

Item # 7  
Planning & Programming

**Lowenthal Motion**

The creation of the Guiding Principles is a positive step for moving the CMP Fee process forward and addressing the issues raised by Councils of Governments (COGs) and cities.

I move, that in keeping with the level of communication that has been established, staff circulate the Guiding Principles, as a draft document, to the COGs, cities, and the Policy Advisory Committee for review and comment before returning to Planning and Programming for approval.
