PROJECT OVERVIEW

Project Background

The Westside Purple Line Extension Section 3 Project (Project) is the third of three sections to be designed and constructed as part of the Los Angeles County Metropolitan Transportation Authority's (Metro) Measure R and Measure M Programs. The Measure R and Measure M Programs were approved by Los Angeles County voters in November 2008 and in November 2016, respectively, and provide in total a one-cent sales tax to finance new transportation projects. In April 2012, the three sections of the Project were environmentally cleared and adopted by Metro Board of Directors.

Section 3 will extend to Westwood from the future Century City Constellation Station that is part of the Westside Purple Line Extension Section 2 Project and currently under construction. The Project is located entirely underground, primarily following Wilshire Boulevard, and includes the design and construction of approximately 2.56 miles of double-track heavy rail, two new stations as well as the purchase of 16 heavy rail vehicles. The Westwood/UCLA Station is within the jurisdiction of the City of Los Angeles, and the Westwood/Veterans Administration (VA) Hospital Station is within the jurisdiction of the unincorporated area of Los Angeles County. The Project also includes train controls, signals, traffic controls, communications, traction power supply and distribution, fare collection systems and equipment, acquisition of right-of-way, and utility relocations.

The Westwood/UCLA Station box will be under Wilshire Boulevard beginning west of Westwood Boulevard and extending to the east of Veteran Avenue. The station will have three entrances, two full entrances on the northside of Wilshire Boulevard and one-half entrance on the southside of Wilshire Boulevard. The two full entrances will be located at Wilshire Boulevard and Gayley Avenue, and at Wilshire and Westwood Boulevards. The half entrance will be located at Wilshire and Westwood Boulevards.

The Westwood/VA Hospital Station box will be under the VA south campus, beginning west of the I-405 Freeway and extending west of Bonsall Avenue. The station will be equipped with double crossovers, one at each end of the station. The station entrance will be south of Wilshire Boulevard and east of Bonsall Avenue.

Major Procurements

<u>Contract C1151 – Tunnels:</u> The procurement of this design/build contract utilized a competitive negotiated procurement process to select a contractor that was determined to have met all the requirements set forth in the Request for Proposals (RFP) with a technically acceptable, "Lowest Evaluated Price" selection process. In June 2018, the Board authorized to award the C1151 Tunnels contract, subject to the FTA approval of the Letter of No Prejudice (LONP). The contract was awarded to Frontier-Kemper/Tutor Perini, JV (FKTP) on November 30, 2018 after receiving the LONP from the FTA. Notice to Proceed (NTP) was issued on January 15, 2019.

The design/build contract provides for final design and construction of the twin bored tunnels, complete with cross-passages, along the 2.56-mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. A tunnel boring machine (TBM) launch shaft will be constructed at the westerly end of the Westwood/VA Hospital Station. Upon substantial completion, FKTP will turn over all temporary lighting and ventilation to the follow-on contractor (Contract C1152).

Contract C1152 – Stations, Trackwork, Systems and Systems Integration Testing: The procurement of this design/build contract utilized a two-step approach with the submittal of qualification statements through a Request for Qualification (RFQ) process, prequalification of qualified proposers followed by the release of a Request for Proposals (RFP) soliciting technical and price proposals on a Best Value selection process with an option at Metro's discretion for Best and Final Offers (BAFO). In February 2019, the Board authorized the CEO to award the C1152 Stations, Trackwork, Systems, and Systems Integration Testing contract to Tutor Perini/O&G, JV (TPOG), subject to the FTA approval of a Full Funding Grant Agreement (FFGA). After the February Board action, FTA issued an LONP on April 18, 2019 that allows contract award to occur prior to

receipt of an FFGA. The Board approved award of the C1152 contract at the May 2019 Board Meeting, and the Contract was awarded on May 28, 2019.

The Design/Build contract provides for final design and construction of the infrastructure along the 2.56-mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. The twin bored tunnels will be complete with walkways including all mechanical, electrical and finished work. Two underground stations are to be constructed, with the Westwood/VA Hospital Station having two double crossovers, one at each end of the station. Each station will be equipped with stairs, escalators, and elevators which meet ADA requirements. The scope of work also includes all architectural finishes, mechanical and electrical systems and equipment including train control, traction power, communications, trackwork, system tie-in at the future Century City Constellation Station, testing and commissioning.

<u>Contract C1153 – Advanced Utility Relocations:</u> The work scope of this firm fixed price contract includes the relocation of existing LADWP power and water utilities within the construction limits of the Westwood/UCLA Station. Metro issued Notice of Intent (NOI) to award to Steve Bubalo Construction Company (SBCC) on October 2, 2017 and NTP on January 2, 2018. SBCC is responsible for working in streets, procuring materials, and coordinating with the utility owner. SBCC will construct new facilities in accordance with the utility plans and specifications, provide traffic control, restore streets, and support utility crews installing cabling and during cut-over of the existing utilities.

Metro Furnished Equipment

Metro has procured a contract to provide 16 Heavy Rail Vehicles (HRV) necessary to operate the extension of the Purple Line. The scope of the HRV contract includes design, manufacturing, testing and delivery of the vehicles. An additional contract will be procured for the Universal Fare System (UFS). The scope of the UFS contract will include design, fabrication and installation of equipment at the two new stations and system testing.

Program Management

The Westside Purple Line Extension Section 3 Project is being managed under the direction of an Integrated Project Management Office (IPMO). WSP Global (WSP) provides engineering and design support services, while MPPC Partners, a Joint Venture provides construction management support services. The on-site program management team is also supported by Metro headquarters' resources and includes, but not limited to, engineering, risk management, environmental, quality management, operations, and creative services departments.

<u>Project Schedule and Budget:</u> The Revenue Service Date (RSD) is planned for 2027. In June 2018, the Board authorized to establish the Life of Project (LOP) Budget for the Tunnels portion of the Project. In February 2019, the Board amended the LOP Budget to

include the Stations portion of the Project. The LOP Budget for the Westside Purple Line Extension Section 3 Project is \$3.2 billion excluding Finance Charges of \$387.4 million. A detailed LOP Budget forecast is included under the Budget and Cost Forecast section of this report.

Funding is projected from a variety of sources to include:

- Federal Section 5309 New Starts
- Federal CMAQ (Congestion Mitigation & Air Quality)
- Federal Surface Transportation Block Grant Program
- Measure R 35%
- Measure M 35%
- State STIP RIP
- State Capital Projects Loans
- Local Agency Contributions

Start Up: The commencement of pre-revenue operations will be determined by Metro. Generally, all systems integration testing will have been completed and passed. All testing will be required to include and pass a "stress test" of maximum operational service levels to be acceptable. Pre-Revenue Operations include train runs, especially those involving multiple trains on the integrated and fully operational extension; rehearsal of expected revenue operations scenarios; abnormal and emergency scenarios in which random combinations of system interactions are tested and equipment "burned-in"; and training of emergency services as well as Metro personnel who will operate and maintain the extension. Activities occurring during Pre-Revenue Operations are carried out by a designated Metro Project Rail Activation Group.

EXECUTIVE SUMMARY

In May 2019, the Project achieved approximately 4% completion to-date based on earned value measurements for the overall project. The current focus of the Project will be completing the C1153 - Advanced Utility Relocations (AUR) contract, continuing the final design for Contract C1151 - Tunnels, advancing third party utility relocations, and preparing for Contract C1152 - Stations.

Contract C1153 has a forecast substantial completion date of July 2019. Contract C1151 has a substantial completion date of November 2022 and is to demobilize by February 2023. Contract C1152 has a substantial completion in summer of 2026 in support of Revenue Service in 2027.

The following is an overview of current design and construction activities.

Design Status

- The Engineering Management Services team composed of WSP staff provides design support during construction for the Advanced Utility Relocations (AUR) work at the UCLA/Westwood Station area as well as real estate support services. The team is also supporting Metro in reviewing the Tunnels final design submittals, responding to RFI's, and assisting in the preparation of change notices.
- C1151 Tunnels Contract:

The design work has been identified into distinct design unit packages:

- DU 1.1 Tunnels and Cross Passages
- DU 2.1 VA Hospital West End Wall
- o DU 2.2 VA Hospital East End Wall
- o DU 2.3 UCLA End Wall
- o DU 3.1 Tail Track Exit Shaft
- o DU 3.2 SCE Conduit
- o DU 3.3 Contractor Staging Area

Each design unit package will be submitted and evaluated at each of the following phases: 60%, 85%, 100%, Approved for Construction (AFC), and Issued for Construction (IFC).

The 60% design started with geotechnical and environmental investigation. The deliverables that were submitted in this reporting period include Veterans Affairs (VA) Western Construction Staging Area, 60% design; Tunnels and Cross Passages, 60% design; and Southern California Edison (SCE) Power Connection, 100 design.

C1152 – Stations Contract:
 Design work will start upon issuance of the contract NTP.

Construction Status

- C1153 Advanced Utility Relocations:
 All electrical ductbanks and vaults are complete, and SBCC continues with the remaining scope for water relocations. The contract is 94% complete and substantial completion is forecasted to occur in July 2019.
- LADWP started cable pulling and splicing through the new ductbanks.
- C1151 Tunnels Contract:

FKTP has started project wide geotechnical boreholes with first boreholes underway at the VA Tail Track Exit Shaft Site along the alignment and Westwood/UCLA Station to follow. Subject to approvals, FKTP is preparing to start SCE ductbank construction and site development of the construction staging area, when access and permitting allows.

Third Party Utility Relocations:
 Joint trench conduit and vault relocations are in progress. Conduit installation is approximately 50% complete, and vault delivery and installation are anticipated in the summer of 2019.

Cost and Schedule Summary

The C1153 Contractor's request for a non-compensable time extension of 57 calendar days for completing the additional water relocations for LADWP was approved in May 2019, and the substantial completion date is July 3, 2019. The joint trench by third party utility companies will continue through spring 2020.

For Contract C1151, conducted Baseline Schedule Comment Review meeting on May 31, 2019. FKTP is preparing responses to Metro's comments.

The Critical Path (CP) of the Project includes third party utility relocations, C1151's Contractor required utility relocations, followed by both stations' support of excavation, street decking, station structural box excavations, and structural concrete for the stations. Next it flows into installation of the interior finishes and electrical equipment, followed by systems, testing and pre-revenue operations. A summary graphic of the critical path is found on Page 13.

Original Budget, Current Budget and Current Forecast

The Original Budget, Current Budget and Current Forecast of \$3.6 billion reflects the Board approved Life of Project (LOP) Budget on February 28, 2019, plus Finance Charges of \$0.4 billion.

Commitments

The Commitments increased by \$1.4 billion primarily due to Contract Award for Stations, Trackwork, and Systems Contract C1152 and Task Orders for Program Management Support Services. The \$2 billion in Commitments to date represent 55.85% of the Current Budget.

Expenditures

The Expenditures increased by \$19.2 million due to costs associated with the Tunnels Contract C1151, AUR Contract C1153, Third Party Private Utility Agencies, Metro Project Administration, Engineering Management Support Services, Program Management Support Services, and Master Cooperative Agreement with the City of Los Angeles. The \$140.9 million in Expenditures to date represent 3.9% of the Current Budget.

Cost Contingency Drawdown
To be provided upon receipt of the FFGA.
Cost Contingency Drawdown Analysis
To be provided upon receipt of the FFGA.
To be previded aport recorpt of the FF C/t.

Risk Management

Summary of Risks

The Risk Register is updated on a quarterly basis. The Risk Register was updated on April 10, 2019. Within this quarterly reporting period one (1) new risk was identified and two (2) risks were closed, leaving a total of sixty-one (61) risks to be managed in the next reporting period.

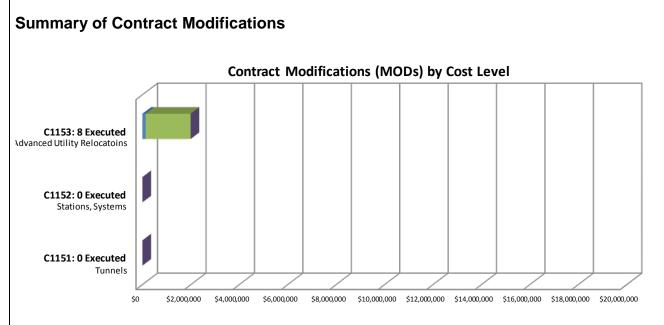

Of the sixty-one (61) risks, one (1) is scored as high, thirty-three (33) as medium and twenty-seven (27) as low.

The risks identified last reporting period remain the same during this period. The next WPLE Section 3 Project Risk Register quarterly update is currently being planned.

Top Five Risks

The table below shows the top five (5) project risks.

		Risk	
Risk ID	Risk Description	Score	Action Items
701.3	Tariffs potentially impact D/B contractors.	10.5	Monitor the market trend and assess the potential impact.
287.3	Delays due to obtaining lane closures and peak	9.0	1. Identify temporary bus stop re-locations. Meet with City to
	hour exemptions.		identify relocation of stops outside work areas.
			2. Metro to review bus routes and stop locations.
			3. Submit the Peak Hour Exemption Request.
657.3	Replacement parking at VA hospital may impact	9.0	1. Include in ROW budget - Complete
	cost and schedule. Additional parking spaces		2. Identify local funding source to meet the additional parking
	above and beyond the in-kind parking spaces		spaces requirement.
	replacement will be funded by local fund. No cost		
	risk impact on FFGA budget.		
653.3	Delay of contract turnover from tunnels to	8.0	1. Review scope, ROW, procurement methodology, NEPA action,
	stations.		LONP to identify schedule risks.
			2. Received LONP and 130c documents.
648	Construction activities may cause significant	7.5	Community outreach sessions.
	disruption to the communities and businesses		2. Develop additional mitigation plans to reduce traffic impacts,
	along the alignments and could potentially drive		and provide safe access.
	onerous mitigation to satisfy the public.		3. Provisional Sums (based on Sound Wall - can be quantified)

	C1151	C1152	C1153	Total

PROJECT ORGANIZATION AND STAFFING

The design-build contract is being managed by a joint team of Metro and consultant personnel jointly located at the Integrated Project Management Office (IPMO).

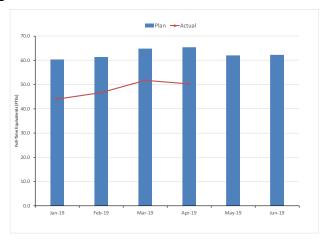

Westside Purple Line Extension Section 3 Responsibility and Reporting Matrix

The Total Project Staffing Plan for the last six months of FY19 averages 63.19 FTEs per month.

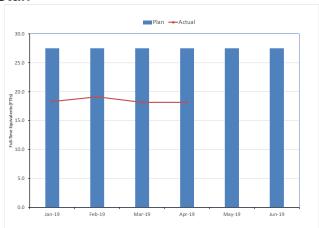

For April 2019, there were a total of 18.2 FTEs for MTA's Project Administration Staff and 32.1* FTEs for Consulting Staff. The total project staffing for March 2019 was 50.3 FTEs.

Total Project Staffing – Metro and Consultants

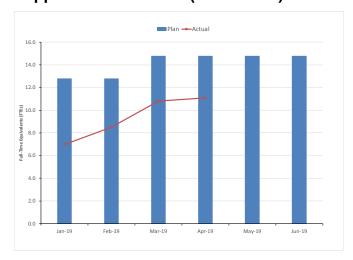

^{*}Actuals include 5.0 FTEs related to Project Management Support Services (PMSS).

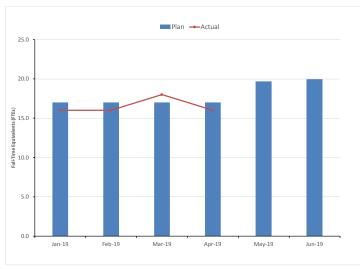

Metro Staff

CM Support Services Staff (Consultant)

Engineering Services Staff (Consultant)

Staffing by Group

The opposing graphs represent planned vs. actual staffing levels by group.

Metro staffing includes full time staff located in the IPMO as well as part-time support located at Gateway Headquarters.

Staffing plans are developed for each fiscal year based on project needs.

QUALITY ASSURANCE

- Attended weekly project staff meetings and biweekly progress meetings with SBCC and FTKP.
- Reviewed Daily Inspection Reports by SBCC and Metro inspectors (CMSS) as well as California testing & inspections independent test reports for completeness and correctness.
- Requested SBCC red line as-built drawings for the completed LADWP power work relocations. SBCC quality control (QC) manager submitted as-built drawings for review.
- Discussed upcoming audits for 2019 with FKTP. Metro to perform annual audit on Tunnels C1151 Contract 60% design and sub-contractor interface in July 2019.
- Worked with CMSS staff to compile construction work plans (CWP) and readiness review list required for Tunnels C1151 Contract.
- Reviewed and provided the following dispositions:
 - o March 2019 QC reports (AUR) For Review Only (FRO)
 - Project Quality Program Manual (Tunnels) Approved as Noted (AAN)
 - o Geotech and Environmental Investigation Work Plans (Tunnels) AAN
 - Organizational Chart (Tunnels) AAN

ENVIRONMENTAL

- Conducted field environmental monitoring and inspections for construction noise, stormwater, fugitive dust Best Management Practices, and Metro's Green Construction Policy for advanced utility relocations and joint trench activities.
- Participated in tunnels contract coordination meetings with FKTP. Evaluated progress and schedules for environmental compliance and sustainability efforts.
- Reviewed and provided responses to tunneling contractor contract submittals and requests for information.
- Completed Sustainability Plan reviews for tunnels design.
- Completed readiness reviews for Geotechnical Investigation Plans.

CONSTRUCTION AND COMMUNITY RELATIONS

- Attended the following meetings: Construction Management, Advanced Utility Relocations, Joint Trenching, Tunnels Contract, Environmental Coordination, Construction Relations, LADOT, UCLA Coordination, Real Estate, SCE Coordination, Metro Business Interruption Fund, and LADWP Coordination.
- Produced and distributed three (3) construction work notices for advanced utility relocations and pre-construction activities on VA Campus.
- Extensive coordination with neighborhood councils and Council Districts.
- Updated Facebook/Twitter and website as needed.

CREATIVE SERVICES

- Continued coordination regarding donation of artwork related to the Bonsall mural reinterpretation with Los Angeles County.
- Conducted research regarding construction fence artwork.

SAFETY & SECURITY

- FKTP Tunnel work and third party advanced utility relocations (AUR) work continue. No injuries were reported during this period.
- Conducted project safety orientation for new Metro/Consultants and IPMO project staff.
- Attended FKTP and SBCC progress, readiness review, schedule, safety/security and over-the-shoulder review meetings.
- Attended SBCC advanced utility relocations progress, readiness review, schedule, safety/security and over-the-shoulder review meetings.
- Conducted right-of-way and safety/security walks, safety/security reviews and coordination separately with FKTP and SBCC staff for oversight and support of all forthcoming project field work activities.
- FKTP completed 7,821 design and 640 construction work-hours for the month of May 2019 with no recordable incidents. Total Project to Date work-hours are 23,571 with no recordable incidents.
- SBCC completed 2,242 construction work-hours for the month of May 2019 with zero recordable incidents. Total Project to Date work-hours are 34,264 with zero recordable incidents.
- The Bureau of Labor Statistics reports that the National Average Recordable Injury Rate is 2.5 for heavy civil construction projects.

APPENDIX CHRONOLOGY OF EVENTS
