

## **MOTION by Councilmember Richards Regarding LADOT Commuter Express Line 422**

LADOT recently realigned Commuter Express Line 423 to serve Thousand Oaks Transit Center, in order to facilitate connections to Metro Line 161, local Thousand Oaks Transit service, and VISTA service to Camarillo, Oxnard, Ventura, Simi Valley and Moorpark.

Metro, in partnership with LADOT, operates a reverse-direction version of Line 423 (Line 422) under the consent decree “new service” plan. Line 422 presently has its western terminal at the Oaks Mall, where it connects only to two of the local Thousand Oaks Transit lines.

In light of LADOT’s change to Line 423, it is reasonable that a similar change to Line 422 would enhance that line’s inter-regional connectivity.

I therefore move that Corporate be requested to negotiate with LADOT the realignment of Line 422’s western terminal to the Thousand Oaks Transit Center.
