

Figure 5-2: Segment Option 4K: Permanent Underground Easements

5.1.3 Segment Option 4P: Century City (Constellation) Station to Wilshire/UCLA Off-Street via East Route

Segment Option 4P begins at the Century City Constellation Station and travel west to the Wilshire/UCLA Station. From the Century City Station, the alignment travels west under Constellation Boulevard and turns almost immediately northwesterly under the Westfield Mall toward Century Park West. The option traverses under Century Park West, under Fox Hills Drive at Missouri Avenue, then under Santa Monica Boulevard at Comstock Avenue, to Eastborne Avenue just east of Beverly Glen Boulevard. At this juncture, Segment Option 4P follows the same alignment as Segment Options 4J and 4K. Segment Option 4P then heads across Wilshire Boulevard to the Off-Street Station Option (Alternative 1 Baseline). Segment Option 4P is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4P, 235 permanent underground easements for tunneling are anticipated (Table 5-8 and Figure 5-3). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-9. These 235 permanent underground easements are anticipated to affect 701 residential properties, including, 52 single-family residences, seven condominium building with a total of 160 units and ten multi-family apartment buildings with a total of 489 residential units (Table 5-10).

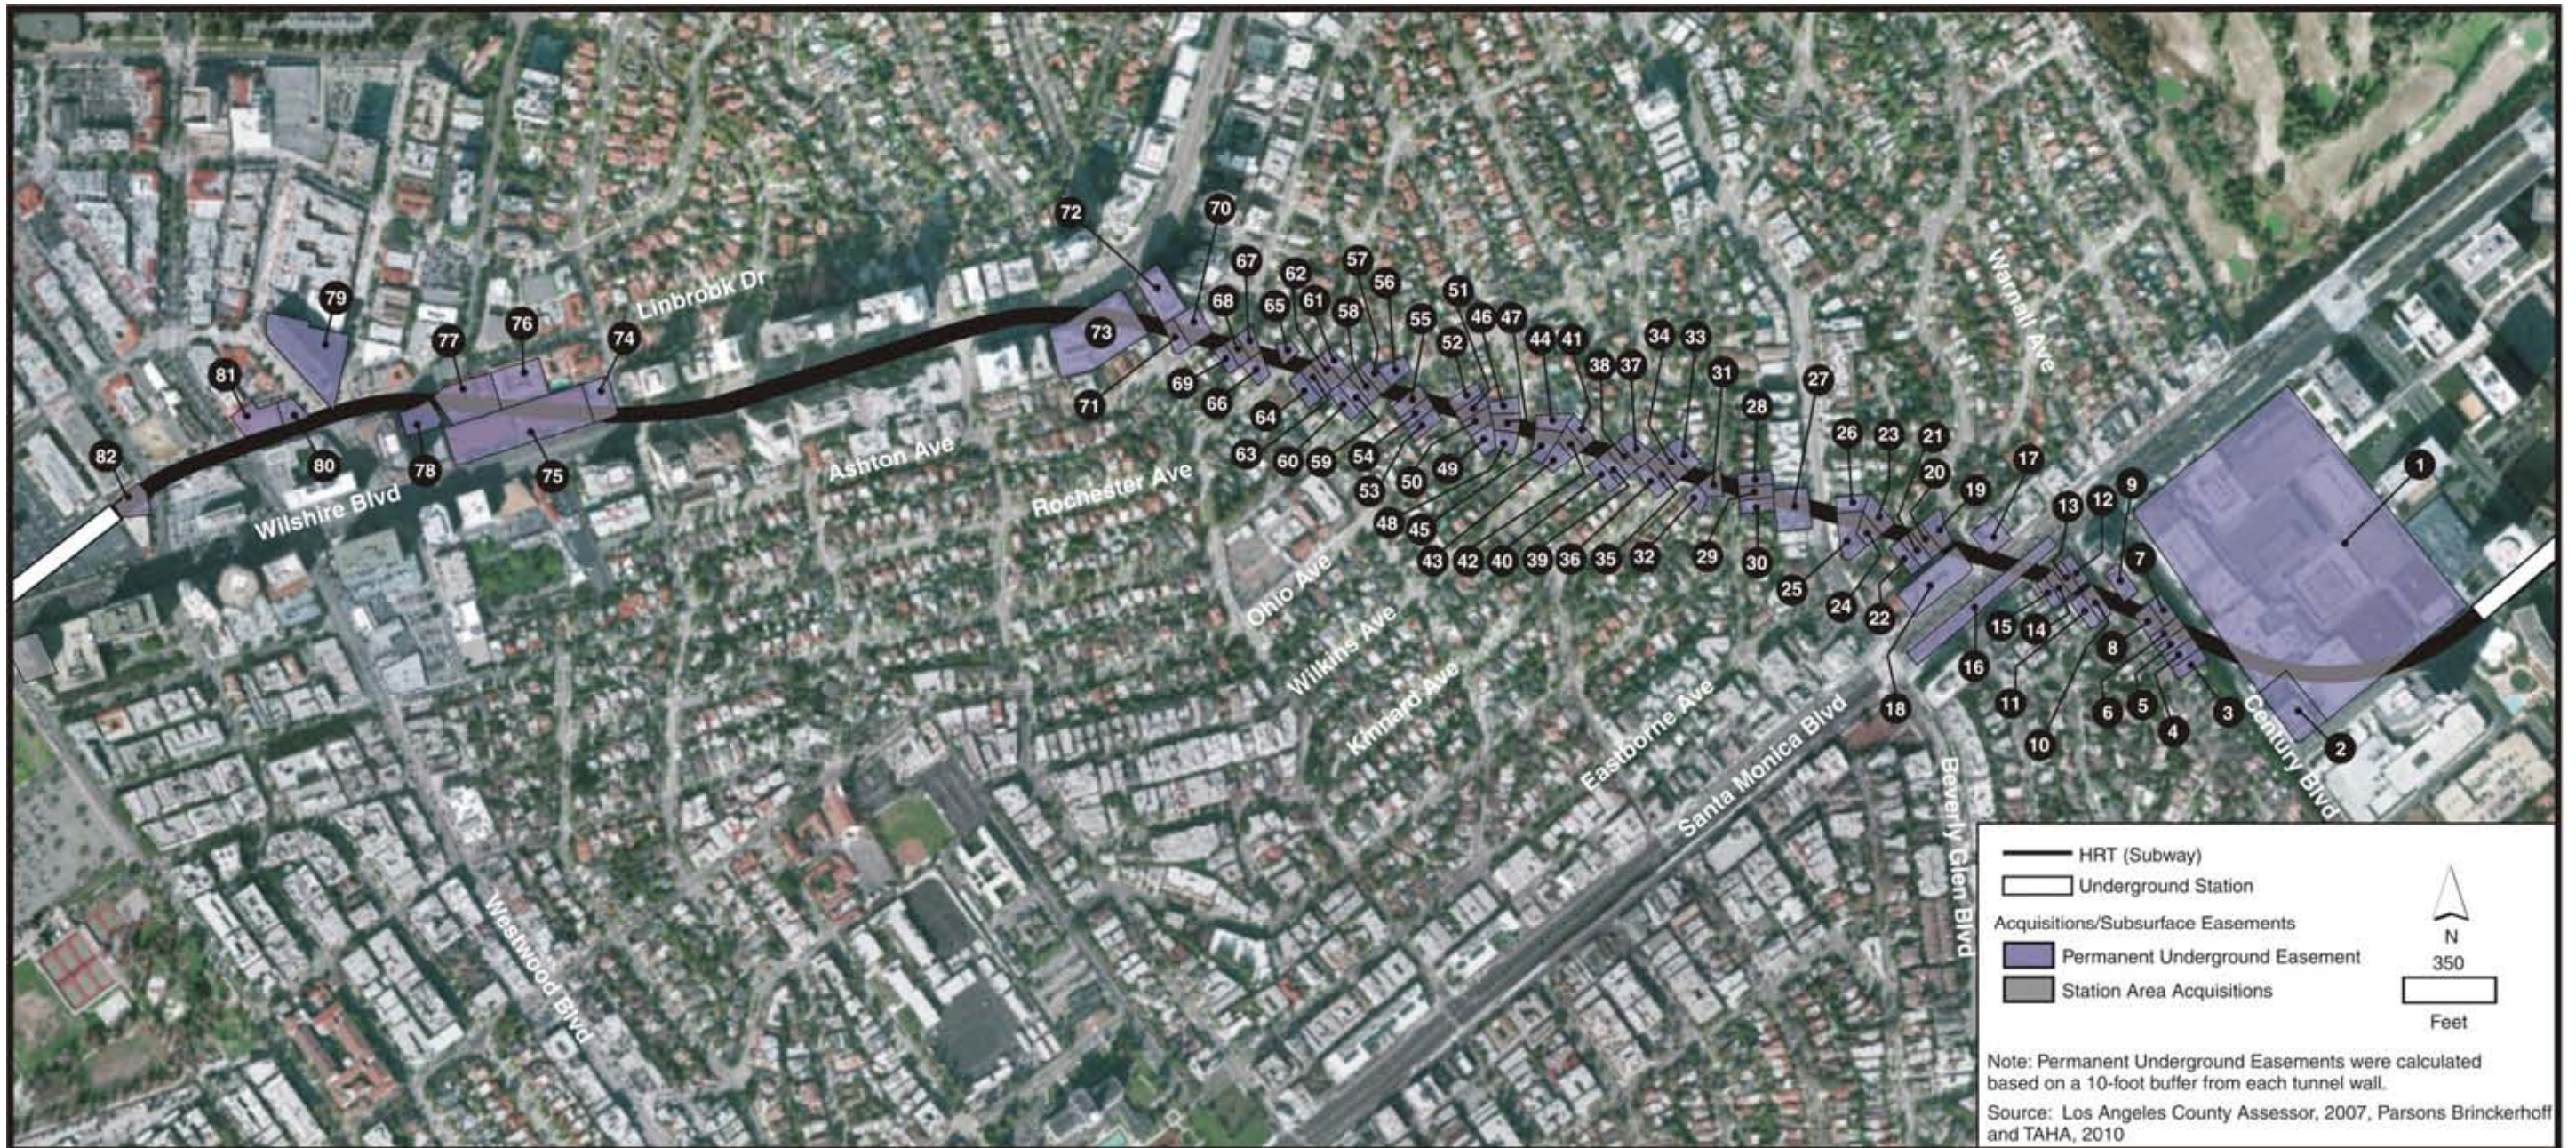

Figure 5-3: Segment Option 4P: Permanent Underground Easements

5.1.4 Segment Option 4Q: Century City (Constellation) Station to Wilshire/UCLA On-Street via East Route

Segment Option 4Q follows a similar alignment as Segment Option 4P, beginning at the Century City Constellation Station and traveling west to the Wilshire/UCLA Station. From the Century City Station, the alignment travels west under Constellation Boulevard and turns almost immediately northwesterly under the Westfield Mall toward Century Park West. The option traverses under Century Park West, under Fox Hills Drive at Missouri Avenue, then under Santa Monica Boulevard at Comstock Avenue, to Eastborne Avenue just east of Beverly Glen Boulevard. At this juncture, Segment Option 4Q follows the same alignment as Segment Options 4J and 4K. Segment Option 4Q stays beneath Wilshire for the On-Street Station Option (Option 5). Segment Option 4Q is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4Q, 209 permanent underground easements for tunneling are anticipated (Table 5-11 and Figure 5-4). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-12. These 209 permanent underground easements are anticipated to affect 406 residential properties, including, 52 single-family residences, six condominium buildings with a total of 138 units, and eight multi-family apartment buildings with a total of 216 residential units (Table 5-13).

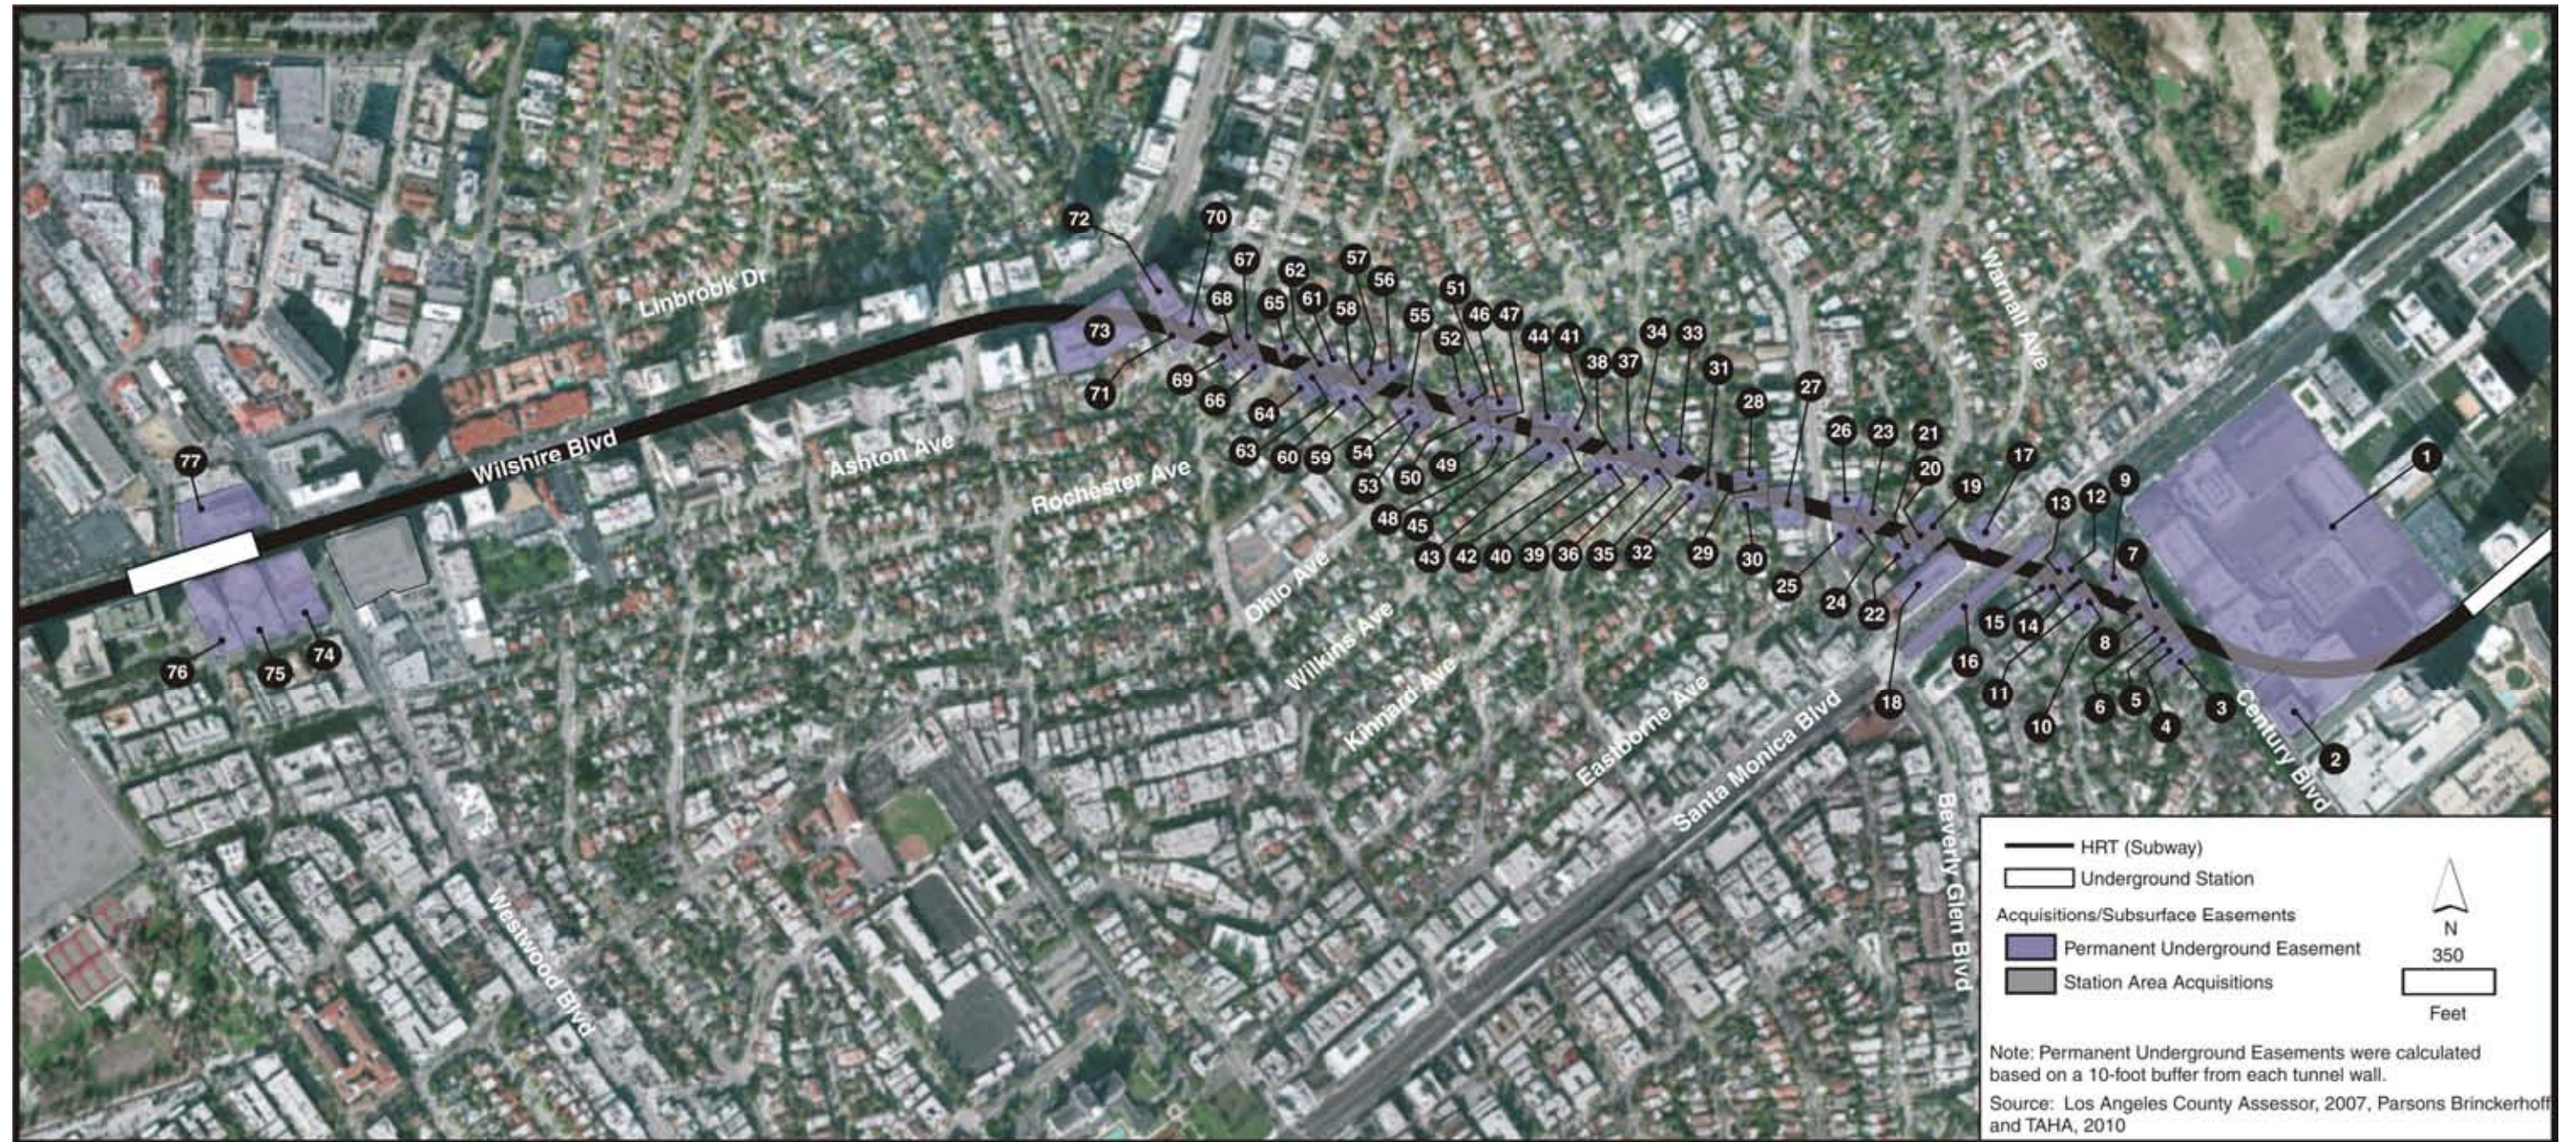

Figure 5-4: Segment Option 4Q: Permanent Underground Easements

5.2 Central Alignment Options (Segment Options 4L, 4M, 4R, and 4S)

Segment Options 4L, 4M, 4R, and 4S have underground alignments that travel between either the Century City Station at Santa Monica Boulevard (Segment Options 4L and 4M) or at Constellation Boulevard (Segment Options 4R and 4S) and Wilshire/UCLA Station via the Central Route. Segment Options 4L, 4M, 4R, and 4S are applicable to Alternatives 1 through 5 only (Table 2-1). Segment Options 4L, 4M, 4R, and 4S share the same parcels at the respective terminus station areas that have been described under other alternatives or options. Specifically, at the Westwood terminus area, Segment Options 4L and 4R have the same Wilshire/UCLA Off-Street station area parcels as Alternative 1 (base), and Segment Options 4M and 4S have the same station area parcels as Option 5. Therefore, none of the parcels at the Century City Station or the Wilshire/UCLA Station will be discussed in this section.

5.2.1 Segment Option 4L: Century City (Santa Monica) Station to Wilshire/UCLA Off-Street Station via Central Route

Segment Option 4L leaves the Century City Station on Santa Monica Boulevard and heads west, continuing west past where Segment Options 4J and 4K turn north near Century Park West, crosses under Beverly Glen Boulevard, then turns northwesterly at Pandora Avenue toward Thayer and Eastborne Avenues, and traverses under the properties at a northwest angle and under Holman, Fairburn, Kinnard, Wilkins, Westholme, Ohio, Rochester, Manning, Wellworth, Selby, and Ashton Avenues, until Malcolm Avenue, where it turns more westerly and crosses under Wilshire Boulevard to Lindbrook Drive. At Lindbrook Drive, the alignment continues westerly along Glendon Avenue, Westwood Boulevard, and Gayley Avenue and terminates at the Westwood/UCLA Station under UCLA's Lot 36 (bordered by Veteran, Kinross, and Gayley Avenues, and Wilshire Boulevard). Segment Option 4L is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4L, 358 permanent underground easements for tunneling are anticipated (Table 5-14 and Figure 5-5). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-15. These 358 permanent underground easements are anticipated to affect 661 residential properties, including 64 single-family residences, five condominium building with a total of 275 units and seven multi-family apartment buildings with a total of 322 residential units (Table 5-16).

Figure 5-5: Segment Option 4L: Permanent Underground Easements

5.2.2 Segment Option 4M: Century City (Santa Monica) Station to Wilshire/UCLA On-Street Station via Central Route

Segment Option 4M crosses under many of the same streets as Segment Option 4L, but at a slightly different angle so that it can connect to the Westwood/UCLA on-street station. The alignment is similar to Segment Option 4L as it leaves the Century City Station on Santa Monica Boulevard, and turns at Pandora Avenue in a northwesterly angle. At approximately Manning and Wellworth Avenues, Segment Option 4M turns slightly more northwesterly than Segment Option 4L to begin the curve under Wilshire Boulevard. Rather than crossing under Wilshire Boulevard at Malcolm Avenue (as in Segment Option 4L), Segment Option 4M turns westerly and is centered under Wilshire Boulevard at Glendon Avenue, continuing westward to the Westwood/UCLA On-Street Station centered at Gayley Avenue (Option 5). Segment Option 4M is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4M, 258 permanent underground easements for tunneling are anticipated (Table 5-17 and Figure 5-6). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-18. These 258 residences, including 65 single-family residences, three condominium buildings with a total of 178 units, and seven multi-family apartment buildings with a total of 57 residential units (Table 5-19).
