## FOREWORD

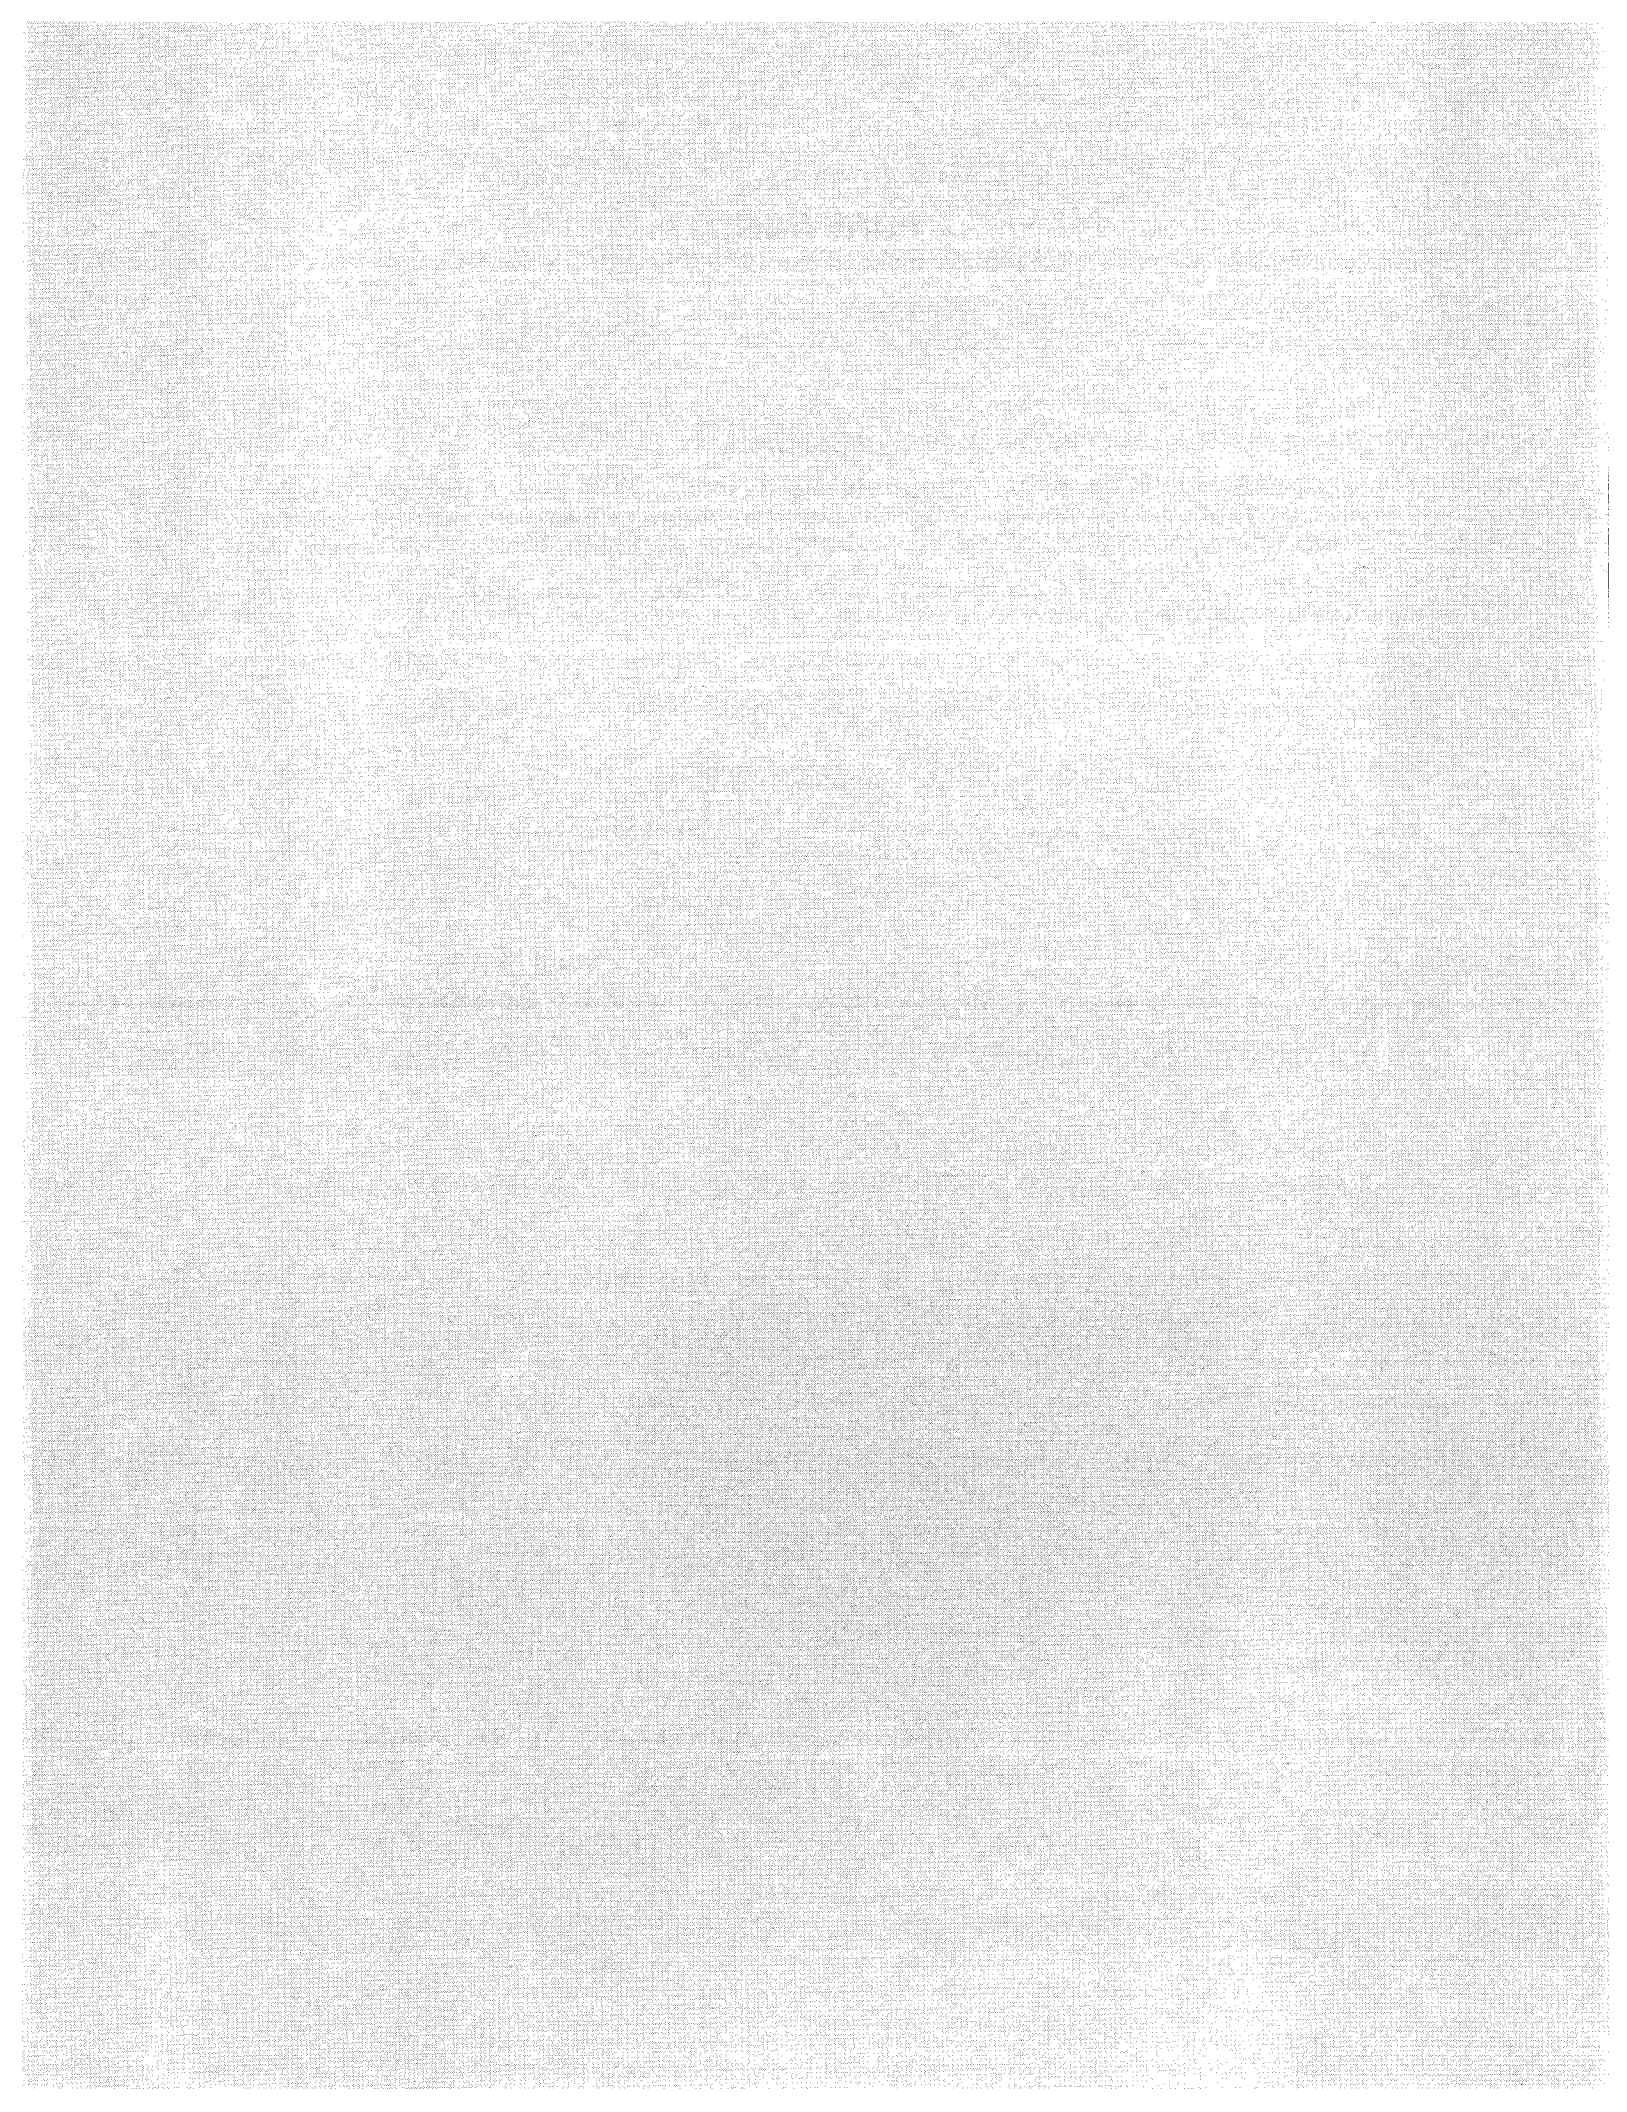

This is the forty-second publication of the Annual Report of Financial Transactions Concerning Streets and Roads of Cities and Counties of California.

Approximately 2.2 billion dollars was spent during the 1988-89 fiscal year on streets and roads. The charts and tables contained in this publication reflect transactions in monies made available and expended for construction and maintenance on our vast network of streets and roads.

We extend our sincere appreciation to the many officials of local governments for their contributions to this report.

## INTRODUCTION

The various tables of this report were prepared by the Division of Local Government Fiscal Affairs of the State Controller's Office from data contained in reports filed by the Cities and Counties under the provisions of Sections 2151 to 2154 of the California Streets and Highways Code. These sections require each city and county to file an annual report of expenditures for street or road purposes. This report is due to the State Controller's Office on or before October 1 following the close of the fiscal year.

In accordance with the requirements, 58 counties and 451 cities filed reports. Of the 451 cities, four were newly incorporated cities during the fiscal year 1988-89. All cities and counties have a July 1 - June 30 fiscal year except the City of South Lake Tahoe which changed its fiscal year in 1987-88 to October 1 - September 30. In the 1987-88 publication, South Lake Tahoe was not included. This 1988-89 publication will include 15 months of transactions for South Lake Tahoe covering the period of July 1, 1987 to September 30, 1988.

All counties are required by the Government Code to report on a modified accrual basis. Cities maintain their records on a cash basis, or modified accrual basis. With respect to those on the modified accrual basis, the term "restricted balance" used throughout this publication should be considered as the excess of current assets over current liabilities.

The monies made available to local agencies for street or road purposes are derived from Federal, State and Local Funds. Accordingly, this report contains all monies made available from such revenue sources as gas tax apportionments, district road taxes, special assessments, street, road, or bridge taxes and proceeds from sale of bonds restricted exclusively to expenditure on streets and roads. Where monies received were available for expenditure on streets and roads, but not restricted to these expenditures, such monies are reported only to the extent of actual expenditure during the 1988-89 fiscal year.

Table 14 is the exception to the above statement. This table reflects street or road purpose expenditures from other than the treasury of the reporting agency and records expenditures by other governmental agencies or private parties. The expenditures set forth in this table are not included in the other tables of this report.

With the schedules and charts for the five-year period July 1, 1984 through June 30, 1989, included herein, this report with those preceding it provides interesting and informative data regarding the improvement of streets and roads in California.

## CITY AND COUNTY SUMMARY

The schedule below summarizes street and road transactions during the 1988-89 fiscal year and the balances of restricted funds available for that purpose as of June 30, 1989. Details are shown in various tables of this report.

\* Amounts eliminated represent contributions from Counties to Cities. Since the reporting agencies are required to report all the expenditures made on their streets or roads, the contributions received by the cities will be reflected in their reports of expenditures. Thus, to avoid duplication, the contributions should not be considered as a part of the grand total of expenditures made for street or road purposes of the agencies making the contributions.

### City and County Expenditures

Cities and counties reported combined expenditures of \$2,230,648,696 for street and road purposes during the 1988-89 fiscal year. This is an increase of \$82,388,934 or 3.8 percent from the previous fiscal year. Subsequent pages of this summary give the major classes of street and road expenditures and show pertinent amounts together with applicable percentages.

Work performed by one governmental agency on another agency's street or road system is not reflected in the above expenditure amount. Details of these expenditures, which reflects an increase of \$17,089,807 from the previous year, are shown in Table 14.

Chart 1 shows combined city and county expenditures for streets and roads during each of the last five years.

### Monies Made Available to Cities and Counties

A total of \$2,362,406,034 was made available for street and road purposes during the 1988-89 fiscal year. This represents an increase of \$277,879,664 or 13.3 percent from the 1987-88 fiscal year.

The following schedule shows the monies made available and the sources during the past five years.

### City and County Restricted Balances

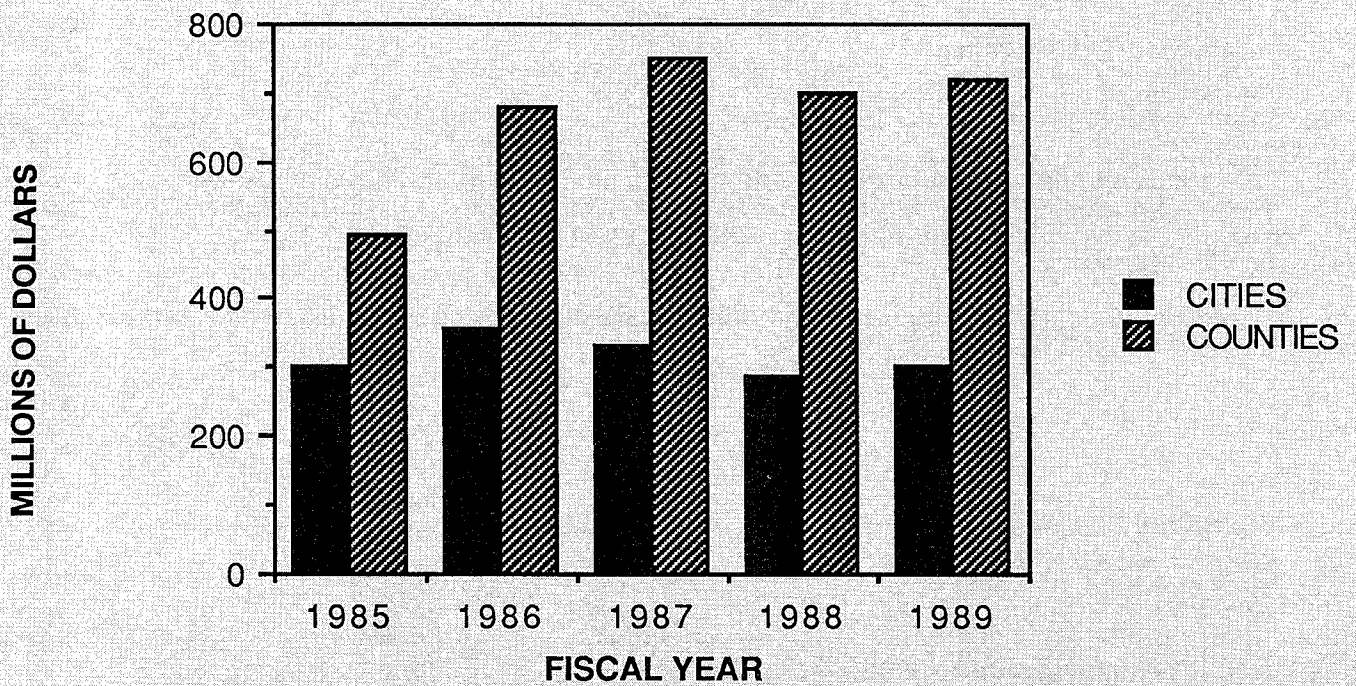

As of June 30, 1989, the total combined restricted balances available to cities and counties amounted to \$1,023,845,209. This reflects a decrease of \$35,353,088 or 3.6 percent from the previous year.

Chart 2 shows the restricted balances on hand at the close of each of the last five years.

## CITY SUMMARY

### City Expenditures

Street purpose expenditures by the cities during the 1988-89 fiscal year amounted to \$1,617,375,610. This total represents an increase from the 1987-88 fiscal year of \$129,318,724 or 8.7 percent. Work performed by other governmental agencies on the city's street system increased from \$16,391,918 in the 1987-88 fiscal year to \$34,122,942 in the current year.

Street purpose expenditures by principal classification are shown in the following schedule. Details are given in Table 5 and Table 14.

## COUNTY SUMMARY

### General

The detail of expenditures by others on the reporting agency's road system are not included with the counties regular expenditures but are reported in Table 14.

### County Expenditures

County road purpose expenditures for the 1988-89 fiscal year are reported as \$613,273,086. Work Performed by Other Governmental Agencies totaling \$10,317,660 is not included in the above figure. The 1988-89 fiscal year road purpose expenditures are \$46,330,969 or 6.6 percent less than last year.

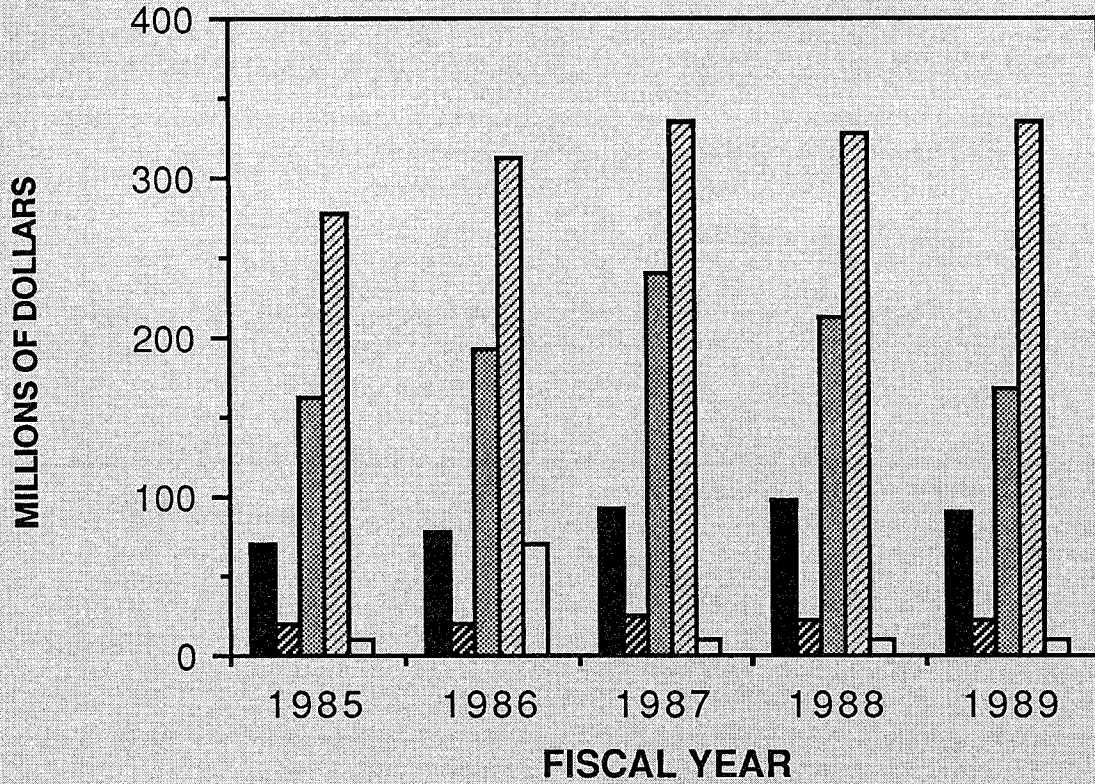

The following schedule shows the total amounts expended during the 1988-89 fiscal year by the counties and by other governmental agencies on behalf of the counties. Details are included in Table 11 and Table 14.

### Snow Removal Expenditures

Section 2152(c), Streets and Highways Code, requires all counties to file a schedule of expenditures for snow removal. Eighty percent of the amount in excess of \$5,000 is reimbursable. The following tabulation shows the computed reimbursable costs of snow removal for those counties reporting such expenditures. Further, detail of actual snow removal expenditures is included in Table 11 under the maintenance category.
