

GATEWAY CITIES GOVERNANCE COUNCIL

APRIL 13, 2006

SUBJECT: MINOR ROUTE MODIFICATIONS TO LINES 102, 105 AND 612

ACTION: APPROVE ROUTE MODIFICATIONS

RECOMMENDATION

Approve minor route modifications to Lines 102, 105 and 612 effective June 25, 2006.

BACKGROUND

The route modifications recommended in this report are classified as minor changes and do not require a public hearing before they can be implemented. They are designed to improve the effectiveness of each service and respond favorably to public input. The proposed route modifications to Lines 102 and 612, for example, were suggested by customers and operators of these lines. The change will enable riders to travel further east and west along Florence Avenue to better address passenger demand along this corridor.

Similarly, the route modification to Line 105 is intended to meet the latest ruling of the Consent Decree's Special Master by reinstating rush hour service on weekdays along Vernon Ave-Leonis Blvd-District Blvd from Santa Fe Ave to Atlantic Ave. This change will enable passengers to continue travel along these corridors during the rush hours without the need to transfer.

FINANCIAL IMPACT

The recommended service modifications can be implemented within the budget by reallocating resources from unproductive trips on other lines.

NEXT STEPS

Upon approval from the Governance Council, staff will prepare to implement these changes effective with the June Shakeup. Passenger notices will be prepared and distributed on the buses advising riders of these service improvements. News releases will also be distributed to the media with this information.
