#### **PROJECT SUMMARY**

#### As of July 2017

REGIONAL CONNECTOR TRANSIT CORRIDOR PROJECT
DESIGN CONSULTANT: Connector Partnership JV

CONSTRUCTION MANAGEMENT CONSULTANT: ARCADIS CONTRACTOR: Regional Connector Constructors, Joint Venture

#### TBM breakout at 4th/Flower

#### WORK/ACTIVITY DURING PAST MONTH

- Completed 1 bivi mining for left turiner
- Removed TBM cutterhead and midshield from the Retrieval Pit
- Continued DWP power relocation work at 6th/Flower
- Continued excavation of Flower Street North (between 4th and 5th)
- Continued pile installation on Flower Street South (between 5th and 6th)
- Continued 126" storm drain installation (Hobas) along 2nd Street
- Continued Level 4 excavation at Historic Broadway Station
- Initiated concourse slab on grade at Grand Av Arts/Bunker Hill Station
- DU12 Communications 100% design submittal approved

#### EXPENDITURE STATUS (\$ In Millions)

#### SCHEDULE ASSESSMENT

	CURRENT	EXPENDED	_	MAJOR SCHEDULE	PRIOR	CURRENT	VARIANCE		
ACTIVITIES	BUDGET	AMOUNT	EXPENDED	ACTIVITIES	PERIOD	PLAN	FROM PRIOR PERIOD (Weeks)		
				Environmental					
DESIGN	\$149.1	\$134.0	89.8%	FEIS / FEIR	N/A	04/26/12	Complete		
				SEIS Flower St.	N/A	12/18/15	Complete		
RIGHT-OF-WAY	\$120.5	\$74.0	61.4%	Design					
				PE Notice to Proceed	N/A	01/04/11	Complete		
CONSTRUCTION	\$1,162.0	\$489.6	42.1%	Final Design complete	09/14/17	10/13/17*	4		
				Note: No adverse impac	ct to the overa	II schedule is a	anticipated from current design delays.		
OTHER	\$378.5	\$124.2	32.8%	*Excluding the completion of 2nd/Hope Pedestrian Bridge Design					
		·		Right-of-Way					
TOTAL	\$1,810.1	\$821.8	45.4%	All parcels available	08/15/18	08/15/18	0		
Current Budget reflects Board and	nroved Life-	of-Project Bu	idget and includes	Note: ROW dates are a	diusted to ref	ect the latest I	D/B Contractor's coordinated Need		

Current Budget reflects Board approved Life-of-Project Budget and includes Finance Charges. Note: ROW dates are adjusted to reflect the latest D/B Contractor's coordinated Need Dates. Duco Yard need date is in August 2018.

Note: Expended amounts are through 07/31/2017.

AREAS OF CONCERN

#### Construction - Design / Build Contract

Notice to Proceed	07/07/14	07/07/14	Complete
Construction complete	10/26/21	10/26/2021	0
Revenue Service Date	12/24/21	12/24/2021	0

Securing and maintaining work hour variances along the entire alignment will serve to facilitate field productivity. Conversely, delays and or disruptions to permits will directly yield to extended construction schedules, and added costs. Metro looks to continue collaboration with the LA Police Commission and stakeholders – complemented by strict adherence to environmental requirements – to allow for timely permitting as may be required.

#### CRITICAL ACTIVITIES / 3 MONTH LOOK AHEAD

- Review & Approval of AFC package for Historic Broadway Station
- Preparation of WYE Fan Plant and Flower Cut & Cover AFC submittal
- Preparation of Civil Segment B 100% submittals
- Complete TBM removal (1st left tunnel)
- Complete TBM assembly and test (2nd right tunnel)
- Begin TBM mining (2nd right tunnel)
- Complete excavation of Level 4 at Historic Broadway Station
- Complete storm drain relocation at Historic Broadway Station
- Complete pile installation on Flower Street (between 5th and 6th)
- Initiate decking installation on Flower Street (between 5th and 6th)
- Continue excavation along Flower Street

ROW ACQUISITION	PLAN	CERTIFIED	ACQUIRED	REMAINING
PERMANENT PARCELS	5	5	4	1*
TEMPORARY PARCELS	31	16	16	2*
TOTAL PARCELS	36	21	20	3**

- \* Remaining parcels are scheduled in-advance of need dates.
- \*\* DucoYard, 2nd & Hope Pedestrian Bridge, and Wye Fan Plant.

#### **PROJECT OVERVIEW & STATUS**

The Regional Connector Transit Project (Project) will link the current terminus of the Blue and Expo Lines at 7th/Metro Center to the Gold Line near the Little Tokyo/Arts District Station in a new underground alignment along Flower Street and 2nd Street in Downtown Los Angeles. The Project has been re-sequenced to become operational in a single phase. It will link to the existing Eastside Gold Line along 1st Street and the existing Gold Line to Pasadena along Alameda Street toward Union Station. The Revenue Service Date (RSD) is planned for December 24, 2021.

The alignment will extend underground from the 7th Street/Metro Center Station under Flower Street to 2nd Street. It will then proceed east underneath the 2nd Street tunnel to just west of Central Avenue where the alignment will veer northeast under privately-held property, Japanese Village Plaza. At 1st Street and Central, the tracks continue underground heading northeast under 1st and Alameda Streets. A junction ("Wye") will be constructed beneath the 1st and Alameda intersection. To the north and east of the junction, trains will rise to the surface through two new portals to connect to the Metro Gold Line heading north to Pasadena and east to East Los Angeles. The north portal will be located northeast of the current Little Tokyo/Arts District Station and tracks. This portal will rise to connect to the existing LRT bridge over the US-101 freeway. The portal will be connected to the 1st and Alameda junction by a new cut and cover box structure crossing beneath Temple Street and Alameda Streets, running immediately east of the existing Little Tokyo/Arts District Station and tracks. The east portal will be located within 1st Street between Alameda and Vignes Streets. Tracks will rise to the east within this second portal and connect at-grade to the existing Metro Gold Line tracks toward East Los Angeles.

#### **Major Contract Procurement**

The Board authorized to solicit a major Design/Build (D/B) contract, C0980, in August 2011. Metro staff recommended to award contract C0980 to the Regional Connector Constructors (RCC), a joint venture of Skanska USA Civil West California District, Inc. and Traylor Brothers, Inc. and Metro Board authorized award of the contract on April 24, 2014; Notice to Proceed (NTP) to RCC, issued July 7, 2014. Solicitation of an Advanced Utility Relocations Contract, C0981R, completed February 2014 after Metro's Procurement team awarded the contract to Pulice Construction, Inc. in January 2014 and issued NTP on February 18, 2014. Contract C0981R was terminated for convenience on April 14, 2015 and remaining AUR work has been transferred to the C0980 D/B Contractor, RCC.

### **PROJECT OVERVIEW & STATUS (Cont.)**

#### Construction

Varied operations are underway throughout the alignment to include: guideway and station box support of excavation, excavation, TBM mining, settlement monitoring instrumentation placement, and utility relocations. Operations are currently active seven days with some being performed on a multiple-shift basis.

#### **Systems**

The existing functional operations at the Rail Operations Center (ROC) necessitate an expansion to accommodate the central control functions associated with five new rail lines and extensions including the Regional Connector Transit Project. Design for the ROC Reconfiguration Project was completed to reconfigure the second floor to prepare for Expo II and Foothill Rail Line extensions, and the design will be further updated with each successive integration of the Crenshaw/LAX, Regional Connector and Purple Line projects.

#### Light Rail Vehicle

Metro is procuring four (4) Light Rail Vehicles (LRVs) for the Project. The vehicles will be procured and delivered by Kinkisharyo International, LLC under Option 2 of Contract P3010. The base contract includes 78 LRVs and options of 157 for a total of 235. The manufacturer continued performing qualification and post shipment tests on prototype cars 1 and 2 at LACMTA's Green Line shop.

#### **Program Management**

In January 2017, the Metro Board revised the Life of Project Budget for Regional Connector Project 860228 to \$1.756 billion. The budget for Concurrent Non-FFGA activities related to Project 861228 remains at \$39.9 million.

Funding for the Project comes from a variety of sources to include Federal New Starts, TIFIA Loan, State repayment of capital project loan, State Proposition 1B, State Proposition 1A (High Speed Rail), local agency and lease revenues, and from the Congestion Mitigation and Air Quality Improvement Program. The bulk of the funding - 56% - comes from federal sources.

Project commitments through *July* 2017 increased by \$1.3 million to \$1.44 billion or 81.4% of the Current Budget. The increase reflects RCC executed modifications, Environmental, Legal and Community Relations. Project expenditures through *July* 2017 are \$799.1 million or 45.1% of the budget. The expenditures to date cover all cost elements including: engineering management, construction management support services, third party utility relocation work, agency administration, design build contract (C0980), right of way, various master cooperative agreements, and other professional services.

### **PROJECT OVERVIEW & STATUS (Cont.)**

The pro	ject master	schedule	forecasts	revenue	service	in 2021	through a	ı simultaneou:	S
opening	of both the	Azusa an	d East LA	legs of th	e Metro	Gold Lir	ne.		

A comprehensive risk refresh process was undertaken in late 2016 by both Metro and the FTA/PMOC to evaluate current schedule and cost forecasts. Outcomes for total project costs were compatible and contributed to establishing an increased Life of Project Budget. The Project's Risk Register is reviewed and updated monthly.

#### **MANAGEMENT ISSUES / OPPORTUNITIES**

Unforeseen conditions at 6th & Flower DWP relocation could impact Concern No. 1:

schedule and budget.

Status/Action: Designs have been fully reviewed with extensive potholing

information. Project is managing DWP and RCC crews closely to

work concurrently in street closure.

Concern No. 2: Complex Systems Integration could delay the project's planned

Revenue Service Date, if not managed well.

Status/Action: Project has conducted an initial high level management discussion to

> address system-wide operating policies and potential capital projects needed to support an integrated LRT system with the completion of the Regional Connector Project. Working-level system integration

teams have also been established.

Concern No. 3: Managing and responding to stakeholder needs during cut-and-cover

activities along Flower Street has the potential to impact both

schedule and budget.

Status/Action: Project is engaged in active stakeholder outreach and construction

> impact mitigation. Working closely with the contractor to ensure concerns are addressed and that MMRP requirements are fully

complied with.

Concern No. 4: TBM component failures and differing site conditions have resulted in

delays to mining operations and the project schedule.

Status/Action: Replacement of three screw drives on the TBM is underway during

the TBM re-setting between the first and second tunnel bores.

Actions to accelerate the second tunnel bore are under review to

mitigate experienced delays.

## **PROJECT ALIGNMENT** Regional Connector & Station (under CIVIC ++++O++++ Amtrak/Metrolink Blue continues along current Gold Line route to Azusa. BUNKER HISTORIC CORE FINANCIAL Gold continues along Gold continues along current Expo Line route to Santa Monica. current route to East LA. TOY DISTRICT DISTRICT Blue continues along current route to Long Beach.

#### **BASE PROJECT SCOPE**

#### **Engineering**

This phase consists of Preliminary Engineering (PE), Advanced PE (APE) and Final Design. During PE, The Connector Partnership, a joint venture between AECOM, Inc. and Parsons Brinkerhoff (CPJV), was responsible for engineering, design, and development of fixed facilities, stations, guideways, tunnels, and related facilities for the Project to a level sufficient to provide the basis for final design. CPJV was also responsible for documentation necessary to support the Environmental Assessment process and the engineering and final design for advanced utility relocations.

Alignment modifications and Value Engineering were developed during Advanced PE to accommodate environmental mitigations and further develop the design to better accommodate rail operations and reduce the cost of the Project. PE and APE were completed in March 2013.

Final design for advanced utility relocations performed by Metro and CPJV was completed during Advanced PE and it included DWP water and power lines as well as City of LA sewer lines. AUR final design for other utilities was performed by individual utility companies. The balance of Final Design is being performed by the RCC as part of the C0980 Contract.

#### **Metro Furnished Equipment**

Metro is procuring four (4) LRVs for the Project. The vehicles will be procured and delivered by Kinkisharyo International, LLC under Option 2 of Contract P3010. The vehicles will be tested and accepted at the Gold Line Yard and put in service when the line is open for Revenue Service. Metro will also furnish Universal Fair System (UFS) equipment, which will be designed, fabricated and installed under a Metro contract.

#### **Construction**

The scope of work in this phase is performed by third party utility companies and RCC as follows:

#### Third Party Advanced Utility Relocations

Several utility owners have already relocated many of their assets and will continue to do so through mid-2017. The utilities include fiber optic, telephone, cable television, electrical (power cable pulling and splicing), and natural gas lines. Utility work started in late 2012 and has progressed throughout the alignment.

#### **BASE PROJECT SCOPE (Cont.)**

#### **Contract C0980 Regional Connector Design Builder**

This is the largest contract of the project that includes: final design and construction of underground guideway; station structures; miscellaneous underground structures; trackwork; traction power; overhead conductor rail; train control; communications; and all electrical and mechanical equipment and testing. The contractor will restore the Mangrove site and impacted streets to their previous condition at the end of the project.

The design-build contractor also must meet sensitive noise and vibration standards at Disney Music Hall and the Colburn Music School, control subsidence along the alignment, and meet various other requirements for the various stakeholders along the alignment. This contract was awarded to Regional Connector Constructors, JV (RCC) on May 6, 2014 and NTP was issued July 7, 2014. Metro has exercised several contract options and has added the remaining Advanced Utility Relocation work (C0981R Contract) to the C0980 Contract.

#### **Contract C0981R Regional Connector Advanced Utility Relocations**

Metro awarded the design-bid-build Advanced Utility Relocations Contract (Metro Contract No. C0981R) to Pulice Construction, Inc. to complete specific relocations at each of the future stations and along Flower Street in advance of the main D/B Contract C0980. The relocated utilities were long-lead construction tasks that were known to conflict with cut and cover excavations.

The scope of this work included the following relocations: LADWP water lines, LADWP power lines, and City of Los Angeles sewer lines. Metro assisted the contractor in obtaining exemptions as necessary for the City of LA nighttime work as well as for Peak Hour work hours.

Contract C0981R was terminated for convenience on April 14, 2015 and all remaining work was transferred to C0980 Contract. Contract C0981R was closed out and final payment processed.

#### **BASE PROJECT SCOPE (Cont.)**

#### **Professional Services**

#### **Contract MC070 – Construction Management Support Services**

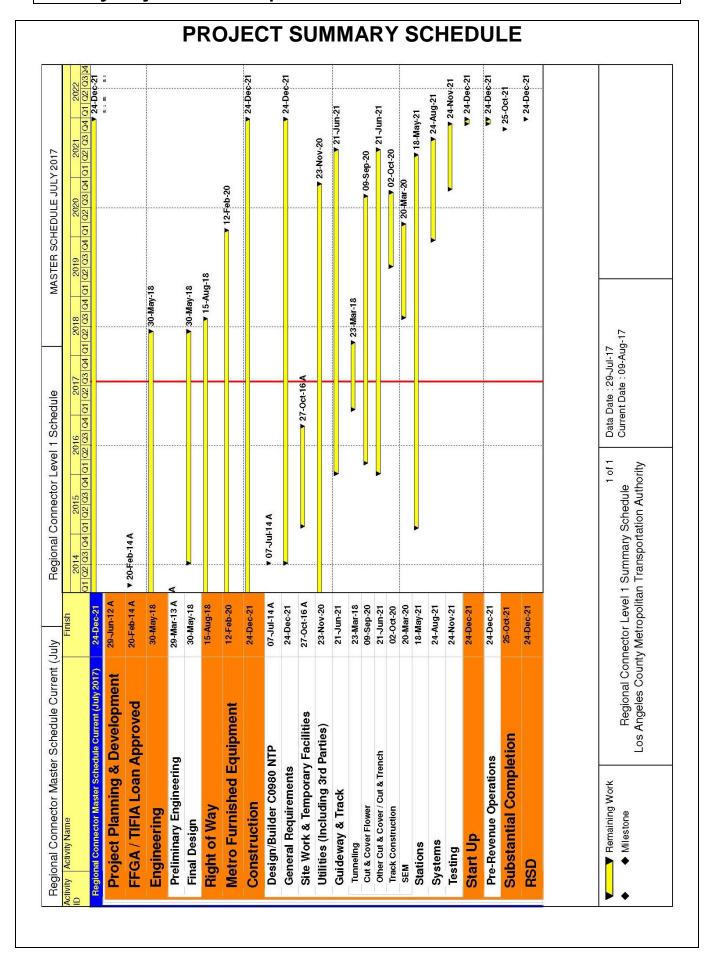

Metro awarded the contract for Construction Management Support Services (CMSS) to ARCADIS, Inc. ARCADIS' Project Manager and other staff are co-located with Metro at the Integrated Project Management Office (IPMO) located at the Mangrove site. The service commitment has been extended through June 2018.

## Contract E0119 – Preliminary Engineering and Design Support Services During Construction

Metro awarded this contract to CPJV. CPJV provided preliminary engineering services to support the EIR/EIS, prepared project definition documents for Contract C0980, and prepared the basis for final design development for Contract C0981. CPJV is currently performing design support during construction (DSDC) for the C0980 contract. The service commitment has been extended through June 2018.

### **KEY MILESTONES SIX-MONTH LOOK AHEAD**

	Milestone Date	Jul-17	Aug-17	Sep-17	Oct-17	Nov-17	Dec-17
DU2 Cut & Cover - 100% Design	7/11/17 A						
Civil Segment A - 100% Design	7/17/17 A						
Complete TBM Mining (1st Alignment - Left Tunnel)	7/19/17 A

#### **SCHEDULE MEASUREMENTS**

	Status	Change from Last Period	Comment
Forecast Revenue Service	12/24/2021	<i>0</i> CD	
TIFIA Revenue Service	2/25/2023	None	
FFGA Revenue Service	2/25/2023	None	
Final Design Progress:			
Contract C0980	98.1%	0%	Not impacting the critical path of the project
Construction Contracts Progress:			
Contract C0981R & C0980	35.3%	1.8%	

**Note:** Construction Progress Measurement has been modified to reflect current methodology: excluding all General Requirements, Construction Mobilization, Design Mobilization, Final Design and Provisional Sum (Schedule C). Progress values include executed modifications and change orders.

#### **PROJECT PROGRESS STATUS**

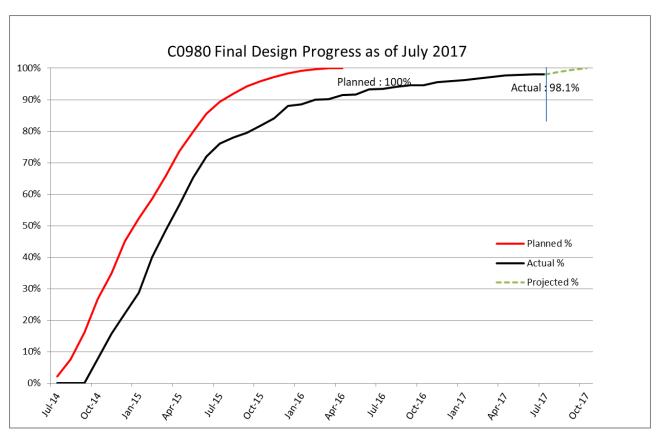

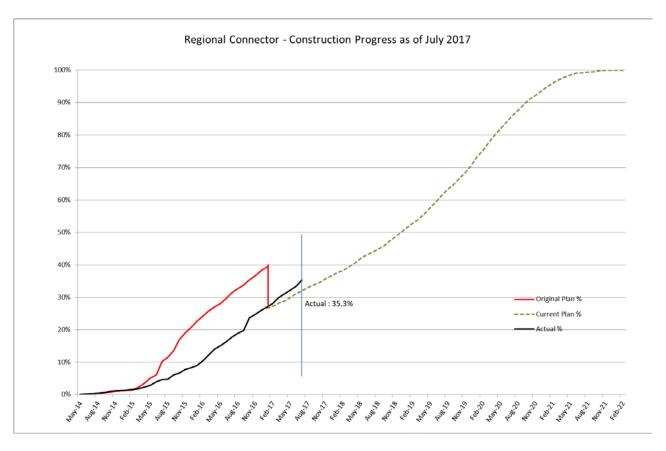

The above is based on the planned and actual progress of C0980 (Design-Build) as reflected in its re-baselined contract schedule, and the C0981 (AUR) as-built schedule.

The cumulative overall project progress is 39.1%.

**Note**: Overall Project Progress Measurement was modified in January 2016 to reflect current methodology: excluding all General Requirements, Construction Mobilization, Design Mobilization and Provisional Sum (Schedule C). Values include executed modifications and change orders.

### **PROJECT PROGRESS STATUS (Cont.)**

#### **MAJOR EQUIPMENT DELIVERY STATUS**

#### **Tunnel Boring Machine**

RCC designed, procured and delivered the tunnel boring machine (TBM) and equipment.

#### **Light Rail Vehicles**

Metro is procuring four (4) LRVs for the Project. The vehicles will be procured and delivered by Kinkisharyo International, LLC under Option 2 of Contract P3010. LRV design and design reviews as well as manufacturing of the prototype vehicles continued this period. The manufacturer continued performing qualification and post shipment tests on prototype cars 1 and 2 at LACMTA's Green Line shop. Project deliveries are anticipated no later than February 2020.

#### <u>UFS (Universal Fare System) & TVM (Ticket Vending Machines)</u>

Procurement of UFS and TVM will commence after RCC completes the final design. Metro is coordinating with RCC for installation and testing schedules, which is expected to be complete by October 2020.

## DESIGN-BUILDER'S (C0980) LONG LEAD ITEM LIST

#### **CRITICAL PATH NARRATIVE**

#### Critical Path (C0980):

The critical path remained the same for the month of July. The critical path runs through the TBM mining of the second tunnel. After TBM mining, the SEM crossover structure east of the Historic Broadway Station will commence. Once the crossover structure is complete, track work installation will follow. The critical path continues through systems installation and testing from 1st/Alameda to 7th/Flower, followed by systems integration testing and pre-revenue operations.

#### PROJECT SCHEDULE CONTINGENCY DRAWDOWN

#### PROJECT SCHEDULE CONTINGENCY DRAWDOWN ANALYSIS

The project schedule contingency drawdown curve is based on the anticipated FFGA RSD date of February 25, 2023.

#### PROJECT COST ANALYSIS – 860228

#### **Original Budget:**

The Original Budget of \$1.427 billion reflects the April 2014 Board Approved Life-of-Project (LOP), plus finance costs of \$7.1 million.

#### **Current Budget:**

In January 2017, the Metro Board revised the LOP Budget for the Regional Connector Project 860228 to \$1.756 billion. Finance costs, estimated at \$14.3 million, are also reflected leading to a total of \$1.770 billion. Budgets were adjusted throughout the SCC structure reflecting revised values as of December 2016. The total current budget remains the same as of May 2017.

#### Commitments:

Commitments increased by \$1.3 million this period to \$1.44 billion which represents 81.4% of the Current Budget. The increase is due to procurement actions associated with Contract C0980 Modifications and services related to Environmental, Legal and Community Relations.

#### **Expenditures:**

Expenditures are cumulative through *July* 2017. Expenditures *decreased* by \$0.46 million this period *due to fiscal year 2017 accrual* for costs associated with C0980 Design Build contract, Engineering Management Support, Metro Project Administration, Construction Management Support Service, Legal Services, Third Party Master Cooperative Agreements with the City of LA, Community Relations, and Environmental Consultant Services. The \$799.1 million in expenditures to date represents 45.1% of the Current Budget.

#### **Current Forecast:**

The total current forecast remains the same as the total current budget.

#### **PROJECT COST STATUS (Cont.)**

#### **CONCURRENT NON-FFGA ACTIVITIES (861228)**

#### **PROJECT COST ANALYSIS – 861228**

#### **Original Budget:**

The Original Budget, Current Budget, and Current Forecast reflect the Board Approved Life-of-Project (LOP) budget on April 24, 2014.

#### **Current Budget:**

There is no change to the Budget for this period.

#### **Commitments:**

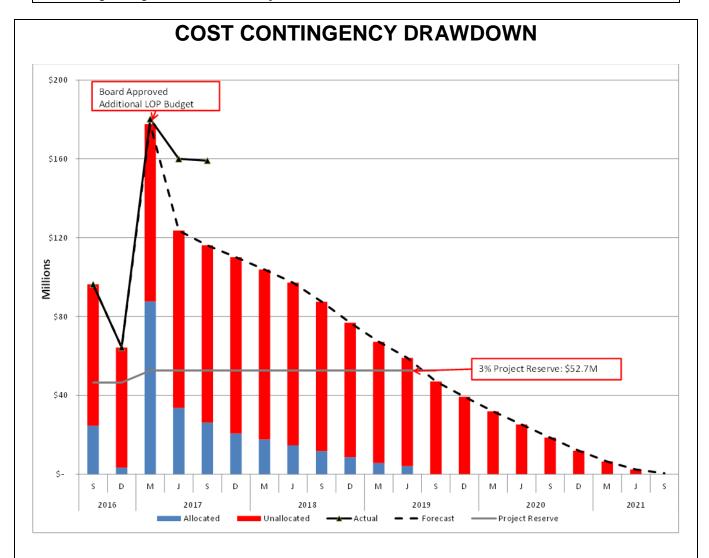

Commitments reflect actions through July 2017.

#### **Expenditures:**

Expenditures are cumulative through *July* 2017. Expenditures *for the* period *remained unchanged*. The \$22.7 million in expenditures through *July* 2017 represents 56.8% of the Current Budget.

#### **Current Forecast:**

There was no change to the Forecast for this period.

#### **COST CONTINGENCY DRAWDOWN ANALYSIS**

In January 2017, the Metro Board revised the Life-of-Project Budget to \$1.756 billion, which included increasing the unallocated contingency to \$89 million and allocated contingency to \$92.8 million. A revised drawdown plan for unallocated contingency, correlated to anticipate risk trends, was developed to monitor and measure drawdowns moving forward.

Included in the project cost contingency drawdown is a 3% project reserve threshold. Metro's Board is to be notified when it becomes necessary to drawdown contingency below the project reserve threshold to cover project costs. This policy was adopted by the Metro Board of Directors in September 2012.

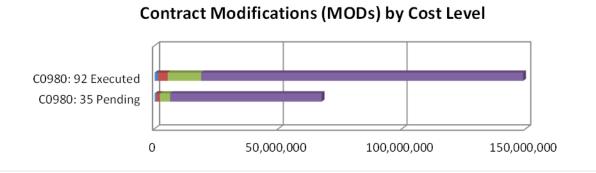

The project cost contingency drawdown curve is based on a 2021 Revenue Service date.

This month there is a drawdown of \$952k from contingency due to D/B modifications. The remaining total project contingency (allocated and unallocated) is \$159.1 million.

## COST CONTINGENCY DRAWDOWN ANALYSIS (Cont.)

PROJECT COST CONTINGENCY DOLLARS IN THOUSANDS										
Contingency Period Current To-Date Remaining Contingency (Forecast)										
Unallocated Contingency	89,946	0	0	0	89,946

#### Note:

- 1. Percent of Contract MODs equals the Total Contract MODs divided by the Contract Award Amount.
- 2. Pending Mods are under negotiation.

Ninety-*two* (92) changes with total value of \$148.96 million have been executed since NTP of Contract C0980. An additional *thirty-five* (35) changes, with a total estimated value of \$67.5 million are pending.

**July 2017** 

#### **DISADVANTAGED BUSINESS ENTERPRISE (DBE) STATUS**

#### Contract C0980 Regional Connector Transit Project Design-Build

As of June 2017\*:

#### • DBE Goal - Design

A numerically expressed percentage of funds apportioned to Design Contracts and is calculated based upon the relative availability of DBE firms as compared to all firms in the relevant geographic market area:

20%

#### • Current DBE Commitment Design

Total DBE Committed Dollars divided by Total Contract Value for Design or Construction

\$13.4M (22.63%)

#### Current DBE Participation

Total amount paid to date to DBEs divided by the amount paid to date to Prime:

25.66%

Twelve (12) Design DBE sub-consultants have been identified to date.

#### DBE Goal – Construction

A numerically expressed percentage of funds apportioned to Construction Contracts and is calculated based upon the relative availability of DBE firms as compared to all firms in the relevant geographic market area:

18%

#### Current DBE Commitment Construction

\$180.7M

Contract commitment divided by current contract value for Construction:

(18%)

#### Current DBE Participation

Total amount paid to date to DBEs divided by the amount paid to date to Prime:

11.4%

Sixty-two (62) Construction DBE sub-contractors have been identified to date.

\*Note: In June of 2017, RCC identified several discrepancies in the total contract value (modifications) and the amounts previously reported as paid-to-date by Metro to RCC in their monthly payment detail submission. Subsequent corrections resulted in a net increase while the total expenditure with DBEs remained unchanged. Construction DBE participation therefore decreased from 18.15% to 11.4%; Design participation increased with June payments to DBE subcontractors, from 21.63% to 25.66%. Contract Compliance will continue to monitor RCC's progress toward meeting their DBE commitment for Construction.

## STAFFING STATUS TOTAL PROJECT STAFFING – METRO AND CONSULTANTS

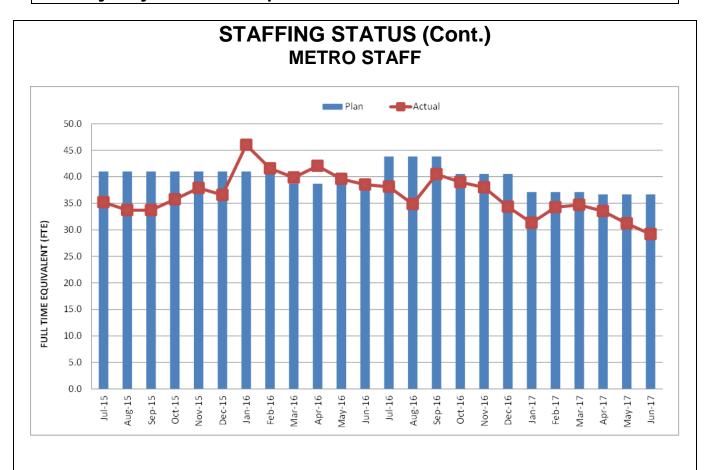

#### **TOTAL PROJECT STAFFING**

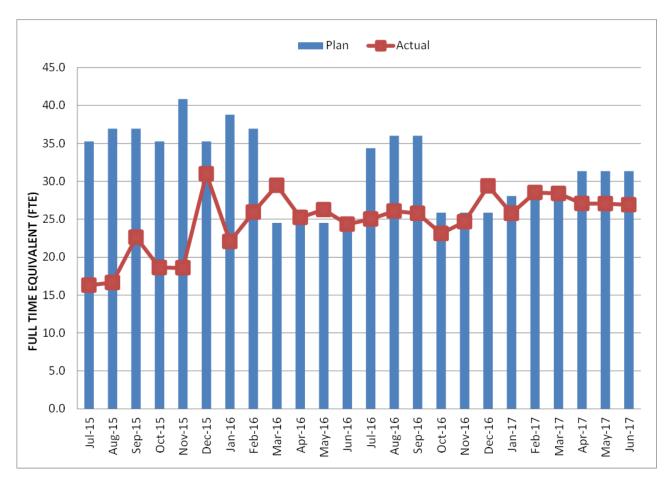

The overall FY17 Total Project Staffing plan averages 90.2 FTE's per month.

For *June* 2017, there were a total of *29.2* actual FTEs for Metro's Project Administration staff and *44.8* FTEs for consulting staff. The total actual project staffing for *June* 2017 was *74.0* FTEs versus FTEs planned (*88.9*).

The shortfall in staffing has not impacted Metro's ability to effectively manage the Project. Review of staffing plans is on-going to ensure needs are addressed.

Mangrove Fan Plant	TBD								1
Grand Total	36	21	7	23	23	12	5	20	3

#### REAL ESTATE ACQUISITION

#### **OPEN REAL ESTATE MATTERS**

#### City of Los Angeles (Mangrove Parcels) - No Change

 The appraisal is underway to value the additional right of way required for the Fan Plant. The Project requested that Real Estate delay exercising the option to extend the 5-year easement for an additional three (3) years until closer to the expiration date.

#### City of Los Angeles Department of Water and Power 'Duco Yard' - DWP (RC-473)

- LADWP has agreed to a compromise in the valuation of the Property. The Board approved the recommended the purchase price at its June 22<sup>nd</sup> meeting. Staff will proceed to draft a Purchase and Sale Agreement.
- LADWP submitted its estimate of the modification required to their yard to continue their operations. The estimate is being reviewed by the Project. Follow-up interface between the parties continues.

# **QUALITY ASSURANCE STATUS**

# C0980 Regional Connector D/B

- Metro QA reviewed and provided comments on RCC's quality-related submittals,
   Construction Quality Work Plans (CQWPs) and milestone submittals;
- Performed oversight verification of RCC's design and construction activities;
- Reviewed test results for Portland cement concrete:
- Attended Readiness Review meetings with RCC;
- Performed a desktop review surveillance of the tunnel boring and ring build documentation of the left tunnel from Sta 29+41 west portal to Flower cut/cover at Sta 19+00;
- Continued an ongoing surveillance of the power relocation activities at 6<sup>th</sup>/Flower. This
  activity will be in progress until the pre-cast and cast-in-place vaults have been
  installed along with their associated components and accessories;
- Performed a surveillance of the wall mock-ups at 2<sup>nd</sup>/Hope for all station walls system wide. The mock-ups were found to meet project requirements and were signed off by RCC's Engineer of Record and Metro Engineering and Construction Management;
- Performed surveillance at ProCast for the casting of deck panels for Flower Street.
   The activities during the surveillance were found to be in compliance with project requirements;
- Monitored verification of rebar at Alamillo Rebar in Paramount by RCC QA. The verification activities were found to be in compliance with project requirements;
- Continued to track damaged ring segments that have occurred during the ring building during tunnel boring activities. RCC will repair the damages during and after the placement of the emergency walkway installation. A CQWP and Inspection and Test Plan will be developed for the repair process; and
- Completed the annual audit of RCC. There were no actionable findings. Five (5)
  observations/recommendations were noted by the Auditor. A final report is
  forthcoming.
- NCR 024 was opened by RCC. This NCR was initiated due to UMP-0074 being installed incorrectly. This installation was reworked and the NCR is now closed.
- Metro QAR C0980-QAR2016-S07-01 remains open until the Re-Shoring Plan for Grand Av Arts/Bunker Hill Station is revised and resubmitted. The plan was rejected by Metro/CPJV Engineering due to an excessive number of unresolved comments by the Engineer of Record for the plan.

# **QUALITY ASSURANCE STATUS (CONT.)**

- RCC testing performed to date are as follows:
  - 1. Portland cement concrete 28-day test results: 850; number accepted: 850
  - 2. Asphalt concrete density tests results: 203; number accepted: 203
  - 3. Soil compaction (in-situ density) tests performed to date: 168; number accepted: 168
  - 4. Welding MT/UT testing to date is: 8142 number accepted: 8139

# **ENVIRONMENTAL STATUS**

- SWPPP inspections of all project areas are conducted weekly by RCC to observe site conditions and report on performance of stormwater protection Best Management Practices.
- Metro is preparing the 18th Quarterly Mitigation Monitoring and Reporting Plan covering May 2017 to July 2017. Metro will submit the report to the FTA by August 14, 2017.
- RCC is currently working on the 100% landscape design plans for Segment A and the 100% landscape design plans for Segment B.
- Metro completed the preparation of the 5th Semi-Annual Cultural Resources Report, documenting cultural resources monitoring from January 2017 to June 2017. The report was submitted to the FTA and the SHPO on July 31, 2017. Reporting will continue a semi-annual basis until ground-disturbing activities conclude.
- Vibration and noise spot checks are being conducted weekly at multiple sensitive locations along Flower Street between 5th and 6th Streets to monitor vibration and noise compliance with increased work activity such as drilling piles and utility relocation.

# CONSTRUCTION AND COMMUNITY RELATIONS STATUS

#### **Construction Relations**

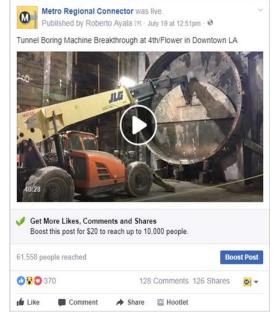

- Responded and addressed project related inquiries from the public received on the project hotline, email and during office hours at the Little Tokyo Community Office.
- Performed public outreach and construction coordination to impacted area stakeholders regarding the following construction activities throughout the alignment: geotechnical instrument installation and maintenance, TBM retrieval activities, pile and cap beam installation and utility work at 6th Street and 1st Street. Distributed nine (9) construction notices to the public on these activities through email and made it available on the project website and social media outlets.
- Coordinated construction activities with *seventeen (17)* stakeholders throughout the project alignment on the above activities.
- Presented current construction activities and provided a look ahead of future work at the Promenade and Savoy Home Owners Associations' Annual Meetings.
- Presented to the Flower St/Financial District Community Leadership Council Committee and provided updates on Flower Street activities, including the TBM retrieval, relocation progress and upcoming weekend decking closures.
- Continued standing meetings with: LA City Councilmember District 14, the Mayor's Office, Onni Times Square, Common Wealth Partners, The Westin Bonaventure Hotel, Charles Dunn, Citigroup Center, the Central Library/Hines, The Standard Hotel, Pegasus Apartments and the California Club.

# **Social Media Outreach and Marketing Efforts**

- Facebook has over 10k followers with a total reach of 195k users. Twitter had 782k impressions with 2,709 total followers. The live web cast of the TBM breakthrough under the deck at 4th/Flower Street reached over 61.5k people and had 1.3k reactions.
- The monthly E-Newsletter had a similar open rate of 22% as the previous month.

# **Community Relations**

 Continued work with the monthly Little Tokyo Marketing & Business Task Force. Held Small Business workshop with Little Tokyo Service Center Partner and Asian Pacific Islander Small Business program.

# **CREATIVE SERVICES STATUS**

# **Art Program**

- Responded to RFIs and Submittals
- Participated in coordination meetings with project team
- Continued to support mitigation efforts

# **Signage & Environmental Graphic Design**

- Responded to RFIs and Submittals
- Participated in Design Build document reviews

# **SAFETY & SECURITY STATUS**

## **C0980 Regional Connector**

- Monitored RCC's pre-employment drug/alcohol testing and new employee safety orientation to insure compliance with contract specifications.
- Participated in weekly progress meetings with RCC's management personnel and Metro's Construction Manager to discuss safety/security/quality related issues and construction work schedules.
- Conducted Project Safety Orientation for new Metro/Consultants, visitors, and IPMO project staff. Training sessions included Safety Orientation, Underground Safety, and Self Rescuer Training.
- Participated in work plan reviews, daily crew safety meetings, and the RCC 'Safety Stand Down' sessions.
- Monitored construction field activities daily to insure compliance with contract specifications. Participated with RCC staff in field safety inspection walks of multiple project worksites, laydown, and storage yards.
- Monitored Third Party contractor's work activities to insure safety compliance.
- Made recommendations to utility crews regarding contract activities and improving overall traffic control and pedestrian safety.
- RCC reported one Recordable injury in the month of July 2017.
- C0980 Contractor RCC reported 70,709 work-hours for the month of June 2017 (work-hours are reported with a one-month lag time). The total C0980 Contract to Date work hours through June 2017 are 1,670,272 with a total of eight (8) recordable injuries and no Lost Workday case injuries. The C0980 Contract Recordable Injury Rate is .96. The Bureau of Labor Statistics National Average Recordable Injury Rate is 2.8 for heavy civil construction projects.
- Project to Date Total Work Hours including both the C0980 and the C0981 Advanced Utility Relocation contract through *June* 2017 is now *1,781,331* hours with nine (9) recordable injuries. Project Total Recordable Injury Rate is now *1.01*. There have been no days away injury cases on the project.

# THIRD PARTY AGREEMENT STATUS

Agency	Type of Agreement	Status/Comments
City of Los Angeles	Amendment to Master Cooperative Agreement	Parties will work under 2003 MCA.
Los Angeles Department of Water and Power	Amendment to Memorandum of Understanding	Metro and LADWP will continue to work under the terms of the previous Cooperative Agreement.
Los Angeles County Public Works	Letter of Agreement	Executed in April 2011
Caltrans	Amendment	Executed in August 2011
Private Utilities	LOA, MOU or UCA	All agreements in place with exception of Level 3, Qwest, XO Comm, Zayo and Time Warner. Metro is in discussion with those utilities to establish agreements.

# **ADVANCED UTILITY RELOCATION STATUS**

LADWP-Power Services anticipated completion dates for cable pulling, splicing and removal of old facilities including the following:

- RCC is continuing to coordinate with LADWP and the City of Los Angeles in preparation for the relocation of the local LADWP electrical system in the 6<sup>th</sup> and Flower area. Metro continues to work with all parties to facilitate coordination of the relocation design and construction in preparation for future decking installation.
- RCC is currently installing power conduit laterals on 6<sup>th</sup> Street east of Flower Street. In addition, LADWP is running and installing conduit to the live vaults. RCC has completed the electrical conduit (Mainline A) work that runs along 6<sup>th</sup> Street, between Figueroa and Hope Street. The remaining to be completed is the conduit work (Mainline B) that runs on Flower between Wilshire Blvd, and 5<sup>th</sup> Street, and two vaults; one on Flower Street north of Wilshire Blvd, and the other located on 6<sup>th</sup> Street, west of Flower Street.
- LADWP is approximately 90% complete with the intercept work for Mainline A. Remaining work includes intercept work for Mainline B, and cable pulling and splicing.
- Conduit work on Flower Street (Mainline B) and Vault 621 (Flower/Wilshire) has been challenging due to the adjacent closure at 6<sup>th</sup>/Flower Street. RCC is reviewing options for implementing a traffic control plan while not impacting the 6<sup>th</sup>/Flower closure with an additional vehicle volume.

# **C0980 UTILITY WORK STATUS**

RCC is currently coordinating with all affected utility owners to relocate their utilities by lowering in place or support and protect to accommodate the Project.

# PEAK HOUR CONSTRUCTION VARIANCES

Metro is actively pursuing extended hour variances/exemptions to accommodate Project needs by working with the City of Los Angeles, Bureau of Engineering, the Los Angeles Police Commission, the City of Los Angeles Department of Transportation and the City Council District 14<sup>th</sup> Office to obtain Peak Hour Exemptions.

# Historic Broadway and Grand Av Art/Bunker Hill Stations:

 As of May 8, 2017, Historic Broadway Station has entered steady state condition in which soldier piling/decking operations have been completed in the City ROW. Emphasis is primarily on underground station construction until approximately the year 2021.

#### Flower Street Cut & Cover Area

- Metro obtained an AM and PM peak hour exemption to place k-rail on the eastside of Flower Street (between 4<sup>th</sup> and 5<sup>th</sup> Sts.) to support above and below ground construction operations for decking along Flower Street. Approval was granted by the Board of Public works from October 1, 2016 to November 9, 2019.
- Metro obtained an AM and PM peak hour exemption to perform pre-trenching operations on Flower St (5th St Wilshire Blvd) from April 10, 2017 to June 23, 2017.
- Metro obtained a PM peak hour exemption on June 2, 2017 to facilitate the traffic control configuration of the 6<sup>th</sup> St closure implemented on June 3, 2017.

# POLICE COMMISSION CONSTRUCTION VARIANCES

Metro continues to work closely with the Los Angeles Police Commission and actively pursue new night/Sunday work hour variances as well as expanded geographic limits and time extensions for existing variances to accommodate Project needs.

In July 2017, LAPD approved one (1) new variance for the following location:

• At the 1<sup>st</sup> and Alameda area, one new (1) variance was approved for the installation of wet and dry utilities on 1<sup>st</sup> Street between Rose and Garey Streets.

In July 2017, LAPD approved time extensions for one (1) existing variance for the following location:

• At the 2nd and Broadway work area, one (1) variance was extended for excavation work at the station box and on 2<sup>nd</sup> Street between Broadway and Spring Street.

# **CPUC CROSSING SUMMARY**

In July 2016, Metro and RCC finalized the items that needed to be included in the checklist for the Safety Certification Status. Metro is in the process of reviewing the Safety Certification Checklist submitted by RCC in October 2016. The list involves both design and construction items below:

- Passenger Stations, Train Control and Signals, Traction Power, Overhead Catenary, Communications, Track and Structures, Vertical Transportation (elevators, escalators), Fire Life Safety Systems, Security Systems, and CPUC Specific Requirements.
- Metro and RCC staff have reached a consensus of each Systems Safety Certification item per discipline that needs to be included in the plan. These items have been inserted into a Microsoft Access Database for tracking, sorting, and distribution to key staff members for alerting of any potential issues that must be resolved. This will ensure that the completion of the Safety Certification Plan will be completed in a timely manner and not impact the Revenue Operation Date (ROD).

As of January 2017, the Safety Certification Checklist has been approved by Metro.

	CHRONOLOGY OF EVENTS
June 2007	Began Alternatives Analysis study
January 2009	Board approval of Alternatives Analysis study and next phase
February 2009	Began Draft Environmental Impact Statement / Report (EIS / EIR)
October 2010	Board approval of Draft EIS / EIR and selection of locally preferred alternative
January 2011	FTA approval to Enter into Preliminary Engineering
January 2011	Began Preliminary Engineering
August 2011	Board authorized to solicit major D/B contract C0980
October 2011	Issued RFQs for D/B contract C0980
December 2011	Began Real Estate Acquisition
March 2012	Completed PE and began Advanced PE
April 2012	Board certification of Final EIS / EIR and adoption of project
April 2012	Began Final Design - Advanced Utility Relocations (AUR)
June 2012	FTA Record of Decision
August 2012	Issued RFQs for D/B contract C0980
January 2013	Issued RFPs for D/Build contract C0980
March 2013	Completed Final Design - Advanced Utilities Relocation (AUR)
May 2013	NTP for Construction Management Services contract MC070
June 2013	Beginning of AUR contract C0981R Bid Period
July 2013	Submitted TIFIA loan application
July 2013	Submitted first draft FFGA application to FTA for review
September 2013	Received proposals for D/B Contract C0980

	CHRONOLOGY OF EVENTS (Cont.)
September 2013	Submitted second draft FFGA application to FTA, incorporating FTA comments
October 2013	Submitted Application to FTA Requesting an FFGA
November 2013	Started Emergency Generator Replacement Tank at 2 <sup>nd</sup> Street and Historic Broadway Station (LA Times Building)
December 2013	Issued "Notice of Intent to Award" letter to contract C0981R contractor Pulice Construction Inc.
January 2014	Awarded AUR contract C0981R to Pulice Construction Inc.
February 2014	Issued Notice to Proceed for AUR Contract C0981R
February 2014	FTA issued Full Funding Grant Agreement to Metro
March 2014	Issued Amendment # 11 for D/B Contract C0980
March 2014	Started Survey for AUR Contract C0981R
April 2014	Metro Board approved the award of D/B Contract C0980 and established a LOP Budget
May 2014	Awarded D/B Contract C0980 to Regional Connector Constructors, Joint Venture
June 2014	Obtained possession of the Mangrove property form the City of Los Angeles
July 2014	Issued Notice to Proceed for D/B contract C0980
August 2014	C0980 D/B Contractor (RCC) began Final Design
September 2014	Metro performed the ground-breaking ceremony for C0980 D/B Contract
October 2014	EN077 Contractor, Arcadis, removed the underground storage tank at LA Times Parking Lot
November 2014	C0981R AUR Contractor completed DWP power work at 1 <sup>st</sup> St. and Alameda
December 2014	Metro completed Field Vibration Testing for existing Expo and Gold Lines
January 2015	Demolish Buildings at 1 <sup>st</sup> /Central Station
February 2015	Metro approved the Baseline Schedule for C0980 D/B Contract
March 2015	RCC started Historic Broadway Station Site Move-In

	CHRONOLOGY OF EVENTS (Cont.)
April 2015	Metro terminated C0981R Contract for convenience
May 2015	RCC started pile installation at Mangrove Launch Pit
June 2015	RCC started decking for shoofly bridge (Pile Cap & Grade Beam)
July 2015	DWP Water started installing 36" Water Valve at Alameda St.
August 2015	RCC completed DWP Power work at Flower & 5th Street
September 2015	RCC started Phase 2 DWP Power Relocation work at Broadway (Behind K Rail).
October 2015	RCC started pile installation at 1 <sup>st</sup> /Central Station
November 2015	RCC completed Central Ave Full Closure (Pile & Decking)
December 2015	Metro Board approved the increase (\$131.8M) of the Project LOP Budget to \$1,589.9 million.
January 2016	RCC began implementation of Bus Bridge # 1 (Shoofly Tie-In Work at Little Tokyo.
February 2016	RCC began implementation of full closure at 2 <sup>nd</sup> /Broadway intersection.
March 2016	RCC completed Bus Bridge # 1 (Shoofly Tie-In at Little Tokyo) work.
March 2016	Excavation of 1 <sup>st</sup> /Central Station was initiated.
April 2016	TBM (Tunnel Boring Machine) was delivered to the temporary storage site.
May 2016	Closed 1st Street between Alameda and Central Streets.  Opened northbound 1 <sup>st</sup> East of Alameda Street.
June 2016	RCC completed excavation at 1 <sup>st</sup> /Central Station Box
June 2016	RCC began pile installation on west side of Flower Street between 4th and 5th Street
July 2016	RCC initiated pile installation at Historic Broadway Station (West Hammer Head)
July 2016	RCC Initiated CIP invert at 1 <sup>st</sup> /Central Station Box
August 2016	RCC completed 36" waterline replacement at 1st/Alameda
September 2016	RCC completed temporary decking at 1 <sup>st</sup> /Alameda intersection (Wye)

	CHRONOLOGY OF EVENTS (Cont.)
October 2016	Metro performed TBM lowering ceremony
October 2016	RCC completed CIP invert at 1 <sup>st</sup> /Central Station Box
November 2016	RCC completed CIP invert at Mangrove Launch Pit and Wye
December 2016	RCC completed Phase 1, 2 <sup>nd</sup> Street Decking in front of LA Times Bldg.
January 2017	Metro Board approved a LOP Budget increase
February 2017	RCC initiated TBM mining (1 <sup>st</sup> – Left)
March 2017	RCC completed TBM mining under JVP (first 500 ft.)
March 2017	RCC completed temporary decking on Flower St. (between 4 <sup>th</sup> and 5 <sup>th</sup> )
April 2017	RCC completed sub-invert at TBM retrieval pit
April 2017	RCC completed CIP invert at Grand Av Arts/Bunker Hill Station Box
May 2017	RCC completed temporary decking at Historic Broadway Station
May 2017	RCC completed water relocation work along Flower Street
June 2017	RCC completed mining and broke through at Grand Av Arts/Bunker Hill Station
June 2017	Five-month full closure of 6 <sup>th</sup> Street approved by LADOT, Caltrans and LADWP
July 2017	RCC completed TBM mining of the first tunnel

# **CONSTRUCTION CONTRACTS**

Description: Design-Build Contract
Contractor: Regional Connector Constructors

Contract No. C0980

Status as of: July 28, 2017

#### **Work Completed:**

#### Design

- Coordinated with Tribune for the overbuild structure
- DU2 WYE Fan Plant and Flower Cut & Cover 100% design package submitted
- DU4 Civil Segment A 100% design package submitted
- DU12 Communications 100% design package (without Radio) approved

## Construction

#### Tunneling

- Completed TBM mining (1<sup>st</sup> left tunnel)
- Extracted TBM cutter head and front shield from the Retrieval Pit

#### **Broadway**

- Continued Level 4 excavation at Historic Broadway Station Continued storm drain (Hobas) installation along 2<sup>nd</sup> St.
- Continued demolishing existing storm drain along 2<sup>nd</sup> St.

### Hope

Initiated concourse level SOG

#### Flower

- Continued DWP Power Relocation work at 6<sup>th</sup>/Flower
- Continued excavation under decking on Flower St. (between 4<sup>th</sup> and 5<sup>th</sup>)
- Continued pile installation on Flower St. (between 5<sup>th</sup> and 6<sup>th</sup>)

#### Major Activities (In Progress):

#### Design

- Coordinate with Tribune for the overbuild structure
- Review and approve AFC package for Historic Broadway Station
- Support in feasibility assessment the 6th/Flower train control room
- Preparation of street restoration design with City families
- Preparation of SEM Resequencing AFC package
- Preparation of DU2 WYE Fan Plant and Flower Cut & Cover AFC design package submitted
- Preparation of DU6 Pedestrian Bridge 30% design
- Preparation of DU4 Civil Segment A AFC design submittal
- Preparation of DU5 Civil Segment B 100% design submittal

#### Construction

#### Tunnelina

Continue TBM assembly and testing at 1<sup>st</sup>/Central

#### 2nd/Broadway

- Continue Level 4 excavation
- Complete storm drain (Hobas) installation along 2<sup>nd</sup> St.

#### 2nd/Hope

Complete concourse level SOG

#### Flower

- Continue pile installation on Flower St. South (between 5<sup>th</sup> and 6<sup>th</sup>)
- Continue excavation of Flower St. North (between 4<sup>th</sup> and 5<sup>th</sup>)
- Continue DWP Power Relocation at 6<sup>th</sup>/Flower

#### Project-wide

- Geotechnical equipment installation and monitoring across the project alignment
- Pre-con surveys (photograph existing conditions) at various locations, as needed
- Underground investigation potholing Hydrovac and exploratory trenching at various locations project wide
- Preparation of submittals and traffic control plans, including weekly meetings with LADOT and City Council District 14

# **CONSTRUCTION CONTRACTS (Cont.)**

**Description: Design-Build Contract** Contract No. C0980 **Contractor: Regional Connector Constructors** Status as of: July 28, 2017 **Areas of Concern: Upcoming Interim Milestones:** TBM component failures and differing site conditions have Design resulted in delays to mining operations and the project DU2 WYE Fan Plant and Flower Cut & Cover AFC schedule. Replacement of three screw drives on the TBM is package to be approved underway during the TBM re-setting between the first and DU4 & DU5 Civil AFC package to be approved second tunnel bores. Actions to accelerate the second tunnel DU12 Communications AFC package to be submitted bore are under review to mitigate experienced delays. Construction 1st/Central/Tunneling Complete TBM assembly and test for second tunnel 2nd/Broadway Continue excavation at Historic Broadway Station 2nd/Hope Flower Continue pile installation on Flower St. South (between 5<sup>th</sup> Initiate temporary decking installation on Flower St. (between 5<sup>th</sup> and 6<sup>th</sup>) Continue excavation of Flower St. North (between 4th and Continue DWP Power relocation at 6<sup>th</sup>/Flower Project-wide Complete placement of geotechnical monitoring instrumentation along the alignment

# **APPENDIX** COST AND BUDGET TERMINOLOGY

# **Project Cost Descriptions**

The Original Project Budget established upon Board

approval of Life-of-Project (LOP) budget, plus Finance

Costs.

The Original Budget plus all approved budget

amendments. Also referred to as Approved Budget.

The total of actual contracts awarded, executed change orders or amendments, approved work orders of Master Cooperative Agreements, and other Metro actions which

have been spent or result in the obligation of specific

expenditures at a future time.

The total dollar amount of funds expended by Metro for contractor or consultant invoices, third party invoices, staff salaries, real estate and other expenses that is

reported in Metro's Financial Information System (FIS).

The best estimate of the final cost of the project when all checks have been issued and the project is closed out. Current Forecast is composed of actual costs incurred to

date, the best estimate of work remaining and a current

risk assessment for each budgeted cost item.

Cost Report by Element **Descriptions** 

Includes construction contracts. Cost associated with

Guideways, Stations, Southwestern Yard, Sitework/Special Conditions and Systems.

Includes purchase cost of parcels, easements, right-of-

entry permits, escrow fees, contracted real estate

appraisals and tenant relocation.

Includes the purchase of LRT vehicles and spare parts

for the project.

Includes design engineering, project management **PROFESSIONAL** 

assistance, construction management support services, legal counsel, agency staff costs, and other specialty

consultants.

A fund established at the beginning of a project to

provide for anticipated but unknown additional costs that

may arise during the course of the project.

Includes all revenue receivable to the Metro as a direct result of project activities. This includes cost sharing

construction items, insurance premium rebates, and the

like.
