.
- 5. Parcel 1308 (223 N. First Av.) Revising legal description. Expecting pre-judgment possession in August.
- 6. Parcel 6009 (Huntington Dr. Bridge Abutments) Conveyance from City of Arcadia after construction.
- 7. Parcel 6010 (Huntington Dr. Bridge Abutments) Conveyance from City of Arcadia after construction.
- 8. Parcel 6011 (Huntington Dr. Bridge Abutments) Conveyance from City of Arcadia after construction.

#### • Monrovia:

- 1. Parcel 1601 (Encino Av.) Conveyance from City of Monrovia.
- 2. Parcel 1903 (Monrovia Station) Conveyance from City of Monrovia.
- 3. Parcel 21A12 (3M Parking Lot) Waiting for legal description/as-builts.
- 4. Parcel 21A23 (Shamrock Trapezoid) Conveyance from City of Monrovia.

#### Duarte:

1. Parcel 6041/6042 (1500 Duarte Rd) – Accepted. Ready to sign contract.

#### Irwindale:

1. Parcel 3302a (MillerCoors easement for power utilities) - Negotiating.

#### • Azusa:

- 1. Parcel 3501 (1220 W. Foothill Blvd.) Preparing legal description.
- 2. Parcel 6033 (809 E. Santa Fe) Accepted. Reviewing PSA.

Period Ending: July 31, 2014

#### CRITICAL PATH FLOAT TREND

#### Revenue Operations Date Critical Path - (189 Calendar Days)

The Irwindale Parking Structure, which is the primary critical path for the Alignment Delivery, is also the primary critical path for the Revenue Operations Date (ROD). Upon achieving Substantial Completion on the C1135 Contract, the critical path for meeting ROD will continue through the Metro Systems Testing & Startup, which will then continue through Pre-Revenue Testing and five month schedule contingency. The secondary critical path to achieve the ROD milestone continues through the Metro Light Rail Vehicle Procurement and is twelve (12) days off of the critical path. The current forecast for the acceptance of the 15th of 78 vehicles remains at October 16, 2015. The anticipated ROD date is May 21, 2016. However, Metro is forecasting a March 2016 Revenue Operations Date.

#### Alignment Delivery Date Critical Path - (33 Calendar Days / 24 Work Days)

The Irwindale Parking Structure, which is currently being constructed by Webcor continues to be the primary critical path. Upon reaching the completion of the elevator installation, FTC will be granted access to complete the communications installation at the Irwindale Parking Structure. The critical path continues through systems integration testing and upon completion, FTC will achieve Substantial Completion and turn-over to Metro for Pre-Revenue Testing.

Other elements of construction work, which are in progress and near critical are TPSS #5 (Business Center) and #7 (Virginia) Installation & Testing, Segments 1 & 4 Train Control Equipment Installations, Huntington Dr bridge delivery, Segment 2 track installation, Segments 3 & 4 OCS installations, Segment 4 grading & Ductbank. Facility work, which is near critical includes Citrus Parking Structure and the Maintenance & Operations Campus.

#### **Project Float**

The project float for the Revenue Operations Date decreased to 189 days. The critical activities on this path are on schedule to meet the Target Revenue Operations Date of November 2016. The Alignment Delivery Date float value decreased 4 days this period. The Alignment Delivery Date is currently 33 days ahead the October 31, 2015 deadline.

#### Areas of Concern

 Huntington Bridge - The Huntington Bridge fabrication is near critical. The completion of the bridge is critical to support the final track installation by October 2014. The Design-Build Contractor will have to complete the bridge fabrication and delivery at an accelerated rate in order to meet the construction schedule requirements. The bridge, which will be fabricated in China must be delivered for installation by August 2014. The Authority staff are closely monitoring the fabrication progress.

Monthly Project Status Report

Period Ending: July 31, 2014

**Description:** Alignment Design / Build **Status:** June 15, 2014

Contract No.: C1135 Contractor: Foothill Transit Constructors (Kiewit-Parsons J.V.)

#### Cost Summary:

# CONTRACT Contract Award Value: 485.9 Executed Change Orders: 10.8 Current Contract Value: 496.6

Current Contract Value:496.6Potential Change Orders:5.3Current Forecast:501.9Earned Value/Actual Cost332.3

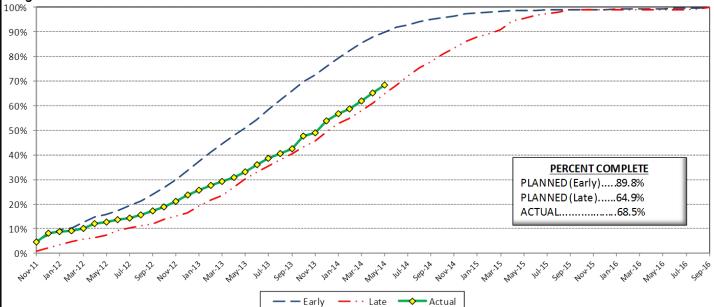

AUTHORIZTION FOR EXPENDITU	RE
Budget	507.9
Commitment	496.6
Balance	6.0

#### Cost Assessment:

This period the Contract forecast increased \$221 Thousand. The major increase were due to PCO 047 - M&O Body Shop Changes, PCO 081 - Eliminate 'Train Coming' Signs, PCO 082 - M & O Guard House Changes.

The Design-Build Contractor has eamed 332.3 Million and is currently 68.5% complete. The progress is currently 21.3% behind the early planned curve, which is due to fabrication and delivery progress for materials such as Special Track Work, Steel Bridge Girders and M&O Equipment. In addition, the Segment 3 2, &1 track work installation, Azusa Citrus and Irwindale Stations are behind the baseline plan.

#### Progress Curve

#### Schedule Summary:

Contract Award: 07/27/11

Interim Notice to Proceed (INTP): 11/03/11

Original Contract Duration: 1,780 Calendar Days

Current Contract Duration: 1,780 Calendar Days

Elapsed Time from NTP: 955 Calendar Days

#### Contract Milestones

		Original	Current		
Milestones	Description	Contract	Contract	Fo rec ast	Variance

2	Punchlist Complete	06/19/16	06/19/16	06/20/16	(1)
3	Final Completion	09/17/16	09/17/16	09/18/16	(1)
4	Access - IFS Br.	12/15/12	12/15/12	12/15/2012 A	0
5	Test Track Complete	03/27/15	03/27/15	01/27/15	59
6	Colorado Br. Demo Complete	02/01/12	02/01/12	6/15/2012 A	(135)

#### Schedule Assessment:

The Design-Build Contractor re-sequenced the station communication installation activities, which has now put the Duarte Station mechanical and electrical installation critical to support the stations communication bungalows and equipment. In addition to station mechanical and electrical, the communications bungalow fabrication and delivery is also critical to support the on schedule installation.

With the completion of the Foothill freight bridge and the freight track re-alignment complete, the Foothill LRT bridge is now near critical to support the remaining Segment 4 track work installation and follow on train control installation activities.

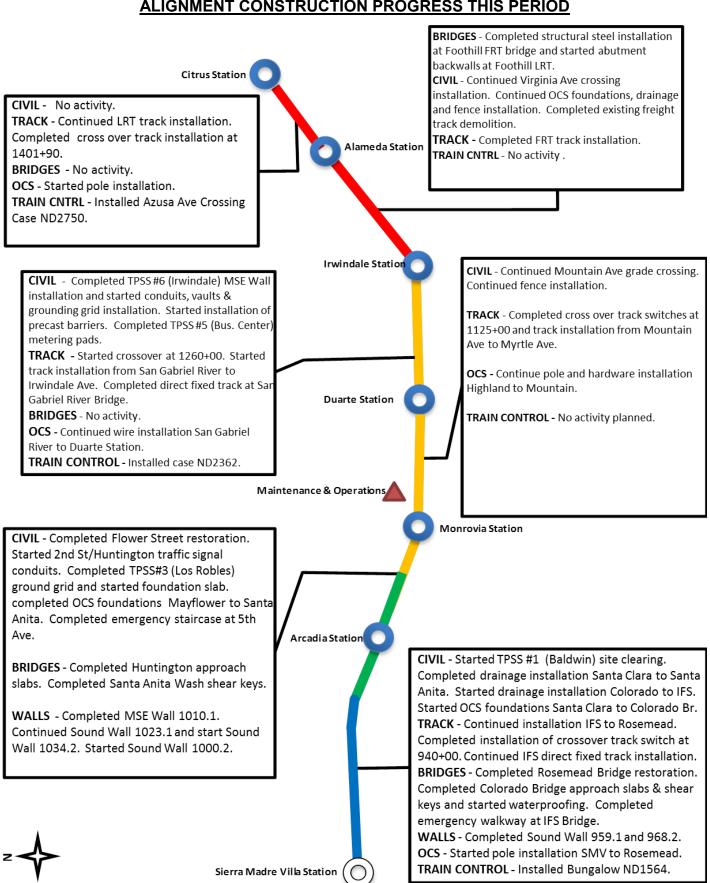

The Huntington bridge is currently being fabricated in China, and is expected to be shipped by mid July 2014 and delivered to the site by August 2014 The Huntington bridge installation is critical to support the final Segment 2 track section installation.

The Test Track Completion is forecast to be available on January 27, 2015, which is 59 days ahead of the target date.

Period Ending: July 31, 2014

Citrus Ave Station

STATION - Installed 2" water line.

PARKING - Completed level 2 and level 3 excavation. Started geo pier installation.

STATION - Completed platform access ramps and stairs.

PARKING - No activity.

**Alameda Station** 

**STATION -** Completed North and South platform platform walls. Started North and South Platform metal deck installation.

PARKING - No activity.

Irwindale Station

CIVIL - Started East side Shammrock Ave street restoration. Completed regrading south track areas and start subballast placement.

WALLS - Completed screen wall installation.

TRACK - Continue installation of embedded track at MOW.

STRUCTURES - M&O Building continued structural steel installation. Completed 2nd floor concrete deck. Started 3rd floor concrete deck. Start ed exterior CMU walls and metal stud framing. Car Wash - Started structural steel installation. Cleaning Platform - no activity. Material Storage - Completed CMU walls . MOW Building - Started metal stud framing.

OCS - No activity planned.

STATION - Started canopy metal roofing installation. Continued underplatform conduit installation and plumbing. Started pedestrian crossing equipment installation.

PARKING - No activity planned.

#### **Duarte Station**

STATION - Completed stairs and access ramps. Continued underplatform conduit installation.

PARKING - Completed slab on grade placement and CMU Ramp walls. Started Level 1 deck.

Maintenance & Operations

**Monrovia Station** 

**Arcadia Station** 

STATION - No activity

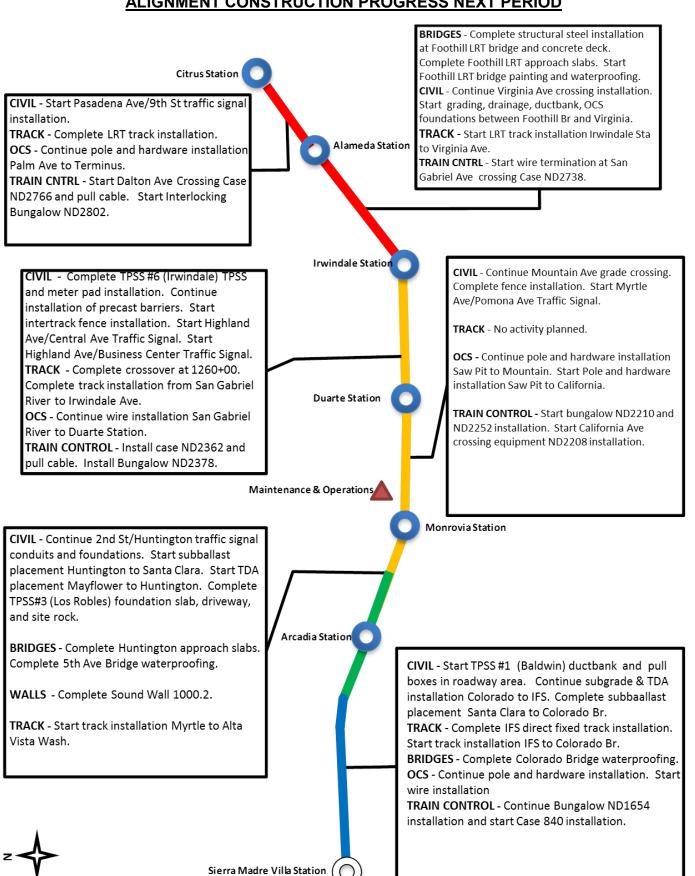

PARKING - Completed Level 2 deck. Started Level 2 barrier walls and light pole bases. Started biofiltration area. Started elevator tank. Started clock tower footing. Started plaza electrical conduits and irrigation pipes. Started water lines.

Period Ending: July 31, 2014

#### METRO GOLD LINE FOOTHILL EXTENSION CONSTRUCTION AUTHORITY

Monthly Project Status Report

Period Ending: July 31, 2014

Description: Intermodal Parking Facilities & Enhancements Status: June 15, 2014

Contract No.: C1150 Contractor: Webcor Builders

# Progress Completed This Period Design

• Submit AFC Design - Azusa-Citrus Parking Structure (partial)

# Activities Planned Next Period Design

- Submit AFC Design Azusa-Citrus Enhancements
- . Submit AFC Design Azusa-Citrus Parking Structure
- · Submit Schedule of Values Azusa-Citrus

#### Areas of Concern

IRWINDALE PARKING STRUCTURE DESIGN - The Authority has issued the Design-Build Contractor a Potential Change Order to revise the location of the Irwindale Parking Structure from the current location identified in the 85% design submittal. The revised design will require the parking structure to be moved in order to avoid a utility conflict with the existing SCE distribution line. The redesign effort will impact the completion of the AFC design and potentially impact the Substantial Completion milestone. The parking structure package is expected to be completed by June 2014.

#### Areas of Concern (Continued)

- IRWINDALE SITE PUMP STATION The site excavation, which is
  near complete has been suspended because the excavation for the
  pump station invert is within the railroad zone of influence. The
  Design-Build Contractor will re-design the pump station to avoid the
  installation of railroad shoring. The re-design will impact the
  completion of the site preparation.
- IRWINDALE SCE POLE SHORING The existing SCE pole, which
  was left in place to avoid relocation requires shoring to complete the
  site excavation. The Design-Build Contractor shoring design was
  submitted to SCE for approval this period. The shoring approval and
  installation are is required to start the completion of site excavation
  and MSE wall construction.

AUTHORIZTION FOR EXPENDITURE

Budget

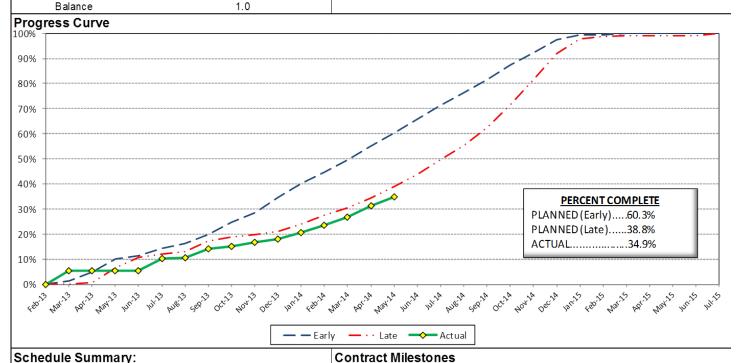

Commitment

#### Cost Assessment:

The current cost forecast is 49.2 Million. The forecast decreased \$66 Thousand from the previous period. The decrease is due to CO 004 - Irwindale Structure Relocation. The current forecast is within the authorized budget.

The Design-Build Contractor has earned 17.0 Million and is currently 34.9%

The Design-Build Contractor is trending beyond the late curve, which is due to the progress of the Irwindale Parking Structure, and Azusa-Citrus Parking Structure, AFC designs. In addition, the Design-Build Contractor has not submitted a schedule of values for Contract Document Requirement List (CDRL) bid items, which is also having an impact on progress reporting.

#### Schedule Summary: Contract Award:

2	Punchlist Complete	05/29/15	05/29/15	09/30/15	(124)
3	Final Completion	07/13/15	07/13/15	11/14/15	(124)
4	TPSS Work	03/01/14	03/01/14	3/31/2014 A	(30)

#### Schedule Assessment:

Elapsed Time from NTP:

The critical path is currently through the Irwindale site preparation. Although the site has been excavated, the start of the pump station construction was suspended due to the Design-Build Contractor's re-design of the structure. The structure was re-designed to avoid the installation of railroad shoring. As a result, the installation of the soil nail wall and MSE walls can not begin until the pump station structure reaches the second of four concrete lifts. At this time, the pump station re-design has not been approved and the construction start will slip to mid July 2014.

#### **AZUSA TO MONTCLAIR SEGMENT**

#### **ACTIVITIES COMPLETED THIS PERIOD**

The Board, at its May 28, 2014 meeting, certified the First Addendum to the Phase 2B FEIR. This addendum replaced the at-grade crossing at Garey Avenue in Pomona with an aerial grade separation of the light rail tracks. The Authority held kick-off meetings with each corridor city to discuss the project. Authority and City staff are beginning the process of negotiating a Master Cooperative Agreement. The Authority has also initiated the restart of the Station Design Art Program (SDAR). The first SDAR meetings are planned to begin in September 2014. Staff continues to work on the following technical elements of the project:

- Continued advancement of the plan and profile drawings
- Authority staff met with AECOM to discuss scope of work for the right-of-way and composite existing Utility drawings
- Began development of geotechnical scope of work for AECOM to perform
- Began development of parking facilities scope of work for AECOM to perform

#### **KEY FUTURE ACTIVITIES**

The advanced conceptual engineering process is an 18-month process. Upon completion, the Azusa to Montclair segment will be ready for a design-build procurement. Upcoming activities include establishing coordination meetings with each corridor city, kickoff of the ROW drawing work, refinement of the alignment, completing the SDAR, and kickoff of utility drawings and geotechnical investigations.

#### Federal Transit Administration (FTA)

The Metro Board of Directors excluded the Gold Line from seeking federal New Starts funding. The Authority will work together with Metro along with the Congressional delegation to seek funding to construct the extension following completion of the environmental review.
