## **DRAFT ENVIRONMENTAL IMPACT STATEMENT/ENVIRONMENTAL IMPACT REPORT**

**LEAD AGENCIES:** Federal Transit Administration, U.S. Department of Transportation and Los Angeles County Metropolitan Transportation Authority

STATE CLEARINGHOUSE NO. 2007091148

**TITLE OF PROPOSED ACTION:** Crenshaw Transit Corridor Project

**ABSTRACT:** The Los Angeles County Metropolitan Transportation Authority (LACMTA) proposes to improve transit services in the Crenshaw Transit Corridor, a heavily traveled north-south oriented corridor in Los Angeles County, California. Alternatives under consideration include a No-Build Alternative, a Transportation Systems Management Alternative, a Bus Rapid Transit Alternative, and a Light Rail Transit Alternative with six design options.

This report is a combined Draft Environmental Impact Statement (EIS) / Environmental Impact Report (EIR), satisfying the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA). The Draft EIS/EIR defines the alternatives under consideration and describes each alternative's associated operating and maintenance and capital costs and potential funding sources and potential transportation and environmental impacts. Potential areas of impact include transit, traffic, parking, land use / neighborhoods, land acquisition, displacement and relocation, equity and environmental justice considerations, visual quality, air quality, noise and vibration, geology, soils and seismicity, exposure to hazardous substances, water resources, biological resources, energy resources, safety and security, historic, archaeological and paleontological resources, community facilities and parklands, construction impacts, and other CEQA determinations. Mitigation measures for the impacts of the alternatives are also identified. The information contained in this document will be used by the LACMTA Board of Directors to make a decision on whether to implement the project and to select from among the alternatives and design options under consideration a locally preferred alternative for implementation.

**COMMENTS ON THIS DOCUMENT:** There is a minimum 45-day public review and comment period on the Draft EIS/EIR that starts on September 11, 2009 and ends on October 26, 2009. Public hearings will be held at the following locations:

- **Wilshire United Methodist Church "Hall of Fellowship"**  
**Wednesday, September 30, 2009, 6-8 p.m.**  
4350 Wilshire Blvd., Los Angeles, CA 90010
- **West Angeles Church "Crystal Room"**  
**Thursday, October 1, 2009, 6-8 p.m.**  
3045 Crenshaw Blvd., Los Angeles, CA 90016
- **Inglewood High School "Cafeteria"**  
**Saturday, October 3, 2009, 10 a.m.-Noon**  
231 S. Grevillea Ave., Inglewood, CA 90301
- **Transfiguration Church Hall**  
**Tuesday, October 6, 2009, 6-8 p.m.**  
2515 W. Martin Luther King Jr. Blvd., Los Angeles, CA 90008

All public hearing locations are accessible to persons with disabilities. Any individual who requires special assistance, such as a sign language interpreter, to participate in a public hearing should contact David Monks at least 72 hours prior to the hearing at (213) 922-7456. Comments may be submitted at the public hearings in written or oral form. Comments must be received no later than October 26, 2009 for inclusion in the Final Environmental Impact Statement/ Environmental Impact Report.

**Additional written comments and/or questions concerning this document should be directed to:**

## Table of Contents

LIST OF APPENDICES .....	VI
LIST OF TABLES.....	VII
LIST OF FIGURES .....	XII
EXECUTIVE SUMMARY	
1.0 PURPOSE AND NEED .....	1-1
1.1 History and Background .....	1-1
1.1.1 Crenshaw-Prairie Corridor Preliminary Planning Study (1994) .....	1-2
1.1.2 Crenshaw-Prairie Corridor Route Refinement Study (2000).....	1-2
1.1.3 Crenshaw-Prairie Corridor Major Investment Study (MIS) (2003).....	1-2
1.2 Description of the Corridor.....	1-3
1.3 Regional Transportation System .....	1-7
1.3.1 Regional Transit Context.....	1-7
1.4 Transportation System Performance .....	1-10
1.4.1 Highway System Performance .....	1-10
1.4.2 Transit System Performance .....	1-22
1.5 Purpose, Goals, and Objectives of the Proposed Alternatives .....	1-25
1.6 Major Themes and Underlying Needs for Transit Improvements .....	1-25
1.6.1 Peak Period Congestion .....	1-25
1.6.2 Limited Transit Accessibility and Availability.....	1-26
1.6.3 Land Use Integration .....	1-28
1.6.4 Demand for Transit Service.....	1-32
1.6.5 Benefits for the Environment .....	1-33
1.7 Travel Demand and Identification of Potential Transit Markets.....	1-38
1.7.1 Activity Centers.....	1-39
1.7.2 Population .....	1-41
1.7.3 Employment.....	1-42
1.7.4 Travel Demand and Patterns .....	1-45
1.7.5 Summary of Travel Markets .....	1-48
1.8 Summary of Purpose and Need for Project .....	1-48
2.0 ALTERNATIVES CONSIDERED .....	2-1
2.1 Alternatives Development and Screening.....	2-1
2.1.1 Alternatives Screening and Selection Process .....	2-1
2.1.2 Conceptual Station Locations Considered .....	2-16
2.1.3 Maintenance and Operations Facilities Screening.....	2-16
2.1.4 Additional LRT Alternative Options Considered and Eliminated .....	2-18
2.2 Alternatives Considered in this AA/DEIS/DEIR .....	2-20
2.2.1 No-Build Alternative.....	2-20
2.2.2 Transportation System Management (TSM) Alternative.....	2-22
2.2.3 Bus Rapid Transit Alternative.....	2-25
2.2.4 Light Rail Transit Alternative.....	2-34

2.3	Construction Scenarios .....	2-51
2.3.1	No-Build Alternative.....	2-51
2.3.2	TSM Alternative.....	2-52
2.3.3	BRT Alternative .....	2-52
2.3.4	LRT Alternative.....	2-54
2.4	Capital Cost Estimates.....	2-59
2.4.1	Methodology .....	2-59
2.4.2	Cost Estimate Results.....	2-60
2.5	Operating and Maintenance Cost Estimates .....	2-60
2.5.1	Methodology .....	2-63
2.5.2	Cost Estimate Results.....	2-63
2.6	Uses of this AA/DEIS/DEIR Document – Selection of a Locally Preferred Alternative for Implementation.....	2-67
<b>3.0</b>	<b>TRANSPORTATION IMPACTS .....</b>	<b>3-1</b>
3.1	Affected Environment/Existing Conditions .....	3-2
3.1.1	Transit .....	3-2
3.1.2	Traffic .....	3-9
3.1.3	Parking .....	3-25
3.1.4	Pedestrian and Bicycle Facilities.....	3-31
3.2	Environmental Consequences and Mitigation Measures .....	3-34
3.2.1	Transit .....	3-34
3.2.2	Regional Transportation .....	3-44
3.2.3	Intersection Analysis .....	3-46
3.2.4	Parking .....	3-56
3.2.5	Pedestrian Circulation.....	3-66
3.2.6	Bicycle Circulation.....	3-69
3.2.7	Summary of Mitigation Measures.....	3-70
3.2.8	Impacts Remaining After Mitigation .....	3-71
3.3	Construction Impacts.....	3-73
3.3.1	BRT Alternative .....	3-73
3.3.2	LRT Alternative.....	3-76
3.3.3	Maintenance and Storage Facility Sites .....	3-85
3.3.4	Mitigation Measures.....	3-86
3.3.5	Impacts Remaining After Mitigation .....	3-87
