REVISED

**REGULAR BOARD MEETING  
FEBRUARY 26, 2009**

**SUBJECT: AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009  
AND FEDERAL FUNDING FOR LOS ANGELES COUNTY  
TRANSPORTATION CAPITAL PROJECTS**

**ACTION: APPROVE PRIORITIES AND POLICIES FOR RECOVERY ACT FUNDS  
MADE AVAILABLE FOR TRANSPORTATION CAPITAL PROJECTS**

**RECOMMENDATION**

- A. Establish a Los Angeles County funding approval/obligation deadline for all federal transportation capital funds to be made available through the American Recovery and Reinvestment Act of 2009 (the Recovery Act or the ARRA) -- 75 days from the apportionment of the federal funds, and subject to deadlines described in Attachment A – to obligate as much of the full County share as quickly as possible and help position the County for any redirected funding;
- B. Allocate and program 100% of Federal Section 5307 Urban Formula/Transit Capital funds using the Capital Allocation distribution from the annual Transit Fund Allocation process, resulting in the up-to-grant amounts by transit operator listed in Attachment B;
- C. Allocate and program 100% of Federal Section 5309 Fixed Guideway Modernization and Federal Section 5340 Growing States funds for the eligible capital projects described in Attachment C;
- D. Allocate and program up to \$215 million (or up to \$315 million with proposed state legislation) of flexible federal Regional Surface Transportation Program (RSTP) funds to Cities and the County of Los Angeles for eligible transportation capital projects using “first-come-first-served” approach up to 100% of each local jurisdiction’s population share as shown in Attachment D1 (or Attachment D2 with proposed state legislation); and allow the Cities, County of Los Angeles, other transportation agencies and us to request remaining unobligated funding after the 75-day deadline;
- E. Allocate and program up to 50% of any federal Transportation Enhancements Activities (TEA) funds made available to our eligible candidate projects in Attachment E- Part I (starting with the first project and thereafter with the Chief Executive Officer determining priority), and allocate and program up to 50% of any federal TEA funds made available to Cities and the County of Los Angeles for their February 9, 2009 list of eligible candidate projects in Attachment E – Part II (with the Technical Advisory

Committee determining priority based on project readiness), subject to the approval of Caltrans and/or the California Transportation Commission (CTC);

- F. Allocate and program up to \$200 million (or with proposed state legislation, up to \$100 million in RSTP and \$100 million in Caltrans Recovery Act funds) in Regional Improvement Program (RIP) for cash flow purposes to enable the on-time award of the Interstate 405 Northbound Carpool Lane from Interstate 10 to U.S. 101, as described in Attachment F; program the remaining RIP, if any, (or, using proposed state legislation, up to \$20 million of RSTP and up to \$63.7 million in private placement bond reserves from Item 16 of this month's regular board meeting agenda), to the Interstate 5 Carpool Lane project from State Route 118 to State Route 170; and program \$20 million of local funds released towards a cost reserve that the Federal Highway Administration is requiring for the Interstate 5 Carpool Lane project from State Route 134 to State Route 170;
- G. Adopt the funding plans in Attachment G, subject to Recovery Act funding being made available, and nominate the Exposition Light Rail Transit (LRT) Phase I project for \$150 million of Federal Section 5309 New Starts/Discretionary funds and the Gold Line Foothill LRT Extension project for \$150 million of Federal Section 5309 New Starts/Discretionary funds, in addition to the possible acceleration of our existing federal Full Funding Grant Agreement commitments to the Gold Line Eastside Extension to Whittier/Atlantic; and
- H. Allocate and program our share of Federal Section 5307 Urban Formula/Transit Capital funds to the top seven projects on Attachment H; and program any remaining RIP and/or RSTP funds, any reallocated funds (after the 75-day deadline for the Cities, County of Los Angeles and Municipal Operators for their collective shares), and any federal discretionary grants (except as specified in Action G of this recommendation) to our eligible projects from Attachments F or H at the Chief Executive Officer's discretion.

## **ISSUE**

On February 17, 2009, the President signed economic stimulus legislation known as the American Recovery and Reinvestment Act of 2009. Consistent with the President's intent to spur the national economy as soon as possible, this federal economic stimulus legislation includes "use-it-or-lose-it" provisions with extremely tight deadlines for project delivery. To succeed in securing the maximum amount of federal funding possible, public agency sponsors of eligible Los Angeles County transportation capital projects must be ready to meet the tight delivery deadlines that Congress and the State of California will be enforcing. Priorities and policies need to be established to allocate and program federal Recovery Act funds provided to Los Angeles County in a manner consistent with the national policy goal of preserving and creating jobs, while building critical transportation infrastructure.

## **POLICY IMPLICATIONS**

The Recovery Act is a jobs preservation and creation bill meant to address the nation's economic crisis by accelerating the construction of needed transportation infrastructure. As such, the federal economic stimulus funding to be provided is accompanied by tiered deadlines meant to ensure maximum use of the funds as early as possible on construction projects that preserve and create jobs. To succeed in securing Recovery Act funds, public

agency sponsors of transportation capital projects must meet all applicable federal provisions (including, but not limited to, those pertaining to environmental clearance, reports, audits, labor protection, planning, Buy America, disadvantaged business enterprises, local preference prohibition, etc.), while concurrently expediting project delivery.

If any state fails to obligate its projects on time, other states or the U.S. Secretary of Transportation will have the opportunity to take the underutilized Recovery Act funds for other projects. Similarly, the State of California may be enabling regions and counties to take funds from other regions and counties that fail to deliver their projects. We believe that our best strategy to obtain any additional or bonus funding is to obligate our entire amount in a short time frame.

## **OPTIONS**

The use-it-or-lose-it nature of the proposed Recovery Act dictates that Los Angeles County act fast to secure its share of federal economic stimulus funds for its eligible transportation capital projects. We considered a region-meets-first-tier-deadline option, but we did not pursue it. In the region-meets-first-tier-deadline option, Caltrans and/or we would deliver enough large projects to secure the first half of funds made available using tighter deadlines. This option would insulate many public agency sponsors from the pressure of developing ready-to-go construction jobs as fast as possible and diminish the national jobs preservation and creation emphasis. We do not recommend this option as it would not create as many ready-to-go projects early in the program, thereby putting Los Angeles County at a disadvantage in securing underutilized funds from the tiered deadlines for other regions, counties, and even states.

The Board of Directors also could adopt different lists of projects than those that we have recommended. We do not recommend this, as the lists provided with this report include those projects that we believe are most likely to meet the strict use-it-or-lose-it deadlines of the Recovery Act. Furthermore, the Board also could provide a larger funding target for the flexible highway funds described in Action D of the recommendation to the Cities and County of Los Angeles. However, we do not recommend a larger funding target of the flexible highway funds, as we believe that our recommendation optimizes the equitable allocation, programming and use of the most funds countywide in the time available.

## **FINANCIAL IMPACT**

The financial impact of the Recovery Act program will be a positive benefit of over \$850 million, and perhaps as much as \$950 million or more for Los Angeles County, based on the final version of the proposed federal economic stimulus legislation. We will be able to allocate and program some of the Recovery Act funding directly, while Caltrans and/or the CTC will be able to allocate and program some of the other Recovery Act funding. Competition (or lack thereof) for underutilized federal economic stimulus funds, which will be made available through established federal transportation formula and discretionary programs, will determine the difference between the high and low figures. The size of the higher figure beyond \$950 million also will depend upon how much is awarded from the Federal Section 5309 New Starts/U.S. DOT Discretionary pots by the U.S. Secretary of Transportation. We also intend to position Los Angeles County for the redistribution of Recovery Act funds within and among regions and states.

## **BACKGROUND**

The Recovery Act defines an important role for urban regional transportation agencies, such as us, in the job preservation/creation and transportation infrastructure efforts. One of the responsibilities of that role will be to ensure that projects using economic recovery funds are included and identified in the Transportation Improvement Program (TIP). Federal (Title 23 U.S.C. 134 (g) & (h)) and state (P.U.C. 130303) statutes require us to prepare a TIP for Los Angeles County. The TIP allocates revenues across all transportation modes based on the planning requirements of the Transportation Equity Act of the 21<sup>st</sup> Century (TEA-21) and the Safe, Accountable, Flexible, and Efficient Transportation Equity Act - A Legacy for Users (SAFETEA-LU).

We accomplish our TIP mandates, in part, by programming revenues consistent with our 2001 Long Range Transportation Plan for Los Angeles County and consistent with our Measure R expenditure plan. By correspondence dated January 26, 2009, we proceeded to address TIP requirements by requesting that public agency sponsors countywide submit their project nominations for Recovery Act funding, which entails providing information required for our TIP database found online at Program.Metro.Net.

### **Rationale for Allocating and Programming Recovery Act Funds**

Based on the final version of the Recovery Act, we estimate that we will have a transit capital programming target of over \$300 million for bus and rail transit capital projects countywide. Of this, Los Angeles County Municipal Operators would receive over \$81 million. In addition, we will have an estimated regional programming target of \$215 million to \$435 million for either highway or transit capital. Of this, we are recommending approximately \$215 million to \$315 million to the Cities and County, as discussed later in this report. The Cities and County individually will be given a minimum of \$500,000 or their population share if over \$500,000. The State will allocate and program additional highway funds and Transportation Enhancement Activity funds for other local and regional projects as well.

All projects that are to receive Recovery Act funds have been included in a required TIP amendment that we submitted to the Southern California Association of Governments (SCAG) on February 9, 2009. Attachments C, E, F and H provide lists of our projects for the different Recovery Act funding categories. We have sequenced the projects listed by readiness to go in terms of how quickly they could receive federal grant approval and have contracts awarded. These time frames depend greatly on very quick processing of grant approvals through the Federal Transit Administration and/or Caltrans. The Tier 3 projects shown in Attachment H are either not as ready to go or have other funding and/or eligibility issues with respect to other projects in Attachment H. We are continuing to work with SCAG to have more than our target share of projects ready to go into the TIP amendment, in case we have an opportunity to receive Recovery Act funds that other counties or states cannot use in time.

For the Cities and County of Los Angeles, we recommend reserving and then distributing the \$215 million (or \$315 million under proposed legislation) by population (with a minimum of \$500,000 allocated to each jurisdiction), with estimated funding targets as shown in Attachment D1 (and Attachment D2 under the proposed state legislation).

Attachment B also shows the estimated target shares of the economic recovery funds for Metro Operations and Municipal Operators.

We have asked each public agency sponsor to identify their priority project(s), and we have included the highest priority projects in the required TIP amendment. We also are working with SCAG to allow us to include additional projects as necessary. Once the Recovery Act money is released, public agency sponsors would obligate their target shares on eligible projects on a first-come-first-serve basis. To the extent possible using existing resources, we would monitor how much the public agency sponsors obligate as the economic recovery time period progresses. We then would make future recommendations on further steps needed to ensure that we receive, at a minimum, our full amount of Recovery Act funding.

### Proposed State Legislation

We have been working with a statewide stakeholder group that Caltrans convened to develop implementing state legislation for the Recovery Act's highway funds, and we have identified key elements that would need to be included in whatever bill is carried forward. These key elements include: (1) allocation of all Recovery Act highway funds through the Surface Transportation Program; (2) repayment of Proposition 1B bond funds for any local Recovery Act funds used on a project funded from specific categories of Proposition 1B; and (3) application of the North/South (40%/60%) split to any non-SHOPP (State Highway Operation and Protection Program) portion of Recovery Act funds that the State retains. Without state legislation, Caltrans would have to implement the federal funding under current law, which would require the funds to be processed through the State Transportation Improvement Program.

Under the proposed state legislation explained above, three of the actions recommended in this board report would need to be modified. Action D of our recommendation, which addresses the RSTP funding to be made available to the Cities and the County of Los Angeles, would increase such funds by \$100 million from up to \$215 million to up to \$315 million. Action E, which addresses the TEA funding to be made available to the Cities, the County of Los Angeles and us, would increase by approximately \$8 million from about \$12 million in existing law to about \$20 million under the proposed state legislation. Our recommendation to split the funds 50% to projects in Attachment E - Part I and 50% to projects in Attachment E - Part II would remain unchanged.

Finally, Action F of our recommendation also would be modified. Under existing law, Action F would seek to place \$200 million on the Interstate 405 Northbound Carpool Lane from Interstate 10 to US 101 project and any remaining funds available on the Interstate 5 Carpool Lane from State Route 170 to State Route 118. Under the proposed state legislation, recommendation F would instead program RSTP funds to the Interstate 405 Northbound Carpool Lane project (\$100 million, with a proposed match of \$100 million in Caltrans Economic Recovery funds) and \$20 million in RSTP funds for the Interstate 5 Carpool Lane project from State Route 170 to State Route 118.

The table that follows summarizes the differences between our recommendation under existing law and the proposed state legislation:

Recommended Action	Existing Law	Proposed Legislation	Remarks
D. Cities/County of Los Angeles by Population	\$215.0 M	\$315.0 M	Increases by \$100 M
E. Transportation Enhancements Activities (Estimates)	Metro \$ 6.0 M Others \$ 6.0 M Total \$12.0 M	Metro \$ 10.0 M Others \$ 10.0 M Total \$20.0 M	Increases by approx. \$8 M, 50%/50% Metro/Others split remains unchanged
F. Interstate 405/Interstate 5 North Funding	I-405 \$200 M  I-5 N(Remainder TBD)	I-405 (Metro)\$100 M I-405 (State) \$100 M I-5 N. Metro \$ 20 M* *\$63.7 M proposed from Private Placement Bond Reserve	Freed-up Prop. 1B CMIA funds split 50% Metro/50% State

We are recommending that the Board of Directors approve both approaches to enable us to pursue either strategy, as necessary, should the state legislation pass in time.

**NEXT STEPS**

The Recovery Act has several local, regional, state, and federal deadlines that must be met over the next 18 months. Attachment A provides more information on these deadlines. If the Board of Directors requires changes to our TIP amendment submittal to SCAG, we will pursue those changes. We are preparing the required paperwork to obtain Categorical Exclusions under the National Environmental Policy Act (NEPA) for Tier 2 and Tier 3 transit projects in Attachment H. We also are coordinating with Caltrans on funding strategies for the larger highway projects currently at risk due to the state funding crisis.

**ATTACHMENTS**

- Attachment A – Summary of Local, State, and Federal Deadlines
- Attachment B – Federal Section 5307 Urban Formula/Transit Capital Funds
- Attachment C – Federal Section 5309 and Federal 5340 Funds for Rail Projects
- Attachment D – Regional Surface Transportation Program Funds for Cities and County
- Attachment E – Transportation Enhancements Activities Fund Priorities
- Attachment F – Regional Improvement Program Funds in Los Angeles County
- Attachment G – Funding Plans for Expo Phase I and Gold Line Foothill Extension Projects
- Attachment H – Priorities for Section 5307, Reallocated Funds, and Discretionary Grants

Chief Executive Officer

## American Recovery and Reinvestment Act of 2009

Summary of Local, State, and Federal Deadlines

- 1) To meet the strict and short federal deadlines, local, regional, and state approvals must be received quickly, including all currently applicable federal provisions relating to environmental clearance, reports, audits, labor protection, planning, Buy America, disadvantaged business enterprises, local preference prohibition, etc.
- 2) Local deadlines occur first and include approval of projects by City, County, and Municipal Operator governing boards. The LACMTA Board of Directors will review and approve these projects, and LACMTA staff will confirm their placement in the Transportation Improvement Program (TIP) up to limits established by applicable formulas. The first deadline for these submittals was Friday, February 6, 2009 at 5:00 PM.
- 3) With this recommendation, LACMTA staff will re-open the ProgramMetro.net database to provide project sponsors one final opportunity to enter projects into the process for receiving Recovery Act funds. Project sponsors will be given until 5:00 PM on Friday, March 6, 2009 to enter projects into the database up to the limits established for them by the applicable formulas. Additional Transportation Enhancements Activities (TEA) projects will not be accepted because those funds are over-subscribed. Project sponsors proposing additional TEA projects are directed to the LACMTA Call for Projects process for those requests.
- 4) The first regional deadline was February 9, 2009 to the Southern California Association of Governments (SCAG) for inclusion in the Regional TIP. We are working with SCAG to establish new administrative and formal Regional TIP amendments to support a Los Angeles County TIP deadline of March 6, 2009. LACMTA staff will be prepared to submit administrative and formal amendments to SCAG by Monday, March 16, 2009. SCAG will determine whether and when it will accept these amendment requests.
- 5) State deadlines occur next. To meet federal deadlines, the State must approve the Federal State TIP by early March 2009 for the first amendment that was to be submitted February 6, 2009. The Federal State TIP amendment for the March 6, 2009 deadline is not yet known, but is expected to be earlier for the administrative amendment than the formal amendment.
- 6) LACMTA is establishing a 75-day grant approval/obligation deadline for all highway and transit project submittals to ensure that Los Angeles County does not relinquish Recovery Act funds to other regions or states. The 75-day time frame begins on the day that the applicable federal agency officially apportions funds. This is currently expected to start on March 3, 2009 and end on Monday, May 18, 2009. If grant approval/obligation is not secured within the LACMTA deadline period, applicable formula targets will no longer apply. After May 18, 2009, all eligible project sponsors will be given the opportunity to secure funds from Caltrans and/or the FTA on a first-come, first-served basis.

## AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009

LACMTA Capital Allocation - Federal Section 5307
---

Federal Section 5307 - 1% TEA Allocation (2):	\$	3,040,070
Federal Section 5307 by Capital Formula:		300,966,930
Total Federal Section 5307 Allocation:	\$	304,007,000

OPERATOR	FY09 % SHARE	Estimated Share(1)
ANTELOPE VALLEY(3)		\$ 439,766
ARCADIA	0.136707%	409,141
CLAREMONT	0.041722%	124,867
COMMERCE	0.194543%	582,234
CULVER CITY	1.113204%	3,331,632
FOOTHILL	7.008531%	20,975,361
GARDENA	1.198940%	3,588,227
LADOT	2.683173%	8,030,288

LONG BEACH	5.517479%	16,512,890
MONTEBELLO	2.008379%	6,010,741
METRO OPERATIONS	73.334406%	219,477,596
NORWALK	0.710433%	2,126,207
REDONDO BEACH	0.203715%	609,685
SANTA CLARITA		1,243,910
SANTA MONICA	4.277655%	12,802,305
TORRANCE	1.512469%	4,526,566
TOTAL	100.000000%	\$ 300,966,930

1. Estimated shares are based on amounts in amended House version of Stimulus Bill.
2. Allocation methodology for TEA funds will determined at a later date in coordination with the claimaints.
3. AVTA and Santa Clarita's allocations have been adjusted, as they are expected to receive Section 5307 funds from the Lancaster/Palmdale UZA. The amounts shown represent 10.2% of AVTA's and 27.6% of Santa Clarita's unadjusted LA UZA Section 5307 allocation, the percentage of services they operate in Los Angeles.

ATTACHMENT C

American Recovery and Reinvestment Act of 2009  
 Federal Section 5309 Fixed Guideway Modernization  
 & Federal Section 5340 Growing States Funds\*

Eligible Rail Capital Projects for Fixed Guideway Modernization & Growing States Funding

Project Description	Agency	Proposed Funding (Millions)	Status/Comments
Metro Blue Line Traction Power Substation	LACMTA	\$14.0	Environmental clearance may not be necessary. Preparing specifications now for procurement.
Positive Train Control – Surveying and GIS Mapping	Metrolink	\$ 5.3	Preliminary work for train collision avoidance system. Half to be requested within 120 days.
Total		\$19.3	

\* - Estimated amounts of \$8.2 million of Federal Section 5309 and \$11.1 million of Federal Section 5340 Growing States funds.

American Recovery and Reinvestment Act of 2009  
 Transportation Enhancements Activities Fund

Project Description (Not in Priority Order Within Tiers)	Project Mode	Project Costs or Recommended Stimulus Amount	Estimated Number of Days to Grant Award	Comments
Metro Rail Subway Escalator Canopy Project	Transportation Enhancements	\$ 10,830,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards. Total project cost is \$16 million.
Bus Stop Information System	Transportation Enhancements	\$ 4,400,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards.
Re-sign Metro Gold Line to Pasadena	Transportation Enhancements	\$ 600,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards.
Provide Trailblazing Street Signage for all Metro Rail Stations	Transportation Enhancements	\$ 1,000,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards.
Scenic Beautification along Metro Rail Lines	Transportation Enhancements	\$ 1,500,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards.
Replacement and New Bicycle Lockers/Racks and Stations	Bicycle/Pedestrian	\$ 1,800,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards.
El Monte Transitway Station Enhancements	Transportation Enhancements	\$ 3,000,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards.
Universal City Pedestrian Bridge	Transportation Enhancements	\$ 20,000,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards.
Update Countywide Bike Safety Information and Map	Transportation Enhancements	\$ 80,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards. May not qualify as capital.
Comprehensive Ped/Bike Safety Program	Transportation Enhancements	\$ 750,000	90 - 120 days	No environmental clearance is necessary. Procurement process will include Federal Standards. May not qualify as capital.
<b>TOTAL State TIP Transportation Enhancements Activities Program</b>		<b>\$ 43,960,000</b>

Project Description	Project Mode	Project Costs or Recommended Recovery Act Amount	Cumulative Total	Minimum Number of Days to Grant Award	Comments
<b>TIER 1 PROJECTS</b>					
Bus Midlife Program (400 Buses)	Transit Bus	\$ 47,000,000	\$ 47,000,000	75 - 90 Days	No environmental clearance necessary.
Contracted Services (53 New Buses)	Transit Bus	\$ 24,000,000	\$ 71,000,000	75 - 90 Days	No environmental clearance necessary.
Bus Replacement (100 New Buses)	Transit Bus	\$ 60,000,000	\$ 131,000,000	75 - 90 Days	No environmental clearance necessary. Original request was for 400 buses (\$240M) - see below for the remaining 300.
Red Line 7th/Metro Station Egress Project	Transit Rail	\$ 2,000,000	\$ 133,000,000	75 - 90 Days	No environmental clearance necessary.
Metro Blue Line Traction Power Substation	Transit Rail	\$ 56,000,000	\$ 189,000,000	75 - 90 Days	No environmental clearance necessary. Original request was for \$82M.
Replacement of Fiber Optic Transmission Equipment for MRL, MBL and MGL	Transit Rail	\$ 2,500,000	\$ 191,500,000	75 - 90 Days	No environmental clearance necessary.
Electrify Compression of Natural Gas at Combustion Engines at CNG Fueling Stations	Transit Bus	\$ 28,000,000	\$ 219,500,000	75 - 90 Days	No environmental clearance needed. Procurement process will include Federal Standards.
Bus Replacement (300 New Buses)	Transit Bus	\$ 180,000,000		75 - 90 Days	No environmental clearance necessary. Balance of original 400-bus request.
Harbor Transitway Station Improvements	Highway	\$ 11,000,000		75 - 90 Days	No environmental clearance needed. Procurement process will include Federal Standards.
Light Rail and Heavy Rail Vehicle Rebuilding for the Blue Line and the Red Line Rail Systems	Transit Rail	\$ 350,000,000		75 - 90 Days	No environmental clearance needed. Procurement process will include Federal Standards.
Retrofit Soundwall Program Packages	Highway	\$ 25,000,000		75 - 90 Days	Several Soundwall Packages have been Federally environmentally cleared. Design completed for Package #4 funding required \$25M.
Replacement of MBL TWC Equipment for compatibility with EXPO Line	Transit Rail	\$ 1,800,000		75 - 90 Days	No environmental clearance needed. Procurement process will include Federal Standards.
Div 18 CNG Fueling Facility	Transit Bus	\$ 11,093,067		75 - 90 Days	No environmental clearance needed. Procurement process will include Federal Standards. Design, install and maintain a Compressed Natural Gas System via Public/Private Partnership at Division 18.
ACE – Baldwin Grade Separation – Utility Relocation	Highway	\$ 1,428,000		75 - 90 Days	Environmentally cleared; utility agreements in hand; may be ready sooner.
ASI - Interactive Voice Response System	Transit	\$ 912,700		90 Days	No environmental clearance needed. This project could start as soon as funding is confirmed.
ASI - Cameras	Transit	\$ 2,000,000		90 Days	No environmental clearance needed. Anticipate being able to have a bid on the street within 30 days with a contract awarded soon thereafter.
ASI - TAP Program	Transit	\$ 2,000,000		90 Days	No environmental clearance needed. Would help integrate Access into the Regional TAP program.
ASI - Vehicle Replacement	Transit Bus	\$ 8,200,000		90 Days	May be able to order an additional 95 vehicles for quick delivery depending on availability. Possible swap Prop C funds for stimulus funds.

 Priorities for Federal Section 5307, Reallocated Funds, and Discretionary Grants

Project Description	Project Mode	Project Costs or Recommended Recovery Act Amount	Cumulative Total	Minimum Number of Days to Grant Award	Comments
<b>TIER 2 PROJECTS</b>					
Metro Redline Yard (Division 20) Maintenance Railcar Facility	Transit Rail	\$ 15,400,000		90 - 120 Days	Categorical exclusion will be needed. Procurement process will include Federal Standards.
Bauchet Street Storage & Facilities Maintenance Structure	Transit Bus	\$ 18,000,000		90 - 120 Days	Categorical exclusion will be needed. Procurement process is being changed to include Federal Standards.
Cypress Park Bus Division Facility Improvements (Phase III)	Transit Bus	\$ 5,500,000		90 - 120 Days	Categorical exclusion will be needed. Procurement process is being changed to include Federal Standards.
Cypress Park Bus Division Facility Improvements (Phase IV)	Transit Bus	\$ 3,000,000		90 - 120 Days	Categorical exclusion will be needed. Procurement process will include Federal Standards.
El Monte Bus Division (Division 9) Bus Capacity Expansion	Transit Bus	\$ 1,529,785		90 - 120 Days	Categorical exclusion will be needed. Procurement process is being changed to include Federal Standards.
Roof Replacement	Transit Bus/Rail	\$ 2,189,079		90 - 120 Days	Categorical exclusion will be needed. Procurement process will include Federal Standards.
ATMS – Computer Aided Dispatch (CAD) Upgrade	Transit Bus	\$ 6,000,000		90 - 120 Days	No environmental clearance is needed. Procurement process will include Federal Standards.
Division 21 Rockfall Mitigation	Transit Rail	\$ 1,000,000		90 - 120 Days	Categorical exclusion may be needed. Procurement process will include Federal Standards.
Three Metro Rapid Lines (Venice, Sunset, Avalon)	Transit Bus	\$ 17,900,000		90 - 120 Days	No environmental clearance needed. Procurement process will include Federal Standards.
Lankershim Transit Center Depot	Transit	\$ 6,000,000		90 - 120 Days	Categorical exclusion is needed. Would need to remobilize the designer, get building permits, environmental and SHIPPO clearances, etc. and then bid and award.
ACE - Baldwin Grade Separation – Construction	Highway	\$ 30,550,000		120 days	Environmentally cleared; design complete.
ACE – Nogales Grade Separation – Utility Relocation	Highway	\$ 500,000		120 days	Draft environmental document finished circulation; design nearly completed.
<b>TOTAL TIER 2 PROJECTS</b>		<b>\$ 107,568,864</b>			
<b>TIER 3 PROJECTS</b>					
Metro Bus and Rail Divisions Solar Panel and Energy Efficiency Project	Transit Bus/Rail	\$ 48,000,000		180 Days	No environmental clearance needed. Procurement process will include Federal Standards.
Universal City Station parking/Bus Layover facility	Transit Bus	\$ 47,000,000		180 Days +	May require full EA. Project in design phase, would have a statutory exemption and would be ready to go in 6-months.
Union Division Bus Operations and Maintenance Facility	Transit Bus	\$ 95,000,000		180 - 240 Days	State environmental document is complete and has been approved by Lead Agency. Federal environmental clearance needs to be approved. Architectural and Engineering contract has been awarded. Construction scheduled to start as soon as January 2010 with early construction packages.
SR 2 Freeway Project	Highway	\$ 16,000,000		1 Year	Final design to be completed June 2009
Transit Corridor Projects	Transit Bus/Rail	TBD		1 Year +	None Federally environmentally cleared.
Major Highway Projects	Highway	TBD		Varies	Working with Caltrans regarding needs and appropriate funding plans.
<b>TOTAL TIER 3 PROJECTS</b>		<b>\$ 206,000,000</b>
