KIMBERLY ONG FROM: EXECUTIVE OFFICER/PROJECT MANAGER

SUBJECT: WESTSIDE PURPLE LINE EXTENSION SECTION 3 PROJECT OCTOBER 2020 MONTHLY PROJECT STATUS REPORT

Enclosed herewith is the Monthly Project Status Report for the Westside Purple Line Extension Section 3 Project. This report contains the Los Angeles County Metropolitan Transportation Authority's (LACMTA) representation of the Westside Purple Line Extension Section 3 Project status for the period ending October 30, 2020.

If you have any questions regarding this report or its supporting information, please contact Rick Wilson, Executive Officer, Program Control at (424) 551-4470.

PROJECT OVERVIEW

Project Background

The Westside Purple Line Extension Section 3 Project (Project) is the third of three sections to be designed and constructed as part of the Los Angeles County Metropolitan Transportation Authority's (Metro) Measure R and Measure M Programs. The Measure R and Measure M Programs were approved by Los Angeles County voters in November 2008 and in November 2016, respectively, and provide in total a one-cent sales tax to finance new transportation projects. In April 2012, the three sections of the Project were environmentally cleared and adopted by Metro Board of Directors.

Section 3 will extend to Westwood from the future Century City Constellation Station that is part of the Westside Purple Line Extension Section 2 Project and currently under construction. The Project is located entirely underground, primarily following Wilshire Boulevard, and includes the design and construction of approximately 2.56 miles of doubletrack heavy rail, two new stations as well as the purchase of 16 heavy rail vehicles. The Westwood/UCLA Station is within the jurisdiction of the City of Los Angeles, and the Westwood/Veterans Administration (VA) Hospital Station is within the jurisdiction of the unincorporated area of Los Angeles County. The Project also includes train controls, signals, traffic controls, communications, traction power supply and distribution, fare collection systems and equipment, acquisition of right-of-way, and utility relocations.

The Westwood/UCLA Station box will be under Wilshire Boulevard beginning west of Westwood Boulevard and extending to the east of Veteran Avenue. The station will have three entrances, two full entrances on the northside of Wilshire Boulevard and one-half entrance on the southside of Wilshire Boulevard. The two full entrances will be located at Wilshire Boulevard and Gayley Avenue, and at Wilshire and Westwood Boulevards. The half entrance will be located at Wilshire and Westwood Boulevards.

The Westwood/VA Hospital Station box will be under the VA south campus, beginning west of the I-405 Freeway and extending west of Bonsall Avenue. The station will be equipped with double crossovers, one at each end of the station. The station entrance will be south of Wilshire Boulevard and east of Bonsall Avenue.

Major Procurements

<u>Contract C1151 – Tunnels:</u> The procurement of this design/build contract utilized a competitive negotiated procurement process to select a contractor that was determined to have met all the requirements set forth in the Request for Proposals (RFP) with a technically acceptable, "Lowest Evaluated Price" selection process. In June 2018, the Board authorized to award the C1151 Tunnels contract, subject to the FTA approval of the Letter of No Prejudice (LONP). The contract was awarded to Frontier-Kemper/Tutor Perini, JV (FKTP) on November 30, 2018 after receiving the LONP from the FTA. Notice to Proceed (NTP) was issued on January 15, 2019.

The design/build contract provides for final design and construction of the twin bored tunnels, complete with cross-passages, along the 2.56-mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. A tunnel boring machine (TBM) launch shaft will be constructed at the westerly end of the Westwood/VA Hospital Station. Upon substantial completion, FKTP will turn over all temporary lighting and ventilation to the follow-on contractor (Contract C1152).

<u>Contract C1152 – Stations, Trackwork, Systems and Systems Integration Testing:</u> The procurement of this design/build contract utilized a two-step approach with the submittal of qualification statements through a Request for Qualification (RFQ) process, prequalification of qualified proposers followed by the release of a Request for Proposals (RFP) soliciting technical and price proposals on a Best Value selection process with an option at Metro's discretion for Best and Final Offers (BAFO). In February 2019, the Board authorized the CEO to award the C1152 Stations, Trackwork, Systems, and Systems Integration Testing contract to Tutor Perini/O&G, JV (TPOG), subject to the FTA approval of a Full Funding Grant Agreement (FFGA). After the February Board action, FTA issued an LONP on April 18, 2019 that allows contract award to occur prior to receipt of an FFGA. The Board approved award of the C1152 contract at the May 2019 Board Meeting, and the Contract was awarded on May 28, 2019. Notice to Proceed was issued on July 15, 2019 with a commencement date of July 16, 2019.

The Design/Build contract provides for final design and construction of the infrastructure along the 2.56-mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. The twin bored tunnels will be complete with walkways including all mechanical, electrical and finished work. Two underground stations are to be constructed, with the Westwood/VA Hospital Station having two double crossovers, one at each end of the station. Each station will be equipped with stairs, escalators, and elevators which meet ADA requirements. The scope of work also includes all architectural finishes, mechanical and electrical systems and equipment including train control, traction power, communications, trackwork, system tie-in at the future Century City Constellation Station, testing and commissioning.

<u>Contract C1153 – Advanced Utility Relocations:</u> The work scope of this firm fixed price contract included the relocation of existing LADWP power and water utilities within the construction limits of the Westwood/UCLA Station. Metro issued Notice of Intent (NOI) to award to Steve Bubalo Construction Company (SBCC) on October 2, 2017 and NTP on January 2, 2018. SBCC was responsible for working in streets, procuring materials, and coordinating with the utility owner. SBCC constructed new facilities in accordance with the utility plans and specifications, provided traffic control, restored streets, and supported utility crews installing cabling and during cut-over of the existing utilities. SBCC achieved contract substantial completion on June 30, 2019 and Contract Final Acceptance was issued by Metro on April 13, 2020.

<u>Contract C1154 - Shuttle and Valet Services During Construction of the Westwood/VA</u> <u>Station:</u> The work scope for this firm fixed price contract includes providing shuttle and valet services to the West Los Angeles Veterans Affairs (VA) Medical Center during the decommission of Parking Lot 42 and buildout of the replacement parking structure. A previous Invitation for Bid (IFB) issued on March 13, 2020 has been canceled and a resolicitation is being progressed.

Metro Furnished Equipment

Metro has procured a contract to provide 16 Heavy Rail Vehicles (HRV) necessary to operate the extension of the Purple Line. The scope of the HRV contract includes design, manufacturing, testing and delivery of the vehicles. An additional contract will be procured for the Universal Fare System (UFS). The scope of the UFS contract will include design, fabrication and installation of equipment at the two new stations and system testing.

Program Management

The Westside Purple Line Extension Section 3 Project is being managed under the direction of an Integrated Project Management Office (IPMO). WSP Global (WSP) provides engineering and design support services, while MPPC Partners, a Joint Venture provides construction management support services. The on-site program management team is also supported by Metro headquarters' resources and includes, but not limited to,

engineering, risk management, environmental, quality management, operations, and creative services departments.

<u>Project Schedule and Budget:</u> The Revenue Service Date (RSD) is planned for 2027. In June 2018, the Board authorized to establish the Life of Project (LOP) Budget for the Tunnels portion of the Project. In February 2019, the Board amended the LOP Budget to include the Stations portion of the Project. The LOP Budget for the Westside Purple Line Extension Section 3 Project is \$3.2 billion excluding Finance Charges of \$387.4 million. A detailed LOP Budget forecast is included under the Budget and Cost Forecast section of this report.

Funding is projected from a variety of sources to include:

- Federal Section 5309 New Starts
- Federal CMAQ (Congestion Mitigation & Air Quality)
- Federal Surface Transportation Block Grant Program
- Measure R 35%
- Measure M 35%
- State STIP RIP
- State Capital Projects Loans
- Local Agency Contributions

<u>Start Up:</u> The commencement of pre-revenue operations will be determined by Metro. Generally, all systems integration testing will have been completed and passed. All testing will be required to include and pass a "stress test" of maximum operational service levels to be acceptable. Pre-Revenue Operations include train runs, especially those involving multiple trains on the integrated and fully operational extension; rehearsal of expected revenue operations scenarios; abnormal and emergency scenarios in which random combinations of system interactions are tested and equipment "burned-in"; and training of emergency services as well as Metro personnel who will operate and maintain the extension. Activities occurring during Pre-Revenue Operations are carried out by a designated Metro Project Rail Activation Group.

EXECUTIVE SUMMARY

In October 2020, the Project achieved 16% completion to-date based on earned value measurements for the overall Project. The current focus of the Project is advancing third party utility relocations, continuing final design for Contract C1151 (Tunnels) and for Contract C1152 (Stations, Trackwork, Systems and Systems Integration Testing), and preparations for tunneling operations on Contract C1151, including assembly and commissioning of the TBMs.

Contract C1151 has a substantial completion date of February 2023 and scheduled to demobilize by May 2023, per Contract Modification 2. Contract C1152 has a substantial completion date of June 2026 and scheduled to demobilize by December 2026 in support of Revenue Service in 2027.

The following is an overview of current design and construction activities.

Design Status

- The Engineering Management Services team continues to provide engineering services during construction, real estate support services, supporting Metro in reviewing the C1151 Tunnels and C1152 Stations final design submittals, responding to RFIs, and assisting in the preparation of change notices.
- C1151 Tunnels Contract:

The design work has been identified into distinct design unit packages:

- DU 1.1 Tunnels and Cross Passages
- DU 1.3 Westfield Mall Compensation Grouting Access Shaft(s)
- DU 2.1 VA Hospital West End Wall
- DU 2.2 VA Hospital East End Wall
- DU 2.3 UCLA East and West End Walls
- DU 3.1 Tail Track Exit Shaft
- DU 3.2A SCE Power Connection within County of LA
- DU 3.2B SCE Power Connection within City of LA
- DU 3.3A Tail Track Exit Shaft Staging Area
- DU 3.3B Temporary Water and Sewer for Tail Track Exit Shaft Staging Area

Notes:

1. DU 1.2 – Sepulveda Ground Improvement Access Shaft has been suspended due to change in design approach that implemented a shallow sloped excavation under a Construction Work Plan.

- 2. Design revisions to the tunnel vertical alignment is on-going and will be resubmitted under DU 1.1.A, including the sump pump to surge chamber (originally under DU 2.3).
- 3. DU 2.3 remains "Approved as Noted" status until the design for the sump pump to surge chamber is approved and signed off by the Project (to be submitted in DU 1.1.A).

Design unit packages will be submitted and evaluated at each of the following phases: 60%, 85%, 100%, Approved for Construction (AFC), and Issued for Construction (IFC).

- FKTP plans to suspend DU 1.3. This design unit will remain on the list until a revised Design Work Plan is received from FKTP. White Paper – Westfield Mall Damage Assessment was resubmitted on October 29, 2020 and is under Metro review.
- DU 1.1A Tunnels and Cross Passages with revised tunnel alignment is ongoing.

Deliverables submitted during this reporting period are as follows:

- o DU 1.1 A (Revised Tunnel Alignment drawings only)
- DU 2.3 IFC UCLA East and West End Walls
- C1152 Stations Contract:

Final design for the various design packages is on-going. Design progress is being discussed and presented at recurring workshops for various DUs/APDUs and at third party coordination meetings.

The design work has been identified into distinct design unit packages:

- DU 40: VA Station Temporary Works
 - APDU 41 (41A, 41B, 41D)
 - APDU 42
 - APDU 43 (43A)
 - APDU 44 (44A, 44B)
 - APDU 45
 - APDU 46

Note: APDU 41C has been deleted; work associated with this APDU will be included in APDU 43 and DU 60.

- DU 50: UCLA Station Temporary Works
 - APDU 51 (51A, 51B, 51C)
 - APDU 52, 52A, 52B
 - APDU 53
 - APDU 54
- o DU 60: VA Station
 - APDU 61 (61A, 61B)
 - DU 60 (60, 60A, 60B)
- DU 70: UCLA Station
 - DU 70 (70, 70A, 70B, 70C, 70D)

 DU 80: Tunnels/Cross Passages, Track & Systems
 DU 81
 DU82
$_{\odot}$ DU 90: Tail Track Exit Shaft and Western VA Staging Area
 APDU 90 (90A, 90B)
Design unit packages will be submitted and evaluated at each of the following
phases:
 DUs 60, 70, 81, 82: 60%, 85%, 100%, AFC and IFC
85% design is on-going for DUs 60, 60A, 60B, 70, 81, 82
 DU 90: OTS, 85%, 100%, AFC and IFC
100% design is on-going for DLL90

- 100% design is on-going for DU 90
- $\circ~$ APDU 61: 60%, OTS, 100%, AFC and IFC
 - 85% design is on-going for APDU 61

APDUs 41, 42, 43, 44, 45, 51, 52, 53, 54: OTS, 100%, AFC and IFC

- 100% design is on-going for APDUs 45, 51B, 52, 53
- AFC design is on-going for APDUs 41D, 54
- IFC is on-going for APDUs 42, 43, 44A, 44B

DUs and APDUs submitted this reporting period:

- o APDU 42, AFC
- o APDU 43, AFC
- APDU 44A, AFC
- APDU 44B, AFC
- APDU 45, OTS
- o DU 90 (APDU 90A/90B), 85%

Construction Status

- C1153 Advanced Utility Relocations:
 - Substantial completion occurred on June 30, 2019 and the contract is 100% complete. The City of Los Angeles' Bureau of Contract Administration signed-off on all punch list items on July 31, 2019. SBCC completed all punch list items and submitted 100% billing for all remaining items. SBCC submitted request for Certificate of Final Acceptance and release of retention on April 12, 2020 and Final Acceptance was issued by Metro on April 13, 2020. Metro has issued a contract modification to close the balance of provisional sums and final payment and the release of retention was processed to the contractor. Metro issued the final release of retention check and SBCC issued "Unconditional Waiver and Release on Final Payment" on July 16, 2020.
- C1151 Tunnels Contract:

TBM No.1 (BR) has commenced the initial drive at the tail track exit shaft. The BL headwall is complete and assembly of TBM No. 2 (BL) continues. Instrumentation and monitoring equipment installation, fabrication of precast concrete liner segments, and pre-condition surveys continue along the tunnel alignment.

• C1152 – Stations Contract:

Property acquisition continues. The relocation of the Stone Canyon Storm Drain has been completed. Work associated with the VA parking lots refurbishment is substantially complete and the parking lots are in service. Westwood/VA Hospital Station electrical service conduits and manhole installation work on Wilshire Boulevard continues and completion is anticipated in December 2020. Upcoming activities scheduled for month of November is de-commissioning work in Lot 42 at the VA station site.

• Third Party Utility Relocations:

Cable pulling/splicing in the joint trench (Verizon and Frontier) at the Westwood/UCLA Station is anticipated to be complete in November 2020. LADWP cutover for Westwood Medical Center is anticipated to be completed by March 2021.

Cost and Schedule Summary

Metro has issued Contract Modification 2 to the C1151 Tunnels contractor for extending Substantial Completion by 95 calendar days. Mitigation efforts are being evaluated to improve on the Substantial Completion date and not to impact the C1152 Stations contractor. It is anticipated that the forecast revenue service date can be achieved.

The Critical Path (CP) of the Project includes third party utility relocations, C1151's Contractor required utility relocations, followed by both stations' support of excavation, street decking, station structural box excavations, and structural concrete for the stations. Next it flows into installation of the interior finishes and electrical equipment, followed by systems, testing and pre-revenue operations. A summary graphic of the critical path is found on Page 18.

C1151 Tunnels

	Original Contract Dates	Time Extension	Current Contract	Forecast	Variance CDs
Notice to Proceed	01/15/19A	0	01/15/19A		0
Substantial Completion	11/15/22	95	02/17/23	02/17/23	0

C1152 Stations, Trackwork, Systems, and Testing

	Original Contract Dates	Time Extension	Current Contract	Forecast	Variance CDs
Notice to Proceed	7/16/19A	0	7/16/19A		0
Substantial Completion	6/08/26	0	6/08/26	6/08/26	0

Project costs continue to track within budget and projected contingency limits. The Current Budget and Current Forecast remain the same this period at \$3.6 billion. Detailed cost and budget information is provided on Page 20.

There is an open claim that is being evaluated.

• C1151 Western VA TTES Site Access Delay (Claim 1)

Project Schedule Contingency Drawdown Analysis

The project schedule contingency drawdown model provides a dual-axis perspective based upon the FFGA RSD of December 2028 and Metro's Project Master Schedule (PMS) forecast of 2027.

The introduction of the PMS model axis reflects a proportional distribution of available float relative to the FFGA model.

With regards to the FFGA RSD, schedule float of twenty-one (21) months has been maintained.

Original Budget

Original Budget of \$3.6 billion reflects the Life of Project (LOP) budget approved by the Board on February 28, 2019, plus Finance Charges of \$387.4 million.

Current Budget and Current Forecast

The Current Budget and Current Forecast remain the same this period at \$3.6 billion. It reflects an internal transfer of \$0.26M from Environmental/Planning Project 465523 to Project 865523. Environmental/Planning Project 465523 was deemed complete in August 2020. The remaining available budget/forecast was transferred to Project 865523 Professional Services category.

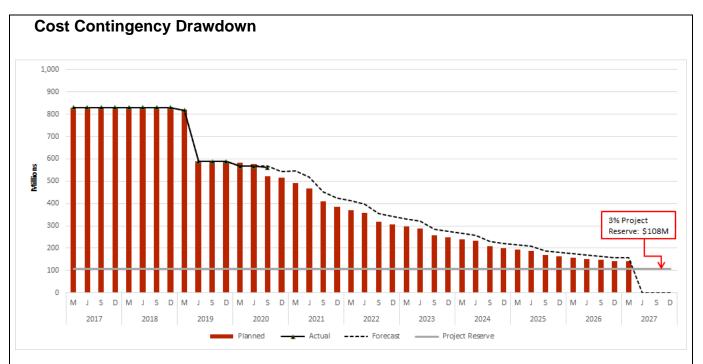

Commitments

The Commitments increased by \$1.3 million primarily due to a Change Orders for Stations Contract C1152 and FY21 work order for Master Cooperative Agreement with Caltrans. The \$2.1 billion in Commitments to date represent 58.7% of the Current Budget.

Expenditures

The Expenditures increased by \$20.4 million primarily due to costs associated with the Tunnels Contract C1151, Stations Contract C1152, Metro Project Administration, Engineering Management Support Services, Construction Management Support Services, Program Management Support Services, Environmental Support Services, Quality Assurance Support Services, ROW Agreement and appraisal fees, Engineering Design Services, Third Party Utility Agency, and Master Cooperative Agreements. The \$624.5 million in Expenditures to date represent 17.3% of the Current Budget.

Westside Purple Line Extension Section 3 Project Monthly Project Status Report

Cost Contingency Drawdown Analysis

The Original Budget of \$3.6 billion includes finance charges of \$387.4 million. It also includes a project cost contingency of \$830.6 million or 23.1% of the total project, which is based on the amended Life of Project (LOP) Budget approved by the Board in February 2019. An allocated contingency amount of \$366.5 million is included in the total cost contingency. The allocated contingency is an amount to cover anticipated but unknown contract modifications issued by Metro [when applicable to specific contracts within each Standard Cost Category (SCC)].

A 3% project reserve threshold is included in the project cost contingency drawdown. Metro's Board is to be notified when it becomes necessary to drawdown contingency below the project reserve threshold to cover project costs. This process was adopted by the Metro Board of Directors in September 2012.

The project cost contingency drawdown curve is based on a 2027 Forecast Revenue Service Date (RSD).

The allocated contingency decreased this period by \$0.6M due to approved Contract Change Orders for Stations Contract C1152.

PROJECT COST CONTINO DOLLARS IN THOUSANDS	GENCY				
	Original Contingency (Budget)	Previous Period	Current Period	To-Date	Remaining Contingency (Forecast)
Unallocated Contingency	464,142	(201,182)	-	(201,182)	262,960
Allocated Contingency	366,455	(68,826)	(553)	(69,379)	297,076
Total Contingency	830,597	(270,009)	(553)	(270,561)	560,036

Risk Management

Summary of Risks

During the quarterly risk register meeting, two (2) new risks were identified and one (1) risk was closed, resulting in a total of sixty-four (64) risks to be managed in the next quarter.

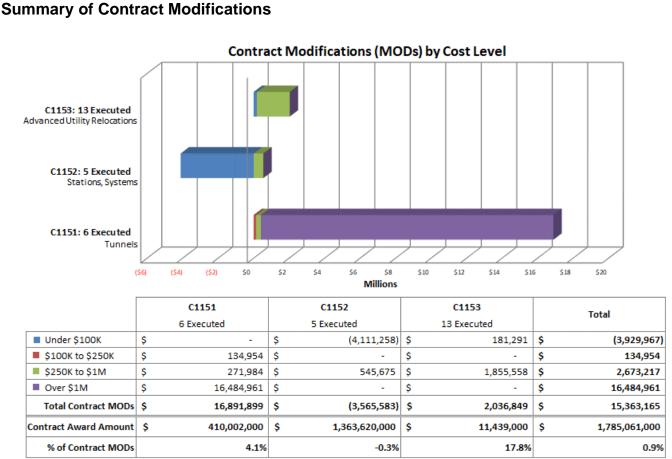

Of the sixty-four (64) risks, four (4) are scored as high, thirty-four (34) as medium, and twenty-six (26) as low.

The next WPLE Section 3 Project Risk Register quarterly update is scheduled for January 2021.

Top Five Risks

The table below shows the top five (5) project risks.

		Risk	
Risk ID	Risk Description	Score	Action Items
90.4	Covid 19 pandemic impact	20.0	 Evaluate the guideline from the State and local government Putting contingency plan in place.
657.4	Establish shuttle service and complete the refurbishment of temporary surface parking lots are critical prior to closing down Lot 42 for station construction	17.5	 Prepare procurement package for shuttle services. Initiate CN and request CSP from the Contractor for the refurbishment of the temporary parking lots. Refurbishment will be complete on time. Metro is seeking alternative shuttle provider.
40	ROW negotiations in the alignment between Constellation and UCLA may require longer negotiations and result in schedule delay and increased project cost.	10.5	 Finalize alignment and tunnel diameter to establish acquisition plan. [Completed 7/17/2017] Subsurface easement (SSE) appraisal starts in early August, 2019 - closed Obtain right of entry to allow C1151 contractors to access construction site prior to execution of easement transactions.
701.3	Tariffs potentially impact D/B contractors.	10.5	 Monitor the market trend and assess the potential impact. Review contract condition for any escalation clause to allow cost increase.
287.3	Delays due to obtaining lane closures and peak hour exemptions.	9.0	 Identify temporary bus stop re-locations. Meet with City to identify relocation of stops outside work areas. Metro to review bus routes and stop locations. Submit the Peak Hour Exemption Request

Percent of Contract MODs equals the Total Contract MODs divided by the Contract Award Amount.

Six Contract Modifications (MODS) with a total value of \$16.9 million have been executed since the award of C1151 Contract for Tunnels.

Five Contract Modifications (MODS) with a total credit value of \$3.6 million have been executed since the award of C1152 Contract for Stations.

Thirteen Contract Modifications (MODS) with a total value of \$2.0 million have been executed since the award of C1153 Contract for Advanced Utility Relocations.

DISADVANTAGED BUSINESS ENTERPRISE (DBE)

Contract C1151

As of October 2020:

DBE Goal – Design The percentage of funds apportioned to Design Contracts				
Current DBE Commitment Design Total DBE Committed Dollars divided by Total Contract Value for Design	\$3.1M 16.59%

Original Budget based on 2019 Board approved LOP Budget, plus Finance Charges of \$387.4 million.

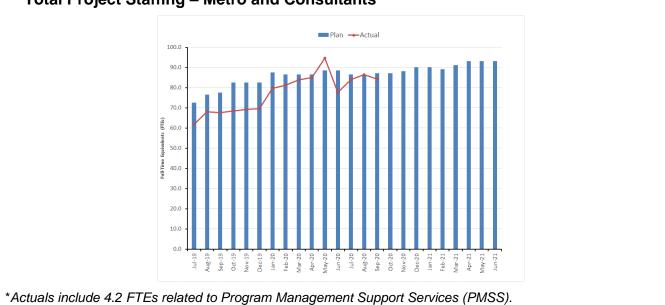

PROJECT ORGANIZATION AND STAFFING

The design-build contract is being managed by a joint team of Metro and consultant personnel jointly located at the Integrated Project Management Office (IPMO).

The overall FY21 Total Project Staffing Plan averages 89.6 FTEs per month.

For September 2020, there were a total of 30.2 FTEs for MTA's Project Administration Staff and 54.1* FTEs for Consulting Staff. The total project staffing for September 2020 was 84.3 FTEs.

Total Project Staffing – Metro and Consultants

CM Support Services Staff (Consultant)

Engineering Services Staff (Consultant)

Staffing by Group The opposing graphs

The opposing graphs represent planned vs. actual staffing levels by group.

Metro staffing includes full time staff located in the IPMO as well as part-time support located at Gateway Headquarters.

Staffing plans are developed for each fiscal year based on project needs.

REAL ESTATE

Total Parcels	85	84	80	80	14	0	0	0	8	

Real Estate certification and appraisals are substantially complete.

The following parcels are available to the Contractors:

- C1151_Tunnel Contract
 - VA Staging Area (W-5401)
 - VA Station (W-5401-3 exclude Lot 42)
 - Caltrans (W-5301)
 - UCLA Lot 36 End Wall Piling (W-5101-4)
- C1152 Station Contract
 - UCLA Lot 36 Staging Area & Storm Drain Relocation (W-5101-1)

QUALITY ASSURANCE

- Attended weekly project staff meetings for C1151 Tunnels, C1152 Stations, and weekly progress meetings with FKTP & TPOG.
- Reviewed Daily Inspection Reports by Metro's inspectors (CMSS) for completeness and correctness.
- Chaired a readiness review meeting for:
 - C1151 Tunnels TBM Operation & Launch CWP Workshop, Pre-Readiness Review
 - C1152 Stations SOE Piling
- Conducted assessment for following:
 - Traylor Brothers Precast Materials OVT at the batch yard, focus on rebar and splicing
 - Tunnel Lining Segment Demo Ring Evaluation
 - Headwall Installation BL and BR Tunnels at Tail Track Exit Shaft

ENVIRONMENTAL

- Conducted field environmental monitoring and inspections for MMRP, MOA, and environmental compliance for FKTP and TPOG.
- Participated in contract construction progress meetings with FKTP and TPOG.
- Coordinated permitting processes for USACE 408 permits.
- Conducted cultural monitoring within VA Hospital.
- Prepared air quality measurements within the VA Hospital area.
- Participated in real estate discussion with Westfield for noise and vibration.

CONSTRUCTION AND COMMUNITY RELATIONS

- Attended the following meetings: Construction Management meetings for the Tunnels and Stations contracts, LADOT, VA Coordination, Real Estate, Environmental, and Schedule Coordination.
- Produced and distributed ten (10) construction work notices for SCE duct work, well monitoring, and VA campus work activities.
- Continued coordination with major stakeholder groups and City Council Districts 5 and 11.
- Updated Facebook/Twitter and Metro.net as needed.

CREATIVE SERVICES

- Planning for reinterpretation of VA Mural and coordination with LA County and VA.
- Participation in Architectural/Civil Design Unit Workshops.
- Finalized artwork finish materials and artwork areas in stations.
- Artist selection research and preparation.

SAFETY AND SECURITY

Contract C1151 Tunnels

- Metro Safety staff attended weekly Tool Box Meetings, Progress Meetings, readiness reviews, and other project meetings to evaluate Contractors Safety Program compliance with contract requirements.
- Metro/FKTP project safety staff conducted schedule, safety/security and over-theshoulder review meetings.
- Safety staff worked regularly with Program Management and Construction Relations staff to monitor issues related to public concerns regarding noise, traffic and public/construction interfaces as well as public interactions with the construction crews.
- Metro project safety staff conducted project Safety Orientation for new Metro/Consultants and IPMO project staff.
- Metro project safety staff conducted right-of-way (ROW) and safety/security walks, safety/security reviews and coordination with FKTP-JV staff for oversight and support of all project field work activities.
- Safety hosted the Monthly Safety Meeting for all Westside Purple Line Extension Contractors on October 30, 2020.
- FKTP reported 24,648 actual work hours with no Recordable Injury for October 2020.
- FKTP provided and included an updated tabulation of 11,869 subtotal work hours for August 2020 which was understated in the August report.
- FKTP Project to Date hours are 309,738 with Five (5) Recordable Injuries and no Lost Time Injuries in October 2020.
- *FKTP has a Recordable Injury to Date of Five (5) and zero (0) Days Away from Work Injuries. The Recordable Injury Rate is 3.22.* The Bureau of Labor Statistics reports that the National Average Recordable Injury Rate is 2.5 for heavy civil construction projects.

Contract C1152 Stations, Trackwork, Systems, and Testing

- Metro Safety staff attended weekly Tool Box Meetings, Progress Meetings, readiness reviews, and other project meetings to evaluate Contractors Safety Program compliance with contract requirements.
- Metro/TPOG project safety staff conducted schedule, safety/security and over-theshoulder review meetings.
- Metro Safety hosted the Monthly Safety Meeting for all Westside Purple Line Extension Contractors on October 30, 2020.
- Metro project safety staff conducted project Safety Orientation for new Metro/Consultants and IPMO project staff.
- Metro project safety staff conducted right-of-way (ROW) and safety/security walks, safety/security reviews and coordination with TPOG-JV staff for oversight and support of all project field work activities.

- TPOG reported 26,806 actual work hours with no Recordable Injury for October 2020. TPOG provided and included an updated tabulation of 92,903 subtotal work hours for previous months.
- TPOG Project to Date hours are 330,458 with no Recordable Injuries and no Lost Time Injuries in October 2020.
- TPOG has a Recordable Injury Rate to Date of 0. The Bureau of Labor Statistics reports that the National Average Recordable Injury Rate is 2.5 for heavy civil construction projects.

APPENDIX

CHRONOLOGY OF EVENTS

- January 2011 FTA approval to enter Preliminary Engineering
- August 2012 FTA Record of Decision
- April 2017 Issued RFQ for C1151 Tunnels Design/Build Contract
- May 2017 Issued IFB for C1153 AUR Contract
- September 2017 Issued RFQ for C1152 Stations, Trackwork, Systems & Testing Design/Build Contract
- January 2018 Issued NTP for C1153 AUR Contract
- April 2018 C1153 Contractor commenced work
- August 2018 FTA approval to enter New Starts Engineering Phase
- September 2018 Received FTA approval for Letter of No Prejudice for C1151 Tunnels Contract
- November 2018 Issued Contract Award for C1151 Tunnels Contract
- December 2018 FTA completed environmental review of 23 CFR §771.130 (c)
- January 2019 Issued NTP for C1151 Tunnels Contract
- April 2019 Received FTA's Letter of No Prejudice for C1152 Stations Contract
- May 2019 Issued Contract Award for C1152 Stations Contract
- June 2019 C1153 AUR Contract achieved Substantial Completion
- July 2019 Issued NTP for C1152 Stations Contract
- September 2019 FKTP began SCE Ductbank Construction
- December 2019 Partial VA Site Access Given for Tree Removal
- January 2020 Access to Tail Track Exit Shaft & Western Staging Area
- February 2020 UCLA Lot 36 Access Given to TPOG
- March 2020 FTA Executed FFGA

Westside Purple Line Extension Section 3 Project Monthly Project Status Report

June 2020	FKTP Completed SCE Ductbank Construction
July 2020	Began TBM Assembly in the Tail Track Exit Shaft
October 2020	TBM #1 Began Initial Tunnel Operations on October 23, 2020
