PROJECT OVERVIEW

Major Contract Procurement

Metro advertised the Southwestern Yard (Division 16) design-build contract on August 29, 2014. For this two-step procurement, both Step One Technical Bid and Step Two Price Bid were received on January 22, 2015. Proposers whose Step-One Technical Bids are determined to be acceptable by Metro will be notified that their Step-Two Price Bids will be publicly opened. Metro continues to evaluate the Step-One Technical portion of the submittal. Award has been rescheduled for May 2015 with subsequent notice-to-proceed to follow in June 2015.

Construction

Contract C0990 - The advanced utility relocations contractor, Metro Builders and Engineers Group, LTD was substantially completed on August 21, 2014. Contract is now in close-out phase. Metro is meeting with the contractor to resolve outstanding issues including resolution of claims that have been submitted by contractor.

Design- Build Contract C0988 – The design-builder, Walsh-Shea Corridor Constructors (WSCC) continues final design with preparation of required contract submittals. *The designer is completing design for the most critical items that support the commencement of construction in the various areas of the project. Status of major components of design is as follows:*

- Support of Excavation Support of Excavation (SOE) down to 25-ft has been approved for Expo and MLK Stations. In addition, Underground Guideway No. 1 SOE has been approved. The Vernon Station SOE is at Final Design (100%) phase.
- Stations At-grade and aerial stations are at Final Design (100%) phase. Underground stations are at Request for Construction (RFC) (85%) phase.
- Early Bridge Submittals Approved the Green Line substructure and Metro is reviewing the early foundation work for 111th, Manchester, and La Brea Final Design submittals.
- Guideway Design Segment B at AFC and Segment A and C are at Final (100%) reviews.
- Systems Design Generally 85% completed. Traction Power near Final Design.
- Cities City of LA design submittals at 85% and City of Inglewood at 100%.

Construction efforts by the design-builder continued along the three major areas or segments:

Segment A – (South end, stationing 7+50 to 130+00)

- Commenced piling for underground guideway No. 1.
- Competed CIDH piling for Century/Aviation Bridge. Anticipate false work to commence in April 2015.
- Continued preparing for first CIDH piles at Green Line Bridge. Work continuing includes potholing to clear subgrade of obstructions and preparation of worksite traffic control plans. Plan to start CIDH piling after approval of worksite traffic control plan.
- The underground storage tanks at the Dollar Rent a Car site (Southwestern Yard) were removed.

PROJECT OVERVIEW (Continued)

Segment B – (Stationing 130+00 to 365+00)

- Tree removals within the City of Inglewood limits were completed in February.
- Continued hauling off excess dirt from La Brea Station to landfill.
- Assembled concrete recycling facility at the La Brea Station and commenced crushing concrete.

Segment C – (North end, Stationing 365+00 to 449+00)

- Crenshaw/Exposition Station area
 - Continued utility support in place under street decking.
 - Continued removal of contaminated soil near northwest section of excavation site.
- Crenshaw/MLK Station area
 - o Completed CSM piling.
 - o Completed pin pile installation.
 - o Began waler and cap beam installation on the west side of station.
 - o Preparing for deck beam installation in March 2015.
- Crenshaw/Vernon Station area
 - Completed west pile installation.
 - o Commence east piles installation in March 2015.

Right-of-Way

There are a total of 74 parcels; one more parcel was added in October 2013 which was originally an encroachment. There are 35 full takes, 27 partial takes and 12 temporary construction easements (TCE's). There have been 49 parcels acquired through February 2015. Thirty-five full takes and 14 part takes/ temporary construction easements have been provided to design-builder WSCC.

Metro has acquired all full takes required for the construction of the Project. Focus now is on completing the acquisition of part-takes and entering into agreements for temporary construction easements that are required for the Project.

Systems

Metro staff initiated a study to explore possible alternative layouts to accommodate the central control functions associated with new project needs, such as Crenshaw/LAX project, within the existing ROC facility as an interim measure. Metro has determined that the best interim course of action is to expand the existing functional operations at the ROC under a Phase 1 approach to support five new rail lines and extensions including the Crenshaw/LAX Project. The existing ROC will be expanded and will reconfigure the existing ROC service control and closed circuit television monitoring areas to increase overall space requirements by approximately 22 percent. A full build-out of a combined BOC/ROC is also being planned under a Phase 2 approach on land to be acquired by Metro as a separate Capital Improvement Project near Division 20.

PROJECT OVERVIEW (Continued)

Final design of the ROC Reconfiguration Plan was completed and issued for review on February 28, 2014. The initial ROC reconfiguration effort will be for Exposition Phase II and Foothill Gold Line Projects. Crenshaw/LAX Transit Project ROC reconfiguration will be initiated in June 2017 and completed by February 2019.

Program Management

In May 2013, the Board approved a Motion that amended the fiscal year 2014 Proposed Metro Budget to include funding for an underground station at Leimert Park Village and an at-grade station at Hindry as part of the baseline project. This Motion added \$135 million to the LOP budget which included \$80 million in uncommitted fiscal year 2014 funding and \$55 million from the City of Los Angeles. Metro reached agreement with the City of Los Angeles to cover the incremental cost of the stations above the \$80 million identified in fiscal year 2014 funding which the Metro Board approved in May 2014.

With board approval on June 27, 2013, the additional \$135 million is included in the sources of funds chart as well as the additional \$160.1 million for the increased cost of the base work. All recommendations were approved by the Board on June 27, 2013 except that change order authority was maintained at \$500,000. This board action amended the life of project budget to \$2,058 million.

The current budget includes the 49% cost allocation share that the Project is responsible for paying for the design and construction of the Southwestern Yard. This amount is \$139.4 million of the \$285.2 million forecast cost for the Southwestern Yard. The \$139.4 million is allocated in the various SCC categories.

The amount of funding available for the Crenshaw/LAX Transit Corridor Project, excluding the Southwestern Yard \$139.4 million allocation and Environmental/Planning budget of \$26.0 million is \$1,892.6 million.

The LOP budget is funded by various sources of funds which include local, state and federal funding. The TIFIA Loan is categorized under local funds as the loan is secured by a pledge of Measure R local sales tax funds. *The funding percentages are as follows: local funding 79.9%, state funding 8.8% and federal funding 11.3%.*

The project commitments thru February 2015 are \$1,674.4 million or 81.4% of the Current Budget. The project expenditures thru February 2015 are \$596.5 million or 29.0% of the Current Budget. The current period expenditures are for design-builders monthly design and construction costs as well as right-of-way and professional services costs. The expenditures to date also include the Southwestern Yard expenditures that are part of the 49% cost allocation share (\$139.4 million) that the Project is responsible for paying for.

The forecast of the available project schedule contingency was reduced this month. This month the design-builder included in their February 2015 Schedule Update narrative a projected delay of an additional 25 calendar days. Metro is reviewing the schedule update

PROJECT OVERVIEW (Continued)

and does not concur with the design-builder's assessment of the potential slippage. However, Metro this month is showing the potential delay as a reduction in the overall schedule contingency which is now a cumulative 99 calendar days. Metro continues to meet with the design-builder to discuss the schedule and review any potential mitigation opportunities available to the design-builder to mitigate a projected schedule slippage.

A Risk Management Quarterly Progress Report with a status of December 2014 will be issued March 6, 2015. On a monthly basis, the project's risk manager will advise project management of the risk register items mitigation status. The next major risk workshop is planned for the fall 2015. The prerequisites for holding the workshop are: 1) Contract C0988 design-builder to have substantially complete final design, 2) Contract C0991 Southwestern Yard design-builder to have submitted and Metro approve their baseline schedule, and 3) substantial completion of real estate acquisition of part-takes and temporary construction easements.

MANAGEMENT ISSUES

Concern No. 1: Complete Construction Safety Phasing Plan (CSPP) for design-builder scope of work near LAX and receive FAA approval.

<u>Status/Action</u> The 7460 permits for upcoming construction activities along Aviation Blvd. submitted by WSCC have been approved by FAA with conditions. *WSCC is proceeding with construction within the terms of the permits. (Closed*)

Concern No. 2: Execution of 3% Local Match funding agreement with the City of Inglewood.

<u>Status/Action</u> Metro and the City of Inglewood continue to work through various issues and may have solutions to outstanding issues so an agreement can be executed in the future.

Concern No. 3: Right-of-way acquisition forecast dates are trending later than planned.

Status/Action Metro continues to turn over parcels to the design-builder as they are acquired. *There have been 49 parcels acquired through January 2015.*

Metro staff is focusing on the acquisition of the smaller real estate parcels which include part takes, street easements, temporary construction easements and rights of entry required for construction in advance of the design-builder's need date.

Concern No. 4: Timely future reviews of WSCC final design submittals by City of Los Angeles, City of Inglewood, Caltrans, FAA and Los Angeles World Airports.

<u>Status/Action</u> Metro is coordinating with all third party agencies in advance of WSCC final design submittals to ensure that timely review requirements will be met to support WSCC's current schedule submittal dates. The final design submittals will be submitted for review by third parties according to the most critical submittals to ensure the third party agencies are reviewing the most important designs first. Also, along with the concern above is the potential for third party agencies review comments leading to potential change requests outside of the original design signed off by the agencies during the preliminary engineering phase of the project. Metro will take action and strictly monitor the review comments from the agencies.

Concern No. 5: Additional scope of work for the design-builder to accommodate the Los Angeles World Airports (LAWA) Specific Plan Amendment Study (SPAS).

MANAGEMENT ISSUES (Continued)

Status/Action The scope of work is for Metro to undertake a parallel design effort and construct changes in the vicinity of the Aviation/Century Station to accommodate elements of the SPAS. The Crenshaw/LAX Transit Project obtained Metro Board authorization to Proceed in December 2013 with the required future design or construction effort. Four changes have been executed with WSCC, three for design and one for construction. Metro is also working with LAWA on additional changes that may be considered by the Metro Board of Directors in the near future. The existing and any potential new changes to WSCC are not funded by the Crenshaw/LAX Transit Project but are funded by other funding sources.

Concern No. 6: Relocations of utilities by outside third parties required to be performed in advance of the main Crenshaw/LAX Design Build Contractor's work.

<u>Status/Action</u> Metro continues to work closely with various third party agencies and have set up weekly meetings to address all known remaining utility relocation work. The emphasis is to have the relocations of utilities performed in advance of when WSCC will be performing work in the same location. *LADWP at Vernon Station is anticipated to be completed earlier than projected and should not impact the design-builder's critical path. This was due to a close working relationship between Metro, WSCC and LADWP to implement a work around to decrease schedule risk.*

Concern No. 7: Design-builders design submittal schedule

<u>Status/Action</u> WSCC continues to submit design submittals later than planned. WSCC is submitting submittals in advance of the construction need date but may potentially be at risk of late design submittals impacting future start of various construction activities. Metro has been working closely with WSCC and the cities to address the submittal schedule changes so as not to impact the project schedule critical path. Metro and the cities have also accelerated submittals specified as critical by WSCC to not impact construction.

Concern No. 8: Design-builders construction schedule

Status/Action The forecast of the project schedule contingency was reduced this month. The design-builder included in their February 2015 Schedule Update Narrative a projected delay of an additional 25 calendar days. Metro is reviewing the schedule update and does not concur with the design-builder's assessment of the potential slippage. Metro continues to meet with the design-builder to discuss the schedule and review any potential mitigation opportunities available to the design-builder to mitigate impact of any schedule slippages addressed in their schedule update. Metro is showing the potential delay as a reduction in the overall schedule contingency which is now a cumulative 99 calendar days.

Crenshaw/LAX Transit Project
Monthly Project Status Report

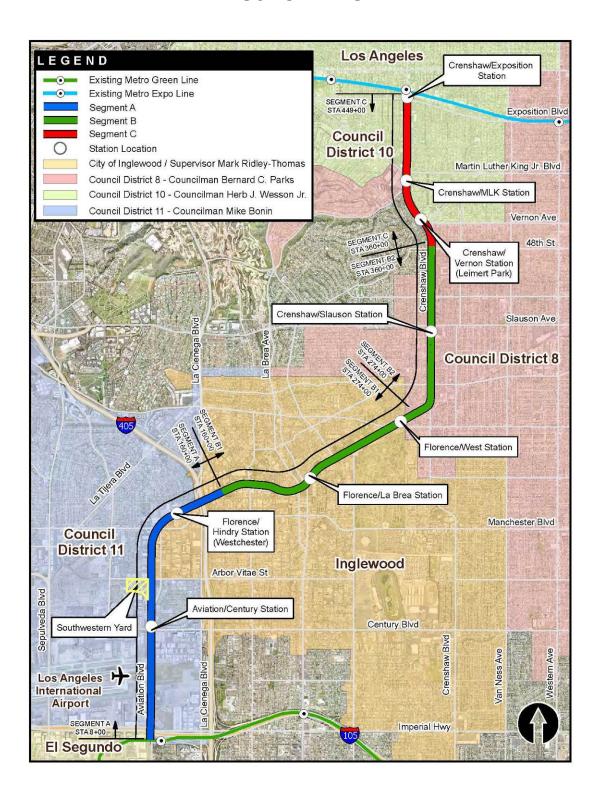

February 2015

MANAGEMENT ISSUES (Continued)

Concern No. 9: Cost and schedule impacts on the Crenshaw/LAX Transit Project for a potential new station at 96th Street.

Status/Action As Metro explores the possibility of an additional new station at 96th Street staff is reviewing the potential impacts on the existing design-builder's scope of work and on the overall project cost and schedule.

PROJECT ALIGNMENT

PROJECT SCOPE

The Crenshaw/LAX Transit Corridor is a north/south corridor that serves the cities of Los Angeles, Inglewood, Hawthorne and El Segundo as well as portions of unincorporated Los Angeles County. The alignment extends 8.5 miles, from the intersection of Crenshaw and Exposition Boulevards to a connection with the Metro Green Line at the Aviation/LAX Station. The project provides major connections with the Los Angeles International Airport (LAX) as well as links to the Metro Green Line, the Exposition Line and countywide bus network. The Board adopted a light rail system as the Locally Preferred Alternative (LPA) in December 2009.

The alignment is comprised of a double-tracked right-of-way consisting of sections of at-grade in-street, at-grade within railroad right-of-way, aerial, and below-grade guideway sections, eight stations, park and ride facilities at three locations, utilities, landscaping, roadway improvements required by the project and a maintenance & storage facility (Southwestern Yard).

The scope of work for the three construction contracts and two owner-supplied equipment contracts is shown below.

Contract C0990 Crenshaw/LAX Advanced Utility Relocations

The design of several early utility relocations was advanced sufficiently into final design to allow for bidding of critical early utility relocations. This contract includes relocating three (3) existing duct banks that feed various NAVAIDS on the south airfield complex. New ductbank infrastructure will be built by Metro with the fiber replacement work and cut-over by FAA/LAWA. These ductbanks contain fiber lines and power lines which belong to both LAWA and FAA. Since the track alignment is below grade at these crossings, the ductbanks have to be relocated in advance to allow for the construction of the track alignment. In addition, other wet utilities along the Harbor Branch and Crenshaw Boulevard segments of the corridor that can be relocated in advance are included as part of this contract.

The project delivery method for this contract was bid-build Invitation for Bid (IFB).

Design-Build Contract C0988 Crenshaw/LAX Transit Corridor

This is the largest project contract which will complete final design and construction of the infrastructure required along the corridor alignment. The structures required to be constructed are eight stations, grade separations including flyover structures, cut and cover trenching, tunneling and three park-n-ride facilities. The scope of work will include all the necessary systems work including train control, traction power supply substations and distribution, overhead catenary, communications, and systems tie-in to the existing Metro Green Line. The project delivery method for this contract was design-build utilizing a two-step best value procurement approach with submittal of qualification statements through a RFQ process, prequalification of qualified proposers followed by release of a RFP soliciting technical and price proposals with an option at Metro's discretion for best and final offers (BAFO).

PROJECT SCOPE (Continued)

Design-Build Contract C0991 Southwestern Yard

The Board-adopted 2009 Long Range Transportation Plan (LRTP) for Los Angeles County envisioned one new central Light Rail Transit (LRT) Maintenance facility to be used by all projects. Since the LRTP adoption, substantial progress on light rail system planning and development, including more accurate vehicle assignments, cost estimates, and functional requirements, has led Metro to conclude that two new LRT yards, an Eastern Yard and a Southwestern Yard, are necessary. This contract will construct the Southwestern Yard which will consolidate maintenance facility requirements for this project as well as the operating Metro Green Line, proposed South Bay Metro Green Line Extension and proposed Metro Green Line to LAX. The cost of constructing the Southwestern Yard will be proportionately split among the four projects.

The project delivery method for this contract is a two-step design-build IFB approach.

Owner-Supplied Equipment - Contract C0992 Crenshaw/LAX Concrete Ties and Assembly Items

Metro added a contract for procuring owner-supplied equipment for the Design-Build Contract C0988 Crenshaw/LAX Transit Corridor Contractor. The equipment within the contract scope of work includes concrete ties and assembly items.

The project delivery method for this contract was bid-build IFB approach.

Owner-Supplied Equipment - Contract C0992A Crenshaw/LAX Rail and Bumping Posts Procurement

Metro added a contract for rebidding the procurement of running rail and bumping posts for the Design-Build Contract C0988 Crenshaw/LAX Transit Corridor Contractor.

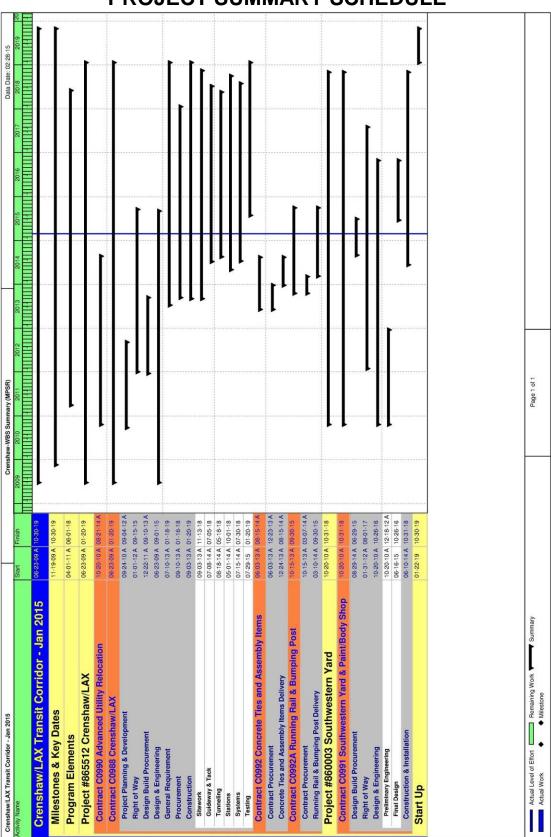

The project delivery method for this contract was bid-build IFB approach.

KEY MILESTONES SIX- MONTH LOOK AHEAD

	Milestone Date	Feb-15	Mar-15	Apr-15	May-15	Jun-15	Jul-1

OVERALL CONSTRUCTION PROGRESS CURVE STATUS

The above planned progress curve is based on planned expenditures by the design-build contractor in the C0988 baseline schedule and planned expenditures projected for other scope of works. The actuals are overall project expenditures cumulative through January 30, 2015.

The cumulative overall project expenditures by February 2015 is \$596 million, which is 29.0% of the total project adopted budget of \$2,058 million, while the planned overall project progress by February 2015 is 29.9%.

MAJOR EQUIPMENT DELIVERY STATUS

Tunnel Boring Machine

WSCC, the design-builder for Contract C0988, will procure the tunnel boring machine (TBM) and equipment.

Following are the major milestone dates for TBM procurement:

	Baseline	Jan-15	Feb-15	Monthly Varianc e
Submit Final Design Details for TBM	01/03/14	01/31/15	03/03/15	-31
Fabricate & Deliver TBM	09/22/14	11/21/14A	11/21/14A	0
Procure & Deliver TBM Rolling Stock & Accessories	06/23/14	05/01/15	05/01/15	0
TBM SB Tunnel Launch at Expo	04/28/15	11/27/15	12/14/15	-17
TBM SB Break through at Vernon	09/17/15	04/12/16	05/04/16	-22
TBM NB Tunnel Launch at Expo	10/29/15	06/01/16	06/17/16	-16
TBM NB Break through at Vernon	03/21/16	10/13/16	11/04/16	-22

Light Rail Vehicles

The Board approved exercising Option 1 of Contract P3010 with Kinkisharyo International to provide light rail vehicles (LRV) for the Crenshaw/LAX project. By exercising this option prior to August 20, 2013, the Project avoided price escalation costs. The total number of vehicles in the option is 28 which include 20 LRVs for the Crenshaw/LAX project and two additional cars for spares.

The first six pilot cars for the initial order of cars (non-option) are planned to be delivered on July 2015; then four cars will be delivered every month starting from Aug 2015 with the last group of cars to be delivered on Jan 2017.

Mobilization of Option 1 will commence after completion of the initial order. First delivery of Option 1 cars will be February 2017 and the last of the cars in September 2017.

Ticket Vending Machines

Procurement of the ticket vending machines will commence after the design-builder completes final design and the total requirements for the project are known.

Concrete Ties and Assembly Items

All required concrete ties have been delivered to the job site.

Running Rail & Bumping Post

The delivery of the equipment is as follows:

- SDI 115RE SS Rail Delivery 7/16/2014 (Completed)
- Evraz 115RE HH Rail Delivery 8/11/2014 (Completed) Bumping Post Delivery – 9/30/2015

DESIGN-BUILDER'S (C0988) LONG LEAD ITEM LIST

Item	Submittal*	Delivery	Needed by

^{*}Note: The submittal date shown is the forecast MTA approval date for the last design submittal.

CRITICAL PATH NARRATIVE

Critical Path:

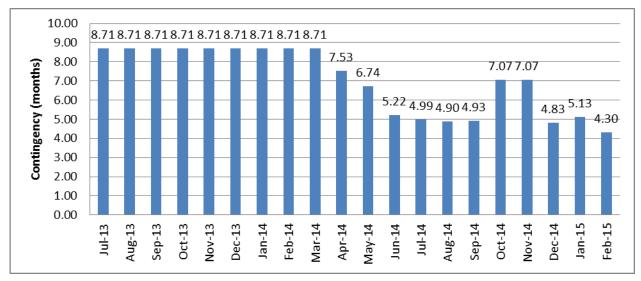

The longest path to project substantial completion begins with final design of the Design/Build Contract #C0988 Crenshaw/LAX Transit Corridor.

The most critical and longest path starts with the Expo Station support of excavation (SOE) and decking, excavation & invert construction; TBM mining operation; cross passage excavation, tunnel invert and walkway construction; track and system installation, while the MLK & Vernon station SOE, decking & excavation, underground structure #3 shoring and excavation and underground structure #4 cut and cover follow closely as the secondary critical path.

Critical work concludes with phase I systems integration testing by the C0988 contractor, phase 2 systems integration testing by MTA and then pre-revenue operations.

The current critical path indicates Milestone 1 - Contract Substantial Completion date is Jan 20, 2019, which is 134 calendar days behind. Of the 134 days, LADWP waterline delay is total 35 days that is concurrent with WSCC CSM submittal delays.

PROJECT SCHEDULE CONTINGENCY DRAWDOWN

PROJECT SCHEDULE CONTINGENCY DRAWDOWN ANALYSIS

The project schedule contingency drawdown is based on the revenue service date of October 30, 2019. The change of LOP Contingency is due to design-builder reforecast of their substantial completion milestone.

PROJECT COST ANALYSIS

The project numbers 405512, 465512, 865512, and 860003 are internal to Metro and are used to differentiate between environmental/planning and construction components of the project.

Original Budget:

The Board in October 2011 established the Life-of-Project (LOP) budget of \$1,749 million for the Crenshaw/LAX Transit Project.

Current Budget:

There have been two increases in the LOP to date:

- The Board in December 2012 approved an increase of \$13.9 million for a new LOP total of \$1,762.9 million. The Unallocated Contingency Standard Cost Category (SCC) 90 budget line item was increased by the \$13.9 million for a new total of \$191.1 million.
- The Board in June 2013 approved an increase of \$295.1 million for a new LOP total of \$2,058.0 million. The total increase was based on two actions:
 - o Increase LOP base project scope in the amount of \$160.1 million, and
 - o Increase LOP to include the options for Crenshaw/Vernon Station (Leimert Park Village) and Florence/Hindry Station in the amount of \$135.0 million.

The current budget includes the 49% cost allocation share that the project is responsible for paying which includes funding of the design and construction for the Southwestern Yard. This amount is \$139.4 million of the \$285.2 million total project forecast cost for the Southwestern Yard. The \$139.4 million is spread among the SCC categories 30, 40, 60, 80 and 90 in the Cost Report by Element table above.

SCC-30 budget of \$66,673,000 for the Southwestern Yard includes fundings for SCC-30, SCC-40, SCC-50, and SCC-80 Final Design scope of work.

PROJECT COST ANALYSIS (Continued)

The amount of funding available for the Crenshaw/LAX Transit Project, excluding the Southwestern Yard \$139.4 million allocation and Environmental/Planning budget of \$26.0 million, is \$1,892.6 million.

Current Forecast:

The total project current forecast is \$2,058 million. There is no current forecast variance with the current budget. However, there were changes within the standard cost categories (SCC). Guideways SCC-10 and Sitework/Special Conditions SCC-40 that offset each other. The changes were the decreasing of available allocated contingency for Guideways SCC-10 and increasing the available allocated contingency for Sitework/Special Conditions SCC-40.

Commitments:

The commitments are cumulative through February 28, 2015. The total commitments increased by \$0.7 million this period primarily due to the following:

- SCC-20 (Stations, Stops, Terminals, Intermodal) has increased by \$0.7 million for executed modifications associated with design-build Contract C0988 Crenshaw/LAX Transit Corridor.
- SCC-40 (Sitework and Special Conditions) has increased by \$0.2 million for costs for executed modifications associated with design-build Contract C0988 Crenshaw/LAX Transit Corridor. The total commitment of \$344.0 million includes \$6.5 million for the Southwestern Yard.
- SCC-80 (Professional Services) has decreased by \$0.2 due to de-commitments and purchase order close-out of Engineering and Design Contract E0117. The total commitment of \$207.8 million includes \$6.3 million for the Southwestern Yard.

The \$1,674.4 million in commitments to date represents 81.4% of the current budget.

Expenditures:

The expenditures are cumulative through February 28, 2015. The total expenditures increased by \$19.7 million this period due to the following:

- SCC-10 (Guideways) has increased by \$4.1 million for costs associated with the design-build Contract C0988 Crenshaw/LAX Transit Corridor.
- SCC-20 (Stations, Stops, Terminals, Intermodal) has increased by \$9.2 million for costs associated with the design-build Contract C0988 Crenshaw/LAX Transit Corridor.
- SCC-40 (Sitework and Special Conditions) has increased by \$3.1 million for costs associated with the design-build Contract C0988 Crenshaw/LAX Transit Corridor and third party scope of work with Southern California Edison.
- SCC-80 (Professional Services) has increased by \$3.2 million for costs associated with design-build Contract C0988 Crenshaw/LAX Transit Corridor, Metro project administration, IPMO field office lease and utilities, legal services, permit fees, tunnel advisory panel, coordination services by City of Los Angeles, project management support, community relations and environmental consultant services. The total expenditure of \$159.9 million includes \$2.2 million for the Southwestern Yard.

PROJECT COST ANALYSIS (Continued)

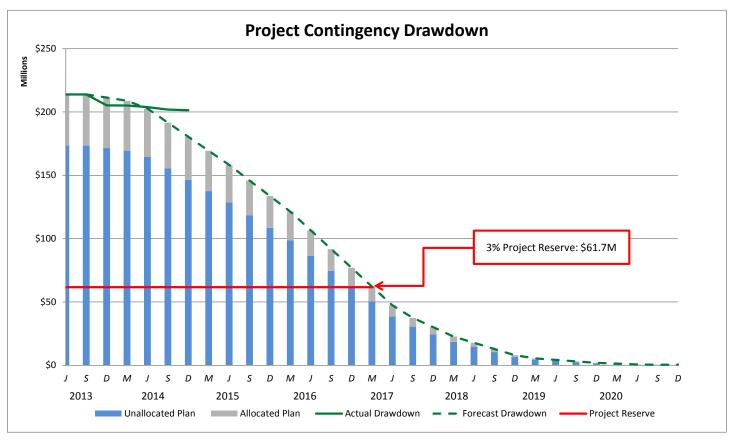

The \$596.5 million in expenditures to date represents 29.0% of the current budget.

Non-Crenshaw/LAX Transit Project Funded Scope of Work

The costs shown in the table below are not part of Crenshaw/LAX Transit Project costs but are funded by other Metro projects using the services of the design-builder (Contract C0988).

PROJECT CONTINGENCY DRAWDOWN

Through 31-Jan-2015

PROJECT CONTINGENCY DRAWDOWN ANALYSIS

The project current budget of \$2,058,000,000 includes an "unallocated contingency" amount of \$173,500,000 which is included as a separate Standard Cost Category (SCC) element. Also included within the current budget is an "allocated contingency" of \$40,366,792 which is allocated, where applicable, to specific contracts within each SCC element. The allocated contingency is not broken out separately in the current budget, as this amount covers anticipated but unknown contract modifications issued by Metro. The total project cost contingency is \$213,866,792 or 10.4%.

Included in the project contingency drawdown is a 3% project reserve line. The Board is to be notified when it becomes necessary to drawdown contingency below the project reserve line to cover project costs. This was adopted by the Metro Board of Directors in September 2012.

The project contingency drawdown curve is based on an October 2019 revenue service date.

Crenshaw/LAX Transit Project
Monthly Project Status Report

February 2015

PROJECT CONTINGENCY DRAWDOWN ANALYSIS (Continued)

There has been a cumulative drawdown of \$12,449,039 or 5.8% of the contingency included in the Current Budget through December 2014. The cumulative to date contingency drawdown is reported quarterly with the next drawdown to be reported through March 2015. The drawdown of allocated contingency for additional costs associated with the design-builder's (Contract C0988) executed modifications is tracked monthly but is reported quarterly in this report. The cumulative drawdown of contingency is shown in the table below:

PROJECT CONTINGENCY DRAWDOWN												
	Original	Drawdown	Drawdown	Drawdown	Remaining							
	Contingency	previous quarter	this quarter	To-Date	Contingency							
Unallocated Contingency	173,500,000	(8,655,000)	-	(8,655,000)	164,845,000							
Allocated Contingency	40,366,792	(3,794,039)	ı	(3,794,039)	36,572,753							
Total Contingency	213,866,792	(12,449,039)	-	(12,449,039)	201,417,753							

DISADVANTAGED BUSINESS ENTERPRISE (DBE) STATUS

Contract C0988 Crenshaw/LAX Transit Corridor Design-Build

DBE Goal – Design 20.40%

Current DBE Commitment \$20,232,929 (22.34%)

Current DBE Participation \$13,613,887 (20.62%)

• Twenty (20) Design subcontractors have been identified to-date

DBE Goal – Construction 20%

Current DBE Commitment \$236,116,671 (20%)

Current DBE Participation \$27,684,918 (12.57%)

• Forty Seven (47) Construction subcontractors have been identified to-date.

PROJECT LABOR AGREEMENTS (PLA) STATUS

Contract C0988 Crenshaw/LAX Transit Corridor Design-Build

(Reporting Data as of January 17, 2015)

NOTE: Expenditures are cumulative through February 2015.

Original Budget based on Board approved October 2011 Funding/Expenditure Plan

Total Funds Anticipated based on Board approved June 2013 Revised Funding

^{*} Other funds include: Local Agency Funds (\$107.470), CNG Tax Credit (\$54.000) and 3rd Party Lease Contingency (\$26.000)

STATUS OF FUNDS ANTICIPATED

FEDERAL – CMAQ: Metro submitted to FTA in October 2013 a draft grant application of \$30M for review. FTA has reviewed the application and allowed Metro to formally submit the grant application in July 2014. Grant was approved in December 2014. Funds are available for drawdown. Metro submitted to FTA in January 2015 a draft grant application of \$24M for review.

FEDERAL – RSTP: FTA approved a grant of \$45M in May 2014 to fund the project rail cars. Funds are available for drawdown. Metro submitted to FTA in October 2013 a draft grant application of \$28.2M for review. FTA has reviewed the application and allowed Metro to formally submit the grant application in July 2014. Grant was approved in December 2014. Funds are available for drawdown.

STATE PROP 1B – PTMISEA: An allocation request for \$12M was approved in May 2012 and funds are available for drawdown. In March 2013, allocation requests of \$11.4M and \$98.9M were submitted to Caltrans. The \$11.4M allocation request was approved in June 2013. Funds are available for drawdown. The \$98.9M allocation request was approved on February 6, 2014. Funds are available for drawdown. A new allocation request of \$6.170M was submitted in June 2014 to Caltrans for approval. The allocation request was approved on February 4, 2015. Funds are available for drawdown.

STATE PROP 1B LP: An allocation request of \$49.5M was submitted in April 2013 and approved in July 2013. The allocation request was executed by Caltrans in December 2013. Funds are available for drawdown.

MEASURE R – TIFIA LOAN (Transportation Infrastructure Finance & Innovation Act): Application for a loan of \$545.9 M was submitted to the US Department of Transportation (DOT) in November 2011. Loan agreement was executed on September 12, 2012. The first disbursement of \$337.4M is planned for June 1, 2015.

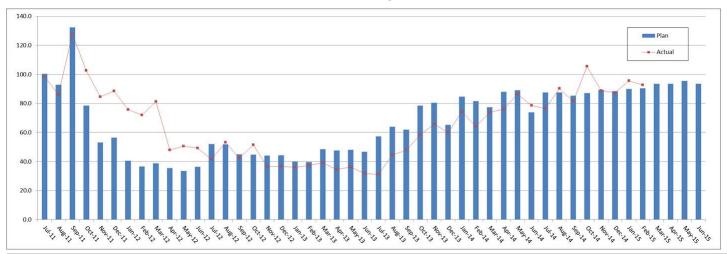

MEASURE R: \$377.4M has been allocated to the project through FY2015. Funds are available for drawdown.

PROP C 25% HIGHWAY: \$3.8M has been allocated to the project based on the June 2014 TIFIA Financial Model Funding Plan. Funds are available for drawdown.

PROP A 35% RAIL CAPITAL: \$4.8M has been allocated to the project based on the June 2014 TIFIA Financial Model.

STAFFING STATUS

Total Project Staffing - FTES

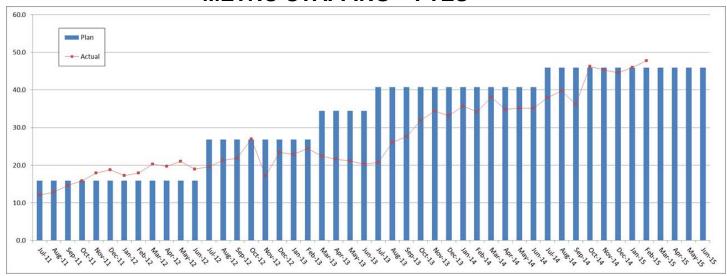

Notes:

- 1. FTE = Full Time Equivalent
- 2. Staffing levels are for project 865512 only.
- 3. Actual staffing levels are cumulative through February 2015.

TOTAL PROJECT STAFFING

For February 2015, there were a total of 47.7 FTE's for MTA's Project Administration staff and 44.9 FTE's for consulting staff. The total project staffing was 92.6 FTE's for February 2015. The overall FY15 Total Project Staffing Plan averages 90.1 FTE's per month.

QUALITY ASSURANCE STATUS

C0988 Crenshaw/LAX Transit Corridor Design-Build Contract

- Attended weekly Quality Staff Meetings with City of Los Angeles, Los Angeles Bureau of Contract Administration, HNTB, and WSCC Lead Quality personnel.
- Participated in several construction Work Package Reviews and related Readiness Review Meetings.
- Two follow-up surveillances were performed due to the audit of WSCC design and construction activities.
- The Los Angeles Bureau of Engineering (LABOE) Materials Group agreed to provide spot-check inspections of the Phase II Deck Panel fabrication at Mid-State, Corcoran, CA.
- Continue to use Testing Verifications by Independent Testing Laboratories for varying field activities including soil compaction testing, concrete testing, weld testing and nondestructive testing.
- WSCC issued one Nonconformance Report (NCR) and documented five conditions in a Potential Nonconformance Report (PNCR).
- MTA Quality issued two NCR's for earthwork and field welding issues.
- Approved the resumes of two WSCC Lead Inspectors.

C0990 Advanced Utilities Relocation for the Crenshaw/LAX Transit Corridor Project

Change Order prepared to address previous street damages in the Victoria Yard region.

C0992 Concrete Rail Ties

 Five rails were identified in WSCC Quality Daily Inspection Reports as being damaged/bent. The rail manufacturer, LB Foster, will provide a credit for the rail or will provide replacements with a two week lead time, if required.

ENVIRONMENTAL STATUS

C0988 Crenshaw/LAX Transit Corridor Design Build

- Reviewed and commented on the following Contractor Submittals:
 - Weekly Noise Monitoring Data for Expo Station, MLK Station and Vernon Station
 - Noise Control Plan for Concrete Recycling
 - o Green Construction Plan Monthly Reports
 - Sustainability Plan Monthly Reports
 - Weekly Storm Water Pollution Prevent Plan (SWPPP) inspection reports
 - Weekly Fugitive Dust Inspection Reports
 - Various Construction Work Plans
- Continue to document compliance with the Project Mitigation Monitoring and Reporting Plan (MMRP). Submitted Quarterly Mitigation Monitoring and Reporting Plan to FTA.
- Completed hazardous waste abatement (lead-based paint and asbestos) at parcels SW-0103 Dollar Rental Car and coordinated supplemental sampling at Parcels SW-0101 Avis Rental Car and CR-3304 Hi-Tech Cleaners.
- Continued remediation of contaminated ballast and underlying soil on former BNSF railroad along Metro ROW.
- Coordinated the permitting and removal of Underground Storage Tanks (USTs) with the City and County of Los Angeles and the Los Angeles Fire Department.
- Coordinated with property owner's environmental consultant for parcel SW-0104 for installation of soil remediation system.
- Coordinated Archaeological, Paleontological and Native American Monitoring. State
 Historic Preservation Officer (SHPO) has approved the Cultural Resources Monitoring
 and Mitigation Plan (CRMMP) and Paleontological Monitoring and Mitigation Plan
 (PMMP).
- Contaminated soil encountered during the excavation of the Expo Station from the former Gulf Oil Service Station located on the property.
- Received tree removal permit issued by the Bureau of Street Services (BSS) for the Phase II trees along the Crenshaw median.
- Coordinated tree removal permit applications for the City of Los Angeles for Phase II Crenshaw Boulevard sidewalk trees.
- Completed the removal of Phase III trees along Harbor Subdivision.
- Delivered tree trunks to "Trees to Drums" in Leimert Park.
- Attended Contractor Weekly Progress meetings, Environmental Task-Force Meetings and various over-the-shoulder submittal meetings with Contractor.
- Attended CLC Meetings, Neighborhood Council Meetings and Construction Update Meeting to discuss noise vibration and other environmental concerns.

CONSTRUCTION RELATIONS STATUS

- Gave project presentations at local Neighborhood Council and Block Club Meetings.
- Gave alignment tour to Crenshaw and Inglewood students and coordinated career presentations.
- Briefed various business groups and business owners on project status activities.
- Hosted a station-area business owner "meet and greet."
- Promoted Metro workshop and resource fair via email and local newspaper.
- Briefed Metro consultants for the Business Solution Center on construction issues.
- Facilitated Crenshaw Community Leadership Council (CLC) Planning Meeting.
- Attended Black Business Association's 45th Anniversary Awards and dinner.
- Hosted a Community Construction Update Meeting (bi-monthly).
- Briefed local stakeholders: West Angeles Church, Baldwin Hills Crenshaw Mall and LAWA.
- Briefed local council offices: CD-8 and CD-10.
- Ran radio spots on local stations to highlight the Eat, Shop, Play Crenshaw Campaign.
- Daily emails, phone calls and door-to-door outreach to businesses along the alignment for all construction activity.

SYSTEMWIDE DESIGN AND ART PROGRAM STATUS

- Responded to RFIs and submittal drawings.
- Continued to refine project artwork opportunities.
- Continued to facilitate stage one and two artist selection panel process.
- Participated in Systemwide Design integration reviews.
- Continued to facilitate construction fence artwork and mitigation selection panel process.

SIGNAGE

Responded to RFIs and submittals.

SAFETY & SECURITY STATUS

- Participated in weekly progress meetings with WSCC's Management and Construction Management Team to discuss safety/security related issues and construction schedules.
- Monitored construction activities on a daily basis including nights and weekends to ensure compliance with contract specifications.
- Implemented bi-weekly project site audit reviews with WSCC's Safety/Security personnel to enhance overall safety/security.
- Reviewed contractor safety submittals and construction work plans to ensure compliance with contract specifications.
- Emergency Action Plan-Utility Incidents submittal was rejected due to inaccurate contract phone numbers, notification to include Metro's Third party and Dig-Alert protocols.
- Walsh/Shea reported 79,704 work hours and one recordable incident for the month of February 2015. Total Project-to-Date work hours are 1,034,704 and six recordable incidents. The Project Incident Rate is 1.2. The Bureau of Labor Statistics (BLS) average recordable rate per 200,000 work-hours is 3.8.

THIRD PARTY AGREEMENT STATUS

Third Party	Type of Agreement	Forecast Execution Date	Required Need Date	Status/ Comments
City of Los Angeles	Amendment to Master Cooperative Agreement	N/A	N/A	Parties will work under 2003 MCA.
City of Inglewood	Master Cooperative Agreement	3/15	N/A	Executed Letter of Agreement April 2012. Metro working on outstanding issues.
Los Angeles Department of Water and Power	Amendment to Memorandum of Understanding	N/A	N/A	Metro and LADWP will work under 2002 Utility Cooperative Agreement which remains in effect.
Los Angeles County Public Works	Letter of Agreement	4/11	3/12	Executed
Caltrans	Amendment	8/11	3/12	Executed
Private Utilities	LOA, MOU or UCA	5/11 to 5 / 13	N/A	Metro is working with affected third party utilities under work orders unless license agreements dictate relocation by utility company. No additional agreements required.

ADVANCED UTILITY RELOCATION STATUS

- Design completed by DWP-Water for advance relocation of water lines along Crenshaw Boulevard. Start of construction was rescheduled due to impact of Buy America requirements. Relocations of water lines status:
 - o Crenshaw @ 60th St. relocation in progress, to complete by April 2015.
 - o Crenshaw @ 63rd St. relocation in progress, to complete by end of May 2015.
 - o Crenshaw @ 67th St. relocation in progress, to complete by April 2015.
 - o Crenshaw/Vernon Ave. complete by May 2015.
 - Crenshaw @ Hyde Park St. commenced in January 2015 and is scheduled for completion by June 2015.
- SCE Power new services and relocations scheduled for completion. The work includes the relocation of underground power line to accommodate new pedestrian undercrossing at Faithful Central Bible Church property. Design is in progress.
- Tesoro Oil design in progress for 8" gas line. Construction should commence in June 2015 and complete in September 2015.

Crenshaw/LAX Transit Project Peak Hour & Nighttime Construction Variances for the City of LA

- Metro has permit variances for nighttime and early morning construction for Segments A thru E.
- All permits have to be renewed every six months from date of issuance by the Los Angeles Police Commission.

Crenshaw/LAX Transit Project	February 2015
Monthly Project Status Report	

CHRONOLOGY OF EVENTS

2003	Major Investment Study
April 2007	Board authorized the CEO to award Contract PS 4330-1968 to complete environmental clearance and conceptual engineering.
December 2009	Board adopted the LRT Alternative as the Locally preferred Alternative and received and filed the Crenshaw Transit Corridor DEIS/DEIR.
December 2009	Board authorized the CEO to award Contract No. EO117 for Phase I, Advanced Conceptual Engineering.
September 2010	Board authorized the CEO to exercise option with Contract No. EO117 for Phase II Preliminary Engineering.
April 2011	Board adopted the Arbor Vitae/Bellanca (Site 14) LPA for the Maintenance Facility Site
July 2011	Board approved Southwestern Yard cost allocation.
September 2011	Board approved Project Definition and certified Final Environmental Impact Report
October 2011	Board approved the Life-of-Project Budget of \$1.749 billion.
December 15, 2011	CTC reviewed the FEIS/FEIR and adopted the required resolution for future funding consideration.
December 23, 2011	Request for Qualifications for Contract C0988 C/LAX Transit Corridor was released to Industry.
December 30, 2011	Received Record of Decision from FTA.
February 10, 2012	Released Invitation for Bid for Contract C0990 Crenshaw/LAX Advanced Utility Relocations.
March 12, 2012	Received Statement of Qualifications for Contract C0988 C/LAX Transit Corridor.

Crenshaw/LAX Transit Project
Monthly Project Status Report

CHRONOLOGY OF EVENTS (Continued)

May 16, 2012	Notification of pre-qualified proposers for Contract C0988 C/LAX Transit Corridor.
May 30, 2012	Awarded Contract No. C0990 C/LAX Advanced Utility Relocations to Metro Builders and Engineers Group LTD.
June 22, 2012	Released Request for Proposals for Contract C0988 C/LAX Transit Corridor.
August 24, 2012	Received approval from the Surface Transportation Board regarding BNSF Railway Company abandonment along five-mile Crenshaw Segment of the Harbor Branch ROW.
September 4, 2012	Preparation of a FONSI for Supplemental Environmental Assessment to the FEIS was approved by FTA.
September 28, 2012	Completed abandonment process with BNSF.
September 28, 2012	TIFIA and TIGER II Grants approved.
December 6, 2012	Received proposals for Contract C0988 C/LAX Transit Corridor.
February 22, 2013	Issued Amendment No. 8 requesting Best and Final Offers (BAFO) for Contract C0988 C/LAX Transit Corridor.
March 15, 2013	Received BAFO's for Contract C0988 C/LA Transit Corridor.
May 23, 2013	Board amended the Agency's FY14 Proposed Budget to include funding of \$80 million for an underground station at Leimert Park Village as part of the baseline project.
June 27,2013	The Board awarded Contract C0988 Crenshaw/LAX Transit Corridor to Walsh-Shea Corridor Constructors.
July 10, 2013	Issued notice of award to Walsh-Shea Corridor Constructors, Contract C0988 Crenshaw/LAX Transit Corridor.

CHRONOLOGY OF EVENTS (Continued)

CONTRACT C0988 STATUS

Crenshaw/LAX Transit Corridor

PE Design Contractor: Hatch Mott MacDonald (HMM) CM Consultant: Stantec

Contractor: - Walsh Shea Corridor Constructors (WSCC)

Progress/Work Completed:

Design

- Continued revised Segment A Readiness for Construction Design on Stations; Continued Segment A Final Design on Aerial Guideway Structures, Local Streets.
- Submitted Segment B Approved for Construction Design on Aerial Guideway Structures and Early Foundation La Brea Bridge. Continued Segment B Final Design on Local Street Harbor North and Stations.
- Submitted Segment C Readiness for Construction Design on Underground Station Vernon/MLK/Expo. Continued Segment C Final Design on Guideway and UG Station Invert Slabs.
- Continued Final Design Traction Power.
- Commenced Final Design Communication Systems.
- Continued preparation of ATC Specifications.

Construction

- Continued potholing in the Vernon MLK Station, UG #1 & UG #3.
- Continued geotechnical monitoring at Vernon, MLK, Expo & UG#1.
- Continued with SWPPP Implementation Segments A, B & C.
- Continued installation of soldier piles at Vernon Station.
- Completed Construction of SOE Pin Piles at MLK Station.
- Continued utility relocation/ support work at Expo Station Area.
- Continued excavation at Expo Station.
- Continued utility protection work at MLK and Vernon Station.
- Completed CIDH work at Century Blvd. Bridge.
- Continued column work at Century Blvd. Bridge.
- Completed excavation (5 feet depth) at UG #1.
- Commenced installation of SOE Piles at UG #1.

Contract No.: C0988

Status as of February 27, 2015

BOE approval process for structures.

Areas of Concern:

- MLK station. - Relocation of 24' LADWP water line may impact the decking operation at Vernon Station.
- The work for the 69" Hobas pipe work at Expo Station required by the City may impact the schedule and delay the TBM activities.

Possible cobbles and boulders found during excavation at Expo and

- Contaminated materials (weathered gasoline with high levels of TPH) discovered at Expo site.

Schedule Assessment:

Metro's assessment of the contractor's schedule update is that they are behind on meeting interim design milestones.

Contractor's Jan 2015 schedule update indicates Milestone 1 - Contract Substantial Completion is 134 calendar days behind. However a 35 calendar day contract modification for a concurrent delay is in process which would reduce the days behind to 99.

Cost Assessment:

The current construction contract cost forecast is \$1,280.06 million and is within the Board authorized budget.

The Contractor submitted their 18th payment application in the approved amount of \$ 13,264,832.93.

*Please note that not all executed modifications may have been included in the Contractor current payment application.

Schedule Summary:

1. Date of Award:	08/01/13
2. Notice to Proceed:	09/10/13

COST AND BUDGET TERMINOLOGY

Project Cost Descriptions -

ORIGINAL BUDGET The Original Project Budget as established by the Metropolitan

Transportation Authority (Metro) Board on October 27, 2011.

The Original Budget plus all budget amendments approved by CURRENT BUDGET

formal Metro Board action. Also referred to as Approved

Budget.

COMMITMENTS The total of actual contracts awarded, executed change orders

> or amendments, approved work orders of Master Cooperative Agreements, offers accepted for purchase of real estate, and other Metro actions which have been spent or result in the

obligation of specific expenditures at a future time.

EXPENDITURES The total dollar amount of funds expended by Metro for

> contractor or consultant invoices, third party invoices, staff salaries, real estate and other expenses that is reported in

Metro's Financial Information System (FIS).

CURRENT FORECAST The best estimate of the final cost of the project when all

> checks have been issued and the project is closed out. Current Forecast is composed of actual costs incurred to date, the best estimate of work remaining and a current risk assessment for

each budgeted cost item.

Cost Report by Element Descriptions -

CONSTRUCTION Includes construction contracts. Cost associated with

Guideways, Stations, Southwestern Yard, Sitework/Special.

Conditions and Systems.

RIGHT-OF-WAY Includes purchase cost of parcels, easements, right-of-entry

permits, escrow fees, contracted real estate appraisals and

tenant relocation.

VEHICLES Includes the purchase of LRT vehicles and spare parts for the

PROFESSIONAL

SERVICES

Includes design engineering, project management assistance, construction management support services, legal counsel,

agency staff costs, and other specialty consultants.

CONTINGENCY A fund established at the beginning of a project to provide for

anticipated but unknown additional costs that may arise during

the course of the project.

PROJECT REVENUE Includes all revenue receivable to the Metro as a direct result

of project activities. This includes cost sharing construction

items, insurance premium rebates, and the like.
