

Motion by Director Molina

Whereas SCAG is developing a 2008 Regional Transportation Plan which identifies truck corridors within Los Angeles County,

Whereas the draft Multi-County Goods Movement Action Plan (MCGMAP) recommends the implementation of a goods movement east-west corridor but does not call out specific freeway routes,

Whereas the MCGMAP calls for additional study to evaluate the feasibility of implementing a Dedicated Freight Guideway System/Regional Truck Lanes and an east-west corridor between I-710 and I-15 inclusive of potential non-freeway implementation,

And Whereas it is premature for the SCAG RTP to identify a specific freeway at this time,

I, therefore move that the Chief Executive Officer be directed to contact SCAG and request that any references to a truck lane on State Route 60 in the 2008 RTP Strategic Plan be removed and be replaced with a project that is more broadly described as an east-west freight corridor including non-freeway corridors and alternative freight technologies.
