FINANCE AND BUDGET COMMITTEE

March 17, 2005

SUBJECT: FY05 SECOND QUARTER FINANCIAL PERFORMANCE

ACTION: RECEIVE AND FILE

RECOMMENDATION

Receive and file FY05 Second Quarter Financial Performance Report.

ISSUE

This report discusses the financial performance of major programs for the first six months of FY05.

DISCUSSION

SUMMARY OF SALES TAX REVENUES

For the Six months Ended December 31

(Dollars in millions)	2004	2004	2004	2003	2002
	Actual	Adopted Budget	Variance Over/(Under)	Actual	Actual
Sales tax revenues	\$744.0	\$737.0	\$7.0	\$715.9	\$690.8

Discussion

The largest source of funds are Proposition A, Proposition C and Transportation Development Act (TDA) sales taxes representing over 50% or \$1.5 billion of the total budgeted revenues. For the first six months, sales tax revenues were \$7 million or 0.9% greater than the budget and \$28 million or 3.9% greater than the same period last year.

SUMMARY OF SALES TAX REVENUES - OUTLOOK

For the Twelve Months Ending June 30

(Dollars in millions)	2005	2005	2005	2004	2003
	YE Outlook	YE Budget	Variance Over/(Under)	YE Actual	YE Actual
Sales tax revenues	\$1,492.3	\$1,492.3	\$0.0	\$1,447.6	\$1,376.8

Discussion

Due to the positive experience with actual sales tax receipts, we may end the year ahead of budget. Possible events during the fiscal year that could reduce the favorable variance include adjustments by the State Board of Equalization or economic downturns in the local economy. Therefore, the outlook remains at the FY05 budget level. Proposition A, Proposition C, and TDA actual sales tax revenues are estimated to be \$1,492.3 million, an increase of 3% or \$44.7 million over the actual of \$1,447.6 million a year ago.

SUMMARY OF ENTERPRISE FUND

The Enterprise Fund presentation complies with Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. Statement 34 requires that financial information be consolidated into either governmental activities or business-type activities. The business-type activities, or Enterprise Fund, include transit operating and capital costs, infrastructure construction and related debt service. Governmental activities are comprised of subsidies provided to transit operators, the regional planning and programming of funds and functions of the Board of Directors.

SUMMARY OF ENTERPRISE FUND

For the Six Months Ended December 31 (Does not reflect budget amendment passed by the Board in February 2005)
(Dollars in millions)

	2004 Actual	2004 Budget	2004 Variance	2003 Actual	2002 Actual
Operating revenues:					
Passenger fares	\$133	\$144	(\$11)	\$99	\$126
Route subsidies	-	-	-	1	-
Auxiliary transportation	7	7	-	5	7
Total operating revenues	140	151	(11)	105	133
Operating expenses, excluding depreciation:	483	488	(5)	413	441
Operating income (loss)	(343)	(337)	(6)	(308)	(308)
Operating subsidies and grants (other expenses):					
Local operating grants	236	236	-	262	266
Federal operating grants	112	112	-	59	47
Interest revenues	5	5	-	2	3
Interest expense	(86)	(85)	(1)	(102)	(105)
Gain (loss) on disposition of fixed assets	-	-	-	(1)	(1)
Other revenue	6	3	3	1	1
Total operating subsidies and grants (other expenses)	273	271	2	221	211
Loss before debt and capital items	(70)	(66)	(4)	(86)	(97)
Debt service & capital grants / contributions:					
Local	223	223	-	299	174
State	19	19	-	21	-
Federal	52	52	-	91	-
Total debt service & capital grants / contributions	294	294	-	411	174
Change in net assets	\$224	\$228	(\$4)	\$325	\$77

Discussion

Passenger fares were \$11 million below budget. Prior year actuals through December 31, 2003 reflect a 35-day work stoppage.

Operating expenses were \$5 million or 1% below budget. The under expenditure occurred primarily in services such as deferral of the new ticket vending machine maintenance contract and delays in hiring fare inspectors. The under expenditure was partially offset by over expenditures in fuel, workers' compensation, and casualty and liability expenses. Non-contract salaries, contract wages, and associated fringe benefits were on budget.

Operating subsidies & grants and debt service expenses & capital grants are on budget through the first six months of the year.

SUMMARY OF PERFORMANCE MEASUREMENTS FOR BUS

For the Six Months Ended December 31

Performance Measurement - Bus	2004 Actual	2004 Budget	2004 Variance Over/ (Under)	2003 Actual	2002 Actual
Cost/Revenue Service Hour	\$ 102.97	\$ 102.64	\$ 0.33	\$ 110.64	\$ 99.30
Revenue Service Hours	3,724,592	3,715,992	8,600	3,029,406	3,771,000
Cost/Passenger Mile	\$ 0.53	\$ 0.53	-	\$ 0.68	\$ 0.51
Subsidy/Passenger Mile	\$ 0.36	\$ 0.36	-	\$ 0.50	\$ 0.35
Mean Miles Between Mechanical Failures	7,178	7,500	(322)	5,968	6,848
Traffic Accidents/100,000 Miles	3.42	3.50	(0.08)	3.54	3.88
New Workers Comp Claims per 200,000 Hours	14.40	20.60	(6.20)	23.00	22.31
Mean Fleet Age in Years	6.60	6.40	0.20	5.20	4.30
Peak Bus/Base Bus	1.89	1.86	0.03	1.52	1.46

Discussion

Year-to-date costs per revenue service hour are slightly over the target due to higher than expected expenses for fuel, and casualty and liability expenses. On a cost per hour basis, these two expense items are over budget by \$3.58 per hour. Savings in services, parts and other categories reduce cost per hour overage to \$0.33.

Mean miles between mechanical failures were 5% under target due to hot weather in the first four months of the fiscal year that caused continued engine failures, which constitute approximately half of all road-call failures. Improvements are expected with the implementation of a new diagnostic repair process. Sector staffs continue to work with Division Managers to identify particular bus types that are experiencing frequent mechanical failures and working with operators to ensure that they do not inadvertently report non-mechanical failure.

Traffic accidents per 100,000 miles were better than target due to enhanced safety training and retraining programs for operators with high frequency of traffic accidents.

New workers' compensation claims per 200,000 hours were substantially lower than budget due to the ongoing safety program and safety meetings that focus on safety awareness and accident prevention. Divisions are also conducting line sweeps to identify road hazards that contribute to new workers' compensation claims.

SUMMARY OF PERFORMANCE MEASUREMENTS FOR RAIL

For the Six Months Ended December 31

Performance Measurement - Rail	2004			2003 Actual	2002 Actual
	2004 Actual	2004 Budget	Variance Over/ (Under)		
Heavy Rail Cost/Vehicle Service Hour	\$279.83	\$279.95	(\$0.12)	\$298.03	\$245.71
Light Rail Cost/Vehicle Service Hour	\$349.44	\$375.34	(\$25.90)	\$322.61	\$287.35
Heavy Rail Cost/Passenger Mile	\$0.46	\$0.46	-	\$0.50	\$0.43
Light Rail Cost/Passenger Mile	\$0.70	\$0.67	\$0.03	\$0.44	\$0.34
Heavy Rail Subsidy/Passenger Mile	\$0.36	\$0.34	\$0.02	\$0.39	\$0.33
Light Rail Subsidy/Passenger Mile	\$0.59	\$0.56	\$0.03	\$0.36	\$0.26
New Workers' Compensation Claims Reported/Filed	22	22	-	15	27
Light Rail Vehicle Accident Rate/100,000 Miles	0.19	0.40	(0.21)	0.41	0.38

Discussion

Total cost and costs per vehicle service hour were below budget due to delayed implementation of contracted brake overhaul services, delay in UFS compatible ticket machine maintenance contract, and delays in hiring fare inspectors for the Blue and Green Lines. Due to lower than anticipated customer usage of the Green and Gold Lines, Light Rail cost per passenger mile was over budget. Therefore, management reduced revenue service hours by reducing train lengths and hours of service.

New workers' compensation claims reported/filed are on target. The downward trend beginning in August is consistent with the same period last year. Light rail accidents were lower than the target. Transit Operations continues to focus on safety awareness programs to help reduce claims and accident rates.

SUMMARY OF ENTERPRISE FUND - OUTLOOK

For The Twelve Months Ending June 30

(Dollars in millions)

	2005 Outlook	2005 Budget	2005 Variance Over/(Under)
Operating revenues:			
Passenger fares	\$265	\$285	(\$20)
Route subsidies	1	1	-
Auxiliary transportation	14	14	-
Total operating revenues	280	300	(20)
Operating expenses, excluding depreciation:	1,005	990	15
Operating income (loss)	(725)	(690)	(35)
Operating subsidies and grants (other expenses):			
Local operating grants	506	471	35
Federal operating grants	218	218	-
Interest revenues	22	22	-
Interest expense	(169)	(169)	-
Other revenue	5	5	-
Total operating subsidies and grants (other expenses)	582	547	35
Loss before debt and capital items	(143)	(143)	-
Debt service & capital grants / contributions:			
Local	385	385	-
State	17	17	-
Federal	274	274	-
Proceeds from financing	312	312	-
Total debt service & capital grants / contributions	988	988	-
Change in net assets	\$845	\$845	(\$0)

Discussion

Passenger fares are forecasted to end the year \$20 million below the adopted budget. Passenger boardings are consistent with the budget, but the fare revenue per boarding is under the budgeted projection. The fare revenue deficit will be offset with a combination of reducing costs, deferring capital projects, and transfer of fund balances.

Operating expenses are projected to end the year \$15 million over the adopted budget. Trending the year to date experience with fuel throughout FY05 indicates that fuel will be over budget by \$8 million. During the first half of FY05, several prior period bus accident claims were settled at higher values than originally estimated adding \$6 million to the FY05 budget. Even though workers compensation claims and lost work days are under budget and less than prior years, costs are greater than budget and greater than last year due to rising medical and indemnity costs. Workers compensation is forecasted to end the year \$4 million over budget. The total of these additional costs are

forecasted to be \$22 million with \$7 million offset through aggressive cost reductions, rail service reductions, non-contract vacancy savings, and capital project deferrals.

SUMMARY OF CAPITAL PROGRAM

The attached capital program variance report for the six months ended December 31, 2004, shows the status of adopted life-of-project budgets and projected total costs-to-complete for each capital project.

Bus Acquisition, Universal Fare System Advanced Transportation Management System

Overall, the bus acquisition projects are showing a reduction in their life-of-project costs of \$4.9 million with \$3.8 million reduction in the Advanced Transportation Management System project as a result of eliminating the new ATMS equipment from the older bases. The savings will be reprogrammed during the FY06 capital process.

Twenty-two articulated buses are funded in the Orange Line project and are not included in the bus acquisition for articulated buses.

Bus Maintenance and Facilities

One project was completed at lower than planned costs and another project was cancelled:

- Metro Rapid Program vans and modifications to the control center were decreased by \$3.4 million because the equipment has been purchased at less cost than originally planned. The funds were reprogrammed back to the Metro Rapid Program for use in implementing new Metro Rapid lines.
- The Division 10 expansion project has been cancelled for FY05 and will be reconsidered at a later date. The funds will be reprogrammed after the project has been reconsidered.

Three projects are expected to exceed their life-of-project budgets and will be funded with contingency within the board-approved limits for using contingency. These projects and the additional funds needed are as follows:

- Bus Division Amenity Improvement Project - \$307,583
- Metro Bus Art Program TE Grant - \$9,324
- LAX Terminal Improvements - \$23,823

Five projects are expected to return to the board for approval to increase the life-of-project budget authority. These projects and the life-of-project increase needed are as follows:

- Division Lighting Program for all MTA Divisions - \$360,035
- Permanent Restroom Facilities at Selected Locations - \$454,033
- Cal State and LA County USC Busway Station Enhancement - \$819,771

- New Division 9 Transportation Building - \$8,495,000
- Division 4 – Expansion & Pavement Project - \$910,052

Rail Capital Projects

The following six rail capital and wayside projects are expected to exceed their life-of-project budgets and will be funded with contingency within the board approved limits for using contingency. These projects and the additional funds needed are as follows:

- MGL Elevator and Escalator Sumps - \$415,694
- Install Outside Paving at Division 20 - \$54,307
- Completion of Metro Red Line Art - \$77,852
- Wayside Systems Battery Replacement/Refurbishment - \$46,572
- Light Rail Train Tracking Improvements - \$162,825
- MRL Signal Systems Upgrade - \$150,589

The following three projects are expected to return to the board for approval to increase the life-of-project budget authority. The life-of-project increases are as follows:

- MBL Grade Crossing Improvements - \$2,305,631
- Crossing Gate Equipment Replacement - \$431,251
- Division 21 Improvements - \$500,000

The multi-modal control center project has been cancelled and will be reconsidered at a later date.

Other Capital Projects

This category includes non-revenue vehicles, IT/Communications projects, warehouse projects and Other Capital projects.

The following projects are expected to exceed their life-of-project budgets and will be funded with contingency within the board-approved limits for using contingency. These project and the additional funds needed are as follows:

- HR Payroll System Upgrade - \$103,633
- New Storage Building for Red Line - \$366,319
- Covered Awning for Blue Line - \$197,838
- Covered Awning for Green Line - \$130,467
- Purchase EZ Tilter - \$39,919
- New Pallet Racking for Bus Divisions - \$84,559
- Install Shipping Awning - \$233,008

The following projects are expected to return to the board for approval to increase the life-of-project budget authority. The life-of-project increase needed is as follows:

- Maintenance and Material Management System Replacement - \$4,579,000
- PGL Midway Warehouse – Equipment and Storage - \$500,000

Major Construction

Major construction projects include construction of new fixed guideway corridors, new rail car purchases, and other major infrastructure improvements. For the period ended December 2004, all adopted major construction projects are estimated to be completed within board approved life-of-project budgets.

The account detail for the Orange Line project shows that the project remains on budget with about \$22 million of the contingency funds having been transferred to other accounts as required for construction progress. More detailed information on the major construction projects is available through individual project reports.

SUMMARY OF CALL FOR PROJECTS AND RELATED INFORMATION

For the Six Months Ended December 31

(Dollars in millions except for performance data)

	2004 Actual	2004 Budget	2004 Variance Over/(Under)	2003 Actual	2002 Actual
Revenues:					
Grant subsidies	\$16	\$74	(\$58)	\$27	\$9
Total revenue	16	\$74	(58)	\$27	\$9
Expenditures:					
Freeway programs	2	9	(7)	11	-
Regional surface trans. improvement	4	25	(21)	6	-
Local traffic system	6	24	(18)	8	8
Commuter rail	1	7	(6)	1	-
Bus capital	3	9	(6)	1	1
Total call expenditures	16	74	(58)	27	9
Excess of revenues over expenditure	\$0	\$0	\$0	\$0	\$0
Performance Measurement					
Call Expenditures as a % of Budget					
Freeway programs	22%	100%	-78%	220%	0%
Regional Surface Trans. Improvement	16%	100%	-84%	100%	0%
Local Traffic System	25%	100%	-75%	67%	57%
Commuter Rail	14%	100%	-86%	17%	0%
Bus Capital	33%	100%	-67%	17%	14%

Discussion

Call for Projects revenue and expenses for the first six months of the fiscal year were both under budget by \$58 million. Revenues and expenses are 41% less than the revenue and expenses for the same period in FY04.

The Freeway program used approximately 28% of its annual year-to-date budget. Reasons for the variance include contract and acquisition delays regarding the SB Rte 101 Los Angeles Contract, project delays due to the delayed execution of the AB30-90 agreement between MTA and Caltrans, completion of the Route 605 project ahead of schedule and invoicing and schedule/scope delays of various projects.

Regional Surface Transportation spent approximately 16% of its annual year-to-date budget. Reasons for these variances include project delays due to the delayed execution of the AB30-90 agreement between MTA and Caltrans as well as invoicing and schedule/scope delays of various projects. Local Traffic System spent 24% of its annual

year-to-date budget. The variances are attributed mainly to invoicing and schedule/scope delays of various projects.

Commuter Rail used approximately 12% of its annual year-to-date budget. The variance is due to the delayed procurement of right of way for the rolling stock maintenance facility in San Bernardino. The Bus Capital Operations program spent approximately 40% of its annual year-to-date budget. This program variance is mainly due to acquisition delays.

SUMMARY OF OTHER TRANSPORTATION PROGRAMS AND RELATED INFORMATION

SUMMARY OF OTHER TRANSIT SERVICES

For the Six Months Ended December 31

(Dollars in millions except for performance data)

	2004 Actual	2004 Budget	2004 Variance	2003 Actual	2002 Actual
Revenues:					
Sales tax subsidy	\$9	\$15	\$6	\$17	\$ 15
Intergovernmental grants	4	31	27	23	30
Investment income and other	-	2	2	-	1
Total revenues	\$13	\$48	\$35	\$40	\$45
Expenditures:					
Freeway Service Patrol - FSP	7	12	(5)	7	9
SAFE*	2	3	(1)	2	4
Access Service Incorporated - ASI	4	33	(29)	31	32
Total expenditures	\$13	\$48	(\$35)	\$40	\$45
Excess of revenues over expenditures	\$0	\$0	\$0	\$0	\$0
Performance Measurement					
FSP - Cost per Assist***	\$37.97	N/A	N/A	\$38.05	\$40.32
SAFE - Cost Per Call Answered**	\$22.56	N/A	N/A	\$24.32	\$28.49
ASI operating subsidy per passenger	\$27.00	N/A	N/A	\$27.34	\$28.08

* The SAFE is not an MTA function but is included in this chart as it performs motorist aid services similar to FSP and ASI.

** FY03 cost per call based upon operating costs and excludes a one-time expenditure of \$3.5 million used to cover the cost of modifying callbox sites in compliance with the Thalheimer ADA Settlement Agreement.

*** FSP performance measurement is for Q1 FY05. The information for FSP's cost per assist during

Discussion

Revenue and expenses were both under budget by \$36 million. Revenues and expenses are 68% less than the revenue and expenses for the same period in FY04.

Freeway Service Patrol consumed approximately 59% of its annual year-to-date budget. Invoicing delays of tow contracts (invoices are paid one month in arrears), start-up delays of the FSP Communications System Upgrade and Big Rig Tow Demonstration

projects are the largest reason for the program variances. Call Box Programs/SAFE utilized approximately 62% of its annual year-to-date budget. This program variance is mainly attributed to invoicing delays, reduction in operating expenses realized from the privatization of the call answering center for the call box program as well as fewer required ADA upgrades.
