Phase 2 Exposition Metro Line Construction Authority Project Description

The Expo Phase 2 Project is located in the Westside of Los Angeles, extending approximately seven miles from the Expo Phase 1 terminus at Culver City Station to Santa Monica. The Phase 2 alignment begins at the terminus of Expo Phase 1 and utilizes the existing Exposition Right-of-Way (ROW), then diverges from the Exposition ROW and enters onto Colorado Avenue east of 17th Street. The alignment follows the center of Colorado Avenue to the proposed terminus in downtown Santa Monica in the vicinity of the intersection of 4th Street and Colorado Avenue.

Monthly Phase 2 Project Status Report

Period Ending – July 31, 2015

Phase 2 Exposition Metro Line Construction Authority Culver City to Santa Monica Segment

Project Management Issues

Mainline Schedule

The latest Skanska/Rados Joint Venture (SRJV) progress schedule shows Substantial Completion at the beginning of December, which is approximately four (4) months beyond the contractual Substantial Completion date. The latest progress schedule includes a conservative 30 day review cycle for final approval of test results and a 20 day rain allowance. The delay is due to several factors, which include delayed site turnover to the track installation subcontractor, delayed ductbank installation, and vibration mitigation design and construction. The contractor and the Authority are working on a mitigation plan to minimize these delays. This latest schedule is still within the schedule contingency allocation, and should therefore not impact the overall revenue operations date. The Authority anticipates having the system substantially complete for turnover to Metro to begin Phase 2 testing and Pre-Revenue operations in October 2015.

City of Santa Monica

Terminus property condemnation has been filed with the court. A legal issues trial date has been set for November 2015.

Operations and Maintenance Facility (OMF)

The current project schedule shows Substantial Completion of the OMF in December 2015, which is over six (6) months later than the current Substantial Completion date of May 2015. The project's slip is due to damage to the train control laterals, delays with the track work installation in the wash facility, delays in the main and secondary building construction and delays to the procurement of long-lead electrical equipment. The OMF contractor is looking at recovery options. The Authority anticipates having the facility turned over to Metro in October 2015.

MSE Wall Settlement

An approximate 300 foot area of earthwork fill East of Centinela Ave. settled at a rate greater than anticipated. SRJV has contracted with a firm to perform pressure grouting in this area to stabilize the settlement. Inspection of the wall panels have shown the panels are performing as required. No delays to testing or turnover are anticipated.

Monthly Phase 2 Project Status Report

Period Ending - July 31, 2015

Key Activities Completed This Period

Phase 2 Design-Build contractor, Skanska/Rados (SRJV)

- SRJV advanced remaining design elements. Staff worked with SRJV to resolve open issues.
- SRJV continued construction activities:
 - advanced OCS poles and wire;
 - o advanced station platforms and C/S rooms;
 - advanced support poles for canopies/artwork and pavers at stations;
 - advanced soundwalls
 - advanced TPSS site work (TPSS6 and TPSS7);
 - advanced street improvements including street lighting and traffic signal installation; and
 - continued train control installation.
- SRJV advanced construction submittals and requests for information; Authority staff reviewed and collaborated to resolve previously rejected submittals.
- SCE, DWP, and communications providers continued to relocate facilities and provide new service.
- Continued Local Field Acceptance Testing (LFATs) and Systems Integration Testing (SITs) for systems and train control.
- CPUC acceptance of Overland Grade Crossing.

Venice Boulevard Underpass Design-Build contractor

The Expo Phase 2 Contractor (SRJV) completed the remaining roadway construction work and continues final inspection with AHJ's and completion of punch list work.

Operations and Maintenance Facility, Kiewit Building Group (KBG)

- Track and Site Work:
 - continued coordination and installation of dry and wet utilities;
 - completed rail installation;
 - set SCE switchgear.
 - continued OCS pole and portal erection
- Main and Secondary Building:
 - completed main building roofing and interior drywall;
 - continued MEP installation;
 - continued installation of glazing.
- Wash Building & Cleaning Platform:
 - install roof at wash building;
 - hang precast panels.

Bikeway

- Soil mitigation completed, final DTSC review approval received.
- Grading, drainage, electrical conduit, bike light installation and paving in process.

Monthly Phase 2 Project Status Report

Period Ending - July 31, 2015

Key Future Activities

Phase 2 Design-Build contractor, Skanska/Rados (SRJV)

- SRJV advance remaining design elements. Metro, Authority, and third party staff will continue to work with SRJV to resolve comments and open issues.
- SRJV will continue the following construction activities:
 - advance stations:
 - advance OCS wire installation;
 - o install guideway lighting;
 - o advance canopy poles and station paver installation;
 - advance street improvements;
 - o SCE, DWP, and communication providers to finalize relocations and continue providing service to the remaining low voltage meters:
 - Continue LFATs and SITs for systems and train control.
 - Field review and CPUC acceptance of remaining grade crossings.

Venice Boulevard Underpass

- Finalize roadway and Culver City Plaza design and obtain third party approval.
- Expo Phase 2 Contractor (SRJV) will work on the roadway construction work punch list items.

Operations and Maintenance Facility contractor, Kiewit Building Group

- Continue Construction Safety Certification.
- Set interior equipment.
- Continue track installation.
- Continue start-up and activation meetings.
- Continue OCS wire and systems installation.
- Commence precast panel installation on wash building and cleaning platform
- Commence construction of guard shack;
- Commence installation of site lighting and parking areas;
- Energize train control bungalows and start LFATs.

Bikeway

Complete construction, signing and striping.

General

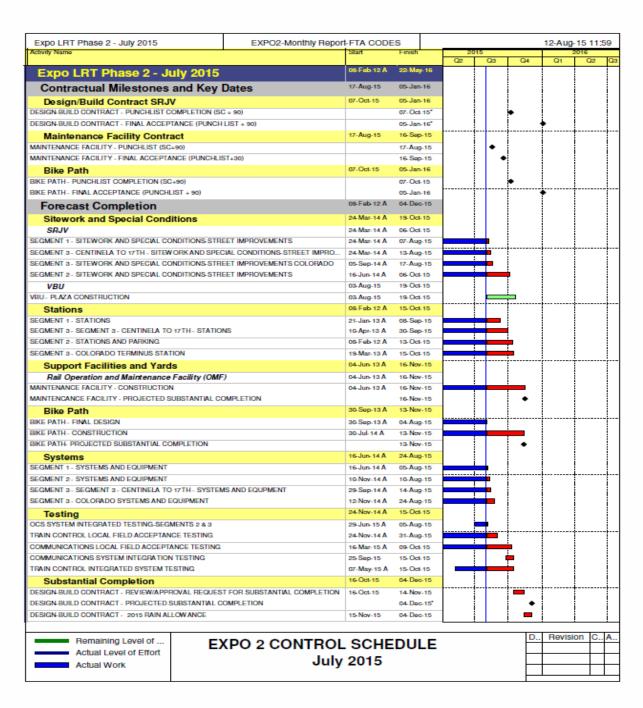

- Continue coordination with the COLA, CSM, Metro, and Caltrans.
- Facilitate Fire Life Safety Committee meetings.
- Continue FEIR mitigation measures.

Phase 2 Exposition Metro Line Construction Authority Schedule Status

Critical Path Schedule, Period Ending July 31, 2015

Monthly Phase 2 Project Status Report Period Ending – July 31, 2015

Schedule Narrative

Critical and Near-Critical Path Analysis

The Critical Path runs through the completion of the train control LFATs, followed by the dynamic train control testing from Centinela to the Terminus. The completion of the installation of the communications systems, followed by testing, is also on the Critical Path.

The coordination with third party utility owners is ongoing in order to provide power service to the project and support the systems testing phase which started in November 2014.

Project Float/ Schedule Contingency

On January 5, 2012, the Board of Directors authorized the Authority to include schedule contingency in accordance with Metro's Project Contingency procedure which resulted in a Revenue Operations Date of November 5, 2016. At the January 9, 2014 Board Meeting half of the contingency was released. If all the remaining Schedule Contingency were needed, the projected Revenue Operation Date would be May 22, 2016.
