PROJECT OVERVIEW & STATUS

Section 2 of the Westside Purple Line Extension Project is the second of three sections to be designed and constructed as part of the Los Angeles County Metropolitan Transportation Authority (LACMTA) Measure R Program. The program was approved by Los Angeles County voters in November 2008 and provides a half-cent sales tax to finance new transportation projects. In April 2012, the three sections of the Project were environmentally cleared and adopted by LACMTA Board of Directors.

Section 2 will extend the future Wilshire/La Cienega Station that is part of the Westside Purple Line Extension Section 1 Project currently under construction to the Century City area. The Project is located entirely underground, primarily following Wilshire Boulevard, and includes the design and construction of approximately 2.59 miles of double-track heavy rail and two new stations as well as the purchase of 20 heavy rail vehicles. The Project also includes train controls, signals, traffic controls, communications, traction power supply and distribution, fare collection systems and equipment, acquisition of right-of-way, and utility relocations.

Design

The Engineering Management Services (EMS) team continues to provide design support for the Advanced Utility Relocation (AUR) work in Century City and Beverly Hills as well as real estate support services. The team is supporting Metro in reviewing final design submittals, responding to RFI's, and assisting in the preparation of change notices.

The C1120 Contractor, Tutor Perini/O&G, a Joint Venture (TPOG), has mobilized the final design team, STV.

The design work has been identified into three distinct design unit packages. They are:

- 1. Design Package 1 Utility/Civil Design at Launch Box in Century City
- 2. Design Package 2 Remaining Utility Conflicts (Outside of Launch Box)
- 3. Design Package 3 (Volume 1) Tunnel Reaches
 - Design Package 3 (Volume 2) Stations
 - Design Package 3 (Volume 3) Track & Systems

Each design unit package will be submitted and evaluated at each of the following phases: 60%, 85%, 100%, Approved for Construction (AFC) and Issued for Construction (IFC). If required, critical design units can be advanced as Advanced Partial Design Units (APDU's) to support ongoing construction activities.

Design progress meetings are occurring weekly related to the design unit packages. TPOG is continuing with the required contractual submittals. Design related submittals of note that TPOG has submitted this month are: Tree Removal Permit Application; Cyber Security Plan; Noise Monitoring; and Design Package 2 – Remaining Utility Conflicts (Outside of Launch Box) 85% complete.

TPOG's Baseline CPM Schedule has now been approved and is being utilized for progress and payment purposes.

Major Contract Procurement

All construction contracts for the Project have been awarded.

Westside Purple Line Extension Section 2 Project Quarterly Project Status Report

Construction

Advanced Utility Relocations

Century City Constellation: Telecom joint trench civil work completed in June 2017. *Cable pulling and splicing work is anticipated to complete in January* 2018. LADWP Power construction began in May 2017, and civil work is approximately 35% complete. SCG utility relocations are complete. AT&T utility relocations began in November 2017 and are ongoing.

Wilshire/Rodeo: SCE began its relocation of power lines in September 2017. SCG and AT&T work is planned to start in late January 2018. The work will overlap briefly with the SCE power outages.

TBM Launch Box: SCG utility relocations are complete. LADWP Power utility relocations are ongoing. TPOG's planned access for this area is in January 2018.

Contract C1120 – Tunnels, Stations, Trackwork and Systems (Design/Build)
Contract award was issued on January 31, 2017 and Notice to Proceed on April 26, 2017.
TBM's purchase order has been executed.

TPOG was granted access to the Wilshire/Rodeo Station entrance site on October 10, 2017.

Beverly Hills City Council approved last period the permit for geotechnical investigation work. On November 22, 2017, City Council approved the Memorandum of Agreement (MOA) governing remaining third party utility relocation work. MOA negotiations are ongoing with the City of Beverly Hills for the D/B Contract work.

The first Executive Partnering Meeting was held in November 2017. The next meeting is scheduled for February 2018.

MANAGEMENT ISSUES

No management issues this period.

PROJECT ALIGNMENT BY SECTIONS

PROJECT ALIGNMENT SECTION 2

BASE PROJECT SCOPE

Section 2 of the Westside Purple Line Extension Project is the second of three sections to be designed and constructed as part of the Los Angeles County Metropolitan Transportation Authority (LACMTA) Measure R Program. The program was approved by Los Angeles County voters in November 2008 and provides a half-cent sales tax to finance new transportation projects. In April 2012, the three sections of the Project were environmentally cleared and adopted by LACMTA Board of Directors.

Section 2 will extend the future Wilshire/La Cienega Station that is part of the Westside Purple Line Extension Section 1 Project currently under construction to the Century City area. The Project is located entirely underground, primarily following Wilshire Boulevard, and includes the design and construction of approximately 2.59 miles of double-track heavy rail and two new stations as well as the purchase of 20 heavy rail vehicles. The Project also includes train controls, signals, traffic controls, communications, traction power supply and distribution, fare collection systems and equipment, acquisition of right-of-way, and utility relocations.

The Wilshire/Rodeo Station box will be under the center of Wilshire Boulevard beginning just east of South Canon Drive and extending to El Camino Drive. The entrance will be on the southwest corner of Wilshire Boulevard and Reeves Drive.

The Century City Constellation Station box will be under the center of Constellation Boulevard between Century Park East and Solar Way. A double crossover will be located east of this station. The entrance will be on the northeast corner of Constellation Boulevard and Avenue of the Stars. In lieu of tail tracks, safe breaking distance will be provided at the interim terminus station.

<u>Contract C1120 – Tunnels, Stations, Trackwork, Systems and Systems Integration</u> <u>Testing</u>

The procurement of this contract utilized a two-step approach with the submittal of qualification statements through a Request for Qualification (RFQ) process, prequalification of qualified proposers followed by the release of a Request for Proposals (RFP) soliciting technical and price proposals with an option at Metro's discretion for Best and Final Offers (BAFO).

The Design/Build contract provides for final design and construction of the infrastructure along the 2.59 mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. The structures to be constructed include twin bored tunnels, complete with cross-passages and walkways including all mechanical, electrical and finished work. A tunnel boring launch (TBM) shaft will be constructed at the Century City Constellation Station. Two underground stations are to be constructed with one double crossover location set east of the Century City Constellation (terminus) Station. Each station has a single entrance plaza with stairs, escalators and elevators which meet ADA requirements. The scope of work also includes all architectural finishes, mechanical and electrical systems and equipment including train control, traction power, communications, trackwork, system tie-in to the Wilshire/La Cienega Station (currently under construction), testing and commissioning.

BASE PROJECT SCOPE (Continued)

Metro Furnished Equipment

Metro has procured a separate contract to provide the 20 Heavy Rail Vehicles (HRV) and will procure a separate contract for the Universal Fare System (UFS) necessary to operate the Purple Line. The scope of the HRV contract includes design, manufacturing, testing and delivery of the vehicles. The scope of the UFS contract will include design, fabrication and installation of equipment at the two stations and system testing.

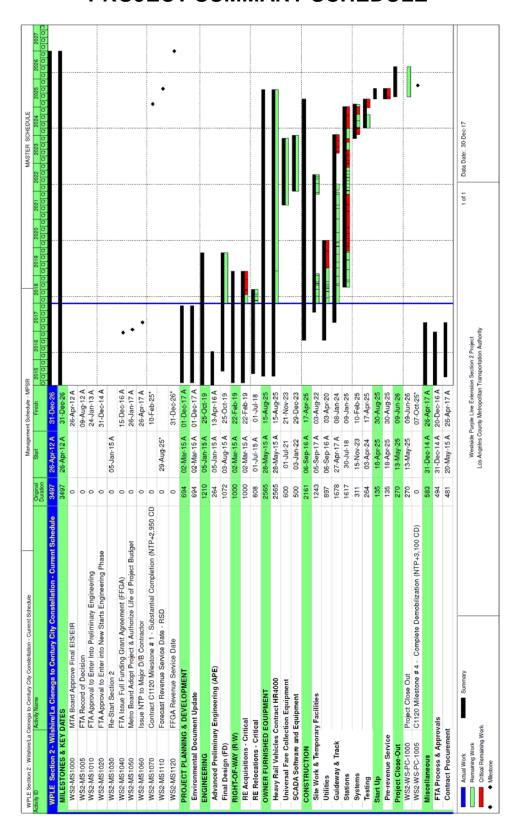

Start Up

The commencement of pre-revenue operations will be determined by Metro. Generally, all systems integration testing will have been completed and passed. All testing will be required to include and pass a "stress test" of maximum operational service levels to be acceptable. Pre-Revenue Operations include train runs, especially those involving multiple trains on the integrated and fully operational extension; rehearsal of expected revenue operations scenarios; abnormal and emergency scenarios in which random combinations of system interactions are tested and equipment "burned-in"; and training of emergency services as well as Metro personnel who will operate and maintain the extension. Activities occurring during Pre-Revenue Operations are carried out by a designated Metro Project Rail Activation Group.

DESIGN BUILDER'S (C1120) LONG LEAD ITEM LIST

Currently under development.		

CRITICAL PATH NARRATIVE

The Critical Path for the Westside Purple Line Extension Project Section 2 begins with third-party utility relocations at the future Century City Constellation (CCC) Station and is followed by the Contractor, Tutor Perini/O&G a Joint Venture (TPOG), required utility relocations in the same area. The path then follows into installation of soldier piles on the north side, then immediately on the south side, then proceeding into support beams and temporary street decking of the CCC Station. The critical path then flows into excavation below the deck, and then structural concrete for the station through the arched roof concrete. The path continues into the installation of the interior finishes and mechanical/electrical equipment. Simultaneously, systems installation work for Automatic Train Controls, Traction Power and Communications will be on-going. It follows with connecting with Rail Operations Center (ROC) for TPOG's System Integration Testing to ROC and then complete Systems Integration Testing for the Heavy Rail Vehicles, Communications tie-ins and with the Wilshire/La Cienega Station to obtain FLS Certification and CPUC Safety Certification Verification, and then ends with pre-revenue operations.

PROJECT SCHEDULE CONTINGENCY DRAWDOWN

PROJECT SCHEDULE CONTINGENCY DRAWDOWN ANALYSIS

PROJECT COST ANALYSIS

Original Budget, Current Budget and Current Forecast

The Original Budget, Current Budget and Current Forecast of \$2.5 billion reflect the Life of Project (LOP) budget approved by the Board on January 26, 2017, plus Finance Charges of \$88.7 million.

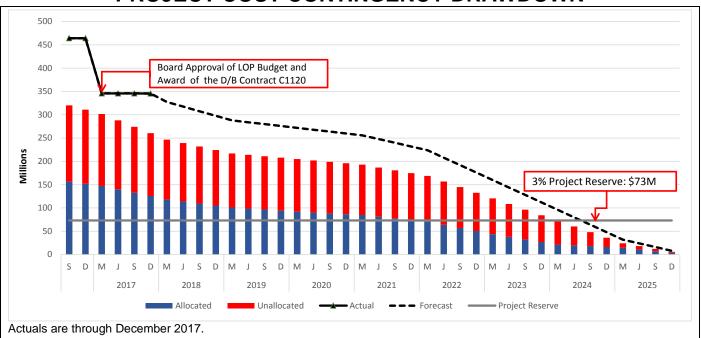

Commitments

The Commitments increased this period by \$0.8 million primarily due to approved Work Orders for Private Utilities and an Executed Modification for the Design/Build Contract C1120. The \$1.7 billion in Commitments to date represents 68.9% of the Current Budget.

Expenditures

The Expenditures increased this period by \$17.2 million primarily for costs associated with the Design/Build Contract C1120, Private Utilities, Real Estate Acquisitions, Memorandum of Agreement with the City of Beverly Hills, Legal Services, Metro Project Administration, Construction Management Support Services and Engineering Management Services. The \$426.2 million in Expenditures to date represents 16.8% of the Current Budget.

PROJECT COST CONTINGENCY DRAWDOWN

PROJECT COST CONTINGENCY DRAWDOWN ANALYSIS

The Current Budget of \$2.5 billion includes finance charges of \$88.7 million. It also includes a project cost contingency of \$345.7 million or 13.7% of the total project, which is based upon the Life of Project (LOP) Budget approved by the Board in January 2017. An allocated contingency amount of \$168.5 million is included in the total cost contingency. The allocated contingency is an amount to cover anticipated but unknown contract modifications issued by Metro where applicable to specific contracts within each Standard Cost Category (SCC).

A 3% project reserve threshold is included in the project cost contingency drawdown. Metro's Board is to be notified when it becomes necessary to drawdown contingency below the project reserve threshold to cover project costs. This process was adopted by the Metro Board of Directors in September 2012.

The project cost contingency drawdown curve is based on an August 29, 2025 Forecast Revenue Service Date (RSD).

The allocated contingency decreased this period by \$59K due to one executed Contract Modification for the Design/Build Contract C1120.

PROJECT COST CONTINGENCY										
DOLLARS IN THOUSANDS										
	Original Contingency (Budget)	Previous Period	Current Period	To-Date	Remaining Contingency (Forecast)

• RC-DBE Goal - Design

A numerically expressed percentage of funds apportioned to Design Contracts and is calculated based upon the relative availability of RC-DBE firms as compared to all firms in the relevant geographic market area.

25.00%

Current RC-DBE Commitment – Design

\$14,477,320

Total RC-DBE Committed Dollars divided by Total Contract Value (25.31%) for Design or Construction.

• Current RC-DBE Participation

\$4,943,601

Total amount paid to date to RC-DBEs divided by the amount paid to date to Prime.

(14.3%)

Fifteen (15) Design RC-DBE subcontractors have been identified.

• RC-DBE Goal – Construction

A numerically expressed percentage of funds apportioned to Construction Contracts and is calculated based upon the relative availability of RC-DBE firms as compared to all firms in the relevant geographic market area.

17.00%

• Current RC-DBE Commitment – Construction

\$108,343,139

Actual commitments as Construction work is awarded.

(8.21%)

• Current RC-DBE Participation

\$332,606

Total amount paid to date to REC-DBEs divided by the amount paid to date to Prime.

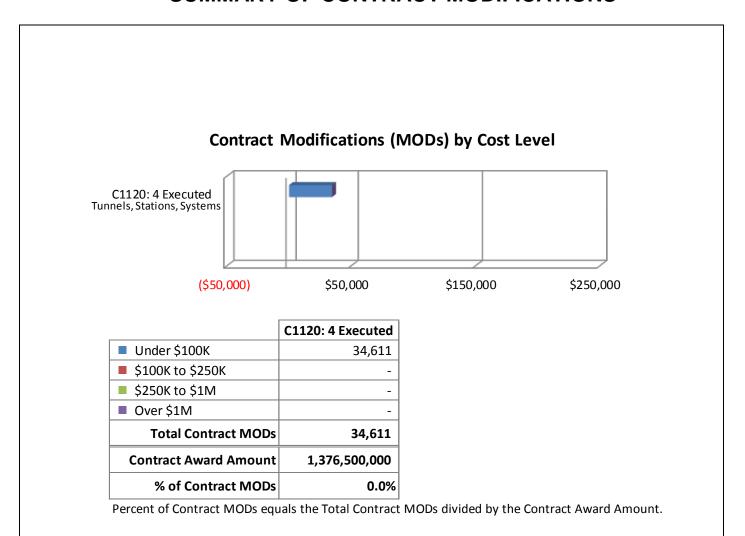

(0.19%)

Six (6) Construction RC-DBE subcontractors have been identified to-date.

PROJECT LABOR AGREEMENTS (PLA) STATUS

TPOG has committed to comply with Project Labor Agreements/Construction Careers Policy (PLA/CCP) requirements for the Project. Project Staff will monitor and report TPOG's progress toward meeting the goals of the PLA/CCP once construction begins.

SUMMARY OF CONTRACT MODIFICATIONS

Four Contract Modifications (MODs) with a total value of \$35K have been executed since the award of C1120 Contract –Tunnels, Stations, Trackwork, and Systems.

QUALITY ASSURANCE STATUS

- Attended weekly project staff meetings and progress meetings with TPOG.
- Chaired the meeting with TPOG's Quality Manager for submittal requirement compliance and Construction Work Plan correctness and completeness.
- Performed the verification of Fontana Yard structural steel documentation provided by TPOG as per qualitative criteria.
- Reviewed and provided comments on the following submittals with a disposition of Approved as Noted:
 - o Tree Removal Permit Application
 - Station Noise Monitoring Plan
- Reviewed and provided comments on the following with a disposition of Rejected, Revise and Resubmit:
 - o Equipment List Green Construction Policy by VALVERDE Construction, Inc.
 - Document Control Supplement to PQPM
- Reviewed and provided comments on the following submittals with a disposition of For Record Only:
 - TPOG, G&C and TRC Resumes for Source Inspectors for Structural Steel manufactured in China

ENVIRONMENTAL STATUS

- Performed daily noise monitoring activities at Century City Constellation Station and at Wilshire/Rodeo Station for advanced utility relocation work and submitted daily field reports.
- Participated in various project pre-construction and advanced utility relocation meetings and reported on environmental compliance with local, state and federal regulations, specifications and EIR.
- Provided environmental awareness training to advanced utility relocation and TPOG construction crews as required.
- Conducted field environmental monitoring and spot check inspections for construction noise, stormwater and dust BMPs, cultural resources and Metro's Green Construction Policy.
- Participated in various advanced utility relocation and TPOG coordination meetings and evaluated progress and schedules for environmental compliance and sustainability efforts.
- Provided responses to various TPOG submittals and requests for information related to environmental matters.
- Attended and provided guidance at various TPOG and advanced utility relocation construction meetings.
- Performed daily noise monitoring activities at various locations along alignment for TPOG geotechnical investigation work.
- Held comment resolution meeting with PMOC to resolve their comments on 10th Quarter Mitigation Measures Status Report.
- Held Sustainable Design Workshop with TPOG and their designers on sustainability requirements for project.
- Completed abatement and relevant reports for 1940 and 1950 Century Park East properties.

CONSTRUCTION RELATIONS STATUS

- Attended the following meetings: Construction Management, Advanced Utility Relocations, Construction Relations, Environmental Mitigations, Third Party Coordination, Social Media and Bus Relocations and Stops, Beverly Hills Memorandum of Agreement.
- Addressed traffic control complaints related to utility work on Constellation Boulevard.
- Updated Facebook, Twitter and website as needed.
- Conducted project presentations at the: Beverly Hills Monthly Community Meeting.

Westside Purple Line Extension Section 2 Project Quarterly Project Status Report

December 2017

- Conducted online and door-to-door outreach for community meetings regarding potholing/geotechnical investigation work and planned Southern California Edison (SCE) outages.
- Produced and distributed three pre-construction work notices for advanced utility relocations and geotechnical boring work.

CREATIVE SERVICES STATUS

- Conducted community outreach and coordinated cultural partnerships.
- Refined artwork opportunities with Metro Planning staff.

SAFETY & SECURITY STATUS

- Third party advanced utility relocation work continues. *No injuries were reported during the month of December 2017.*
- Monitored third party advance utility construction work activities to ensure contractor compliance with regulations and good business practices.
- Attended weekly Project Issues Standing Meetings.
- Conducted LADWP Water & Power, Southern California Edison (SCE) and Southern California Gas (SCG) Injury and Illness Prevention Program (IPP) reviews and conducted site safety walks.
- Attended weekly D/B progress meetings.
- Conducted Safety Workshop and Coordination meetings with TPOG safety staff and defined over-the-shoulder review schedules.
- Conducted meetings with TPOG safety personnel to ensure pre-submittal compliance for adequate contractual construction safety staffing.
- Conducted project safety orientation for new Metro/Consultants and IPMO project staff.
- Coordinated and attended TPOG project safety orientation for Metro/Consultants and IPMO project staff.
- Conducted over-the-shoulder reviews on safety/security submittal drafts with TPOG safety staff.
- Conducted right-of-way (ROW) and worksite safety/security walks.
- Conducted safety reviews and coordination with TPOG safety staff for geotechnical investigation work activities.
- Conducted formal TPOG Project Safety Submittals reviews.
- TPOG design work completed 19,177 work-hours for the month of December 2017 with zero recordable incidents. Total Project to Date work-hours are 135,213 with zero recordable incidents.

THIRD PARTY AGREEMENT STATUS

No.	Third Party	Type of Agreement	Forecast Execution Date	Required Need Date	Status/ Comments
1	City of Los Angeles (LA)	Master Cooperative Agreement	N/A	N/A	Parties will work under 2003 MCA.
2	City of Beverly Hills (COBH)	Memorandum of Agreement	03/17(A)	03/17(A)	Reimbursement Agreement was executed in March 2017.
			06/17(A)	06/17(A)	Beverly Hills City Council approved the construction permit for SCE work in June 2017.
			11/17(A)	11/17(A)	Beverly Hills City Council approved MOA for remaining third party utility relocations on November 22, 2017.
			03/18	04/18	Metro continues to work with the City to establish an MOA for the C1120 Design/Build contract. Required Need Date reflects turnover date to C1120 contractor for station footprint availability.
3	Los Angeles Department of Water and Power (LADWP)- Water & Power	Master Cooperative Agreement	N/A	N/A	Metro and LADWP will continue to work under the terms of the previous Master Cooperative Agreement.
4	Los Angeles County Public Works Flood Control	Master Cooperative Agreement	N/A	N/A	Executed.
5	Private Utilities	Utility Cooperative Agreement	N/A	N/A	AT&T, Pac Bell, SBC, MCI, Verizon, Southern California Gas Company (SCGC), TCG Los Angeles – Metro is working under existing agreements.
			1/18	1/18	Level 3 – Metro and Level 3 have initiated a new agreement. Currently, awaiting comments from Level 3. Time Warner Pacific West LLC, D/B/A Time Warner Cable – County Counsel to respond to Time Warner's latest comments. SCE – Metro and SCE have initiated a new agreement. A draft is under review. Veolia – A draft agreement has been submitted to Veolia for review and comment. Sprint – A draft of the Agreement submitted has been submitted to Sprint, pending comments.
			11/17(A)	11/17(A)	Zayo, XO Communications, LLC – The agreements have been approved by the Metro Board. Agreement now in circulation for signatures by both parties.

ADVANCED UTILITY RELOCATION STATUS

Century City Constellation

- LADWP Power utility relocations are ongoing.
- All joint trench cable pulling and splicing have been completed with the exception of Verizon Business. Verizon Business cable pulling and splicing are expected to be completed in January 2018.
- Southern California Gas (SCG) advanced utility relocations have been completed.
- AT&T advanced utility relocations began in November 2017 and are ongoing.

Wilshire/Rodeo

- Advanced third party utility relocations (conduit installation) by Southern California Edison (SCE) have been completed.
- Beverly Hills City Council approved Memorandum of Agreement (MOA) governing the remaining third party utility work on November 22, 2017. Remaining work including SCE cutover, AT&T, and SCG work to begin in January 2018.

PEAK HOUR AND NIGHTTIME CONSTRUCTION VARIANCES

Metro is actively pursuing extended hour variances/exemptions to accommodate the Project's needs. Metro staff is working with the City of Los Angeles Bureau of Engineering (BOE) and the Los Angeles Police Commission to obtain Peak Hour Exemptions and Nighttime Construction Variances.

- A nighttime noise variance permit for relocation of third party utilities on Constellation Boulevard is approved through February 2018.
- Peak Hour Exemption application for the TBM launch box excavation on Constellation Boulevard was submitted to BOE for review on December 20, 2017.
- A Peak Hour Exemption application for AT&T relocations on Constellation Boulevard has been extended to February 28, 2018.

CHRONOLOGY OF EVENTS

August 2012	FTA Record of Decision
January 2013	FTA approval to enter to Preliminary Engineering
December 2014	FTA approval to enter to New Starts Engineering Phase
March 2015	Began Real Estate Acquisition
May 2015	Began Advanced Preliminary Engineering
September 2015	Issued RFQ for C1120 Design/Build contract
October 2015	Received RFQ responses for C1120 Design/Build contract
May 2016	Submitted draft FFGA application
May 2016	Submitted TIFIA loan application
June 2016	Submitted application to FTA requesting an FFGA
June 2016	Received RFP Proposals for Contract C1120
September 2016	Began telecom joint trench construction in Century City
December 2016	FTA executed FFGA
December 2016	Received TIFIA Loan
January 2017	NTP for Construction Management Support Services Contract
January 2017	Metro Board approved staff recommendation to award the Design/Build Contract C1120 to Tutor Perini/O&G, a Joint Venture (TPOG) and approved Life-of-Project Budget
January 2017	Issued C1120 Contract Award TPOG
April 2017	Issued C1120 Contract NTP to TPOG
May 2017	Mobilized C1120 Contract Design and Construction Team
August 2017	Third party relocations started at Century City Constellation Station
September 2017	Third party relocations started at the Wilshire/Rodeo Station
November 2017	Beverly Hills City Council approved Memorandum of Agreement (MOA)

APPENDIX COST AND BUDGET TERMINOLOGY

Project Cost Descriptions

ORIGINAL BUDGET The Original Project Budget as authorized by the Metropolitan

Transportation Authority (Metro) Board.

CURRENT BUDGET The Original Budget plus all budget amendments approved by

formal Metro Board action. Also referred to as Approved

Budget.

COMMITMENTS The total of actual contracts awarded, executed change orders

or amendments, and approved work orders of Master

Cooperative Agreements, offers accepted for purchase of real estate, and other Metro actions which have been spent or result in the obligation of specific expenditures at a future time.

The total dollar amount of funds expended by Metro for **EXPENDITURES**

> contractor or consultant services, third party services, staff salaries, real estate and other expenses that is reported in

Metro's Financial Information System (FIS).

CURRENT FORECAST The best estimate of the final cost of the Project when all

> checks have been issued and the Project is closed out. Current Forecast is composed of actual costs incurred to date, the best estimate of work remaining and a current risk assessment for

each budgeted cost item.

Cost Report by Element Descriptions

CONSTRUCTION Includes construction contracts. Cost associated with

Guideways, Stations, Southwestern Yard, Sitework/Special

Conditions and Systems.

RIGHT-OF-WAY Includes purchase cost of parcels, easements, right-of-entry

permits, escrow fees, contracted real estate appraisals and

tenant relocation.

VEHICLES Includes the purchase of Heavy Rail Vehicles and spare parts

for the Project.

PROFESSIONAL

Includes design engineering, project management assistance, **SERVICES**

construction management support services, legal counsel,

agency staff costs, and other specialty consultants.

CONTINGENCY A fund established at the beginning of a project to provide for

anticipated but unknown additional costs that may arise during

the course of the Project.

PROJECT REVENUE Includes all revenue received by Metro as a direct result of

project activities. This includes cost sharing construction items.

insurance premium rebates, and the like.
