## INTRODUCTION

This supplement is issued by the newly created Office of Federal Statistical Policy and Standards in the Department of Commerce which has assumed the statistical policy function formerly assigned to the Statistical Policy Division of the Office of Management and Budget. Implementation and maintenance of standard statistical classifications will be handled by the new Office under the authority of Section 103 of the Budget and Accounting Procedures Act of 1950.

Both the Standard Industrial Classification Manual 1972 and the Enterprise Standard Industrial Classification Manual 1974 are updated by this supplement.

This supplement contains new, deleted and modified industries, titles, definitions, and index items. It reflects the results of the experience of government agencies in using the 1972 Standard Industrial Classification.

The 1977 review of the Standard Industrial Classification serves primarily to make corrections to the 1972 edition in areas crucial to statistical programs. Only those changes proposed by member agencies of the Technical Committee on Industrial Classification were considered. Based on a Technical Committee recommendation, a review of the Manual is scheduled for 1982.

This supplement was prepared based on recommendations from the Technical Committee on Industrial Classification. However, the Office of Federal Statistical Policy and Standards is responsible for the final decisions.

The Technical Committee is composed of representatives of the following agencies: Federal Trade Commission, Bureau of Mines, U.S. Small Business Administration, Social Security Administration, Bureau of Economic Analysis, U.S. International Trade Commission, Employment and Training Administration, Securities and Exchange Commission, Bureau of Domestic Commerce, Board of Governors of the Federal Reserve System, Bureau of the Census, General Services Administration, Office of Federal Statistical Policy and Standards, U.S. Department of Agriculture, Bureau of Labor Statistics, Internal Revenue Service and National Center for Health Statistics.

## New and Deleted Industries

A *new* Industry **3716—Motor Homes** was created from Industry 3792—Travel Trailers and Campers.

### **3716 Motor Homes**

Establishments primarily engaged in manufacturing self-contained motor homes on purchased chassis. Establishments engaged in manufacturing self-contained motor homes on chassis manufactured in the same establishment are classified in Industry 3711. Establishments primarily engaged in manufacturing mobile homes are classified in Industry 2451, and travel trailers and pickup campers in Industry 3792.

(The references to self-contained motor homes in the description of Industry 3792 are deleted and the 'self-contained motor homes' entries under the industry description and in the alphabetic index should be changed to 3716.)

Industry Group **404** and Industry **4041—Railway Express Service** have been deleted.

There is no longer any activity in this industry.

A *new* Industry **6798—Real Estate Investment Trusts** was created from Industry 6799—Investors, Not Elsewhere Classified.

### **6798 Real Estate Investment Trusts**

Establishments primarily engaged in closed-end investments in real estate or related mortgage assets operating so that they could meet the requirements of the Real Estate Investment Trust Act of 1960 as amended. This act exempts trusts from corporate income and capital gains taxation, provided they invest primarily in specified assets, pay out most of their income to shareholders, and meet certain requirements regarding the dispersion of trust ownership.

(The item "real estate investment trust" in the alphabetic index should be changed to 6798 and should also appear under the description of this new industry. The add items listed in Part III should also appear under this description.)
