## Budget Message from the CEO

The Los Angeles County Metropolitan Transportation Authority is at a critical juncture. In the midst of a major economic downturn, never has more been expected of this agency with regard to the delivery of capital programs and day-to-day services.

In order for us to successfully meet our broad set of transportation development and service commitments in a fiscally responsible manner, we must act now to streamline the agency, restructure our service delivery, and improve the management of our capital programs.

Collectively, we are committed to these seven goals:

1. **Accelerate delivery of Measure R projects** through the 30/10 Initiative and Accelerated Highway Program, while simultaneously positioning the agency for long-term financial health and stability.
2. **Maintain a Culture of Safety.** Develop an organizational culture where passenger, public and employee safety permeates every aspect of planning, building and operating our transportation system.
3. **Deliver outstanding transportation programs and services;** efficiently and effectively delivering on our program and service commitments; integrate bus and rail services; improve reliability, cleanliness and safety.
4. **Build broad-based county-wide support for MTA's program.** Create alignment by delivering transit and highway products, services and capital projects.
5. **Complete all MTA projects on time and within budget** through improved project management and business practices, including sustainability, more local hiring and small business participation.
6. **Compete effectively for federal and state resources** to improve the region's mobility. Increase Los Angeles County influence on key legislation, form effective partnerships for Measure R acceleration, high speed rail and other priority projects, and increase support for transit operations.
7. **Develop a world class workforce and MTA's next generation of leaders.** Hire, lead, train and retain employees who are both good at their jobs and committed to outstanding public and customer service.

This budget is the next step of a comprehensive plan to achieve our goals while providing the agency prudent reserves. We enter FY11 with a new lean, restructured organization, a new service delivery model, and a focused agenda for capital programs delivery. Our intent in restructuring is to ensure we more efficiently and effectively address the needs of our customers and the transportation development commitments required in Measure R and our charter.

The FY11 budget includes agency-wide cost reductions, bus service reduction, an increased emphasis on maintenance, service improvements and an improved capital budgeting process.

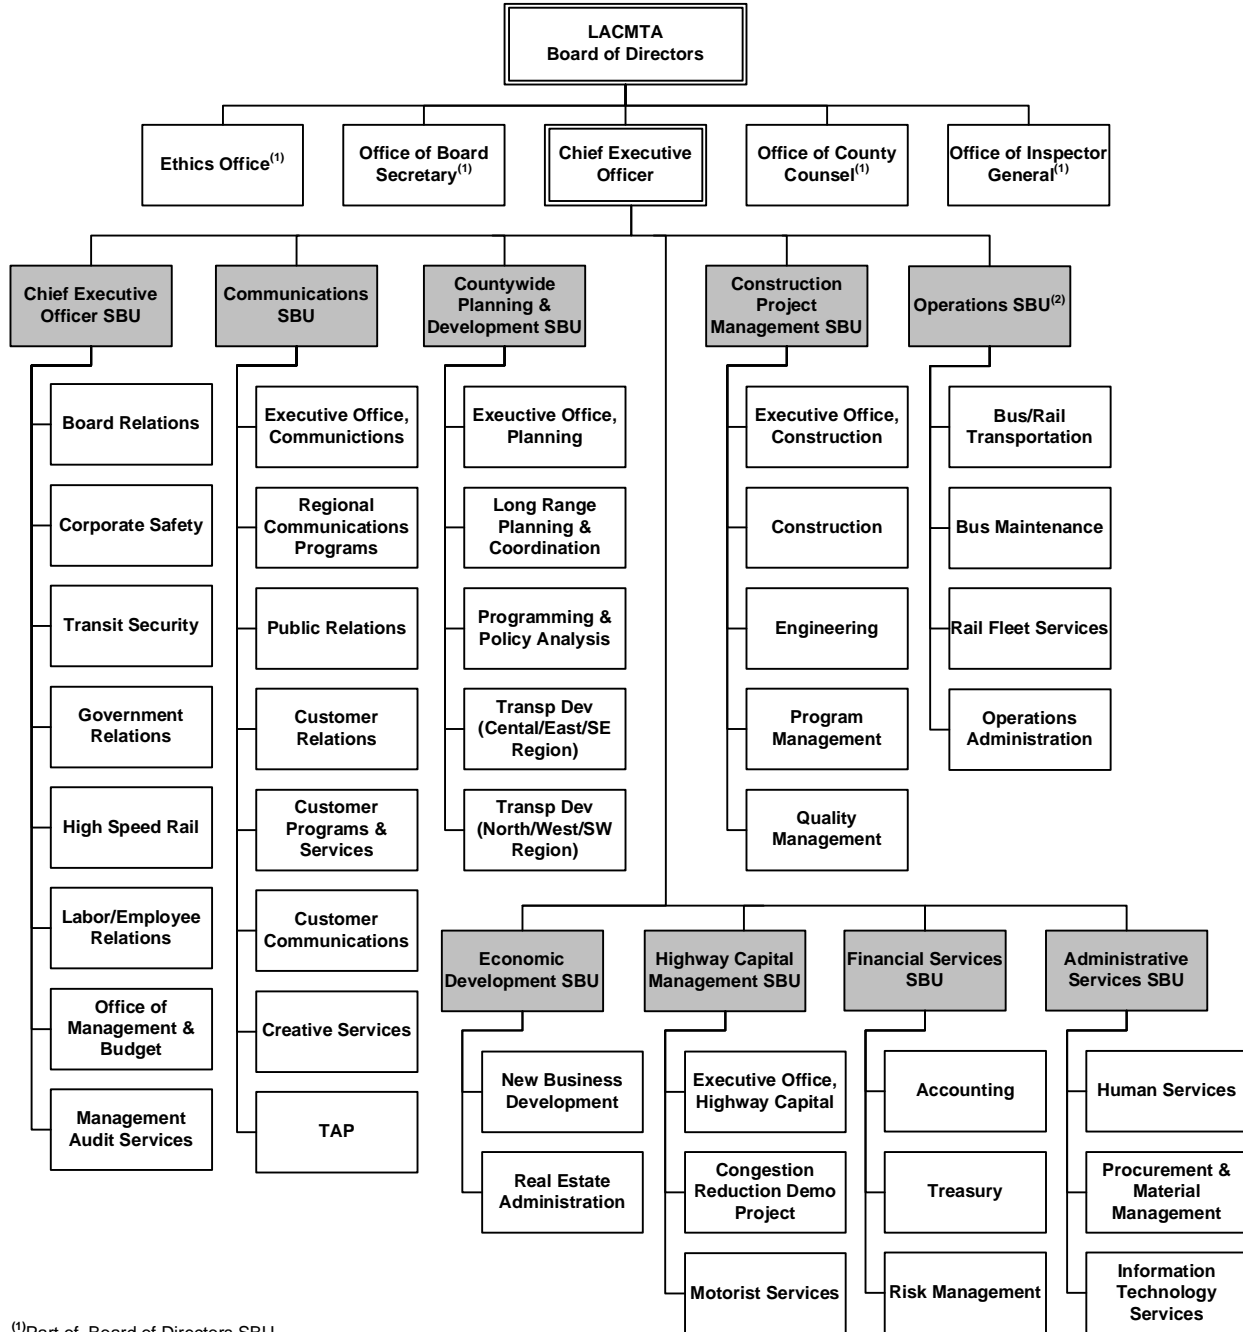

However, given the planned expansion of rail, additional bus service restructuring and agency-wide operating expense reductions, new revenues will be required to sustain a balanced budget over the coming years.

## **Metro Profile**

The Los Angeles County Metropolitan Transportation Authority (LACMTA), or Metro, was formed in 1993 to plan, coordinate, design, build, and operate the public transportation system for the region. Metro's employees are proud to:

- Operate the second largest bus system in the United States, providing over 7.2 million revenue service hours annually with an average of 1.1 million boardings per weekday.
- Operate three light rail lines and two heavy rail lines with about 300,000 boardings per weekday.
- Administer and distribute transportation funds for all Los Angeles County transit providers.
- Develop and construct Rapid Bus lines and fixed guideways for buses and multi-passenger vehicles.
- Construct new light and heavy rail lines.
- Provide highway construction funding and traffic flow management.
- Promote the use of public transit services and rideshare programs.

Metro headquarters and the Gateway Transit Center are located adjacent to the historic Union Station. The Gateway Transit Center links Los Angeles County with neighboring counties in Southern California by providing easy connections for commuters to Metro Bus and Rail, Metrolink (commuter rail) and Amtrak (intercity rail).

Metro is governed by a Board of Directors with 13 voting members and one non-voting member, consisting of:

- The five members of the Los Angeles County Board of Supervisors.
- The Mayor of the City of Los Angeles and three mayoral appointees.
- Four members appointed by the Los Angeles County City Selection Committee.
- One non-voting member appointed by the Governor.

Five legally separate entities which are integrated into Metro's operations and financial reporting are also included in the annual budget presentation that follows. These "blended component" units are:

- the Public Transportation Services Corporation (PTSC),
- two Benefit Assessment Districts (BAD),
- the Exposition Metro Line Construction Authority (Expo), and
- the Service Authority for Freeway Emergencies (SAFE)

Please see pages 45 and 46 for detailed financial statements.

The annual budget and additional information about the organization, programs, and services at Metro can be found on its website: [www.metro.net](http://www.metro.net)

### ***Brief History of Metro***

1871 – Los Angeles grants operational franchises for horse drawn streetcar railways.

1951 – Los Angeles Chamber works with the state legislature to form the Los Angeles Metropolitan Transit Authority (LAMTA).

1957 – Legislature gives LAMTA authority to purchase and operate privately owned bus lines through sale of revenue bonds.

1964 – Southern California Rapid Transit District (SCRTD) was formed to deliver mass rapid transit system, acquire property by eminent domain, levy taxes with voter approval, issue bonds and create Benefit Assessment Districts.

1976 – Los Angeles County Transportation Commission (LACTC) formed by legislature as new oversight organization for planning and funding mass transit.

1993 – SCRTD and LACTC merged to form the Los Angeles County Metropolitan Transportation Authority (Metro).

***Los Angeles County Profile***

Los Angeles County in California is the most populous county in the United States with an estimated population of 10.4 million. The county seat is the city of Los Angeles. The county is home to 88 incorporated cities and many unincorporated city-like areas.

As of 2010, the county's population is larger than the populations of 43 states, ranking just behind Ohio, and is home to over a quarter of all California residents. In addition, if the county were a nation, it would be the 18th largest economy in the world.

## Budget Assumptions

### Revenue Assumptions

- Sales tax revenue will grow 4.5%, following 9.1% declines in FY09 and FY10.
- Fare increase for non-discounted riders was implemented on July 1, 2010, resulting in a farebox recovery ratio of 28% and fare revenue per boarding of \$0.75.
- Metro's entire share of Measure R 20% Bus Operations including prior fund balances (\$117.4 million) is used for bus operations.
- Metro's entire share of new STA revenues in FY10 (\$98.3 million) is used for bus and rail operations in FY11.

### Service Level Assumptions

- The FY11 budget assumes an initial 5% bus service reduction (387,575 Revenue Service Hours) through more efficient scheduling to reduce service duplication and improve productivity. At the same time we will improve service quality by continuing the current level of maintenance activity and on-street supervision. This will improve the state of good repair and cleanliness of the bus fleet and continue to improve bus in-service on-time performance.
- Rail service will remain at the FY10 level, with Expo opening in FY12.

### Labor Assumptions

- Twenty percent reduction in Non-Contract Full Time Equivalent (FTEs).
- Reduction in Contract FTEs will comply with labor agreements. Service-level related reductions in UTU FTEs will be managed through attrition.
- No wage and salary increases.

### Things to Watch/Areas of Risk

- Budget contains no wage increases in collective bargaining agreements.
- Budget assumed a 4.5% growth in sales tax revenue as a result of the economic recovery.
- Assumed timely issuance of Prop 1B bonds. Funding is at risk for Expo II Land Acquisition, I-405, Orange Line Extension and other projects.
- At the time the FY11 budget was adopted, there was no funding established for the 30/10 Initiative. Therefore, no FTEs or expenditures associated with that initiative are included in the budget. The concept of the 30/10 Initiative is to use the long-term revenue from the Measure R sales tax as collateral for long-term bonds and a federal loan which will allow Metro to build 12 key mass transit projects in 10 years, rather than 30. If, and when, the 30/10 Initiative receives funding, the Board will be asked to approve budget amendments accordingly.

## **Budget Highlights**

### **Metro Operations**

Metro Bus and Rail Operations were reorganized during FY10, realigning functions from a service sector organization into a centralized operation, while ensuring that a formal process for public input to service changes remains intact. All of Operations will report to the Chief Operations Officer. The overall goal is to operate a highly-responsive, fully-integrated bus and rail system that focuses on core service.

FY11 highlights for Metro Operations:

- Continue developing the service restructuring plan to set the direction of service planning over the next 5 years.
- Procure 125 buses to adhere to fleet age and fleet replacement plan guidelines.
- Implement a bus/rail interface and restructuring plan for the Gold Line Eastside Extension.
- Complete union contract negotiations with UTU, ATU, TCU and Teamsters.

FY11 highlights for Bus Operations:

- Operate 7.2 million Metro Bus, Metro Orange Line, and Contracted revenue service hours.
- Restructure to improve efficiency on existing bus service through trip thinning, reducing frequency on unproductive routes, and rightsizing of Rapid corridors.

- Maintaining customer-based service input via Governance Councils and the Blue Ribbon Committee.
- Complete installation of the “SmartDrive” Incident Based Surveillance System (IBSS) on all buses systemwide to reduce accidents, improve safety, and enhance operator training.
- Improve quality of bus fleet and service.

FY11 highlights for Rail Operations:

- Operate 705,846 Metro Rail revenue service hours.
- Receive P2550 light rail vehicles and initiate contract closeout.
- Award a new contract for additional rail cars to support future rail lines.
- Support Exposition Line start-up operations.
- Expand Rail rehabilitation programs to maintain the state of good repair of our aging fleet and infrastructure.

## **Transit and Highway Development and Construction Programs**

Construction Project Management, Countywide Planning and Development and Highway Capital Management business units plan, design and build future transit and highway projects for Los Angeles County.

FY11 highlights for the transit construction program:

- Complete Metro Gold Line Eastside Extension Project close-out.
- Continue construction of Expo Light Rail Line Phase I.
- Continue planning and design of Expo Light Rail Transit Phase II.
- Begin Preliminary Engineering, and provide support to the EIS/EIR phase and Federal New Starts Funding application process for the Regional Connector and Westside Subway Extension Projects.
- Continue design and construction management of the Orange Line Extension north on Canoga.
- Complete Metro Rapid Signal Priority Expansion Phase I on four Metro Rapid Corridors, and continue Signal Priority Expansion Phase II for three more corridors.

FY11 budgeted transit corridor studies:

- Eastside Quad Gate Study
- Crenshaw Transit Corridor
- Eastside Light Rail Access
- SFV East N/S Rapid
- Eastside Extension Phase II
- Metro Green Line SB Extension
- Red Line Westside Extension
- Regional Connector

FY11 highlights for the highway development program:

- Design and begin construction of Interstate 405 Northbound Carpool Lane from Interstate 10 to US 101.
- Continue construction management of seven freeway soundwalls.
- Complete design and begin construction of improvements to the Harbor Transitway Stations, El Monte Busway/Patsaouras Plaza Connector and El Monte Station as part of the Congestion Reduction Demonstration Project.

FY11 budgeted highway corridor studies:

- High Desert Corridor
- I-605 Corridor "Hot Spot"
- I-710 North Gap Closure
- I-710 South Early Action Projects

## Legally Separate Entities

### Public Transportation Services Corporation

Public Transportation Services Corporation (PTSC) is a nonprofit public benefit corporation. PTSC was created in December 1996 in order to transfer certain functions performed by the LACMTA, and the employees related to those functions, to this new corporation. The PTSC conducts essential public transportation activities including: planning; programs funds for transportation projects within Los Angeles

County; construction; provides certain business services to the County's Service Authority for Freeway Emergencies (SAFE) and the Southern California Regional Rail Authority (SCRRA); and provides security services to the operation of the Metro Bus and Rail systems. PTSC allows the employees of the corporation to participate in the California Public Employees Retirement System (PERS)

**Service Authority for Freeway Emergencies**

The Los Angeles County Service Authority for Freeway Emergencies (SAFE) was established in Los Angeles County in 1988. SAFE is a separate legal authority created under state law and is responsible for providing motorist aid services in Los Angeles County. SAFE receives its funding from a dedicated \$1 surcharge assessed on each vehicle registered within Los Angeles County.

SAFE currently operates, manages and/or funds:

- The Los Angeles County Kenneth Hahn Call Box System
- #399 – Mobile Call Box program
- The Metro Freeway Service Patrol
- The Motorist Aid and Traveler Information System (MATIS)
