# Introduction

California Streets and Highways Code section 2151 requires each city and county to file an annual report of expenditures for street or road purposes with the State Controller's Office on or before October 1 of each year. Streets and Highways Code section 2154 requires the California State Controller's Office to distribute a compilation of those reports annually. The State Controller's Office prepared the financial tables presented in this report from data submitted by each city and county in its report; the data in these tables has not been audited.

Fifty-eight counties and 480 cities filed reports in compliance with Streets and Highways Code section 2151. The City of Beaumont did not file the report in time for its data to be included in this publication. The City of Rolling Hills does not receive Highway Users Tax apportionments and, therefore, does not file an annual report with the State Controller's Office. Most cities and counties use a July 1 through June 30 fiscal year. The cities of Huntington Beach and South Lake Tahoe use an October 1 through September 30 fiscal year.

The *Accounting Standards and Procedures for Counties* manual, published by the State Controller's Office pursuant to Government Code section 30200, requires counties to report on a modified accrual basis. Cities maintain their records on either a cash basis or a modified accrual basis. With respect to entities using the modified accrual basis, the term "restricted balance" used throughout this report refers to the excess of current assets over current liabilities.

Money made available to local agencies for street or road purposes is generally derived from federal, state, and local funds. Accordingly, this report lists all money made available from such sources as Highway Users Tax apportionments (gas tax revenues); district road taxes and special assessments; street, road, and bridge taxes; and proceeds from the sale of voter-approved bonds restricted exclusively for expenditures on streets and roads.

In addition, some funds expended for street and road purposes are derived from sources other than the reporting agency's treasury. Table 14 details street and road expenditures made by other governmental agencies and private parties. The expenditures presented in Table 14 are not included in the expenditure amounts of other tables in this report.

## Combined City and County Summary

As shown in Figure 1, state, federal, and local funds made approximately \$7 billion available to California cities and counties for street and road purposes during fiscal year (FY) 2014-15, an increase of \$235 million (3%) over the prior fiscal year.

Five-Year Summary

(Amounts in thousands)

Sources of money made available to cities and counties are summarized on pages ix and xiii, respectively. Detailed statements of money made available for each city and county are presented in Tables 3, 4, 9, and 10 of this report.

## City and County Expenditures

Cities and counties reported combined expenditures of \$7 billion, as shown in Figure 1. This amount represents an increase of \$599 million (9%) over FY 2013-14. Figure 6 shows that city expenditures represented 73% of the total and county expenditures represented 27%.

**Figure 6**  
**City and County Expenditures**  
 Fiscal Year 2014-2015

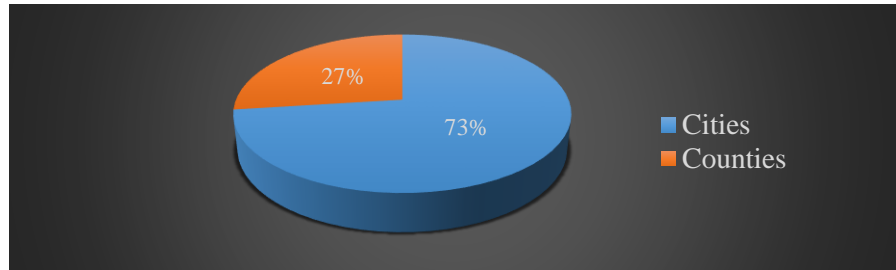

Figure 7 provides a breakdown of expenditures by classification for FY 2014-15. This figure shows that, of the total expenditures reported by cities and counties, 45% was spent for construction and rights-of-way, 40% for maintenance, 12% for administration and engineering, and 3% for other expenditures. “Construction” includes construction of streets and roads, signals, safety devices, streetlights, pedestrian ways, bike paths, and storm drains, as well as street reconstruction and storm damage repair. “Maintenance” includes patching, overlay, and sealing; maintenance of street lights and traffic signals; and snow removal and storm damage repair.

Total expenditures have increased by approximately \$848 million (12%) since FY 2010-11. Maintenance expenditures increased by \$290 million (10%). Expenditures for construction increased by \$387 million (12%). Administration and other expenditures increased by \$172 million (17%).

**Figure 7**  
**Expenditures by Classification**  
 Fiscal Year 2014-2015

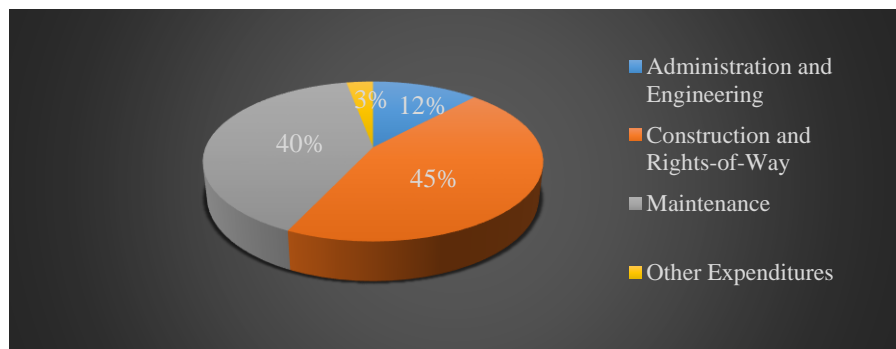

Figure 8 summarizes street and road expenditures by funding source. Streets and Highways Code sections 2103, 2105, and 2106 state that funds may be used for any street or road-purpose expenditures. Section 2104 restricts funds for county road use, Section 2107 restricts funds for street purposes, and Section 2107.5 restricts funds for city administration and engineering and, in special situations, for rights-of-way acquisition and street system construction. Discretionary funding sources provided by cities and counties represent 18% of total expenditures. Use of nondiscretionary expenditures is restricted, while use of discretionary expenditures is not. County contributions made by counties to cities are for nondiscretionary purposes and are reported separately from the other nondiscretionary totals (Tables 5 and 11).

Figures 14 and 20 further summarize expenditures by cities and counties, respectively. Tables 5, 6, 11, and 12 present detailed expenditure statements for each city and county in this report.

## Snow Removal Expenditures

The State provides for limited reimbursement of snow removal costs incurred by local entities. Streets and Highways Code section 2152(c) requires cities and counties to file a schedule of expenditures for snow removal. Fifty percent of a city's expenditures in excess of \$5,000 are reimbursable from state funds. As an example, the City of Truckee's report shows actual snow removal costs of \$2,016,556. The actual amount minus \$5,000 equals \$2,011,556; 50% of \$2,011,556 totals \$1,005,778. Cities with less than \$5,000 in snow removal expenditures do not receive reimbursements. The maximum reimbursement amount does not apply for city expenditures. Counties may claim 80% of their expenditures in excess of \$5,000. However, if the total of all county claims submitted exceeds \$7 million, the amount paid to each county is prorated using a formula based on the claimed amounts submitted by all counties in the preceding three years.

Figure 10 shows the reimbursement amounts payable to those cities and counties reporting snow removal expenditures. Actual snow removal expenditures totaled \$12,418,521 for FY 2014-15. City snow removal expenditures accounted for \$6.0 million, while county snow removal expenditures accounted for \$6.4 million. The details for snow removal expenditures reported by cities and counties are listed under “Maintenance” in Table 5 and Table 11, respectively.

<sup>3</sup> Funding for local streets and roads projects and facilities for use by pedestrians and bicycles or bicycle safety education programs.

Money made available for city street purposes came from state, federal, and local sources. The majority of state funding came from money allocated from the Highway Users Tax Fund. Most of the local revenue came from local general fund money.
