6.a

DATE: SEPTEMBER 1, 2005

TO: BOARD OF DIRECTORS

FROM: RICHARD D. THORPE 
INTERIM CHIEF EXECUTIVE OFFICER

SUBJECT: EXPOSITION METRO LINE CONSTRUCTION AUTHORITY
PROPOSED ADMINISTRATIVE CODE

RECOMMENDATION

Adopt the Exposition Metro Line Construction Authority (Authority) Administrative Code set forth in Attachment A. This Administrative Code, if adopted, will be subject to review and approval as to form by the Authority General Counsel once this individual is retained by the Authority.

SUMMARY

California Public Utilities Code section 132610 requires that the Authority adopt an administrative code for administration of the Authority in accordance with applicable laws, including, but not limited to, the Ralph M. Brown Act, contracting and procurement, laws relating to contracting goals for minority and women business participation, and the Political Reform Act of 1974. The administrative code is also to include a code of conduct for employees and board members consistent with the requirements set forth in section 132610.

DISCUSSION

Pursuant to Public Utilities Code Section 132610, the Authority has all of the powers necessary for planning, acquiring, leasing, developing, jointly developing, owning, controlling, using, jointly using, disposing of, designing, procuring, and building the Exposition Light Rail Project. The recommended action would create an Authority Administrative Code containing a code of conduct for employees and board members and a comprehensive set of policies and practices for the operation of the Authority, which would satisfy the requirements of the Public Utilities Code.

This proposed Authority Administrative Code is similar to the code adopted by the Pasadena Gold Line Construction Authority and would contain a complete set of all policies and practices with a uniform format and numbering system. Although every effort has been made to ensure that the provisions of this Code conform to applicable law, this Administrative Code will be subject to review and approval as to form by the Authority General Counsel once this individual is retained by the Authority. In the event of any conflict between the applicable laws and this Code, the applicable laws shall control. If this Code is adopted, future changes in administrative policies and practices of the Authority will be included in the Code at appropriate locations utilizing the same format and numbering system. Copies of the Code would be provided to appropriate offices and libraries and updated on a regular basis as changes are enacted.

The proposed Administrative Code contains the following provisions:

Chapter 1- General Provisions

Chapter 2 - Board of Directors

Chapter 3 – Board Appointed Officers

Chapter 4 – Personnel

Chapter 5- Expense Reimbursement and Travel Procedures

Chapter 6- Real Property and Relocation

SECTION 10: PROTEST PROCEDURES

- A. A party that has timely submitted a bid or proposal in response to any procurement of the Authority may file a Protest objecting to the award of a contract.
- B. In order for a protest to be considered properly and timely filed, the protest must:

If the recommendation for award is overturned by the Board, the previously recommended proposer may itself file a protest with the Chief Executive Officer within five (5) calendar days of the Board's decision.

CHAPTER 3 - SEALED BIDS

SECTION 1: SEALED BIDS - GENERALLY

When deemed by the Chief Executive Officer that it is in the best interest of the Authority, a sealed bid competitive solicitation which results in a fixed price contract awarded to the lowest responsive and responsible bidder will be utilized. Advertisement and public opening of bids is required. Except as set forth in Chapters 4, 5 and 7 of this Title, sealed bids shall be generally used for all procurements that require an expenditure of Fifty Thousand Dollars (\$50,000) or more.

SECTION 2: USE OF PROCEDURES SET FORTH IN PUBLIC CONTRACT CODE

- A. Although not otherwise applicable to the Authority, the Authority hereby adopts the procedures set forth in Article 4 of Chapter 1 of Part 3 of Division 2 of the Public Contract Code (“PCC”), commencing with Section 20161 (“Article 4”), except as set forth herein, for use when sealed bids are called for.
- B. For purposes of this Chapter 3:
 - 1. All references in the Public Contract Code provisions set forth in Paragraph “A” to “city” or “state agency” or “public agency” shall mean the Authority, and all references to “legislative body” shall mean the Board;
 - 2. Notwithstanding PCC Section 20162, the threshold expenditure for a “public project” that triggers the requirement for sealed bidding is Fifty Thousand Dollars (\$50,000); and
 - 3. PCC Section 20169 shall be of no force or effect.

SECTION 3: NOTICE AND ADVERTISEMENT

Notwithstanding PCC Section 20164, the notice inviting bids shall be posted at the offices of the Authority, or other place(s) designated by resolution of the Board, and advertised in a newspaper designated by resolution of the Board.

CHAPTER 4 - DESIGN-BUILD AND NEGOTIATED DESIGN-BUILD CONTRACTS

SECTION 1: PURPOSE

- A. As set forth in Public Utilities Code Section 132605 and Section 3 of Chapter 1 of Title I of this Code, the purpose of the Authority is to award and oversee all design and construction contracts for completion of the Project. In some cases, it may be efficient to have one contract for both the design and construction of one or more components of the Project. Such a contract shall be known as a “Design-build” or “Negotiated Design-Build” contract.
- B. For the purposes of this Chapter, “Design-build” or “Negotiated Design-Build” means a method of procuring design and construction from a single source. The selection of the single source occurs before the development of complete plans and specifications.

SECTION 2: PROCEDURES FOR DESIGN-BUILD AND NEGOTIATED DESIGN-BUILD CONTRACTS

- A. Use of the design-build and negotiated design-build procedures set forth in this Chapter requires authorization by an affirmative vote of four members of the Board. If the Board has authorized the solicitation of a design-build or negotiated design-build contract for a particular procurement, the Procurement Officer shall follow the procedures set forth in this Chapter 4 and otherwise determine the methods, procedures, and criteria for selection and set them forth in the procurement documents. The Chief Executive Officer may adopt any lawful methods, procedures and criteria that he or she determines are in the best interest of the Authority.
- B. The Procurement Officer shall cause to be prepared estimates, and prepare documents, for the solicitation of proposals on a design-build or negotiated design-build basis.
- C. The procurement documents shall include all of the following:
 - 1. A reasonable description of the services to be provided and work to be performed;
 - 2. A description of the format that proposals must follow and the elements they must contain, including the qualifications and relevant experience of the design professional and the contractor, and the criteria that shall be used in evaluating the submittal, including the proposal price;

3. The date on which the proposals are due, and the timetable that will be used in reviewing and evaluating the proposals.

CHAPTER 5 - COMPETITIVELY NEGOTIATED CONTRACTS

SECTION 1: USE OF COMPETITIVELY NEGOTIATED PROCUREMENT PROCEDURES

This Chapter outlines the Authority's procedures for competitively negotiated procurements, also known as a competitive Request for Proposals ("RFP") process. The procedures used in this Chapter may be used in the following circumstances:

- (a) Contracts for personnel services, or for other services which the Board has determined are to be competitively negotiated;
- (b) Purchases to be made from or the contract is to be made with the Federal or any State government or any agency or political subdivision thereof or pursuant to any open end bulk purchase contract of any of them;
- (c) Purchases of specialized rail equipment, computers, telecommunications equipment, fare collection equipment, microwave equipment and other related electronic equipment and apparatus, if the Board has approved, by a two-thirds vote, the use of the procedures set forth in this Chapter 5 for a particular procurement; or
- (d) Joint Development Agreements, including but not limited to those relating to fiber optic facilities.

SECTION 2: SOLICITATION OF PROPOSALS - GENERAL

- A. An RFP shall be the solicitation used to communicate the Authority's requirements to prospective contractors when the negotiated method of seeking competitive proposals is used. The Procurement Officer shall furnish identical information concerning a proposed procurement to all prospective contractors receiving the RFP.
- B. In determining sources to solicit, the Procurement Officer shall use all means available to ensure that an adequate number of potential qualified proposers receive the solicitation in order to obtain maximum open and competitive competition. Pre-solicitation announcement notices shall be published in a manner reasonably likely to attract prospective proposers or proposers.

SECTION 3: PROPOSAL EVALUATION

- A. The evaluation factors that will be considered in evaluating proposals shall be tailored to each procurement and shall include only those factors that will have an impact on the source selection decision. The evaluation factors that apply to a particular procurement and the relative importance of those factors are within the broad discretion of , the Chief Executive Officer, and the Board.
- B. The Chief Executive Officer, in his or her discretion, may establish a formal evaluation board to evaluate proposals and either recommend a selection to the Chief Executive Officer or itself select the source for contract award.
- C. Unless the Chief Executive Officer designates another Authority official, or establishes a formal evaluation board to make the selection, the Procurement Officer is responsible for selecting the source for contract award. For purposes of this Chapter, the Officer or board charged with responsibility to select the source for contract award is referred to as the “Selecting Party”.
- D. The Selecting Party shall evaluate each proposal in accordance with the evaluation criteria in the solicitation. The Selecting Party’s selection decision is subject to the approval of the Board.

SECTION 4: REJECTION OF PROPOSALS

- A. The Selecting Party may reject all proposals received that are determined not to be in the competitive range, including those proposals made by offerors who refuse to execute any required representations and certifications.
- B. The Board, based upon the recommendation of the Selecting Party or the Chief Executive Officer, may reject any or all proposals received. The Selecting Party or Chief Executive Officer may recommend rejection by the Board because:
 - 1. All otherwise acceptable proposals received are at unreasonable prices or, in the case of Joint Development Agreements, offer inadequate compensation;
 - 2. The proposals were not independently arrived at in open competition, were collusive or were submitted in bad faith; or
 - 3. For other reasons, rejection is clearly in the Authority’s best interest.

SECTION 5: NEGOTIATION; SELECTION

The methods and procedures for selection and negotiation shall be determined by the Procurement Officer and set forth in the request for proposals. The Procurement Officer may adopt any lawful methods and procedures that he or she determines are in the best interest of the Authority.

SECTION 6: SPECIAL PROVISIONS APPLICABLE TO ARCHITECT - ENGINEER AND RELATED SERVICES

- A. This Section prescribes guidelines and requirements for the procurement of Architect-Engineer (“A-E”) and related services (“A-E Services”). A-E Services are defined as professional services of an architectural or engineering nature that are required by law to be performed by a California registered or licensed architect or engineer. For the procurement of A-E Services, the Procurement Officer shall follow the procedures set forth in this Section 6, in addition to the procedures set forth elsewhere in this Chapter 5.
- B. If the procurement is for A-E Services, the selection shall be based on the demonstrated competence and qualifications of prospective contractors, and shall follow the procedures set forth in Government Code 4525, et seq. In addition to the provisions of Section 2 of this Chapter, the Authority shall provide timely notice statewide to publications of architectural and engineering societies.
- C. This Section 6 does not apply to the procurement of Design-build contracts. This Section 6 does not apply to the procurement of Joint Development Agreements unless the sole purpose of the joint development procurement is to procure architectural or engineering services.

CHAPTER 6 - SMALL PURCHASE PROCEDURES

SECTION 1: USE OF SMALL PURCHASE PROCEDURES

- A. This Chapter sets forth the procedures for small purchases and other simplified purchase procedures. These purchases shall be made competitively except where it is clearly in the best interests of the Authority to accomplish such purchases non-competitively.
- B. The Small Purchase Procedures set forth in this Chapter 6 may only be used when the total amount of the procurement does not exceed Fifty Thousand Dollars (\$50,000).
- C. The Procurement Officer shall use the Small Purchase Procedures that are most suitable, efficient, and economical based on the circumstances of each procurement.

SECTION 2: PROHIBITED USE OF SMALL PURCHASE PROCEDURES

- A. The Procurement Officer shall not split a procurement totaling more than the Authority's small purchase limitation into several purchases that are less than the limit in order to use the Small Purchase Procedures.
- B. A procurement requirement shall not be parceled, split, divided, or purchased over a period of time in order to avoid the dollar limitations for use of Small Purchase Procedures.

SECTION 3: TYPES OF AND REQUIREMENTS FOR SMALL PURCHASES

- A. Small purchases for Ten Thousand Dollars (\$10,000) or less may be accomplished by securing one proposal if the Procurement Officer considers the price to be fair and reasonable.
- B. For purchases that have a total value exceeding Ten Thousand Dollars (\$10,000) but not more than Fifty Thousand Dollars (\$50,000), a minimum of three (3) written quotations are to be requested. Efforts shall be made to include at least one DBE vendor.

SECTION 4: DETERMINATION OF REASONABLENESS OF PRICE AND AWARD

The Procurement Officer shall determine, in writing, that the price to be paid to the successful offeror is fair and reasonable. When only one (1) response is received to a request for quotations, or the price variance between multiple responses reflects a lack of adequate competition, the Procurement Officer shall include a statement in the contract file giving the basis for the determination that the price is fair and reasonable.

CHAPTER 7 - NON-COMPETITIVE AND EMERGENCY PROCUREMENTS

SECTION 1: USE OF NON-COMPETITIVE AND EMERGENCY PROCEDURES

- A. Procurement of supplies, services, and (to the limited extent of subparagraph B.7 below) Joint Development Agreements without competition is authorized under limited conditions and subject to written justification documenting the need. The need for non-competitive procurements is recognized when the Authority's interests are best served thereby, and when competitive bidding would not produce an advantage.
- B. Procurement by noncompetitive negotiation may be used pursuant to the procedures set forth in this Chapter 7 only when the Chief Executive Officer (for amounts \$250,000 or under) or the Board (for amounts over \$250,000) determines that the award of a contract pursuant to the competitive procedures set forth herein is either infeasible or would not produce a competitive advantage; a written statement of determinations and Findings ("D&F") is approved by the Chief Executive Officer; and at least one of the following circumstances applies:
1. An emergency situation, as defined in Section 2 of this Chapter;
 2. The delay resulting from competitive procurement would cause an increase in the cost of the Project and/or a delay in the completion of the Project;
 3. The Board may direct the purchase of any supplies, equipment or material without observance of competitive bidding requirements, upon a finding by a majority of the Members present that:
 - (a) there is only a single source of supply available; or
 - (b) the contractor is uniquely qualified to provide the service or product;
 4. The equipment to be purchased is of a technical nature and the procurement thereof without advertising is necessary in order to assure standardization of equipment and interchangeability of parts in the public interest;
 5. The goods are for testing or experimental purposes;
 6. The contract is with a contractor who has entered into a contract (the "MTA Contract") with the Metro for the Project or a subcontractor of such a contractor, if (a) the proposed Authority contract is for the same scope of work as the MTA Contract or subcontract; (b) the proposed Authority Contract contains

substantially the same terms as the MTA Contract; and (c) the MTA Contract was entered into pursuant to procedures substantially the same as those set forth in this Title; or

7. The Joint Development Agreement is with any governmental agency.

SECTION 2: EMERGENCY PROCUREMENTS

- A. The Authority may conduct a procurement on an emergency basis if the procurement is essential to an Authority requirement to deal with an existing emergency condition, as defined in Paragraph "B". The emergency procurement of supplies or services shall be limited to quantities and time periods sufficient to meet the immediate threat and shall not be used to meet long-term requirements.
- B. For purposes of an emergency procurement under this Chapter, an "emergency condition" is a situation (such as a flood, epidemic, riot, equipment failure, or any other reason declared by the Chief Executive Officer) which creates an immediate threat to the public health, welfare, or safety. The existence of an emergency condition creates an immediate need for supplies, services, or construction which cannot be met through normal procurement methods, and the lack of which would seriously threaten one (1) or more of the following:
 1. The health or safety of any person;
 2. The preservation or protection of property; or
 3. The continuation of necessary Authority functions.
 4. Contract Delays that could result in an increase to the cost of the project.
- C. The Board hereby authorizes the Chief Executive Officer to expend funds, in an amount not to exceed Five Hundred Thousand Dollars (\$500,000), for purposes of this Section 2, without prior Board action. Any funds in excess of that amount shall require Board approval. The Chief Executive Officer shall, after such expenditure, submit to the Board a full report explaining the necessity for the expenditure.

SECTION 3: PROCEDURES FOR EMERGENCY AND OTHER NON-COMPETITIVE PROCUREMENTS

- A. For non-competitive procurements, the Procurement Officer must use a negotiated method of procurement. In each instance where the non-competitive procurement procedures set forth in this Chapter are used, the Procurement Officer shall do the following:
 - 1. Prepare a written statement of determinations and findings (D&F) recording all the facts that provide justification to negotiate the non-competitive or emergency procurement. General Counsel must approve the D&F before the procurement can proceed; and
 - 2. Ensure that all of the steps required under this Chapter for the justification, documentation, and approval of the procurement are completed before the contract is awarded.

- B. The Chief Executive Officer shall establish other procedures and standards to be used in implementing this Chapter 7.

CHAPTER 8 - PAYMENT OF LIVING WAGE

SECTION 1: PURPOSE AND SHORT TITLE

This Chapter is adopted for the purpose of improving the quantity and quality of services received by the Authority from its service contractors. This Chapter shall be known as the Living Wage Policy of the Authority.

SECTION 2: DEFINITIONS

For the purpose of this Chapter, unless it is plainly evident from the context that a different meaning is intended, the following definitions shall apply:

Contractor shall mean any person that enters into a service contract with the Authority.
