HAVE YOU HEARD THIS ONE?

"I don't know what Joe does with his money. He was short yesterday, and he was short again today."

"Is he trying to borrow from you?"

"No, I'm trying to borrow from him."

"Why does the bride look so angry?" inquired a guest at the wedding.

"The society editor's story described the bridegroom as a well known collector of antiques."

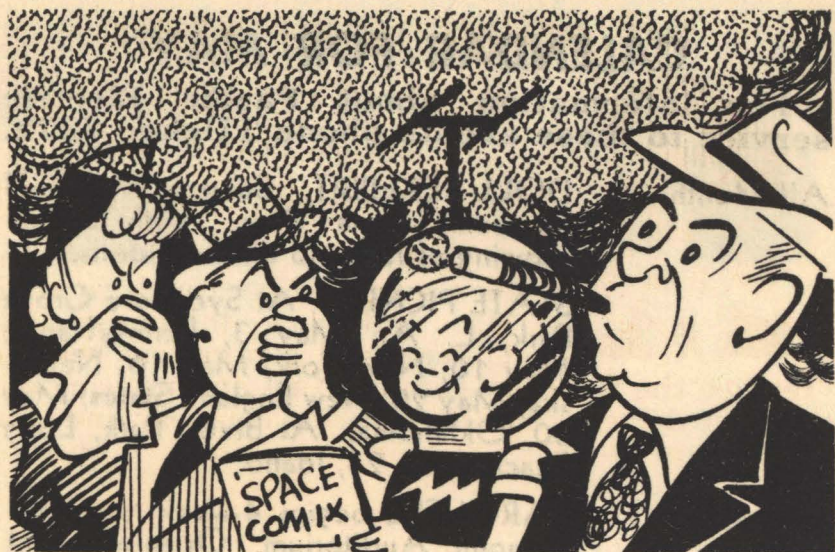

The beat-up old jalopy wheezed and clanked up to the toll bridge.

"Fifty cents," the gatekeeper called.

"Sold," replied the driver, climbing out.

The smallest of all packages is a man wrapped up in himself.

The ABC of Smoking:

ALWAYS BE CONSIDERATE

Chew gum as you ride Pacific Electric. Eat candy . . . or even peanuts in the shell if you must.

But please don't smoke.

We have nothing against smoking in its place. But smoking in buses and rail cars is in bad taste—and against the law in many cities, including Los Angeles.

That's because it's a fire hazard as well as an annoyance to many patrons. Especially on crowded vehicles, ventilating systems fight a losing battle when they're up against tobacco smoke . . . and few passengers wear Buck Rogers space helmets.

Even our superintendent of passenger service, whose name is Mr. Puffer and who enjoys a good cigar, waits until he's off the bus before lighting up.

For the sake of comfort and safety, Mr. Smoker, won't you do the same?

YOUR PERYSCOPE HONORED

The nation's best transit patrons (Pacific Electric's) deserve the best "take one" folder to read while they ride. So, with head slightly above the clouds, we are pleased to report that your Peryscope won the 1953 national contest for such publications. Our thanks to Mass Transportation Magazine of Chicago for the award and the trophy which goes with it.
