**FINANCE AND BUDGET COMMITTEE  
MAY 17, 2006**

**SUBJECT: FISCAL YEAR 2007 BUDGET**

**ACTION: ADOPT THE PROPOSED FISCAL YEAR 2007 BUDGET**

**RECOMMENDATION**

- A. Adopt the proposed Fiscal Year 2007 (FY07) budget.
- B. Adopt the budgeted number of positions and salary range midpoint plus 10% sorted by summary classifications and strategic business unit as detailed in Attachment B.
- C. Adopt the estimated salary and benefits by labor group as detailed in Attachment C.

**ISSUE**

The financial standards approved by the Board on January 26, 2006, state that the board shall approve a budget by June 30 of the preceding fiscal year. Copies of the proposed budget will be available in the Board Secretary's office after May 5, 2006, and at the various budget meetings (Finance and Budget Committee and the General Board Meeting.)

**POLICY IMPLICATIONS**

The annual budget, as adopted by the Board of Directors, is the legal authority to obligate and spend funds and implements previous board policy discussions. It includes all operating, capital, debt service requirements, and general fund activities of Metro for the fiscal year. Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental and proprietary funds except that depreciation is not budgeted. Budget detail is a management plan for financial activity and is prepared at the fund, project, department, and expense/expenditure level. The legal level of control is at the fund level. Total annual expenditures cannot exceed the final appropriation adopted by the board except for capital expenditures that are authorized on a life-of-project basis.

## **FINANCIAL IMPACT**

The proposed FY07 budget totals \$3,031 million of expenditures (excluding defeased leases of \$36 million) and appropriates the resources necessary to fund them. The annual expenditure plan demonstrates Metro's capacity to meet its capital and operating obligations, a requirement necessary to receive subsidies from the state and federal governments.

## **ALTERNATIVES CONSIDERED**

Adopt a continuing resolution until such time as the Metro budget is adopted.

## **DISCUSSION**

### FTE's and Labor Budget

The proposed budget authorizes 8,980 full-time equivalent positions (FTE's), which is an increase of 62 FTE's from the FY06 budget. A total of 4 non-contract FTE's were reduced while 66 contract employees were added for additional consent decree service and annualization of the Orange Line. The FY07 proposed budgeted number of positions and midpoint plus 10% salary ranges for summary classifications by strategic business unit is included in Attachment A. Attachment B includes the budgeted salaries and benefits for each union group.

### Financial Assumptions

The budget is comprised of two primary funds. The Enterprise Fund includes all business-type activities such as bus and rail operations, capital projects and debt service and is proposed to be budgeted at \$2,047.4 million. The Governmental Fund includes activities such as Special Revenue administration (subsidies to others), Propositions A and C and TDA administration, and other General fund activities and is proposed to be budgeted at \$960.6 million. The budget also includes an Agency fund (Benefit Assessment District budget) at \$23 million.

The FY07 proposed budget major assumptions and highlights are the following:

- Sales tax revenues will increase to \$1,741.8 as approved in the financial standards;
- Fare revenues have been budgeted at \$.59 per boarding consistent with FY06 actual fare revenue experience;
- Bus and rail operating expenditures grow by \$57.8 million or 5.4% over the FY06 budget. Growth was constrained by general and administrative reductions in labor and non-labor items and by capital program deferrals;
- In addition to the reductions discussed above, the deficit in the Enterprise Fund was eliminated through the use of \$112.4 million of Proposition C40% funds;

- Salaries will increase in accordance with the ten-year forecast (2% for all employee groups except AFSCME); and
- Fuel, insurance costs, purchased transportation, and security costs, have increased more than CPI.

### Capital Program

The proposed budget includes the capital program life-of-project budgets for all capital projects. Projects that are under \$1 million, projects that are unchanged from prior year approval, and new projects that are less than \$5 million are identified in the budget book and approved with board action on the proposed budget. Projects that are greater than \$1 million with life-of-project budget increases and new projects in excess of \$5 million have been or will be approved by the board in separate board actions and are identified on Attachment C.

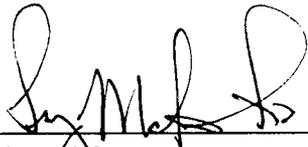

### NEXT STEPS

Monitor the FY07 actual expenditures versus the adopted budget on a monthly basis and provide quarterly updates to the Board.

### Attachments

- A. Positions and salary ranges by summary classification by Strategic Business Unit
- B. Estimated salary and benefits by labor group
- C. Capital Project with Life-of-project budget changes
